Name of Activity	Orientation Program		
Program Name:	Orientation program on “Building Code Implementation at Local Level”.		
Location	Godawari Municipality		
Date	22 nd January, 2021		
Organizer	1. Godawari Municipality		
	2. HRRP		
Targeted Groups	Technical Personnels of Planning and Building Permit Section of Godawari Municipality at initial level		
Number of participants	Male	Female	Total
	17	8	25
Resource Persons from HRRP	Deepak Saud, DMT Technical Coordinator/ Laxmi Prasad Bhatta, National Technical Officer		
Counterpart Coordinator	Ambika Amatya, Hub Team Coordinator		Contact No. 9841356409
Program Brief	Orientation on Building Code Implementation (BCI) was conducted at Godawari Municipality for technical points (Engineers, Sub-Engineers and Field Technicians) of Planning and Building Permit Section. There were nearly 22 technical participants. HRRP Lalitpur Cluster and DMT Technical Coordinators shared the technical highlights and knows hows of Building Code Implementation at Palika level. The main purpose of conducting BCI orientation was to instil key technical know hows of Building Code Permit and Implementation Processes (strategies to be adopted by Palikas) among technical personnels of Godawari Municipality. Godawari Municipality did not have separate building bylaws, The Palika office has been the following the general bylaws issued from federal government. Majority of area coverage of Godawari Municipality is located in rural ward areas which makes it difficult to follow building bylaws by residents. The residents of urban ward areas of Godawari Municipality donot follow the building bylaws appropriately; they bound to add extra storeys (1.5 storeys) when the original building drawing has approved upto 3 storeys. This is the dilemma and irony of lack of awareness among residents about adopting earthquake resilient construction. Godawari Municipality aims to improves its building permit system as well intends to inform and sensitise its residents in following the building bylaws. There is weak implementation and lack of strong fine and charges for residents who donot strictly follows building code systems and bylaws. This kind of Orientation was very fruitful for implementation of BCI at initial phase. Mainly the program was focused on its needs, challenges as well as opportunities. Also, an information was concerned on the implementation strategy of Building Code at Municipality that will be an emerging town in near future. Key highlights of queries raised from the Orientation – The BCI status of Godawari Municipality is weak and unsatisfactory which is further intensified by reasons of poor building code implementation and monitoring at wards areas from administrative level along with presence of		

Activity Report of Orientation

	majority of rural based wards where supervision and monitoring becomes difficult. – Formulating building bylaws as per context of Godawari Municipality has been felt deem necessary. – The fine charges should be strictly implemented for those who avoid following the bylaws during construction of houses. – The technical personnels especially field based sub engineers need to be equipped with technical trainings. – There is need of trainings for masons who are mostly engaged in constructing resilient houses. – The training on masons should be stressed on how they are capable of following the building drawing. The team of HRRP assured that under consortium implementation with NSET, will try to engage the technical personnels of Godawari Municipality in any relevant technical trainings orgnaised by NSET. HRRP also has plans to conduct second and third phase of BCI related training and orientation to elected officials of Godawari Municipality and to higher officials of Administrative and Planning level in future days to come.
Session and Observations	
<i>Lists of Session/support from HRRP</i>	<i>Special Observation by the HRRP Resource Person</i>
<i>Regarding the building construction code implementation system for the local level</i>	The session's contents were divided in to three parts; first part highlighted the BCI status survey results of Godawari Municipality and emphasized on introduction part of building code, necessities of code, started time of code in Nepal, different parts of building codes, roles and responsibilities of respective bodies as well as main challenges for its implementation. Similarly, in the second part, the session was focused on implementation strategy, impact of awareness, trainings, coordination mechanisms between municipalities vs technicians vs house owner, Strategies and activities required for the implementation of the Code, activities for awareness and trainings and the steps to Institutionalization of building code.
<i>Good Aspects of the Program & Area of Improvement</i>	<u>Good points:</u> Take ownership of program, only concerned technical personnels participated, more useful contents, great ideas of initial process, they are very clear about building code and byelaws and overall triggered on to forward relevant processes and measures to implement building code processes very effectively. <u>Points to be Improved:</u> It would be great if we have continue/follow up, it should be formally program like banner/letter for notice to representatives, necessary trainings, awareness oriented public hearings, awareness camps like programs for general citizens at ward level, need support for to making documents etc. Such community or ward-focused awareness camps/ or public hearing types of program largely instills key messages of BCI among public.

ATTENDANCE SHEET:

आज मिति २०७७/१०/०८ का दिन यस गौडखरी नगरपालिका, लुम्बिनीपुर जिल्लामा आवास पुर्नलाभ तथा पुर्ननिर्माण मन्च (Housing Recovery and Reconstruction Platform - HRRP) को आयोजनामा यस नगरपालिकाका वडाका स्वर्द्धिका प्राविधिक कार्यकारीहरू तथा तहसीला योजना तथा नक्सा कुराका प्राविधिक ईन्जिनियरहरूको बाटो भवन निर्माण संहिता (Building Code Implementation - BCI) सम्बन्धी कार्यशाला गौडखरी सञ्चालन गरिएको छ। यस नगरपालिकाको भवन निर्माण संहितामा प्रकाश पारे बहुरूप सहित यस गौडखरी सञ्चालन गरिएको छ।

यस गौडखरीमा उपस्थिति यस प्रकार रहेको छ:-

१. श्री विरेन्द्र देव भालु (उ.प. अध्यक्ष)
२. श्री ई. सत्यशरण लखरे (सभा) (सभाध्यक्ष)
३. श्री सुबल मिश्र (होर्) (वि.)
४. श्री अमीता लखरे (होर्) (वि.)
५. श्री गीतम मदनत (पात्रो) (वि.)
६. श्री सत बनेत
७. श्री उमेश पौडेल
८. श्री सिद्धि अर्जुन
९. श्री प्रदिप खज कान्छा
१०. श्री निरुपमा श्रेष्ठ
११. श्री अर्जुन शर्मा (होर्) (वि.)
१२. श्री अर्जुन शर्मा (पात्रो) (वि.)
१३. श्री सुभा कान्छा (होर्) (वि.)
१४. श्री माया लखरे (पात्रो) (वि.)
१५. श्री विमला वि.सी (पात्रो) (वि.)
१६. श्री रचना मदनत (पात्रो) (वि.)
