

District Report

Dolakha

2 - 8 February 2018

Activity Summary

Activity	Contact Person	Reference Document
Winterization Need Distribution: Christian Aid in collaboration with HRRP-Dolakha distributed blankets to the families of disabled, old aged and poor, who are living in temporary shelters. This was organized after getting requests from Bigu Rural Municipality. Distribution program was successfully conducted in the presence of the Bigu Rural Municipality chief, staff and other local people. Chief of ward no-06, Aalampu, thanked both the organizations for helping blankets.	Techcord.dolakha@hrrpnepal.org ravi@hrrpnepal.org	Photo 1 Photo 2
Field Visit to Shelter Project Site of Christian Aid: Christian Aid has been supporting Aalampu and Chilankha in the permanent shelter construction. The target for Aalampu is 46 HHs and in Chilankha is 54 HHs. Since, the blanket distribution was scheduled in Aalampu in the same time shelter construction was observed. During the observation construction quality was good as the earthquake resistant components were properly provided. People were seen satisfied with the support provided by Christian Aid. - HRRP is working in determining the current reconstruction rate of Dolakha.

Field Visit Reports

Date	Location	Participants
5/2/2018	Aalampu, Ward-06, Bigu Rural Municipality	• Binod Kalauni • Amit Chakrawarty
Objective(s)	• Winterization Need Distribution • Shelter Project Site Visit • Meeting with ward representatives	
Summary	Christian Aid in close collaboration with HRRP-Dolakha distributed blankets to those people who are disabled, old aged and poor and who are still living in temporary shelter. Each family received two blankets. The distribution program was conducted in front of the ward office of 06, Bigu Rural Municipality. President of ward and many other local people were present during the distribution of blankets. This winterization need was coordinated by HRRP-Dolakha after getting requests from Bigu Rural Municipality. President of Aalampu, thanked HRRP and Christian Aid for the support. People were seen very much happy after receiving blankets.  The Shelter project site of Christian Aid was visited during the winterization need distribution as the program was in the same ward. During the visit few sample houses were visited where construction was in progress. Construction on the site from locally trained mason was quite fascinating to see. Mostly, Stone in mud mortar with flexible roof typology was seen in the vicinity where we visited. The confidence level was seen high in masons in the construction of permanent shelters.  Meeting with the ward representative was conducted to know the reconstruction status of the Aalampu and the challenges that Aalampu is facing in achieving expected reconstruction progress. Mr. Padam Thami, Chief of Aalampu, ward no-6 of the Bigu Rural Municipality shared that nearly 400 permanent shelters are in construction phase out of 599 identified beneficiaries which is quite a good rate compared to other, he said. Furthermore, in his knowledge nearly 10 to 15 families are such that they would not be able to construct their shelter since, they are single in the family with no income source. Therefore, he requested if there are such	

organizations who could help such poor and single families that would be helpful for the ward. He further informed that material rates have been increased in last month which is also hindering reconstruction. During the meeting material rates were noted which is as:
Stone = 1 cubic meter = Rs 4000, Cement = 1 bag = Rs 1600 before one and half month it was Rs 1300, Sand = 1 cubic meter = Rs 5000
Rebar = 1 kg = Rs 105 = before one and half month it was Rs 82, Gravel = 1 cubic meter = Rs 5000
(All the costs are including transportation costs)

Challenges / Issues Identified	Action Required	Responsible	Timeframe
Mason are not sufficient	More mason training is required	NRA and POs	
Rise in the cost of construction material	Market monitoring is required	NRA	
Grievance addressing should be fast	Effective coordination with concern agencies	NRA	

Housing Typology Report
