News & Updates

- “Interaction program on school Reconstruction within palika and its status” was organized by Transparency International- Dhading on 3rd September 2018 at Siddhalekh rural municipality.

Photo: Participants at the interaction program

The program was focused on the status of school reconstruction within Siddhalekh rural municipality. The participants were school principals, school reconstruction committee members, palika mayor, HRRP and DLPIU-Education engineer.

Following were some of the main concerns raised by the participants:

- No specific school designs have been formulated by DLPIU-Education for reconstruction. Some of the schools have been built as per the minimum requirement of donors and I/NGOs.
- It has been a long-time period since Indian Embassy has occupied major school reconstruction within palika. Thus, participants would like to request DLPIU-Education and palika office to coordinate it as soon as possible for smooth reconstruction of schools.

Participants mentioned that teachers and students have to stay and teach or learn at an unsafe school building unwilling as the reconstruction of school has not yet started by the donors.

Field Visit

Visit 1

3, 4 & 5 October, 2018	Nilkhantha Urban Municipality and Siddhalekh RM, ward no.: 5.	• Prabin Gautam (HRRP-DC) • Laxmi Shrestha (M&E-GMaLI) • Hariram Pathak (NSET)
------------------------	---	--

Objective(s)

- Observe and know the status of reconstruction.
- To disseminate information related with non-beneficiary list of Nilkhantha urban municipality.
- Conduct field visit at wards of municipality.
- Conduct ward level meeting.

Summary

On 3rd October, the field visit was conducted at Siddhalekh rural municipality ward no.: 5. A close informal meeting was conducted with the ward chief Mr. Dil Bahadur Ghale. As per ward chief, bank has been still not serving beneficiaries as per the instruction of NRA. It has created delay in payment and beneficiaries are being biased. Most of the beneficiaries within the ward has to walk long distance to reach to bank. They spent hours or a day to receive the grant amount form bank.

The grievance registration process must be stopped once the actual victims are identified and registered as beneficiaries.

Similarly, at Nilkhantha-10(Nayagaun), the reconstruction of the community had been completed due to the direct technical support from NSET through door to door technical assistance and mobile clinic.

The field visit was conducted at Nilkhantha ward number – 8 on 5th October.

Photo: Nilkhantha urban municipality ward office – 8

A general meeting was held at ward office with GMaLI-M&E, HRRP and ward chief Mr. Guna Bahadur Thapaliya. As per the ward chief, most of the beneficiaries at the ward were not counted and registered properly. Still some of the most victims are still left behind.

Field Visit

Visit 2

10, 11 & 12 October, 2018	Nilkhantha Urban Municipality, Budhigandaki Hydro Power Project office - Benighat and Siddhalekh Rural Municipality.	• Prabin Gautam (HRRP-DC) • Bhagwati Khad (SM Specialist - GMAII) • Sandesh Pokhrel (Env-GMAII) • Sachin Sapkota (HRRP-DTC)
--------------------------------------	---	--

Objective(s)	• To disseminate information ward level interaction program of GMAII. • Observe and know the status of reconstruction. • Conduct field visit at respective wards.
---------------------	---

Summary	On 10th October, the field visit was conducted at Nilkhantha ward no.: 4. Private houses reconstruction was seen at a high rate. Most of the beneficiaries have received at least 2nd tranche of government grant. The needs of the beneficiaries like technical support with material availability was accessible at the community. People seem to adopt earthquake resistant techniques and practices learnt from orientations through different organizations. NSET-Baliyo Ghar has provided mason training to the local community for construction of earthquake resilience houses at the locality. One of the major outcome of such training was people get to know few new techniques and can wide spread such good practices with each other. One of the beneficiary of Nilkhantha urban municipality ward number - 4 Mr. Kul Bahadur Basnet has received all the tranches of government grant. He has 3 members within the family. He had completed the construction of house, but his house was again damaged by a fallen tree trunk which was nearby. Due to such incident his house's front side CGI-sheet is completely damaged while no harm was marked within the building.

On 11th October, single women and elderly people interaction program was conducted at Nilkhantha ward number-1 in close coordination with TI-Nepal. The discussion was focused on issues and challenges of elderly people and single women within the community.

Photo: Interaction program with single women and elderly people regarding immerging issues and challenges of them.

The participants of the program were ward chief, single women, elderly people, TI-Nepal and HRRP. Some of the major concerns raised by the participants were:

- Regular absence of NRA engineers for technical support and inspections at the locality.
- High rate of labor cost (both skilled and unskilled)
- Scarcity of water within the community
- No sufficient availability of skilled and unskilled masons.
- Frequent delay and time consuming in payment of government grant from banks

Other issues were like being a single women and elderly people, they were not supported financially even for a borrow of small amount. No one believed them that they can return amounts taken on time.

On 12th October, the field visit was conducted at Benighat-Rorang rural municipality. The visit was focused on the list of beneficiaries who were affected by Budhigandaki hydro power project.

Housing Typology Report

Name: - Min Bd. Bada
Location: - Nilkhantha – 8 (Jyamrung VDC)
He has received all tranches of government grants.

Name: - Tanka Man Shakya
Location: - Nilkhantha – 10 (Naya Basti)

He was supported by OXFAM (IP: Action Nepal) to build earthquake resilience house. OXFAM has locally produced CSEB bricks with involvement of Kumal community.
The housing grant support was completely provided by OXFAM.

Questions Collected

Question	Who Asked the Question?	Response Provided (By Whom)
For how long do we need to record grievance registration from ward office? Isn't its time to stop this process? Has NRA formulated any guidelines on this regard?	Ward leader – Siddhalekh RM, Ward no.: - 5.	GMaLI – NRA may instruct on this regard very soon. The previously registered grievances are being resolved and we are also waiting for further instructions from NRA.

Case Story

Siddhalekh rural municipality, ward no.: 5

One of the beneficiary at Siddhalekh rural municipality had built “L” shaped house. The house was constructed as per the need of his family while the NRA design catalog did not allow any government grant for such houses. L-shaped houses are unsafe and NRA engineers do not recommend it for any further processing for receiving government grant.

In order to receive government grant, he decided to build a new house. He consulted with the NRA engineer and they suggested to build another one which is as per the NRA design catalog. The beneficiary had already spent much of his effort and money at previous house, so he constructed single-roomed house keeping all earthquake resistance components in the building. Finally, he received 2nd tranche of government grant and has been processed for 3rd tranche.

Thus, in lack of proper guidance the beneficiary had to construct two separate houses to receive government grant support.
