3. Collection of Typologies of Houses

Summary

Joint visit was conducted by HRRP Okhaldhunga along with NRA-CLPIU M&E (Kiran Kumar Mahat), DSE (Prakash Paudel). The field visit gave an opportunity to NRA-CLPIU/DLPIU and HRRP to observe, supervise and monitor ongoing construction of Houses (Compliance & Non-Compliance houses) at wards 1,2,3 &5 of Chishankhugadhi Rural Municipality.

Almost houses of Chisankhugadhi Rural Municipality have been constructed with stone in mud masonry. in the ward 1,2,3, and 5 of their palika the reconstruction status is on saturation state no more house been constructed. As field engineers told us due to delay in grievance response beneficiaries were confused to construct the house.

Some of the Key points that made compliant houses in the Molung Rural Municipality and Chisankhugadhi Rural Municipality

1. Availability of trained mason in every ward of palika.
2. Awareness of beneficiaries about the earthquake resilient housing construction.
3. Use of local materials for the reconstruction (timber, stone, mud, aggregate etc.)
4. Good technical assistance of DLPIU Engineers, but due to the strike and exam schedule most of the technical person were absent at field during the joint monitoring.

As per the ward leader no any beneficiary is interested fir retrofitting but rather they want to go in fully damaged category and construct their new building

Some of the beneficiary who were left in the initial survey and waiting for the next survey and still the ward leaders are not sure about the resurvey.

Challenges / Issues Identified	Action Required	Responsible	Timeframe
no one wants retrofitting in ward no 1,2,3 and 5 of Chishankhu Gadhi rural municipality rather they want to do new construction	Transfer those beneficiaries to Reconstruction	GMaLI	ASAP
Some Beneficiary are not getting tranches due to mistake of PA number	Correction should be done	GMaLI	ASAP
Large number of beneficiaries were waiting for the resurvey	Survey should be conducted	GMaLI,DLPIU Building	ASAP

Challenges and Way Forward

Challenge	Way Forward
Most of the Houses which were built before the arrival of NRA Guidelines and technicians in the wards are non-compliant and those beneficiaries are not ready for correction and they want their tranches.	They should be provided extra amounts for the correction from the governments. Either they should be provided trained manpower for the correction from the Gov.
