- IV. **Launching E-Learning of Disability-Inclusive Disaster Risk Reduction (DiDRR)**

NATIONAL UPDATES

Government establishes monsoon centric command post

The National Emergency Operation Centre (NEOC) of the Ministry of Home Affairs (MoHA) has established a central command post for monsoon preparedness and response targeting this monsoon season. The command post will remain operational from the beginning of monsoon periods to the end of the monsoon. The central command post will now handle various preparation and precaution measures for the prevention, relief, and rescue of events to be caused by this season's monsoon round the clock. The command post will be headed by the Joint Secretary and the Chief of the Disaster and Conflict Management Division at the Home Ministry for preparations and response teams will be deployed during the monsoon season. The central command post was established as per a decision made by the MoHA on May 30 in the presence of Deputy Prime Minister and Minister for Home Affairs, Rabi Lamichhane.

Similarly, the 23rd meeting of the Executive Committee chaired by DPM Rabi Lamichhane held on 3rd June also endorsed the 'National Action Plan for Monsoon Preparedness and Response-2081' and took it up for implementation with necessary amendments. After the endorsement of MPRP 2081, NDRRMA shared MPRP 2081 with representatives of political parties during a consultation held on 6th June at MoHA and collected feedback on the ongoing monsoon preparedness and response processes of the government. Several provincial governments have also approved Provincial MPRP.

According to NDRRMA, the command post undertakes some major tasks like effective implementation of the preparedness and response plans based on impact assessments by obtaining weather forecast

information on disaster events from across the country and immediately informing relevant officials from concerned agencies for prompt response. The command post should also coordinate with inter-ministerial and relevant agencies for response as needed, act as a centralized unit to address public grievances related to disasters and instant update and enter details of search and rescue materials from various warehouses across the country into the disaster portal.

Settlements at high risk of landslides across all seven provinces of the country

The NDRRMA has identified settlements at high risk of landslides in all seven provinces. Six settlements have been identified as high risk of landslides in the Koshi Province. In Taplejung, two settlements in Maiwakhola Rural Municipality, seven settlements in Sidingwa Rural Municipality, six settlements in Phalgunanda Rural Municipality in Panchthar, one settlement in Miklajung Rural Municipality, and two settlements in Tumbewa Rural Municipality have been pointed out by the Authority as being at high risk. Similarly, one settlement in Okhaldhunga in Koshi Province also needs to be relocated. Scores of vehicles to and from hilly areas were stranded for hours due to the transportation disruption in many locations with local traffic units working out for one-way traffic resume after several hours.

Under Bagmati Province, seven settlements in Tamakoshi Rural Municipality in Dolakha, some settlements in Bigu, Gaurishankar, and Kalinchowk Rural Municipalities have been identified as risk-prone. Four settlements in Tripurasundari Rural Municipality in Sindhupalchok, thirty-one settlements in Barhabise Municipality in Sindhupalchok, some settlements in Bhotekoshi Rural Municipality, and one settlement in Balefi Rural Municipality are at risk, according to the Authority. In Rasuwa, nine settlements in Naukunda Rural Municipality, and one settlement in Tarkeshwar Municipality in Kathmandu have been identified as vulnerable. In Gandaki, two settlements in Chumanuwri Rural Municipality in Gorkha, and some settlements in Arughat Rural Municipality have been identified as risk-prone.

In Parbat, one settlement with eight houses in Jaljala Rural Municipality, and five settlements in Mangala Rural Municipality in Myagdi are at risk. One settlement each in Bhimad Rural Municipality and Byas Municipality in Tanahun have been identified as risk-prone. In Lumbini Province, one settlement in Nisdi Rural Municipality in Palpa is at risk. In Karnali, 200 settlements in seven municipalities affected by the earthquake in Jajarkot have been identified as vulnerable. In Rukum West, 130 settlements are also identified as risk-prone. In Sudurpaschim Province, eight settlements in Alital in Dadeldhura and one settlement in Jagannath Rural Municipality are at risk. Among these, it is mentioned that cracks where water might enter and places prone to landslides should be sealed before the rains in coordination with local levels. It is also suggested to link this work with the Prime Minister's Employment Programme. Detail news source: [Govt. strives towards enhancing disaster preparedness-identifies high risk areas](#)

Monsoon triggered disasters causing havoc in several districts of Nepal

Monsoon rains have caused widespread havoc in several hill districts in recent days, with floods and landslides claiming lives. Authorized news from sources claims that landslides swept away three houses overnight in Lamjung district, about 125 km (80 miles) west of Kathmandu, killing four people including two children. In Morang district about 500 km (310 miles) southeast of the Nepali capital, flooding has taken the lives of four people since Tuesday. Another three died in landslides in Kaski in the west and Okhaldhunga in east Nepal. One person was killed and two other workers were injured in a landslide that occurred at the Arun III Hydropower Project site on 25th June. Hundreds of people in the eastern part of Taplejung district have been affected following heavy rainfall triggered by the landslide of 21st June, that claimed the lives of four people in ward 2 of Phaktanglung Rural Municipality. According to the locals, the incessant rainfall has posed a serious threat to the residents of Sirijangha Rural Municipality-6 and Yamphudin village settlement. Over a dozen homes across the district have been considered at high risk, as landslides, occurring from both back and front of the houses, have sandwiched most buildings.

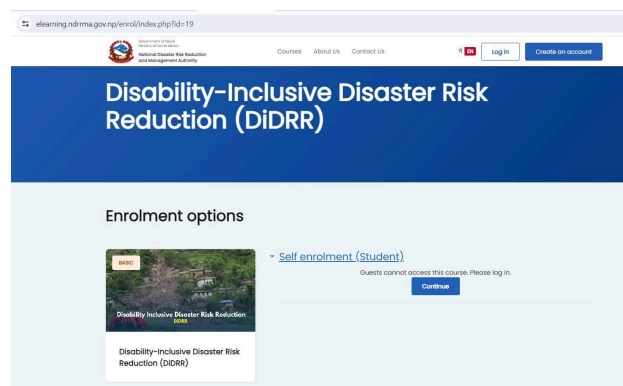

The Armed Police Force personnels have been deployed in landslide affected areas to provide much needed assistance and safety. However, the personnels are facing difficulties reaching the high risk areas as mud mounds from landslides have obstructed roads across the district. Hundreds of people are killed every year in floods and landslides, which are common in mostly mountainous Nepal during the monsoon season from mid-June to mid-September. Launching E-Learning of Disability-Inclusive Disaster Risk Reduction (DiDRR)

The online self-learning (e-learning) tool on Disability-Inclusive Disaster Risk Reduction (DiDRR) was launched in Kathmandu on 27th June. This self-study material will be useful for persons with disabilities as well as policy makers and practitioners. This study material helps citizens with disabilities to be alert and

aware for preparedness, response and rehabilitation. For the past few months, Youth Innovation Lab (YI-Lab) has been working closely with NDRRMA and UNESCAP to develop an online e-learning tool on DiDRR. On 20th June, a stakeholder meeting with representatives from various Organizations for Persons with Disabilities (OPDs), government departments, and other advocates was conducted to collect the feedback on the E-learning tool. The productive discussion yielded valuable feedback and suggestions to enhance the DiDRR e-learning course, making it more accessible for all. Introductory courses on disaster risk reduction and management, gender equality in disaster risk reduction and management, disability and social inclusion, landslide, flood and forest fire risk reduction and management are available on this website. Detail E-learning is accessible on: <https://elearning.ndrrma.gov.np/enrol/index.php?id=19>

PARTNERS' UPDATES

Interaction over draft monsoon preparedness and response plan of Jajarkot district

The Nepal Red Cross Society (NRCS), Jajarkot chapter organized the interactive workshop on Monsoon Preparedness and Response Plan in Jajarkot on 25th June, that was graced by key figures such as the Acting Chief District Officer, local government officials, the Mayor of Bheri Municipality and Shiwalaya RM, the Vice Chair of Kushe RM, representatives from the Nepal Red Cross Society, District Security Units, and various development partner organizations active in the district. The NHSRP team provided valuable insights on the National Monsoon Preparedness and Response Plan (MPRP) and a geo-hazard report by NDRRMA. Participants thoroughly discussed the draft MPRP for Jajarkot district and will finalize it based on the productive discussions, with the NHSRP Karnali team facilitating and coordinating for the finalization. For more information: rijan.gajurel@hrrpnepal.org

Support to operate the District Emergency Operations Center in Jajarkot

Habitat for Humanity Nepal has provided crucial support to the District Emergency Operations Center (DEOC) in Jajarkot by providing essential equipment. This support was officially handed over on 6th June, in the presence of the Chief District Officer of Jajarkot district. The initiative was closely coordinated with the NHSRP Jajarkot team to effectively address the specific needs of the DEOC. This aid follows the devastating earthquake on November 3rd, which resulted in over 100 casualties and affected more than 42,000 households. The newly provided equipment aims to enhance the DEOC's

response capabilities, improve preparedness, and ensure better coordination during future emergencies, thus contributing to the district's overall resilience. For more information: rbasnet@habitatnepal.org

Strengthening disaster resilience program with local government

IOM collaborates with Gurbhakot Municipality to strengthen Disaster Resilience through SIKAI Project. Disaster Preparedness & Response Plan formulation is in process through a technical working group led by Gurbhakot Municipality in partnership with IOM Nepal, People in Need Nepal and LI-BIRD ko Chautari. With the support of USAID Nepal and USAID's Bureau for Humanitarian Assistance, IOM is working towards a safer and more resilient community. SIKAI Project aims to strengthen disaster risk governance in the two selected provinces as guided by the Constitution and the National Disaster Risk Reduction and Management Act. The project further contributes to the Government of Nepal's efforts towards achieving the Sustainable Development Goals and the Sendai Framework for Disaster Risk Reduction 2015-2030 and to the broader goal of building a resilient nation and in the context of changing climate. For more information: ruthapa@iom.int

Learning exchange workshop on Emergency Response, Forecast-Based Action and Shock Responsive Social Protection

People in Need Nepal conducted a learning exchange workshop on Emergency Response, Forecast-Based Action and Shock Responsive Social Protection (FbA-SRSP) in Nepal organized under 'Civil Society Now' supported by EU Civil Protection & Humanitarian Aid. The program saw the active participation of representatives of Civil Society Organizations (CSOs) and Civil Society Actors (CSAs) from Bagmati Province to advance early action and response efforts.

The workshop highlights includes – i) Emergency Response and FbA-SRSP: Overview, current status, locally led best practices, and the way forward in early action; ii) Mainstreaming Protection and GEDSI in Disaster Risk Reduction (DRR): Integrating gender equality, disability, and social inclusion; iii) Sharing Lessons and Good Practices: Exchange of experiences and best practices in FbA-SRSP; iv) Roles and Actions of CSOs and CSAs in Grassroots DRR: Identifying key actions to implement during this monsoon season. For detail information: astha.pradhanang@peopleinneed.net

Piloting loss and damage assessment and systems for climate-induced hazards

The research project, funded by the Innovation Fund with partners Youth Innovation Lab (YI-Lab), DanChurchAid Nepal, Kamaiya Mahila Jagaran Samaj (KMJS) and SOSEC Nepal, conducted an interaction program. The project will assess flood hazards in Gulariya, Bardiya, and drought hazards in Dullu, Dailekh, aiming to develop a demonstration platform for quantifying and showcasing non-economic loss and damage (NELD) on the Bipad platform. The project involves coordination with national and local governments for technical inputs, research dissemination, and policy uptake. During the event, participants formed groups to identify gaps in existing incident reporting mechanisms, policies, plans, and guidelines, proposing revisions and new ideas for loss and damage assessments emphasizing the need for sensitivity in setting indicators, and considering socio-cultural factors. For more information: pradip@youthinnovationlab.org

NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM SUDURPASCHIM

Workshop on Monsoon Preparedness and Response and Fire-Induced Disaster Risk Reduction conducted successfully at Dhangadi, Sudurpaschim province, dated 27th June, hosted by NDRRMA. The event was chaired by Joint Secretary Komal Prasad Dhamala of NDRRMA, with Sushil Baidhya, Secretary of MoIAL Sudurpashim, as the Chief Guest. During the technical session, the DRR Focal Person of MoIAL Sudurpashim shared the status of the Monsoon Preparedness and Response Plan (MPRP). Under Secretary of NDRRMA, Sundar Prasad Sharma presented information on fire status and outcomes in Nepal, highlighting the severe impact of fire incidents. Participants provided inputs on enhancing volunteer mobilization, improving data collection, and fostering stakeholders collaboration for mitigating the impacts of monsoon and fire-induced disasters. Conducting the public awareness and sensitization along with proper resource allocation and capacity building suggested by participants

during the interaction program. The NHSRP Sudurpaschim team lent the extended technical support in conducting the workshop.

Capacity building training on localizing the Bipad Portal was conducted successfully in Rajapur Municipality and Geruwa Rural Municipality (Bardiya) on 14th June. Mainly the program aimed to orient the members of Local Emergency Operation Center (LEOC) on Bipad Portal, DRR Portal and digitizing the Vulnerability and Capacity Assessment data under the project Surakshit Awash by United Youth Community Nepal (UNYC) and technical support of Habitat for Humanity Nepal and Rajapur Municipality. The NHSRP Sudurpaschim team facilitated a session on NDRRMA's Reconstruction MIS tool, along with coverage of key insights of Reconstruction Guidelines, Bipad survey apps, and beneficiary verification for grant distribution. The participants included the teams from LEOC, Local Disaster management Committee, Community Disaster Management Committee, along with various municipal personnels such as IT staff, DRR staff, technical staff, and administrators.

UPDATES FROM KARNALI

One day training and orientation session held by the NHSRP Karnali Provincial Team in local bodies of Aathbiskot, Sanibheri and Triveni (Rukum West) from June 25-27. The session focused on localization of NDRRMA's temporary shelter construction guidelines along with Bipad portal for grant disbursement transactions. The insights on disaster affected housing reconstruction procedures were also imparted to the local stakeholders. Additionally, the sessions highlighted the importance of establishing Local Emergency Operation Centers (LEOC), forming and functioning Local Disaster Management Committees (LDMC) and Ward Disaster Management Committees (WDMC), and building by-laws. The Chairperson of each Palika inaugurated the sessions, with participants including the Vice-Chairperson, Chief Administrative Officer (CAO), all ward chairpersons, executive committee members, security units, Palika officials, and representatives from partner organizations. A total of 106 trainees attended, including 27 females.

Orientation session on NDRRMA's Reconstruction MIS conducted in Khatyad Rural Municipality (Mugu), Kalikot District Administration Office (DAO) also covered key insights of NDRRMA's Reconstruction Guidelines, including the login process, features, uploading vital documents, and verifying beneficiaries for grant distribution. The NHSRP Karnali team facilitated the sessions. In Khatyad RM, the session was attended by the Vice-Chair of Palikas, CAO, DRR focal person, IT and technical staff, and some enrolled beneficiaries. In Kalikot DAO, participants included the Bipad focal person and IT officer. Brief orientation was also conducted for DDMC members of Mugu covering the NDRRMA's Monsoon/Fire induced Reconstruction Procedures.

Coordination meetings conducted in Chhayanth Rara Municipality (Mugu)

discussed disaster affected housing issues including beneficiaries survey, verification, and tranche release process for private housing affected by monsoon and fire. The meeting facilitated by the NHSRP Karnali team was attended by Chief Administrative Officer (CAO) of Chhayanth Rara and DRR focal person to discuss several critical issues. The meeting advised forming a committee to perform field verification and decide on enlisting beneficiaries for enrollment. The team also attended the DDMC Meeting in Mugu, which mainly conducted a final review of the MPRP 2081. The NHSRP team provided suggestions and committed to supporting the documentation of all incidents in the MPRP. Additionally, the NHSRP team also held a coordination meeting with the Chief District Officer (CDO) of Kalikot to discuss the progress of the monsoon and fire beneficiary survey, tranche status, and other related topics at district level. The team also conducted field visits to several fire-affected houses in Chhayanth Rara with the DAO focal person that shared Fire Guidelines, enrollment process and tranche disbursement to the affected beneficiaries.

UPDATES FROM LUMBINI

Localization workshop on GEDSI successfully conducted at Rapti Rural Municipality (Dang) on 2nd June. Participants included members of the municipal executive committee, disaster and gender focal person, elder people committee, women's group, dalit committee, and youth groups. NHSRP Lumbini facilitated and technically supported the event.

An executive committee meeting in Lumbini primarily focused on provincial MPRP 2081 convened by the Ministry of Internal Affairs and Law (MoIAL) with a presentation by the Department of Hydrology and Metrology- Dang. Secretaries from all ministries and chiefs of security units, along with representatives of organizations working at the province level attended the meeting. Each ministry secretary shared their respective plans during the discussions.

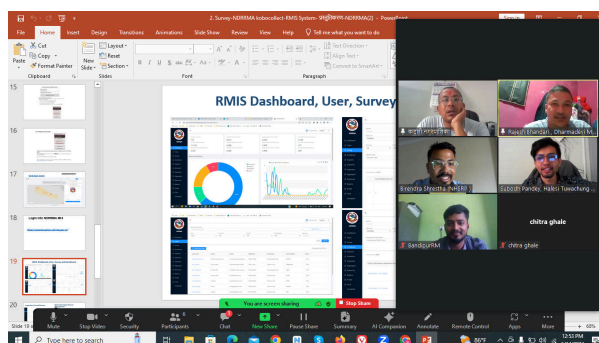

An interaction and sensitization program on Monsoon Preparedness and Fire-induced Hazards has been successfully completed at Lumbini Province organized by NDRRMA and MoIAL Lumbini Province, on 24th June. The program was facilitated by GEDSI Expert from NDRRMA and NHSRP Lumbini team provided coordination support to organize the program.

UPDATES FROM GANDAKI

A virtual orientation on NDRRMA's Monsoon and Fire Reconstruction Guidelines, Tranche Disbursement, Technical Inspection, and Reconstruction MIS (RMIS) was conducted on June 14th for three local governments including Malika, Bandipur and Kwhola Sothar Rural Municipalities (Gandaki province) and Dharmadevi, Halesi and Katari Municipalities of Koshi Province. The virtual program was attended actively by personnels from DRR, IT and technical sections of the respective local governments. Participants were given comprehensive

instructions on how to utilize the RMIS for effective management and monitoring of reconstruction activities. The discussions in the session provided a way forward for commencement of survey regarding monsoon/fire-induced disaster affected private houses.

UPDATES FROM BAGMATI

A three-day provincial-level simulation on earthquake and fire fighting was organized successfully from 5th to 7th June 2024 by MoIAL Bagmati province in Hetauda. On the first day, subject matter experts led discussions to provide a foundational understanding of earthquake and fire and effective response. The second day featured a tabletop exercise that simulated an earthquake and its consequent impact, allowing participants to engage in strategic planning and problem-solving scenarios as per incidents. The final day included a practical demonstration of Collapsed Structure Search and Rescue (CSSR) and firefighting techniques in the fire hazard. The main stakeholders involved in the simulation included all security agencies, various government bodies, and non-governmental organizations such as the Red Cross and Nepal Scouts. The NHSRP Bagmati team coordinated the event as the Team leader of HCT/OSOCC (Humanitarian Control team and On-Site Operations and Coordination Centre).

Sharing of key highlights of NDRRMA's Monsoon Preparedness and Response Plan 2081 was done at a program related to the Province level Climate Application Forum. The NHSRP team presented key highlights from the Plan that elaborates the role of NHSRP envisioned specifically for information management and dissemination. The program was conducted by MoIAL Bagmati in Hetauda.

UPDATES FROM MADHESH

One-day workshop on the Monsoon Preparedness and Response Plan (MPRP) successfully organized by the Ministry of Home, Communication, and Law (MoHCL) of Madhesh Province on 18th June, in cooperation with NHSRP, Habitat for Humanity Nepal, DPNet Nepal, Community Development & Advocacy Forum Nepal (CDAFN), -and the NRCS - Dhanusha. The Province Secretary of MoHCL

chaired the workshop, which was attended by the Honorable Chief Minister of Madhesh Province and the Mayor of Janakpur Sub Metropolitan City as the Chief Guest and Special Guest, respectively. Participants included members of the Province Policy and Planning Commission, representatives from NDRRMA and DHM, security agencies, ministry secretaries, focal persons, representatives of partner organizations, and other concerned DRRM stakeholders. Dr. Dijan Bhattarai, Under-Secretary and Spokesperson of NDRRMA, presented on the National MPRP 2081, and Meen Kumar Aryal, Senior Division Meteorologist of DHM, presented the Monsoon Outlook for 2024. Participants provided overall inputs, and the NHSRP Madhesh team assisted in drafting the MPRP 2081 for Madhesh Province, extracting necessary data from the NDRRMA's Bipad Portal and incorporating feedback for the final draft.

Approval of Madhesh Province MPRP 2081 was approved by the Provincial Disaster Management Executive Committee (PDMC) meeting held on 27th June, under leadership of Ministry of Home Affairs, Communication and Law (MoHCL), Madhesh province. The PDMC meeting was chaired by Hon. Minister of MoHCL, Madhesh province, Bimala Ansari. The members of PDMC and representatives of UN agencies, along with representatives of partner organizations such as Habitat for Humanity Nepal, NHSRP and others attended the meeting. The decisions taken in the PDMC meeting were approval of Madhesh Province Monsoon Preparedness and Response Plan (MPRP) 2081; to deposit the approved province disaster management relief fund of fiscal year 2080/81 to province disaster management fund; providing relief to fire affected households in different districts of Madhesh province; and to request DDMC and LDMC to have their MPRP ready keeping in mind upcoming monsoon.

UPDATES FROM KOSHI

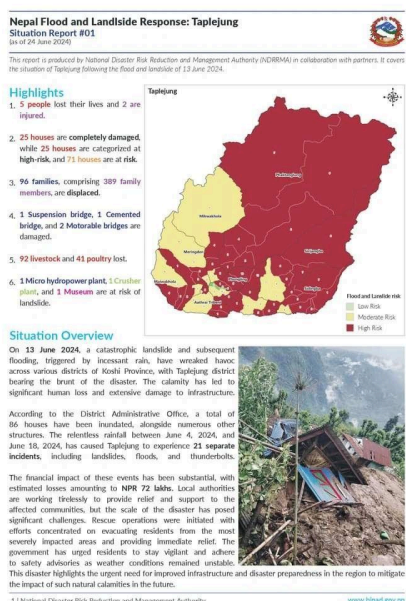

Endorsement of the Provincial Monsoon Preparedness and Response Plan 2081

was done by the Provincial Level Disaster Management Council of Koshi Province on June 20th. The Council also reviewed accomplishments in disaster-related initiatives from various stakeholders, including governments and partner organizations. During the session, the Ministry of Internal Affairs and Law (MoIAL) of Koshi Province presented an overview of progress in disaster-related efforts at the

provincial level. The NHSRP Koshi team collaborated with partner organizations in Koshi Province to integrate their contributions into the Plan.
