

Meeting Minutes

Technical Working Group Meeting for Technical Training

Date: 3 May 2016, Tuesday

Time: 3 - 5 pm

Location: HRRP Office, Jwagal

Focal Point: Jeny Shrestha

Participant Organizations:

SDC, Build Change, Red R, Habitat for Humanity, EWB-USA, Handicap International, HRRP

Agenda

1. Update on Needs and Gaps in relation to Mason Training
2. Recommendations regarding Curricula harmonizing for various trainings and ToTs
3. Review/ Discussion on the Draft Samples for
 - Participants Selection Criteria
 - Pre and Post Training Skill Test
 - Training Evaluation form
 - Training reporting formats
 - Roster of Trained mason
4. Meeting agenda - Training TWG with NRA
5. AOB : Presentation from Handicap International regarding integration of accessibility and inclusion in Training curriculum

Discussion and decision

1. Update on Needs and Gaps in relation to Mason Training

- TWG members agreed that for reconstruction, it would require 1 trained mason per house, 1 supervisor per 10 houses and it would take around 2 months to build a 4 room structure
- Needs and Gaps assessment in relation to Mason Training further being worked out as per suggestions and to be shared among the TWG members within May 12 for review

2. Recommendations regarding Curricula harmonizing for various trainings and ToTs

Regarding the DUDBC 7 days skill enhancement training for Masons

- Comments received from Care Nepal, SDC, NRCS/ BRC, HELVETAS
- In addition to 7 days curriculum, a supplementary module or refresher course could be added to provide information about Alternative construction materials, technology and issues related to accessibility and inclusion
- It would be important to orient the masons about the supervision and inspection criteria during the reconstruction process.
- HRRP website could have a section on new construction technology being used in practice

3. Review/ Discussion on Draft Samples:

HRRP Training TWG had requested the Partner Organizations to provide the samples for Participant's Selection Criteria, Pre and Post Training Test materials, Training report format, Roster of Trained masons and Training Evaluation Form. With a view to harmonize these materials, sample formats were developed and discussed among the HRRP TWG members:

3.1 Participants' Selection Criteria

- Samples received from Build Change, CARE Nepal and NRCS/ British Red Cross
- Selection Criteria to have 3 major levels:
 1. Skill assessment
 2. Profile screening
 3. Practical experience test
- Discussion on the Draft – Participant selection Criteria:

- 1st screening : Skill assessment : Points 1, 9, 10, 11, and 12 (More critical)
- 2nd screening : Profile screening : Points 2, 4, 5 and 6
- 3rd screening: Practical skill testing as major selection criteria to support Point 3
- Points 7 and 8: Highly sensitive issues: suggested to drop them

3.2 Pre and Post Training Skill Test

- Samples received from Build Change and CARE Nepal
- Important to discuss whether the Pre-Test and Post Test questions should be same / different
- If there is an option to have a different set of questions for Pre-test and Post-test, then Pre-Test could include Skill assessment of the Participant, whereas Post-Test could include Assessment of their knowledge regarding earthquake resistant construction methodology
- Discussion on the Draft – Pre and Post Training Test:
 - Need to be clear about the construction technology in focus for the training
 - Point 2: Need to consider both depth and width of excavation
 - Point 6c : Important to have question regarding cement- sand- aggregate ratio; Water- cement ratio
 - Point 8: Need to include mud masonry and plaster

3.3 Training reporting formats

Discussion on the Draft – Training report format

- Point 6: Difficult to evaluate
- Point 7 and 8 can be combined

3.4 Training Evaluation Form

- While questionnaire would be a better means for Training evaluation, additional evaluation could be done through group discussion and verbal interaction as well
- Follow-up of Training activities could be a part of Technical Assistance

3.5 Roster of Trained mason

- Discussion on the Draft – Roster of Trained Mason - Approved
- Important for NRA Training section to maintain roster of trained mason

4. Meeting Agenda with NRA

- A meeting is planned with the officials from Training Section at NRA to discuss more on how HRRP could support NRA to address issues related to Training.
- Date and venue of the meeting to be finalized soon.

5. AOB :

- Presentation from Handicap International regarding integration of accessibility and inclusion in Training curriculum

Action Points

For the Partner Organizations:

- Provide feedbacks on the sample documents on Participants' Selection Criteria, Pre and Post Training Test Materials, Format for Roster of Trained masons

HRRP Team to compile all the comments and feedbacks

Next Meeting and Agenda

- The TWG members agreed that the TWG meeting would be held fortnightly
- Next meeting: **17th May, 2016**; 3 - 5 PM at HRRP
- Agenda to be shared later

Meeting Participants List/Attendance Sheet

Organization	Name	Designation	Contact No.	Email
HFHI	Prajwol Bajracharya	Architect	9801142031	prajwol.bajracharya@habitatnepal.org
HFHI	Shristi Bajracharya	Architect		shristi.bajracharya@habitatnepal.org
HFHI	Kishor Neupane	Const & Design Manager	9801142032	kishorneupane@habitatnepal.org
SDC	Ivan Vuarambon	Program Manager	9808588882	ivan.vuarambon@edu.admin.ch
EWB-USA	Rick Ehler	Structure engineer	9803367257	rick.ehler@ewb-usa.org
Build Change	Kuldeep Aryal	Activities Coordinator	9851138856	kuldeep@buildchange.org
RedR	Manish Mehta	Country Manager	9810172218	manishkumar@redrindia.org
Handicap International	Anima Dhakal	Accessibility Officer	9841742697	animadhakal@gmail.com
Handicap International	Sashank Uprety	Accessibility Officer	9843009487	Sashank1000@gmail.com
HRRP	Jeny Shrestha	Technical Officer	9841408545	jeny.shrestha@hrrpnepal.org
HRRP	Babar Tanwir	Hub Coordinator		babar@hrrpnepal.org

Attached for reference:

- ANNEX 1: Draft - Roster of trained mason
- ANNEX 2: Draft - Participant selection criteria
- ANNEX 3: Draft - Pre and post training Test
- ANNEX 4: Draft - Content Guideline for Training Report

ANNEX 1: DRAFT - Roster of trained mason

(Annex to the Training Report)

1. Training Organized by: *(Name of the PO)*
2. Trainer: *(Name of training institute/can also be the PO itself)*
3. Training location: name of the place, VDC/municipality and ward number, District
4. Curriculum:
 - 4.1 Main: *(eg., DUDBC,)*
 - 4.2 Additional: *(eg., PO, Bamboo)*
 - 4.3 Topics of additional curriculum:
5. Total Duration of the training: *(e.g., 9 days)*
 - 5.1 Main training: *(from - to) (training by Helvetas 7 days main training based on DUDBC curricula)*
 - 5.2 Additional training: *(from - to) (additional 2 days of Helvetas on.....)*
6. Details of the trained mason

S. No.	Name	Date of birth	Address (name of the place, VDC/municipality and ward number, District)	Contact Number	Previous training	Special/ additional skill	Qualification	Years of work experience	Grade obtained	Remarks

ANNEX 2: DRAFT - Participant selection criteria
(NRCS/BRC, Build Change, CARE Nepal)

(Annex to the Training Report)

A) Selection of Mason/Carpenter

- The selection criteria refer to “skill enhancement of practicing mason/carpenter”, therefore the applicant should have masonry/carpentry skill.
 - The screening of applicants may be carried out in consultation with the Ward Citizen Forum, VDC, Municipality, DDC, Division Office of DUDBC, NRA Sub-regional/District Offices
1. Age between 18 – 60 years: Yes/No
 2. Resident of the target ward- permanent resident/renter
 3. **Minimum experience: as a head mason /carpenter (1 year)/ as an assistant to head mason/carpenter (2 years): self-declaration/recommended list from WCF/VDC/Municipality/DDC**
 4. From earthquake affected family: (Priority)
 5. A female candidate: (Priority- what if she does not have prior experience as stated in 1?)
 6. From disadvantaged community: (Priority)
 7. Appear physically and mentally fit (judgment at the time of interview) Yes/No
 8. Show good moral character (judgment at the time of interview): Yes/No
 9. Be able to communicate orally and possess basic reading skills (ask to read a construction related paragraph): Yes/No
 10. Perform basic mathematical computation and mensuration (ask simple calculations): Yes/No
 11. Read drawing (show a drawing- plan, elevation, section and ask to interpret): Yes/No
 12. Read and understand basic instruction (ask to read some construction instructions and make interpretation): Yes/No

ANNEX 3: DRAFT Pre and post training Test
(for the selection of the applicant (score at least 40%) as well as for the evaluation of the trainee)
[CARE Nepal, Build Change]

1. Site selection- slope, swampy area, proximity to risks such as big trees, transmission line, water body,
2. Depth of excavation
3. Appropriate soil type
4. Knowledge about earthquake- cause, why and how to build earthquake resistant building
5. Appropriate shape of the building: various shapes (plan, elevation)
6. Building technology (for RCC; stone masonry- mud, cement; brick masonry- mud and cement; bamboo; other technologies):
 - Stirrups- shape and spacing
 - Cement sand mortar ratio and time period for its use
 - Concrete ratio and time period for its use
 - Size of column
 - Correct way of wall construction- stone, brick
 - Proper connection of timber joint
 - Bands
7. Quality of materials- mud, stone, timber, bamboo, brick, sand, steel, coarse aggregate
8. Curing of cement masonry, plaster and concrete works
9. Quality of workmanship:
 - selection and laying of stone, brick
 - preparation of mortar, concrete
 - water cement ratio
 - joints in timber construction
10. Other contextual aspects depending upon the training curriculum (main, additional and other technology)

Post training test also includes the observation of the skills of individual trainee by the trainer.

ANNEX 4: DRAFT Content Guideline for Training Report

1. General Introduction
 - Training on .. (topic of the training)
 - Training curricula, duration
 - Training location
 - Participants (number)
 - Training organized by, the training institute, trainer
 - Opening session
2. Objectives of the training
3. Methodology
4. Sessions: highlights of theoretical and practical sessions, discussions taken place
5. Orientation on Key messages, Supervision checklist, Inspection checklist, Procedures for successive tranches
6. Evaluation of the skill and knowledge of the participants
7. Evaluation of the training by the participants
8. Suggestions for improvement in the training content
9. Closing session (including certificate distribution)
10. Annex:
 - Participant selection criteria
 - Pre- test form
 - Training schedule
 - Presentation/orientation materials
 - Key messages
 - Supervision Checklist
 - Inspection Checklist
 - Procedures for successive tranches
 - Copy of attendance of participants
 - Roster of trained masons
 - Pictures of the class room and practical works
 - Post-test form
 - Sample certificate
 - Training evaluation form
