

WEEKLY BULLETIN

5 March 2018

Mithu Nepali, Bidur Municipality, Ward No. 5 (formerly Srikhali VDC), Nuwakot: Mithu is from a Dalit community living on the banks of Trishuli River in Bidur, Nuwakot. Before the 2015 earthquake, she was living in her home with her two children and husband. Their main source of income was agriculture, including raising livestock. Their home was completely destroyed in the earthquake and since then they have been living in a temporary shelter constructed out of CGI and bamboo. Mithu has completed a 50 day On the Job Masons Training and now works in construction earning 800 NPRs per day – compared to 1,000-1,500 NPRs per day which the male masons earn. This difference in pay is as a result of some contractors still believing that women are not capable physically, or skilled enough to work as masons. Despite this discrimination, Mithu is persisting with her work as a mason and would like to break the prejudice towards women masons and encourage more women from her community to join hands and learn masonry skills.

Chenga Tamang, Kailey Tole, Ward No. 3, Gatlang, Rasuwa: Chenga is a single mother with four children. Her home was completely destroyed in the 2015 Gorkha earthquake and she has been living in a temporary shelter constructed with CGI and timber since then. Chenga took a loan to finance the construction of the temporary shelter that she and her family are living in and has been unable to repay it due to her low income. Like many women in Gatlang, Chenga is illiterate and as a result she found it difficult to follow the processes involved in the GoN housing reconstruction grant process. The process was made more difficult for her because when her husband left her he did not transfer the property into her name so she had no legal ownership of her home. However, since the inspection engineers started visiting Gatlang more frequently, her confidence level has increased and, with the help of her relatives, she has been able to transfer land ownership into her name and register for the GoN housing reconstruction grant. She has since received the first tranche of the grant and has completed the foundation of her new home. Chenga is also among the few Tamang women who were invited to take part in the 7-day Mason training program organised by NRA at district level. Since completing the training, Chenga has been unable to get any masonry work. She feels that the main reason for this is the presumption that women are physically weaker than their male counterparts and there is a preference to hire skilled masons from outside the district, mainly from the Terai region, who are known to be highly skilled in construction.

Maiya Shahi, Bhaktapur Municipality, Ward No. 2, Bhaktapur: Maiya is 74 and a widow and she, along with her 19 family members, have been living in temporary shelters since the 2015 earthquake damaged their home and made it unsafe to live in. Initially the whole family were staying in one shelter but this was extremely cramped and she and eventually her four sons decided to construct their own shelters for their families. Maiya has signed the partnership agreement with the GoN for the housing reconstruction grant and received the first tranche of 50,000 NPRs which they have already spent. They have not managed to start reconstructing their home because their plot of land is smaller than the allowed standard and they have not been able to get a house design approved by the municipality. In addition to this, the area is within Bhaktapur Durbar Square so the family must follow the guidelines of the National Archeological Department. Maiya and her family now feel that they will be unable to rebuild within the GoN reconstruction programme as they cannot see how they will manage their reconstruction before the NRA deadlines for receiving the second and third tranches.

International Women's Day 2018

This Thursday, 8 March, is International Women's Day. For the reconstruction community in Nepal, the day provides an opportunity to reflect on how women can be better supported to engage in the reconstruction. Please join us for an event on this topic on 9 March at Dhoikhama Café, from 10-12.

Highlights

- HRRP and other partners are holding [an event on 'Women's Experience in Reconstruction' on 9 March, 10-12, Dhoikhama Café – please join us!](#)
 - First lecture in '[Intrepid Solutions Lecture Series](#)', Tuesday 6 March, 5pm, Nepal Engineers' Association
 - [HRRP Kavre Field Visit, NagreGagarcheVDC, ChauriDeurali Rural Municipality, 20 February](#)
 - HRRP maps of Female Headed Households vs. MoUD CLPIU Data; [Construction Started](#), [First Tranche Received](#), [Second Tranche Received](#), and [Third Tranche Received](#)
 - [Map of coverage of 7 Technical Assistance Activities, by Partner Organisations, 31 Districts \(as of 25 February 2018\)](#)
 - [HRRP administrative maps for the 31 earthquake districts based on new administrative structure](#)
 - [Livelihoods Working Group Meeting, Dolakha, 28 February](#)
 - [Core CTP Skills for Supply Chain, Finance, and ICT Staff, Pilot Webinar 1, 22 March – 30 April](#)
 - [Asia Shelter Forum 2018: 2nd Edition, May 18, Bangkok](#)
 - ['How does a typical family in Nepal spend its money?', Code for Nepal](#)
-

UPDATES & REQUESTS

National

MoFALD CLPIU Enrolment Data, as of 2 March ([Nepali](#) and [Unofficial English Translation](#)):

	18 February	23 February	2 March
Total No. Eligible HHs	767,685	767,705	767,705
HHs Enrolled	689,125	701,350	693,602
HHs Received 1 st Tranche	679,859	691,255	682,957
HHs Applied for 2 nd Tranche	229,025	270,839	290,302
HHs Received 2 nd Tranche	203,501	219,971	228,869
HHs Applied for 3 rd Tranche	56,367	70,820	75,480
HHs Received 3 rd Tranche	49,021	51,272	54,151

Districts & Municipalities

[HRRP Kavre Field Visit, NagreGagarcheVDC, ChauriDeurali Rural Municipality, 20 February](#): the visit was attended by the HRRP District Coordinator, NRA Chief, and Rural Municipality Chief. The objective of the visit was to understand the situation for households in this area which is highly prone to multiple hazards, but a smaller number of households than expected have been determined to be eligible for relocation support. Following this field visit, and the sharing of the results at central NRA, two NRA geologists conducted a survey in the area on 27 and 28 February.

Madale Tole with 11 houses listed under Relocation List at NagreGagarche-9.

Joint Monitoring & Technical Assistance Visit, HRRP and MoUD CLPIU Monitoring and Evaluation Consultant, Tinpatan Rural Municipality, Sindhuli, 27 February

Livelihoods Working Group Meeting, Dolakha, 28 February: the meeting, which takes place every three months, was led by NRA Dolakha. During the meeting an [update was provided on activity reporting](#) and the group were informed that 25 agencies, along with 14 implementing partners, have reported being involved in livelihoods activities. In 2017, these agencies targeted to reach 53,765 households and actually reached 55,296 households through a range of livelihood activities in Dolakha. Furthermore, 15 agencies have reported that their activities are currently planned/ongoing in the district, whereas seven agencies have completed their livelihood initiatives.

HRRP District and Municipal Coordination Meetings, 23 February – 1 March: during this period district coordination meetings took place in [Dhading \(26 February\)](#), [Kathmandu \(26 February\)](#), [Kavrepalanchok \(26 February\)](#), [Nuwakot \(27 February\)](#) and [Okhaldhunga \(27 February\)](#). Municipal level meetings took place in Tinpatan Rural Municipality, Sindhuli (26 February) and ChauriDeurali Rural Municipality, Kavrepalanchok (28 February) Some of the highlights from these meetings include:

- In Dhading, households who have been already supported to build houses by Dinesh Tamang at Dhola VDC will not be able to receive the GoN housing reconstruction grant as they have already received outside support. These people migrated from Lapa VDC of Ruby Valley Rural Municipality.
- In Kathmandu, NRA Kathmandu requested POs to complete planned programmes in a timely manner or to revisit the programme design so that activities can be expedited. NRA Kathmandu is ready to provide coordination support to POs for all sectors and can support coordination with relevant ministries and its sectoral line agencies (departments and units) to address any related issues POs face.
- In Kavrepalanchok, NRA informed that the results of Resurvey and Reverification will be sent to the respective Rural / Urban Municipalities by Falgun 2074 for verification. High numbers of inspection files have been received at MoUD DLPIU following the NRA deadline. DLPIU is also expediting masons training to cover the gaps.
- In Nuwakot, housing reconstruction process in the district is increasing with 70% of households eligible for the GoN housing reconstruction grant having started their reconstruction and 62% have received the second tranche of the grant.
- In Okhaldhunga, the Helvetas team announced that they are planning to provide additional Technical Assistance support in the district. POs in the district are also requesting HRRP for other sector information than only housing reconstruction.
- In Tinpatan RM, Sindhuli, the main concerns were related to households eligible for the housing reconstruction grant but living on public land for generations without land ownership certificates and compliance requirements for timber structures.
- In ChauriDeurali RM, Kavrepalanchok, there are some wards where no mason training has taken place so there are no masons available for reconstruction. 34 households that are eligible for the 100,000 NPRs GoN retrofit grant that have applied to be moved to the 300,000 NPRs reconstruction grant.

HRRP District Coordination Team Dolakha, Weekly District Report, 23 Feb – 1 Mar 2018

Kalinchowk Rural Municipality, Ward No. 6, Dolakha: the house has been constructed using stone and mud mortar masonry (SMM) on the ground floor and a mix of SMM and timber on the first floor. The home owner has received the first tranche of the GoN housing reconstruction grant and the second tranche is in process.

HRRP District Coordination Team Sindhuli, Weekly District Report, 23 Feb – 1 Mar 2018

Bhimsthan, Ward No. 2, Tinpatan Rural Municipality, Sindhuli: the home owner has completed construction of their brick masonry home and is waiting to receive the third tranche of the GoN housing reconstruction grant.

HRRP District Coordination Team Sindhupalchok, Weekly District Report, 23 Feb – 1 Mar 2018

ChautaraSangachokGadhi Urban Municipality, Ward No. 8, Sindupalchok: stone and mud mortar masonry houses which three brothers have built in a row. The brothers have all received the second tranche of the reconstruction grant and have completed the inspection for process for the third tranche.

Requests for Partner Support

International Women's Day Event, Women's Experience in Reconstruction, 9 March, 10-12, Dhoikhama Café:

HRRP with other partners, including the [Inter-Agency Common Feedback Project](#), BBC Media Action, and the [Feminist Dalit Organisation](#), is organising an event on 9 March to mark International Women's Day and highlight the challenges that women are facing in reconstruction.

Intrepid Solutions Lecture Series, Nepal Engineers' Association, every Tuesday at 5pm: supported by UNOPS and Build Change, the lecture series will provide an exciting opportunity to connect with national and international experts to explore innovative solutions for improving construction practices. The first lecture will take place on Tuesday, 6 March and will be delivered by [Mark Sinclair, Consulting Structural Engineer](#), and will be focused on [lessons learned from observations of unreinforced masonry seismic performance in Haiti, New Zealand, Colombia and Nepal](#).

Survey of Cash Transfer Programming capacity in Asia-Pacific region, Asia-Pacific Regional Cash Working Group and CaLP: this survey is intended for all CWG members together with operations staff (Supply Chain, Finance, and ICT) of organisations that are implementing cash transfer programming in the region. It is a 10mins survey, and is open until 16 March. The findings of this survey will inform plans for which training of trainers will be offered to members in Asia and in the Pacific.

Core CTP Skills for Supply Chain, Finance, and ICT Staff, Pilot Webinar 1, 22 March – 30 April: the goal of the training, is to create a training program that supports knowledgeable operations staff in delivering cash and voucher programs as effectively and efficiently as they already do for in-kind programmes. The course focuses on the differences in requirements of the delivery modalities, the implications to operations, and how best to support and coordinate with counterparts in program. The course was developed by Fritz Institute, in collaboration with the Cash Learning Partnership (CaLP), funded by USAID, and under the guidance of a cross-sector Task Force. The course has already been piloted face-to-face and Fritz Institute is now working on the pilot webinar version of the course in an effort to reach and support more humanitarians at an anticipated lower cost for participation.

[Nepal Engineers' Association, 15th National Convention of Engineers, 21-23 March](#)

[Shelter Projects Asia-Pacific Workshop: Learning from the Past, Global Shelter Cluster Event, 17 May, Bangkok:](#) this event will bring together practitioners, academics and other relevant local stakeholders to collectively review case studies from past editions of '[Shelter Projects](#)', focusing on "what worked well" and "what didn't work well". It will also provide an opportunity to share experiences from recent shelter and settlement responses in the region, which will be reviewed and considered for inclusion in the next edition.

[Asia Shelter Forum 2018: 2nd Edition, May 18, Bangkok:](#) this is an informal forum for humanitarian shelter and settlement practitioners in the Asia-Pacific region. The forum will build on the outcomes of the Shelter Projects event on 17 May (see above) and will review some of the best practices in the region, looking at how learnings can be transferred between countries, and on defining a way forward for shelter approaches in the region. The forum will focus on three themes; preparedness activities, linking relief to recovery, and aiming at identifying localised approaches to shelter and settlements that are relevant for the Asia-Pacific context.

[Milijuli Nepali, BBC Media Action, Episode 882:](#) the episode begins with Radhika and Sabitri Pariyar, from Jyamire, Kavre, singing a song sharing the sorrow of the loss of their houses during the 2015 earthquake. Radhika's house collapsed during the earthquake, a year after she built it and since then she has been living in a temporary shelter. She is now planning to build a new house and discusses with her sister, and neighbour, Sabitri about how the house should be built so that it can withstand the impact of an earthquake. The episode also features the story of brothers Lok Prasad Rimal and Khilnath Rimal from Nuwakot. Lok Prasad has already built his house, while Khilnath has completed the construction work up to the DPC level. Khilnath asks his brother to share information with him about building a safe and strong house. Lok Prasad shares building techniques with his brother and recommends using trained masons and consulting an engineer. We also meet Radha Devi Silwal from Chahare village in Nuwakot district who has built her house but has yet to receive the second tranche of the GoN housing reconstruction grant. She travels to the ward office to inquire about the delay. The engineer at the ward office explains the process of applying for the second tranche and the criteria she needs to fulfill to be eligible for the second tranche. He also explains what steps he will take on behalf of the government to monitor and follow-up on the procedure to help her resolve her problem. The episode ends with an interview with engineer Pramod Khadiwada who talks about the details to be considered while selecting land to build on. He advises not to build on loose soil, sloped land, on the banks of rivers, and areas prone to landslide.

[‘Untold stories of unsung heroes’, Nepali Times:](#) an article about a new digital book, which will be launched on 8 March, that profiles 50 Nepali women who share their inspiring stories.

[Baliyo Ghar TV Programme, Episode No. 93:](#) this week the programme is focused on how the problems of vulnerable populations can be better considered in the reconstruction and looks in detail at the policies that are in place to help single women, disabled persons, and elderly people to rebuild their houses. The programme also includes reports from the field and an interview with Dr. Chandra Shrestha, NRA Executive Committee Member.
