Adobe House Construction, Panchkal Municipality, Kavre: HRRP District Technical Coordinator and National Technical Coordination Officer visited a number of houses in the municipality last week to see the adobe houses that are being constructed. The houses are made of unburnt clay bricks which have been made by the house owners. The houses are missing some of the required earthquake resistant elements and have therefore not been approved for subsequent tranches. The HRRP team collected brick samples and will be conducting strength tests, as well as supporting NRA technical committee to develop relevant correction measures and associated inspection forms to address non-compliances. For further details, please contact Kuber Bogati, techofficer1.national@hrrpnepal.org, and Reshma Shrestha, reshma@hrrpnepal.org.
