NATIONAL UPDATES

Nepal and World Bank Sign \$100 Million Financing Agreement to support Nepal's Green, Resilient, and Inclusive Development

On 29 August 2022, the Government of Nepal (GoN) and the World Bank has signed a concessional financing agreement for \$100 million (equivalent to Rs. 12.7 billion) for Green, Resilient, and Inclusive Development (GRID). The proposed budgetary support aims to support improvements in the enabling environment in Nepal toward a green, climate-resilient, and inclusive development. This is the first in a programmatic series of three concessional loans on GRID.

The agreement was signed by Joint Secretary, Mr. Ishwori Prasad Aryal, International Economic Cooperation Coordination Division, Ministry of Finance, on behalf of the GoN, and World Bank Operations Manager for Maldives, Nepal, and Sri Lanka, Ms. Lada Strelkova. During an agreement signing program, Ms. Strelkova said that through this operation, World Bank is supporting the Government's key policy actions across sectors including water, land use, climate-smart agriculture, sustainable forest management,

urban, waste, and pollution, which is pivotal for achieving country's goals of a greener, more inclusive and more resilient development.

This first operation supports policy actions for strategic GRID transitions such as the sustainable and productive use of natural capital; resilience of urban and rural infrastructure, human capital, and livelihoods to climate and environmental risks; and more efficient and cleaner production, consumption, and mobility. It also supports policy actions of GoN for strategic GRID transitions that help build and maintain prosperity for all. The operation encourages private sector investment in greening Nepal's economy and creating jobs and livelihoods related to areas such as community forestry, agriculture, clean air, and solid waste management. It also supports reforms for strengthening inclusion in development decision-making and access to assets and services.

Addressing the agreement signing event, Joint Secretary Mr. Aryal highlighted that Nepal's shift to the GRID approach is a strategic move during a challenging time that is full of opportunities for the country. This shift will help Nepal continue to make progress in expanding and protecting prosperity while reducing poverty in the face of compounding challenges that affect Nepal's development prospects, including the economic recovery from COVID and the on-going disaster, climate and environmental risks. World Humanitarian Day 2022 was marked on 19 August in Kathmandu

An event was organized by National Platform for Disaster Risk Reduction (NPDRR) in coordination with NDRRMA and GoN to celebrate World Humanitarian Day on 19 August 2022 in Kathmandu. The day is celebrated worldwide to honor individuals who indulge in humanitarian work. It is also marked to celebrate the contribution of humanitarian volunteers who work relentlessly for a cause. 19 August, every year is celebrated as World

Humanitarian Day to show solidarity towards the humanitarian aid workers around the world. Humanitarian aid workers provide lifesaving assistance and bring hope and possibilities to crisis-affected people. This day 19 years ago, on 19 August 2003, a truck bomb attacked the Canal Hotel in Baghdad, Iraq, killing 22 humanitarian aid workers, including the UN Special Representative of the Secretary-General for Iraq, Mr. Sergio Vieira

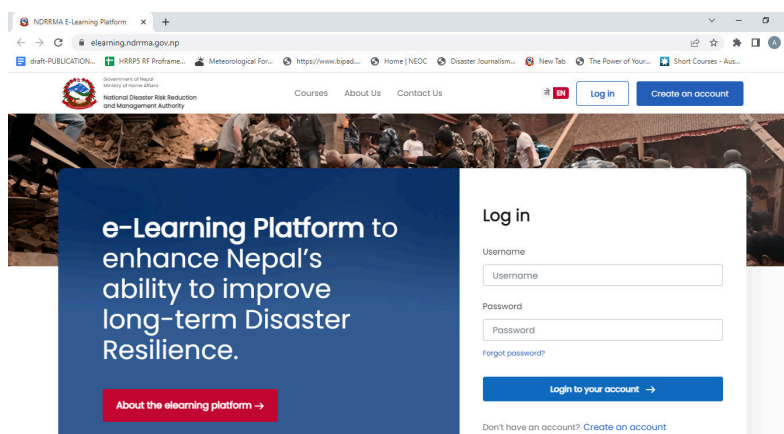

de Mello. After 5 years of this attack, the UN adopted the resolution designating 19 August as World Humanitarian Day.

14th Executive Committee Meeting of NDRRMA: Home Minister Khand directed all concerned bodies to gear up maximum forces to safeguard people's lives

During 14th Executive Committee Meeting of NDRRMA, held at the Ministry of Home Affairs (MoHA) on 5 August 2022, Home Minister Mr. Bal Krishna Khand said that the life of the citizens is the first priority of the government and in comparison to yesteryears, there has been reduction in loss of peoples' lives and property. The Home Minister gave credit to disaster preparedness activities channelized from various sources. Mr. Khand directed that all concerned bodies utilize maximum force towards safeguarding lives of people and in disaster risk reduction and management. The Executive Committee Meeting has also approved Disaster Management Fund Operational Procedure 2079 (2022) which will be implemented under NDRRMA at central level. With this approval, NDRRMA will implement the immediate activities and interventions pertaining to disaster risk reduction and management by channelizing the fund. Access detail news here: [Home Minister Khand approves Disaster Management Fund Operation Guidelines](#)

NDRRMA prepares e-learning platform to enhance disaster management knowledge

The NDRRMA is going to prepare an e-learning platform with a purpose of enhancing disaster management knowledge among interested development practitioners and for students from disaster management education stream. The authority is currently in the piloting phase of the e-learning platform which currently includes two courses related to disaster risk reduction and management and gender equality and inclusion. There are four modules in the course related to disaster management and three modules in the curriculum related to gender equality. Spokesperson and Under Secretary of NDRRMA, Dr. Dijan Bhattarai informed that the curriculum will be refined in upcoming days soon with incorporation of inputs in the e-learning platform. Access detail news here: [NDRRMA e-learning platform, e-learning link](#)

Over 20,000 people displaced as Koshi River returns to its old course after three and a half decades

The incessant rainfall in Eastern Nepal that occurred from 2 August 2022 has caused the Saptakoshi River - the largest river of Nepal - to swell. In the morning of 3 August, the Saptakoshi River returned to its original course after 34 years, inundating several settlements in Udayapur and Sunsari districts in Province 1. The swollen Saptakoshi River eroded the western embankment in Dumribote area, and entered the settlements in wards 1, 2, 3, 8, and 9 of Belaka Municipality in Udayapur district and wards 6 and 9 of Barahchhetra Municipality in Sunsari district. The provincial and municipal governments in coordination with the Red Cross and local organizations have responded to the situation.

Personnel from Nepali Army, Armed Police Force, Nepal Police, volunteers and local people were mobilized for the rescue operation. Around 2,500 families were relocated to safer places following the flood. More than 20,000 people were displaced. The rescued people had taken shelter in public buildings such as schools and community buildings. Various governmental and non-governmental organizations have come forward to provide immediate relief and rescue support to the flood affected people. Likewise, Home Minister Mr. Bal Krishna Khand has instructed all the relevant agencies including of MoHA, NDRRMA, Chief District Officers of Udayapur and Sunsari etc to immediately manage the relocation, relief and rescue along with temporary accommodation of the affected populations in five wards of Belka in Udayapur and two wards of Barahchhetra in Sunsari district.

6.0 magnitude earthquake jolts Khotang district in eastern Nepal on 31 July 2022

An earthquake measuring 6.0 Richter scale has jolted eastern Nepal's Khotang district, Sakela Rural Municipality, Ward no 5, Province no. 1 on 31 July 2022. The quake with its epicenter in Martimbirta hit Khotang, 450 km east of Kathmandu, at 8:13 am as per statement by the National Seismology and Research Centre, which further claimed that was the most powerful earthquake to occur in the country so far after April 24, 2015 Gorkha earthquake. The jolt of the earthquake was also felt in Kathmandu valley as well as in other eastern Nepal districts of Morang, Jhapa, Sunsari, Saptari and Taplejung.

According to the District Disaster Management Committee (DDMC), a house was completely destroyed while other houses suffered cracks, making a total of 2 school buildings, 1 police post and 475 houses suffering the damage as a whole by the Khotang earthquake. The people were in fear as aftershocks occurred time and again on the same day and after that too. Although no human casualties occurred, so far aftershocks continued and the general public were urged to adopt precaution by the District Administrative Office (DAO).

Immediately after the earthquake hit several local levels in Khotang, Mayor of Halesi Tuwachung Municipality wrote a letter to NDRRMA for conducting an integrated disaster vulnerability and damage assessment. The affected local governments in Khotang district continued to report the damage caused by the earthquake as well as by floods and landslides. All the 10 local units in the district were urged to provide the damage caused by the 6.0 magnitude earthquake within three days while the reporting scenario seems to take longer to get the exact information as heavy rainfall was taking place in the district. DDMC formed at all 10 local levels in Khotang were immediately mobilized along with governmental and non-governmental organizations in providing immediate relief and rescue services to the affected people.

Nepal and Finland to cooperate to reduce climate-induced natural disasters; to cooperate further by Department of Hydrology and Meteorology

An agreement has been reached between the Government of Nepal and Finland Government to cooperate to reduce the increasing risk of climate-induced natural disasters owing to the effects of climate change. Accordingly, the Department of Hydrology and

Meteorology (DHM) under the Minister of Energy, Water Resources and Irrigation -GoN and the Finnish Meteorological Institute (FMI) of Finland Government have agreed to join hands to move forward increasing the capacity of DHM in weather forecasting. The heads of both organizations expressed their commitment to expanding the ongoing cooperation to make weather forecasting more scientific and factual in the future so as to mitigate the increasing risk of climate-induced disasters. The two institutes of Nepal and Finland have been collaborating in this field since 2010.

At the program held in Helsinki, Finland dated 13 August 2022, attended by Minister of Energy, Water Resources and Irrigation, Ms. Pampha Bhusal, the Director General Mr. Kamal Krishna Joshi informed the mass that due to the climate change, the threat of natural hazards including water and climate-induced disasters is increasing in Nepal. In response, FMI Director General Mr. Jussi Kaurola assured that the collaboration between the two agencies will continue in the future including through sharing of experiences to reduce meteorological risks.

At the program, FMI gave detailed information to the high-level study team from Nepal and Vietnam about the weather forecasting activities and weather effects. There was an exchange of experience between senior officials and scientists of FMI on meteorological information systems, financial management and cooperation with related organizations.

130,932 beneficiaries selected for housing grant under Safe Citizen Housing Program executed by Ministry of Urban Development

The Ministry of Urban Development (MoUD) -GoN has selected 130,932 beneficiaries under the Safe Citizen Housing Programme till mid-July 2022. According to a report released by the MoUD, a grant agreement has been concluded with 122,319 beneficiaries out of those selected for the programme. Similarly, 81,866 and 18,273 beneficiaries have received the first and second tranches, respectively. The Ministry of Finance has allocated the budget to local levels for the grant agreement and implementation of the Safe Citizen Housing Programme on recommendation of the MoUD.

The programme is executed in line with Safe Citizen Housing Implementation Procedure to ensure arrangement of appropriate, safe and environment-friendly housing for people living below the poverty line and whose houses have thatched roofs. This requires the government to identify and select beneficiaries on the basis of the recommendation letter of the concerned local level and district disaster management committee.

Only the families living in a hut or house with thatched roof, which are vulnerable to fire, rain and storm will benefit from this scheme. As per the MoUD, the grant is used to replace the thatched roof or other vulnerable roofs with galvanized zinc sheets. Priority shall be attached to families with senior citizens, orphans, single women and persons with disabilities. Any joint family is entitled to grant an amount for only one housing unit.

The procedure has empowered the Safe Citizen Housing Coordination Committee, led by a directly elected member of the House of Representatives to select beneficiaries from among the families identified by the Federal Level Project Implementation Unit (FLPIU) in the concerned constituency.

The FLPIU enters into a grant agreement with the selected beneficiaries for the purpose of construction of safe housing. The grant amount of Rs 50,000 is provided through a banking channel in two tranches, 60 per cent and 40 per cent. After receiving the first tranche of the grant amount, the concerned beneficiary should proceed with re-roofing the house. The last tranche is released once a report from the concerned local level and technical committee confirms that the first tranche was properly used. Amount exceeding the grant for re-roofing should be borne by the concerned family. If the grant amount is not found to have been used for the purpose for which it was provided, the FLPIU will recover the cash from the concerned beneficiary as a government due. Access detail news here: [Report released by MoUD on safe housing program](#)

PARTNERS' UPDATES

Training on strengthening anticipatory action and its integration in local DRRM systems

Dan Church Aid (DCA-Nepal) and its local partners have organized a two day training in collaboration with Bheemdutta, Dodhara Chadani and Parshuram Municipalities from 15 – 16 August 2022. The Mayor, Deputy Mayor, Ward Chairs, Chief Administrative Officers, DRR focal person, IT officer including local CSOs of the respective municipalities took part actively in the

training. The main objective is to support the local government in strengthening anticipatory action and its integration in the local Disaster Risk Reduction and Management system. The technical sessions were facilitated by NDRRMA, DHM, Nepal Red Cross Society (NRCS)/Danish Red Cross and DCA. DCA and its local partner NNSWA has been working in Mahakali River Basin through the SUDRIDH project. As a part of the project implementation framework, DCA is scaling up anticipatory actions in close collaboration with local and national authorities.

Orientation on Inclusive DRRM and Core Humanitarian Standard were organized in various Palikas of Chitwan district

A 2-days training workshop was organized in various Palikas of Chitwan district (4-5 Aug in Ratnanagar, Madi, Rapti; and 10-11 Aug in Khairhani, Ratnanagar, Bharatpur Ichhyakamana) through joint support of APP (Asian Preparedness Partnership); the Asian Disaster Preparedness Center (ADPC); Bill & Melinda Gates Foundation; National Disaster Risk Reduction Center Nepal (NDRRC) and the Sweden Sverige. A total of nearly 85 representatives including newly elected members, officials and Tole Lane Organization (TLOs) leaders of all Rural/Municipalities participated in the event. This Training Workshops on Inclusive DRRM (IDRRM) and Core Humanitarian Standards (CHS) for Municipality Officials/Community Leaders in Chitwan intends to promote the institutionalizing and understanding process through training program complementing to improve the capacity of knowledge and understanding of municipal officials on IDRRM. The workshop has set up firm expectations of contribution to strengthen their technical and operational capacity while formulating local level short, medium, and long-term strategies and plans. The sole purpose of the workshop was to capacitate the technical efficiency of the local level and enable them to uphold their duty responsibilities in DRRM as guided by the Constitution of Nepal 2015.

There was active female participation, exemplary initiations, knowledge, and information circulation among the municipalities came out to be good aspects of collaborative training of these participating municipalities. A huge gap between policy formulation and implementation was seen as the IDRRM practices were mostly limited to rescue and relief operations and the knowledge of CHS was still new even among the DRR representatives of

the metropolitan city. This intensive workshop has significantly succeeded in exploring IDRRM initiations at the local level among the participants.

Training for newly elected local authorities on DRRM Localization Manual has been organized in various local units across seven provinces

Training on [Disaster Risk Reduction Management \(DRRM\) Localization Manual](#) targeting the entire 753 local bodies of 7 provinces, elected representatives and municipal staff were continued in various Palikas on different dates of August 2022. This DRRM training has been conducting under “PARIWARTAN Project” as part of IOM Nepal’s technical assistance and USAID

Nepal’s support to Ministry of Federal Affairs and General Administration (MoFAGA) Nepal and implemented by Lutheran World Federation- LWF Nepal, Practical Action and consortium led by NSET.

Technical training on BIPAD Portal for municipal representatives and DRRM Officials

Youth Innovation Lab (YI-L) has led the technical training on BIPAD Portal held in Mahendranagar, Sudurpaschim Province, which had a participation of 28 representatives from municipal, district and provincial governments from 4-5 August 2022. This Portal is developed in the coordination of

steering committee and technical committee from 11 ministries and departments and hosted on the Government server. BIPAD portal allows data sharing across government and non-governmental agencies. Subdomains are created for all three tiers of government which allows hosting of BIPAD Portal at the national level, provincial level (7), district level (77) and local levels (753). The technical training on BIPAD Portal is a 2-days training for municipal officials and members of municipal DRRM officials that focuses on providing

hands-on experiences on the Portal and its handling. During the training, Under Secretary of NDRRMA Dr. Dijan Bhattarai, emphasized the need for data driven decision making for DRRM.

Tulsipur Sub-Metropolitan City has developed DRRM curricula for Grade 1 to 8

Technical project support from USAID Nepal has helped to develop a DRRM curricula for Grades one through eight, using the local disaster context in Tulsipur Sub-Metropolitan City. Eventually Tulsipur Palika has approved disaster preparedness curricula- “Hamro Tulsipur” the development of which has opened doors to 130 public and private schools to implement in the regular classroom sessions as per the curricula. Nepal’s Constitution 2015 has provided local governments with a mandate

to design and implement local school disaster management curricula, however, most schools in Nepal lack any mention or content on disaster risk reduction and management. The genuine purpose of the DRRM curricula is to lead a safer community and more disaster-resilient future generation mainstreamed through the school education whereby targeting to reduce disaster risks at the local level and involving all members of the community, including youths in the longer runs.

Koshi Flood Emergency Discussion lead virtually by DPNET

DPNet has organized a virtual discussion on incessant rainfall that triggered Saptakoshi flood to occur which has affected more than 2500 households in Sunsari district's Barakhhetra Municipality and Udaypur district's Belaka Municipality. The Koshi river has shifted its channel to the old course toward the west side after 40 years. The participants from various organizations participated in the program and altogether 46 participants joined the webinar. The affected local people in Saptakoshi flood areas have already been rescued to the safer zone. The displaced families require safer materials and immediate support. The objective of the program was to discuss the status of flood in the flooded area and relief distribution. The Chief Executive of NDRRMA, Mr. Anil Pokhrel informed the virtual discussion forum that NDRRMA has collaborated with the Local Disaster Management Committee and DDMC for emergency flood fighting before the disaster and provided some support a year ago which has helped somehow in minimizing the disaster risk. The emergency shelter has been prepared at 6 places in which NRCS has mobilized the tents while other organizations have provided immediate support in the flood affected areas and other few more are underway in planning the emergency support, added by Mr.

Pokhrel. In the discussion, Chairperson of DPNET, Mr. Surya Bahadur Thapa emphasized joint collaborations and a one door support system among organizations in order to ensure proper support to the vulnerable groups of people.

Interaction program held on building sustainable and disaster risk-resilient city

Two days interactive program related to building a sustainable and risk-resilient city has been completed which was coordinated by Municipal Association of Nepal (MuAN) held in Dhulikhel, Karve on 28-29 August 2022 in lead cooperation with MoFAGA-GoN. The program was attended by administrative and program level representatives from 7 municipalities from Province 1 and 7 municipalities from Bagmati Province including mayors of 14 municipalities who marked their presence. The program had interactive sharing and presentations by disaster experts from various organizations which went on conducting mock simulation exercises too. The insights from the sharing were effective for the participating municipalities to gear towards developing strategies and plans related to disaster and risk reduction. Under Secretary of MoFAGA, Mr. Rishiraj Acharya shared insights of building codes and provisions while the disaster experts shared key highlights and provisions of urban disaster risk auditing & assessment and urban disaster risk reduction and resilience. MuAN has successfully conducted a similar kind of interactive orientation program at provincial level too.

ActionAid Nepal supported distribution of safe shelter toolkits and health safety items in facilitate households from informal settlements

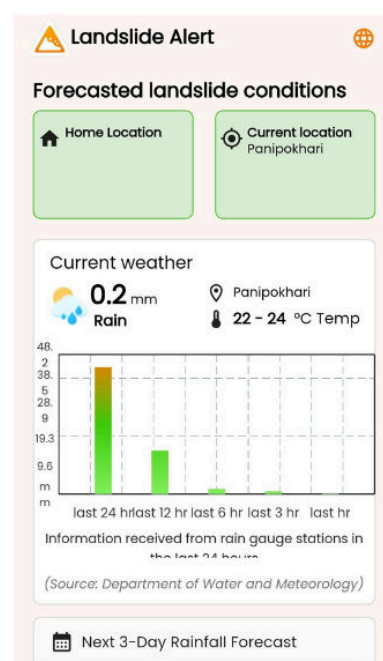

On August 18, 2022, ActionAid Nepal, in collaboration with Nepal Mahila Ekata Samaj (NMES), provided "Shelter Kit and Shelter Tool Kit" to 316 flood-affected households that reside in Manohara's informal settlement area of Bhaktapur district. During the 2nd week of August 2022, over a dozen settlements on the banks of Manohara River were waterlogged after the rise in water levels due to heavy rainfall. There were no human casualties reported, but

flooding caused massive damage to animal shelters and swept away belongings of the residents of the flood affected parts in Manohara settlements. This assistance was provided through UKAid Nepal's support to flood-affected households in order to have a safer shelter and for dignified resumption to normalcy of affected households as soon as possible. Similarly, in order to further support households from informal settlements, NMES distributed emergency COVID relief health items to Ward-level Urban Health Clinic of six wards in Kathmandu Metropolitan City. The emergency health items would be effective to prevent the spread of the virus during times of disaster and to assist those who have been infected.

Orientation on Pahiro Alert App were conducted in Shankarapur Municipality

ActionAid in collaboration with HomeNet Nepal (HNN), has organized a mobile app orientation for the "Pahiro Alert" community-level landslide early warning app in Shankharapur Municipality, Kathmandu district, dated 29 July 2022. The orientation was attended by Shankarapur Municipality's Deputy Mayor, Disaster Focal Person, Technical staff, Ward Chair, local police, and youths. A team of Institute of Himalayan Risk Reduction facilitated the workshop, the software was developed as part of Plan International Nepal's "Community-based Landslide Early Warning System Project ", which was financed by Start Network. The Pahiro Alert mobile app is expected to aid in mapping landslides in Shankharapur Municipality this year and in the future.

Godawari Municipality has its own DRR Municipal Policy and Strategic Plan

Homenet Nepal (HNN) with support from ActionAid Nepal have facilitated the Godawari Municipality, Lalitpur district to draft the DRR Municipal Policy and Strategic Plan as per the format provided by MoHA. In Godawari Municipality, the Municipal Disaster Act was already in operation for the past 5 years, coordinated by HNN for the formulation. Contextually

for the need of a policy and strategic plan, HNN continued to work throughout in drafting DRR Municipal Policy and Strategic Plan. The interactive sharing workshop in order to discuss the final draft of DRR Municipal Policy and Strategic Plan was conducted in the 2nd week of August 2022, which was chaired by the Mayor Mr. Gajendra Maharjan. Now the municipality is in process to form 8 thematic clusters for its operation and also to submit it with the Municipal Assembly for its approval.

Youth and Community groups were empowered to build leadership for community Resilience and humanitarian actions

ActionAid Nepal and Kamaiya Mahila Jagaran Samaj (KMJS) has facilitated exposure and learning visits in Tikapur Municipality and Chisapani Centre with the participation of the Community Disaster Management Committee (CDMC) and Youth Bakheri. Chisapani Centre has been operated by DHM-GoN to measure the flood level. When flood level increases in Karnali River, the information is sent directly to Local, and District Emergency Operation Centre's and message is communicated to the general public. This visit was concentrated to identify and create awareness about anticipatory action and disaster risk reduction measures in targeted areas. Among 40 members including from CDMC and Youth Bakheri participated in the visit where the discussions were directed to learn about the anticipatory actions, preparedness and mitigation measures. Similarly, under the leadership of more than 100 local youths, Youth Bakheri facilitated the process of identifying disaster risk in 3 places of Rajapur Municipality and successfully developed their disaster risk management plan for communities. Further, these youth groups also facilitated sharing the information about NDRRMA's BIPAD portal to such other advocacy groups, youth groups and other community groups in their local community. These groups were also equipped with preparedness measures of disaster risk along with awareness on governance accountability.

PROVINCIAL UPDATES - GANDAKI

Various Districts and Palikas of Gandaki Province: In leadership of the Ministry of Internal Affairs, Gandaki Province and with

31 August 2022

support from USAID/BHA and technical assistance IOM Nepal, DRRM Localization Training Manual training has been provided to more than 28 local bodies in August 2022. This 2-days intensive DRRM training has been provided as USAID's support to MoFAGA-GoN and implemented by LWF Nepal, Practical Action and consortium led by NSET. The focus of the training package includes understanding of disaster, disaster sensitive governance practices, enhancing resilience capacity of vulnerable communities, and structural build back better concepts including hazard/climate included disaster risk reduction. Highlights of NDRRMA's monsoon/fire induced disaster affected private housing reconstruction and rehabilitation grant procedural guidelines were also shared in the training. Rest of the local bodies will be covered up and continue with this training in upcoming days. In this training, intensive discussions and interactions are held on the issues of improving the understanding of disaster, mainstreaming disaster governance, enhancing the capacity of the marginalized and disaster affected community. Emphasis was given to inject knowledge and learnings on building a stronger, more sustainable and resilient structure than before, and to leave no one behind while planning for the development activities.

Various Palikas of Gandaki Province:

NHSRP Gandaki Provincial team successfully have conducted interactive orientation on NDRRMA's Fire/Monsoon-induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Procedural Guidelines, NDRRMA RMIS system orientation and using Kobo App tool in Waling Municipality, Vyas Municipality, Tanahun DAO, Bhimad Municipality, Bhimsen Thapa RM, Pokhara Metropolitan City and Arughat Municipality on August 2022. This one-day orientation was mainly participated by program staff, DRR Focal Person, Technical staff and IT person. Through the orientation, technical engineers and DRR focal person were oriented regarding the inspection annex collecting method. The Gandaki team has also continued its technical IT support to walk through the information management systems using the MIS system and creating user IDs. Technical staff and Disaster Focal Person mainly emphasized for orientation on building code procedures. The orientation in Tanahun DAO has influenced the decision on assigning 2 focal persons for monsoon reconstruction procedures, where one person will look after the verification and approval process while another one is assigned for the payment process which will ease the process covering more beneficiaries. During orientation in Arughat RM, discussions were directed to identify the disaster and hazard prone areas in the Palika and local to technical based mitigation solutions were also discussed.

PROVINCIAL UPDATES - LUMBINI

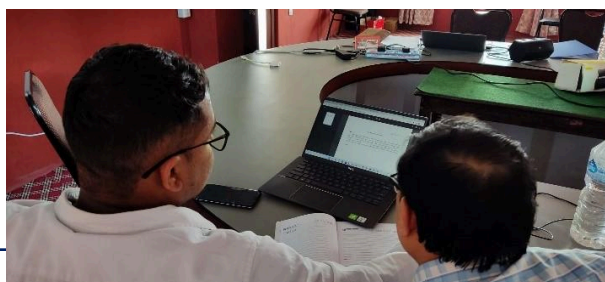

Palpa: Monsoon Preparedness and Response Plan 2079 of Palpa district has been finalized and approved in DDMC meeting on 31 July 2022. The meeting decided to maintain effective coordination among all concerned stakeholders to implement the respective responsibilities. During the meeting, NHSRP Lumbini Province team also shared brief highlights of Fire/ Monsoon-induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Procedures of NDRRMA and emphasized active involvement of all Palikas of the district to start enrollment process in NDRRMA' RMIS System. The meeting also decided that local levels will forward activities to collect the details and proceed with the process of monsoon-induced housing reconstruction of the affected people.

NHSRP Lumbini Provincial team have conducted coordination meeting in Bagnaskali Rural Municipality (on 2 Aug) and Tansen Municipality (on 3 Aug) regarding NDRRMA's Guideline on Fire and Monsoon-induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Procedure and its implementation procedures to the local chiefs. The meeting was attended by the Chief Administrative Officer, IT Officer and technical staff. Chair of Bagnaskali RM, Ms. Saraswoti Darlami Chidi has requested the NHSRP team to technically support in following the procedures of the guidelines. Similarly, Mayor of Tansen Municipality, Mr. Santosh Lal Shrestha forwarded discussion and requested technical support for identification of households at ward level affected by various natural disasters to provide shelter support under NDRRMA's enrollment process.

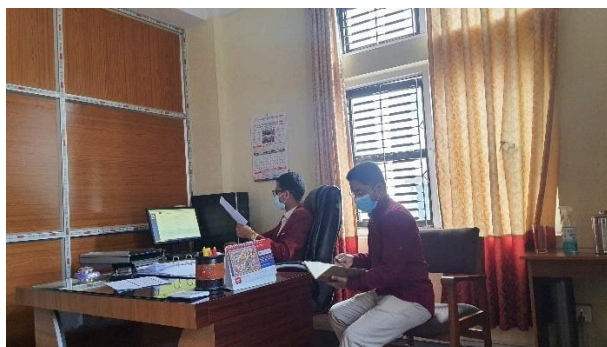

NHSRP Lumbini Province team has also completed orientation program at Tansen Municipality (on 17 Aug) and Ribdikot Rural Municipality (on 18 Aug) regarding NDRRMA RMIS, verification and approval process of fire & monsoon induced housing reconstruction process to Palika DRR Focal

Person, IT Officers and technical staff of all wards. Palika User ID was also created and walked through simultaneously. In Ribdikot RM, 'GAP Assessment Form 2022' was also completed and Palika-user ID was also created and tested simultaneously.

During the Municipality Executive Committee Meeting of Tansen Municipality, (on 21 Aug), NHSRP Team winded up discussions to build common understanding regarding Fire/Monsoon-induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Procedures. In line with the guideline, the discussion has highlighted the need to follow up with the technical staff of all wards of the municipality to conduct surveys and prepare the list of affected households by monsoon induced disaster.

Gulmi: NHSRP Lumbini Provincial team conducted a coordination meeting with Chief District Officer, Mr. Punya Bikram Poudel, District Administration Office, Gulmi district on 4 August. The focus of the discussion was based mainly on sharing highlights of NDRRMA's Fire/Monsoon Induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Procedures. DAO Gulmi informed the meeting regarding insufficient human resources and technical staff for implementing the housing reconstruction of disaster affected people as per the guideline. The meeting highlighted that since the source of all information lies in the local level, hence its recommendation should be in priority for the payment to the affected beneficiaries while grant management tasks should be assigned to local-municipal disaster management committees. Following the meeting, the NHSRP team supported the IT Officer of DAO Gulmi in disaster affected data entry related systems.

PROVINCIAL UPDATES - BAGMATI

Sindhupalchowk: NHSRP Bagmati Provincial team has continued support to Sindhupalchowk DAO in NDRRMA tranche disbursement for Monsoon Induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Procedures. In August, Sindhupalchowk DAO was supported with enrollment of 690 beneficiaries, among which tranche releases were successfully done for 562 beneficiaries. Similarly, a learning report of NHSRP's support to piloting initiatives of NDRRMA's Monsoon Induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Disbursement Procedures is underway to maintain future reference and replication process. Along with this, NHSRP Bagmati Province team has completed handover of its technical support task to Sindhupalchowk DAO for the continuity of the work in future days.

Makwanpur: The Bagmati Province level wider consultation meeting on the Draft Bagmati Province Shelter Cluster Contingency was held on 10 August 2022, at Hetauda, Makwanpur. The consultation meetings were attended by representatives from the Ministry of Social Development, Education Directorate and Ministry of Internal Affairs-Bagmati Province, NRCS, District Red Cross Makwanpur Chapter, Plan International Nepal, and Hetauda Sub Metropolitan City. The meeting was organized by the Bagmati Province Shelter Cluster, which is led by the Ministry of Physical Infrastructure and Development, with technical assistance from NHSRP.

Vulnerable Households Reconstruction Caseload Remaining (August 2022):

[Reconstruction and Retrofitting Information Pack](#)

This highlights the reconstruction and retrofitting progress in all 32 earthquake-affected districts at the municipal level. This data is updated by NHRP provincial staff in close coordination with municipal focal persons. The links will be automatically updated to provide the reconstruction snapshot (PDF) for the month.

[Municipal Dataset on Reconstruction](#)

[CSV, PDF](#)

A composite dataset for 282 municipalities (urban status, damage grade, reconstruction, retrofitting and vulnerable HHs as identified by NRA) can be assessed here as CSV and PDF. The dataset is updated by the municipalities with support from NHRP.
