UPDATES & REQUESTS

National

Flood Response, National Shelter Cluster Meeting, 13 August: An emergency meeting was called by DUDBC to discuss the flooding and landslides across the country. An update on the response so far was provided:

- 268 NFIs have been distributed in 29 districts

- 438 tarps distributed in 14 districts

- Nepal Red Cross Society (NRCS) has dispatched 931 NFI kits

DUDBC will assess the requirements for response across the affected districts and based on Partner Organisations (POs) availability of stocks will prepare a plan to fill gaps in the districts. The preliminary draft of the [Shelter Cluster Action Plan](#) (Nepali) was also shared. The action plan covers four key areas; 1. Identification of safer place, 2. Requirements in the districts, 3. Design and layout of emergency shelter, and 4. Health facility, security, WASH management. Please contact Deepika Bhardwaj, Shelter Cluster Officer, Deepika.BHARDWAJ@ifrc.org, for further information.

Flood Response, National WASH Cluster Meeting, 13 August: it was agreed that there will be a Ministry level meeting every day at 10.30 am, a working team meeting every day at 1 pm, and a WASH Cluster meeting lead by working team Chair (DDG/DWSS) at DWSS on alternate days at 1 pm. Needs assessment should not be carried out by individual agencies, but should be carried out in line with sector line agencies in the districts together with cluster members. The 4W has been activated and partners are requested to coordinate with WSSDO for district level 4W reporting on a daily basis and the compiled 4W will be shared every other day. Please write to wash.cluster.nepal2015@gmail.com for further information.

Ministry of Home Affairs (MoHA) Flood Update, Public Appeal, and Cluster Lead and Co-Lead Meeting 13 August: update is for 11 and 12 August and public appeal requests business community, media, public, and social organisations to provide support to the ongoing rescue and relief operation.

Government of Nepal, Department of Hydrology and Meteorology, Flood Forecasting Section, Rainfall Watch

Government of Nepal, Meteorological Forecasting Division, Monsoon Updates (Nepali)

NRA Launch Household Resurvey: 168 engineers completed training on the resurvey process started the first phase of resurvey in Okhaldhunga, Ramechhap, Dolakha, Sindhupalchowk, Kavrepalanchok, Nuwakot, Rasuwa, and Gorkha from 10 August. 164 engineers started the training on the resurvey process on 10 August, and once complete will undertake the second phase of the resurvey in Kathmandu, Lalitpur, Bhaktapur, Sindhuli, Makwanpur, and Dhading. The survey is being implemented in coordination with CBS and will be completed by 16 September. A total of 133,360 households will be surveyed, and the ward level breakdown is available [here](#). The NRA published a [public notice](#) regarding the resurvey / verification survey in the newspapers today.

International Seminar on Preserving Historical Structures and Monuments – Problems and Prospects of Earthquake Damaged Cultural Properties of the Kathmandu Valley, 13 August: the event was organised by the NRA with support from DUDBC, Department of Archeology, Mie University Japan, Ehime University Japan, KUMONOS Corporation, and CANAAN Geo Research Japan. Seven papers were presented during the event highlighting ongoing studies and new technologies from different experts and institutions. Dr. Govinda Raj Pokharel, NRA CEO, was the chief guest and highlighted the importance of preserving Nepal's historical monuments by strengthening the approach to save cultural and architectural identities. Mr. Bhash Narayan Dahal, Director General of the Department of Archeology, presented the key note paper on the current situation of earthquake damage to historical structures in the Kathmandu Valley. 133 historical monuments totally collapsed as a result of the 2015 earthquake and the Department of Archeology is now working with different national and international institutions to reconstruct them and 60 monuments have already been rebuilt.

Seminar Participants.

Technical Session, Geo-Hazard Survey Results & Support for Displaced Households, 9 August

NRA GESI Specialist: with support from USAID, NRA will be hiring a specialist for up to 18 months to help mainstream GESI within the policies and practices of the NRA. More details are available in the [ToR for the position](#), and interested

applicants should submit their CV and a cover letter to Jennifer Hogan, HoganJ@cdmsmith.com. Please note that fluency in Nepali is required for this position.

NRA 5W Reporting: to date 144 out of 148 (97%) POs have reported to the NRA 5W. POs who have already reported should have received their login details for the online MIS project reporting system. The [user manual](#) provides full details on how to use this system and POs can contact Gaurab Pradhan (gaurab@hrrpnepal.org) if further information is required. Once the NRA 5W is fully up and running the HRRP 4W will be phased out.

Districts

Nepal Red Cross Society Flood and Landslide Update, 11 – 13 August:

Landslide, Utthergaya Rural Municipality, Paire Beshi, 6 August: heavy rainfall triggered a landslide which led to loss of life and injury, as well as destruction of a number of houses. All households from the area have been provided emergency shelter in the hydropower building. Houses in other areas of the district, where the land was unsafe and smaller landslides had been triggered, have also been moved to emergency shelter. The DAO has requested support from Partner Organisations (POs) for provision of food to the affected households. The DDRC is coordinating the response. This community had been surveyed under the NRA geo-hazard survey. The survey team reported that landslides were present in the area and remediation works had been undertaken to address them in 2015/2016. The NRA survey report recommends that further stabilisation works be undertaken in the area. The landslide on 6 August appears to have been a fresh failure that did not occur in the areas where stabilisation works were carried out in 2015/2016. But further investigation will be required to establish the true circumstances of the failure, its position in relation to the previous landslides in the area, and plan how remediation works should be approached. Photographs and satellite images suggest that the valley sides above the Trishuli through the Paire Beshi area could be vulnerable to landslides, particularly during monsoon. The area is also vulnerable to flooding; a flash flood was reported in 2016.

Landslide, Utthergaya Rural Municipality, Paire Beshi, 6 August

HRRP District Orientation on Confined Masonry, Dry Stone Masonry, and Bamboo Treatment Process: orientations took place in [Kavrepalanchok](#) on 9 August and for the [Kathmandu Valley](#) on 10 August. The dates for the orientation in other districts are as follows:

Dolakha: 16 August 2017

Gorkha: 18 August 2017

Makwanpur: 18 August 2017

Okhaldhunga: 21 August 2017

Ramechhap: 18 August 2017

Sindhuli: 17 August 2017

The date for the orientation in Sindhupalchok, Dhading, and Rasuwa have yet to be decided. The orientations also include a session on the MoUD CLPIU/DLPIU monitoring and evaluation process. Please contact the relevant [HRRP district coordination team](#), or Laxmi Bhatta, HRRP National Technical Coordination Officer, techofficer2.national@hrrpnepal.org for more information.

NRA District Reconstruction Coordination Meeting, Nuwakot, 4 August: the meeting was organised for partners to provide updates on the progress of reconstruction in the district. It was decided during the meeting that six clusters, shelter, wash, livelihood, health, education and protection, will provide a monthly update through the government organisation leading the cluster. The cluster co-lead responsibility was allocated to INGOs working in Nuwakot.

NRA Dhading Interaction with Newly Elected Rural / Urban Municipality Officials, 9 August: the event brought together newly elected Rural / Urban Municipality officials with officials from the district NRA office and other government departments. The NRA briefed the Rural / Urban Municipality officials on the reconstruction, particularly the resurvey process launched on 10 August.

NSET Baliyo Ghar Information Stall, Kalinchowk Yak Festival, Dolakha: Baliyo Ghar oriented the community people of Kalinchowk Rural Municipality on earthquake safety and safer housing reconstruction through an information stall installed at the Kalinchowk Yak Festival. This week (14-20 August) the [Baliyo Ghar TV programme](#) will focus on the reconstruction status and efforts in Dhading Besi and Bhim Prasad Dhungana, Mayor of Nilkantha Municipality and Dr. Amod Mani Dixit, Executive Director of NSET will discuss the issues. The [Baliyo Ghar radio programme](#) will focus on 'On the Job Training' (OJT) implementation.

Baliyo Ghar Information Stall at Kalinchowk Yak Festival, Dolakha.

[HRRP District Coordination Team Dolakha, Weekly District Report, 4-10 August 2017](#)

House under construction in Baideshwor Rural Municipality, Ward No. 6. This is a hybrid structure using stone masonry and mud mortar with RCC banding on the ground floor, and timber for the first floor. The household have received the first and second tranche of the GoN housing reconstruction grant.

[HRRP District Coordination Team Kavrepalanchok, Weekly District Report, 4-10 August 2017](#)

Sipali, stone masonry with mud mortar, flexible roof, DUDBC/DLPIU Kavre.

HRRP District Coordination Team Ramechhap, Weekly District Report, 4-10 August 2017

A two room house built with stone masonry and mud mortar and RCC banding in Rampur VDC, ward 7. This household have received the first and second tranches of the GoN housing reconstruction grant.

Requests for Partner Support

Flood Response Reporting, Nepal Shelter Cluster: Partner Organisations (POs) assisting the shelter response in any of the flood affected districts are requested to report their activities to the Nepal Shelter Cluster. The completed reporting templates should be shared with Deepika Bhardwaj, Shelter Cluster Officer, Deepika.BHARDWAJ@ifrc.org. [Updated information on stockpiles of emergency supplies](#) has also been shared by DUDBC. POs are requested to send any information on stockpiles or emergency funds not included to Deepika Bhardwaj.

Flood Response, Cash Coordination Group, Reporting Capacity of Partner Organisations to Make Cash Payments: during today's operational HCT meeting the CCG committed to prepare a first report on capacity of POs to make cash payments to flood/landslide victims when the floods recede, markets become active again, and cash payments become appropriate. The report, which will be shared by COB tomorrow, will be prepared based on information provided by CCG members at the last two CCG meetings. A second report will be prepared based on more detailed information which is requested from partners as follows:

No.	District	Beneficiary Category	Est. Number of HH/beneficiaries	Value of each cash Payment	Number of payments	Interval between payments if more than one	Conditional or unconditional
1							

As there is often a degree of uncertainty, conditionality, and flexibility built into plans for cash payments partners may add a paragraph of text if that clarification is necessary or useful. This second report will be submitted to the UN RCO on Wednesday or Friday, following a meeting of the CCG. To submit the above report, and for further information, please contact Iain McDonald, CCG Co-Chair, iain.mcdonald@wfp.org.

Support for Inspection Data Entry: partner support is requested for inspection data entry at district level. The data from the hard copy inspection forms at district level needs to be entered into the NRA MIS. Support is required for up to 6 weeks depending on the backlog of data in the district. Partners able to provide support are requested to contact either Gaurab Pradhan, HRRP Senior IM Officer, gaurab@hrrpnepal.org, or the relevant [HRRP District Coordination Team](#).

ALNAP's Urban Questionnaire: part of [ongoing research initiative](#) exploring how humanitarians can improve their response within complex, urban environments. The aim of the questionnaire is to identify potential examples of humanitarian response in urban contexts, which might be used as a case study or reference example in ALNAP's urban research. The deadline for responses is end of September, 2017.
