

Housing Recovery and Reconstruction Platform

Results from HRRP Partner Satisfaction Survey Round 3

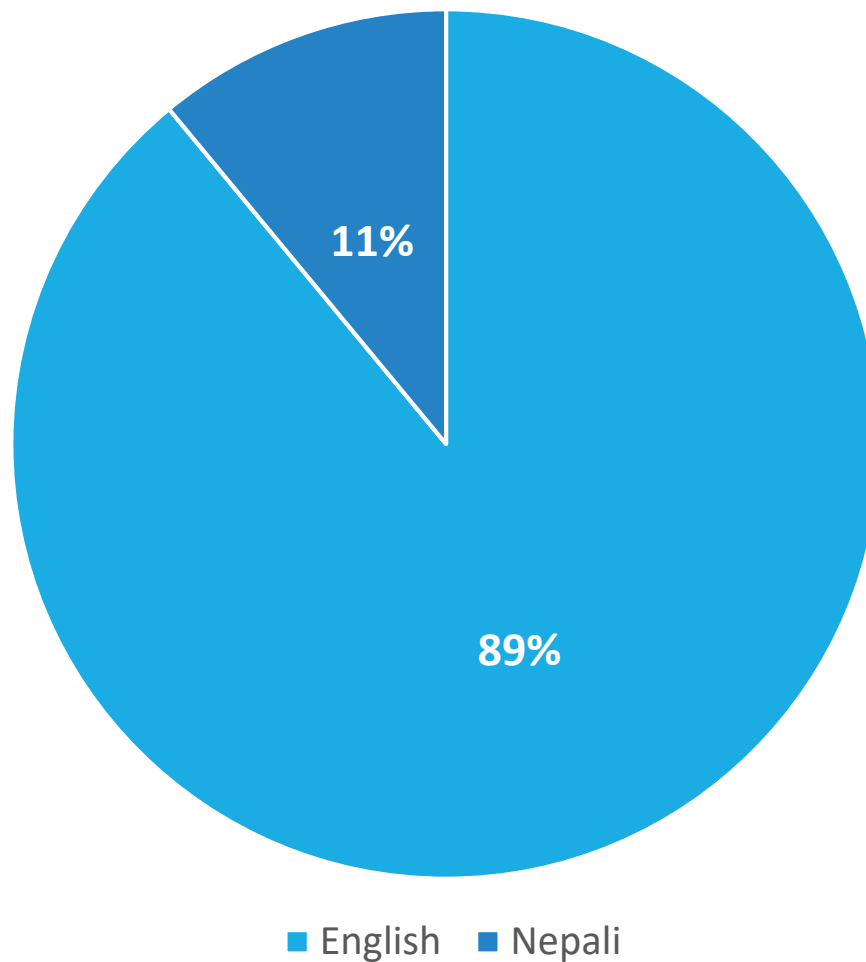

July-August 2018

Introduction

- This was the third round of the HRRP Partner Satisfaction Survey
- The objective of the survey was to assess how the HRRP is working with, and perceived by, the stakeholder groups involved in the platform, and to understand if the platform has improved in relation to previous rounds of satisfaction survey results
 - First round results
 - Second round results
- It was also intended to gather feedback on which HRRP activities are working and which aren't, and enable partners to suggest improvements.

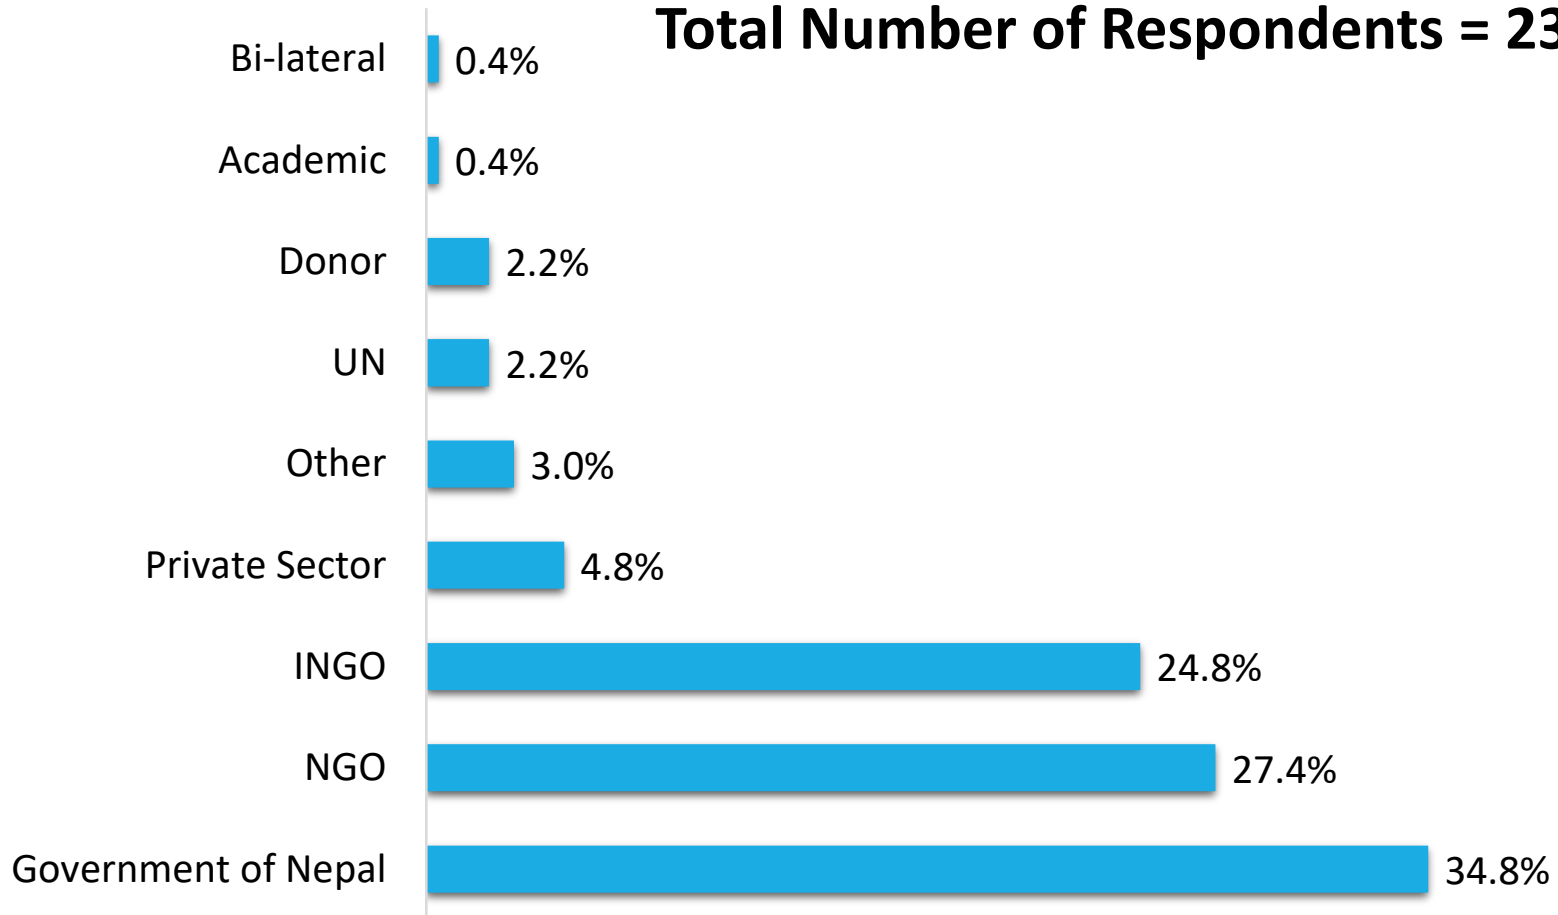

Response by Language

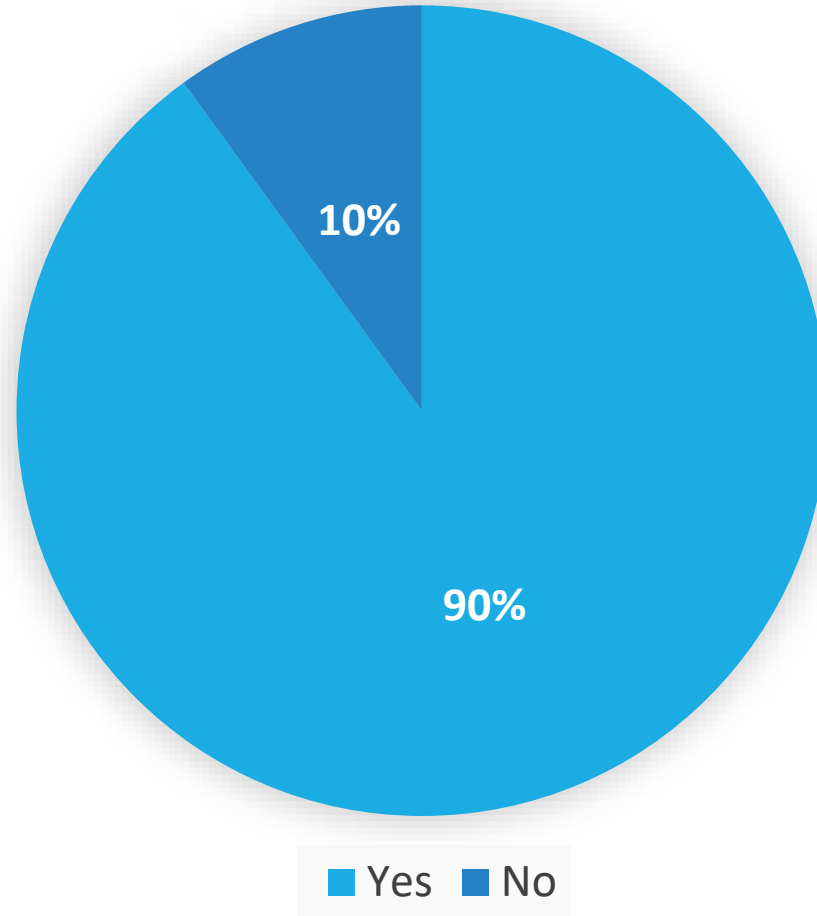

Respondents by Type of Organisation

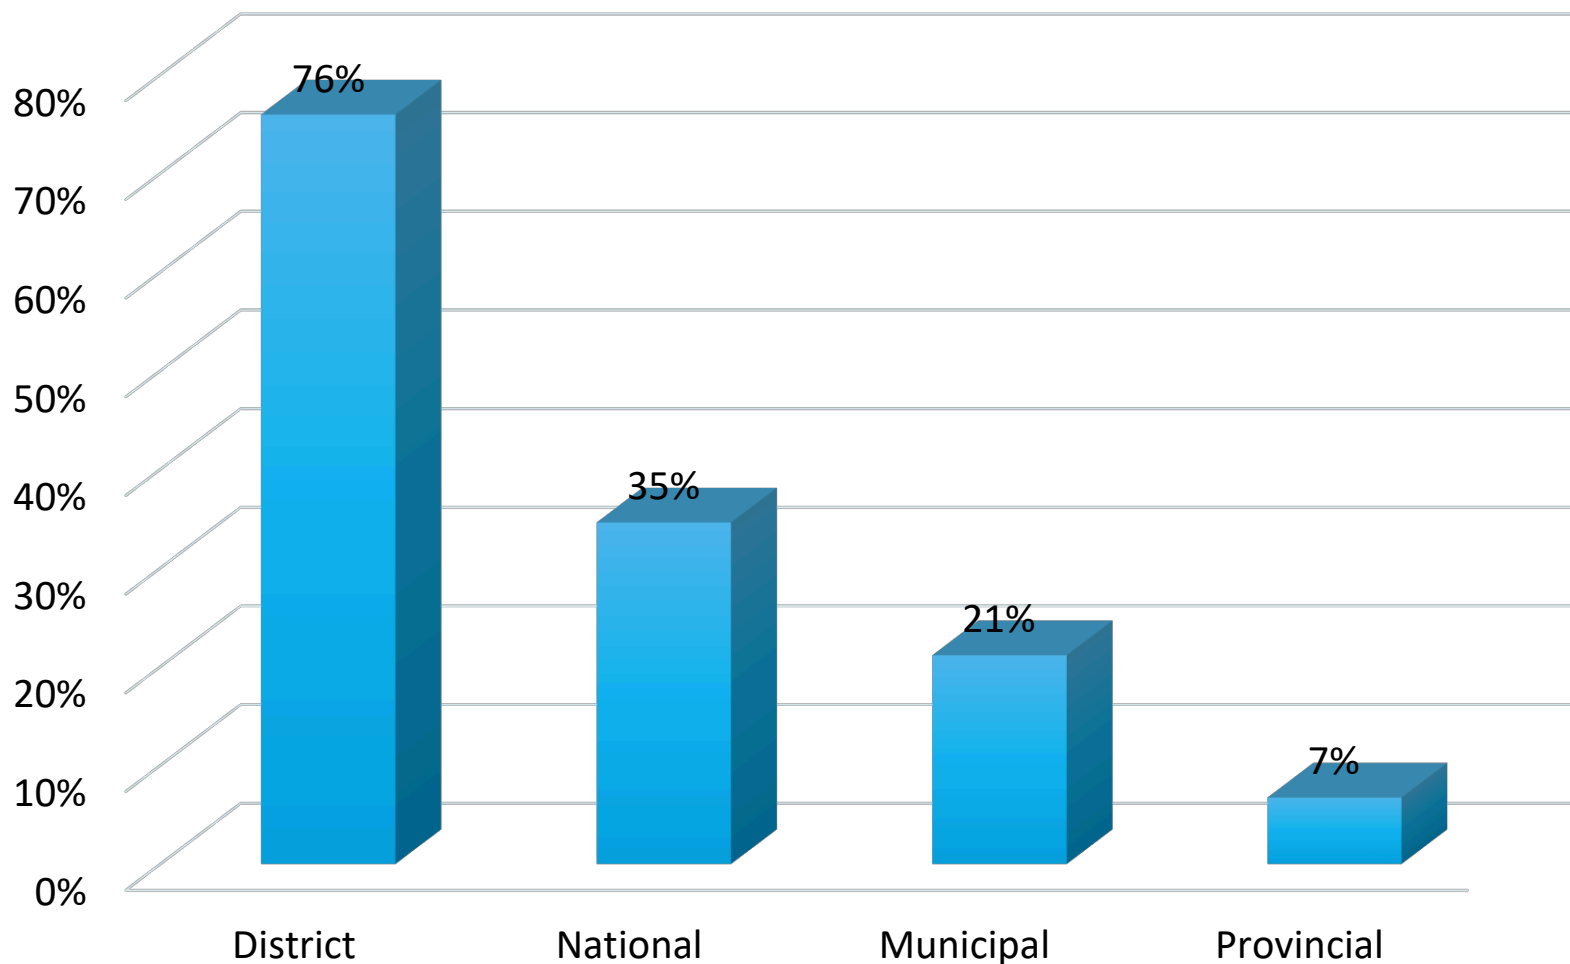

Total Number of Respondents = 230

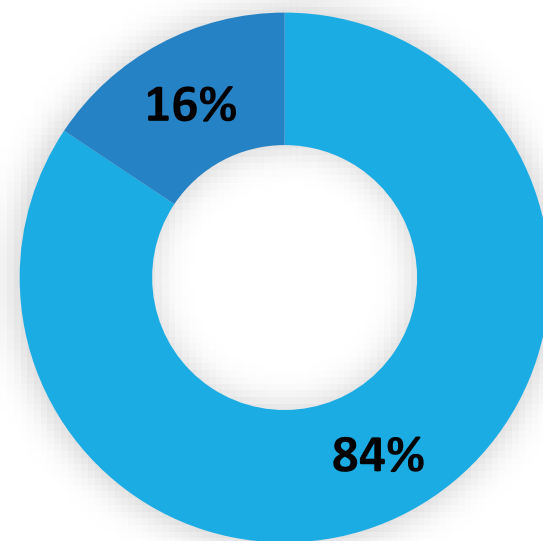

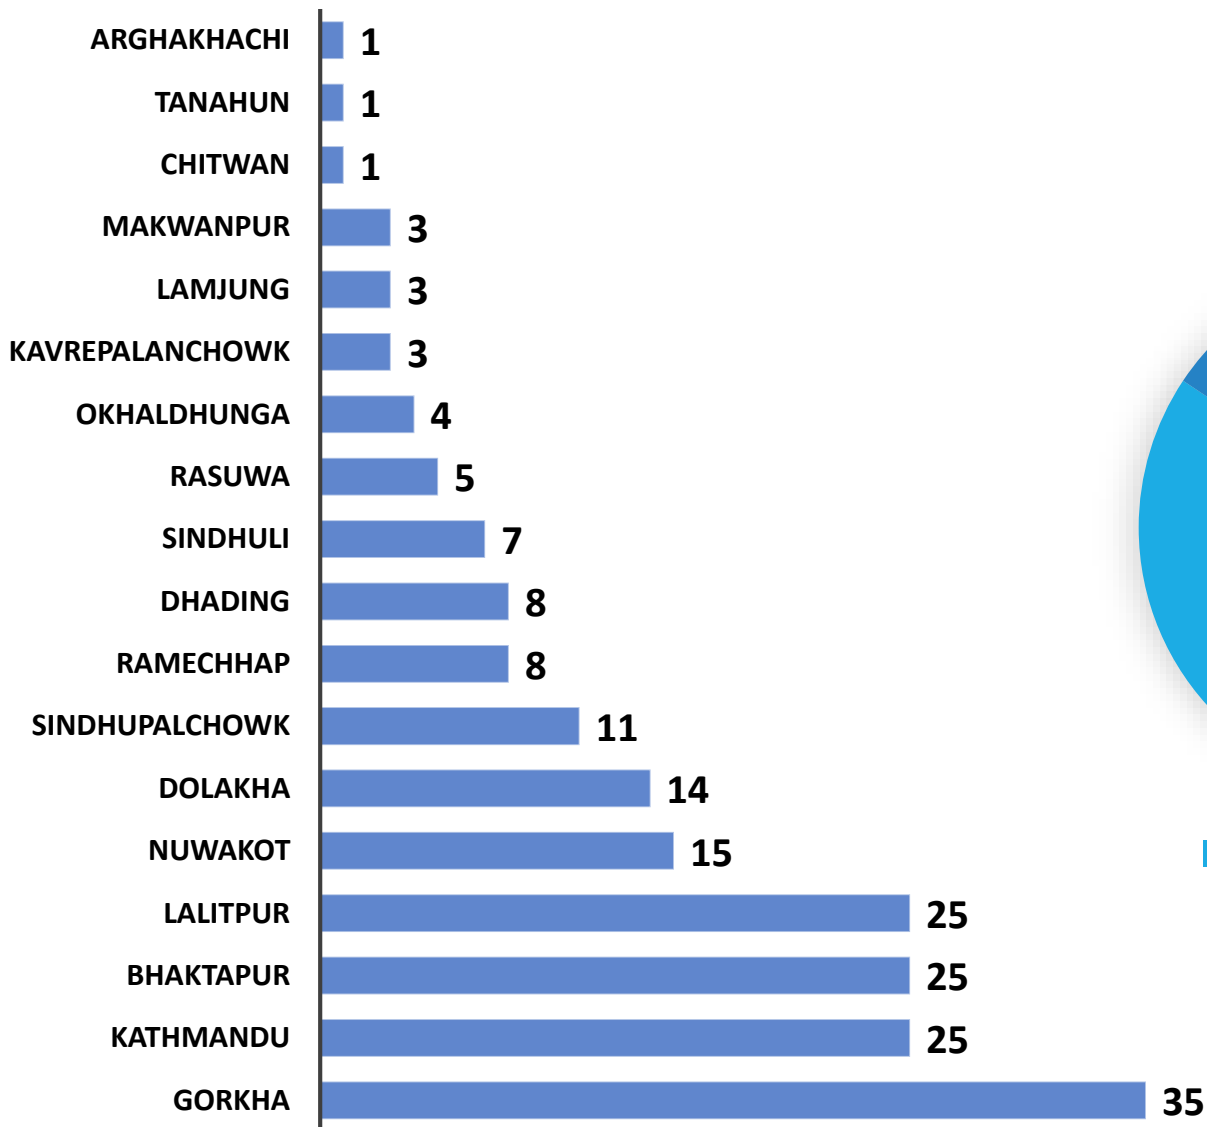

Respondents working in emergency preparedness and response?

Respondents level of intervention (multiple selection allowed)

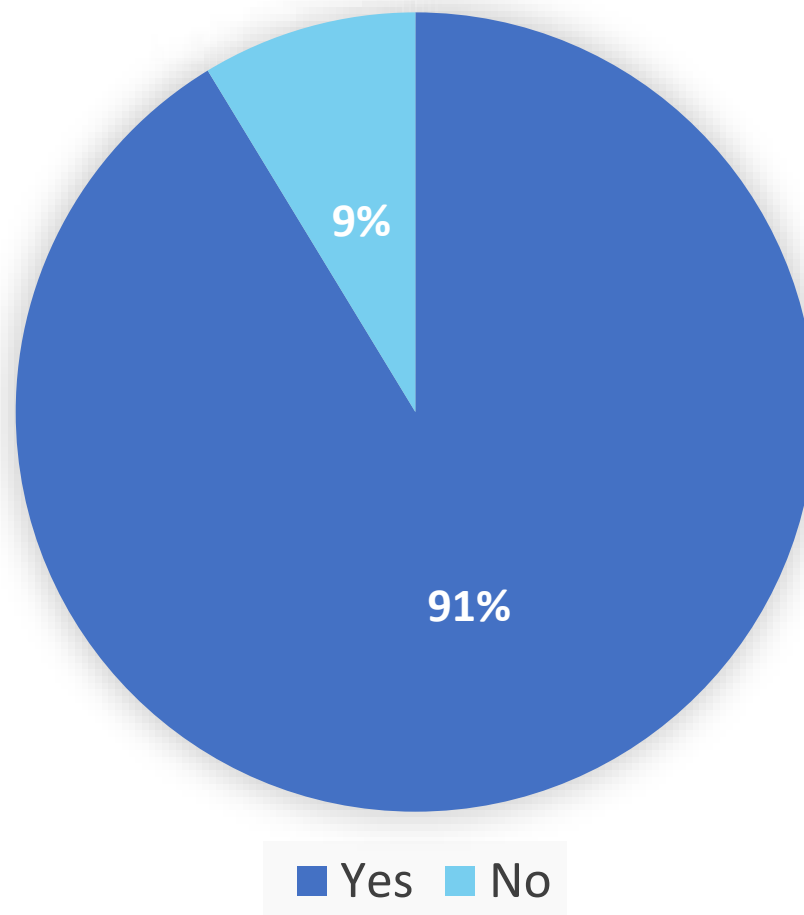

Respondents by Working Location

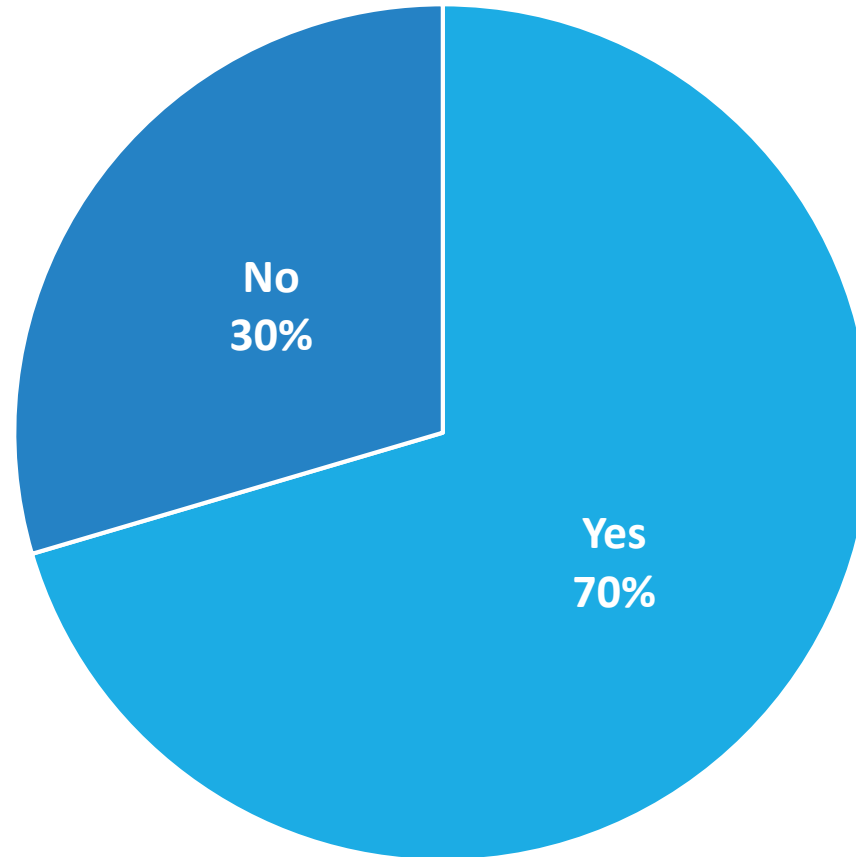

■ District ■ National

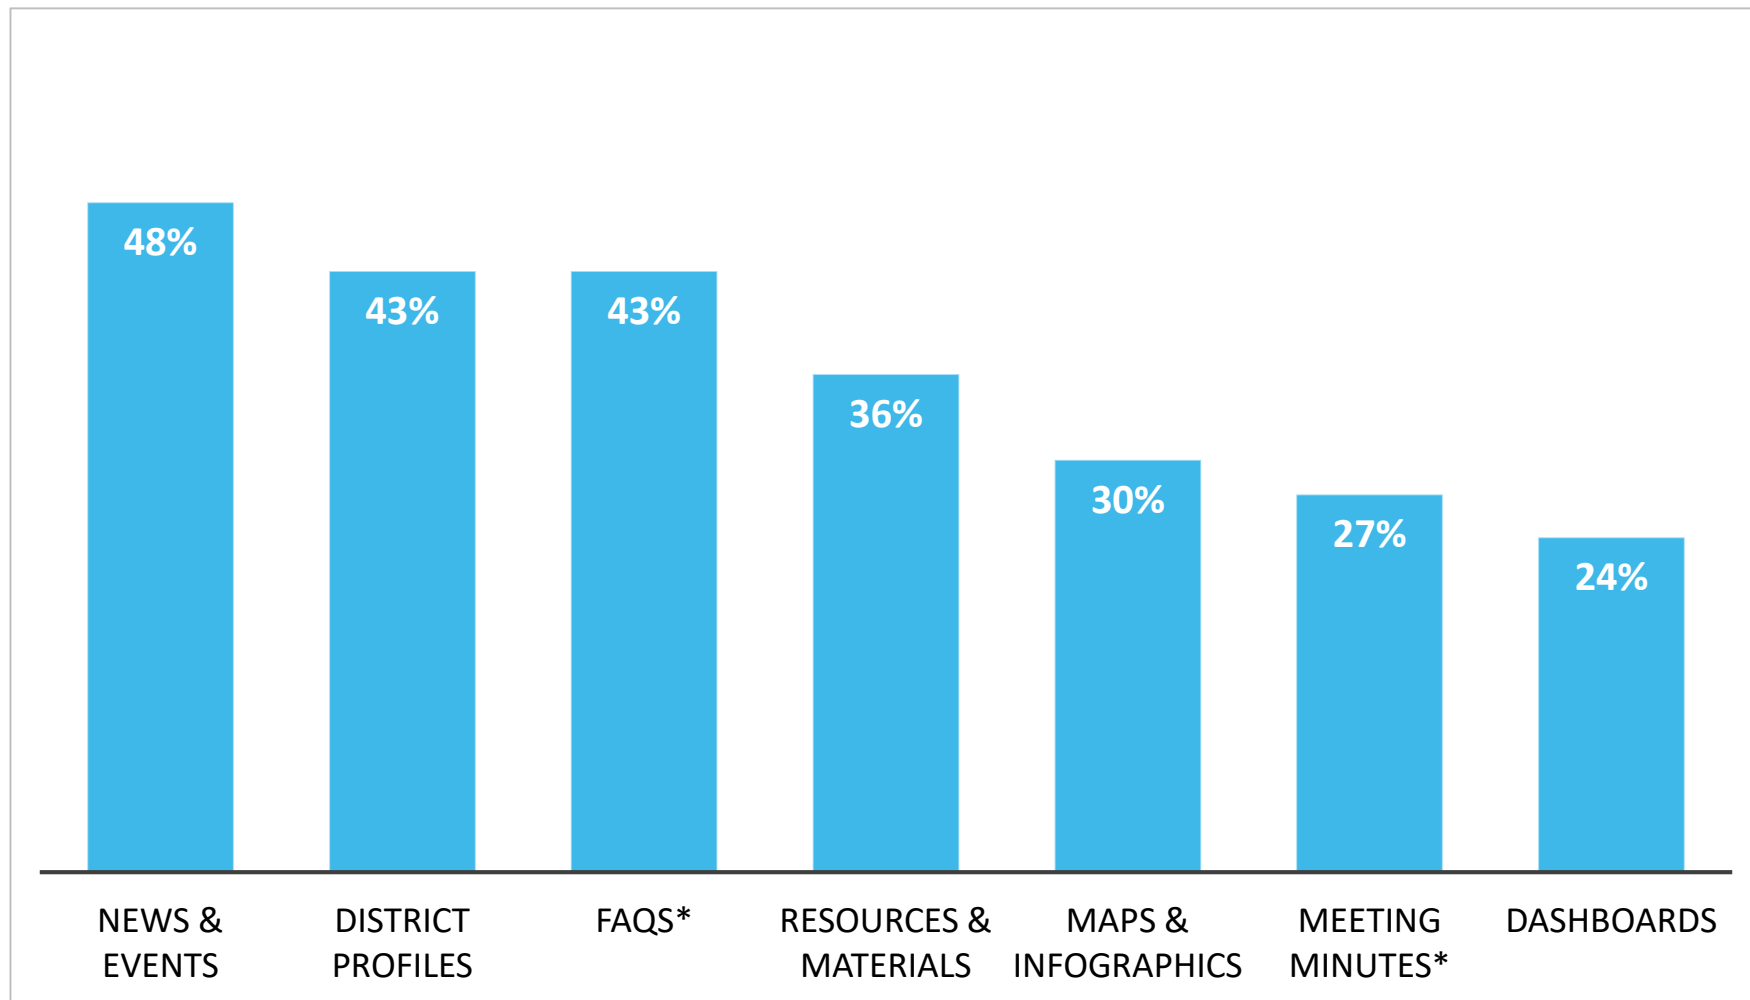

Do you receive the district HRRP emails from districts you or your organisation work in?

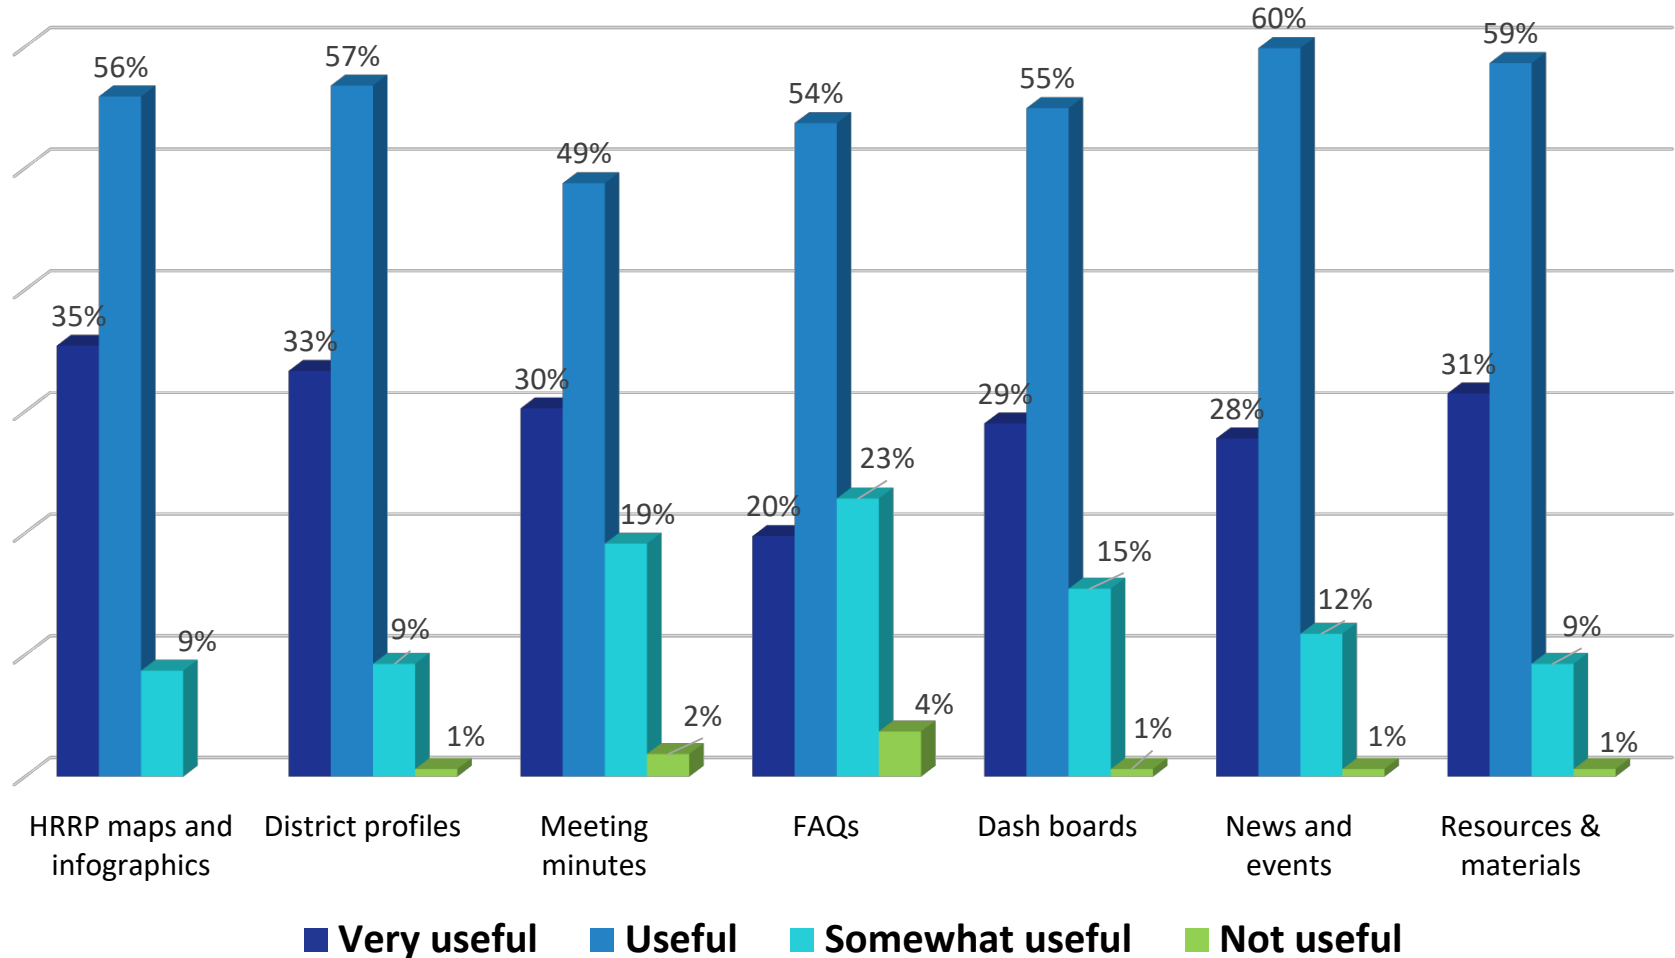

Have you used any HRRP products or website resources at least once in the past 6 months?

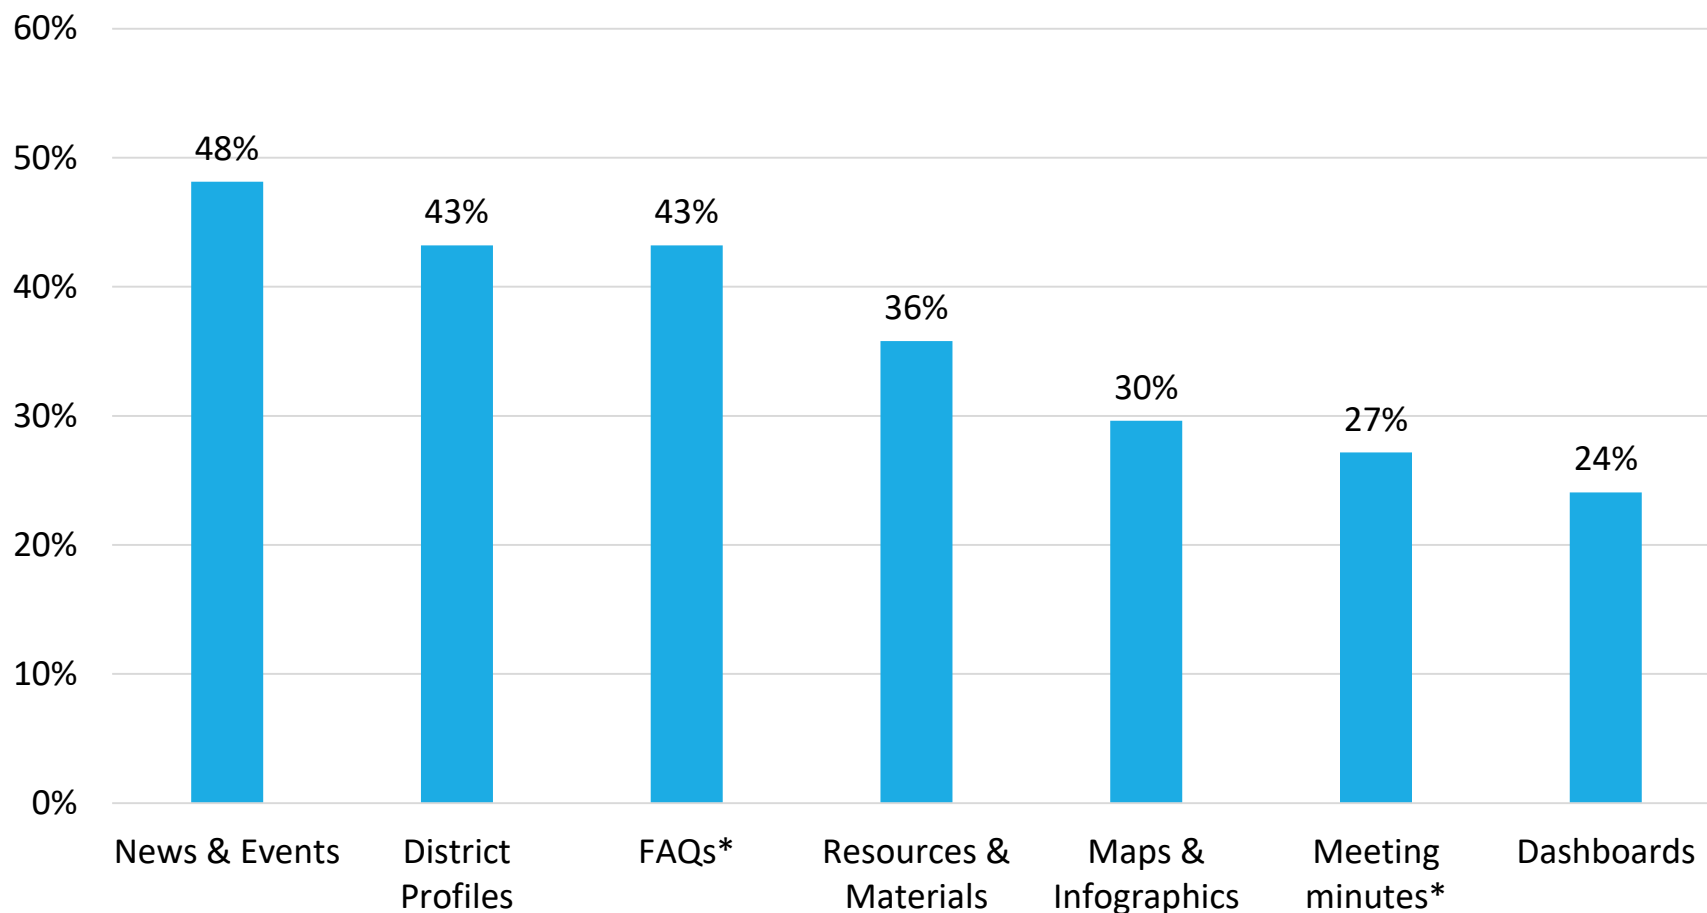

Which HRRP products or website resources have you used at least once in the past 6 months? (multiple selection)

How do you rank the usefulness of HRRP products and website sections?

Which HRRP products might be more useful if produced in Nepali? (multiple selection)

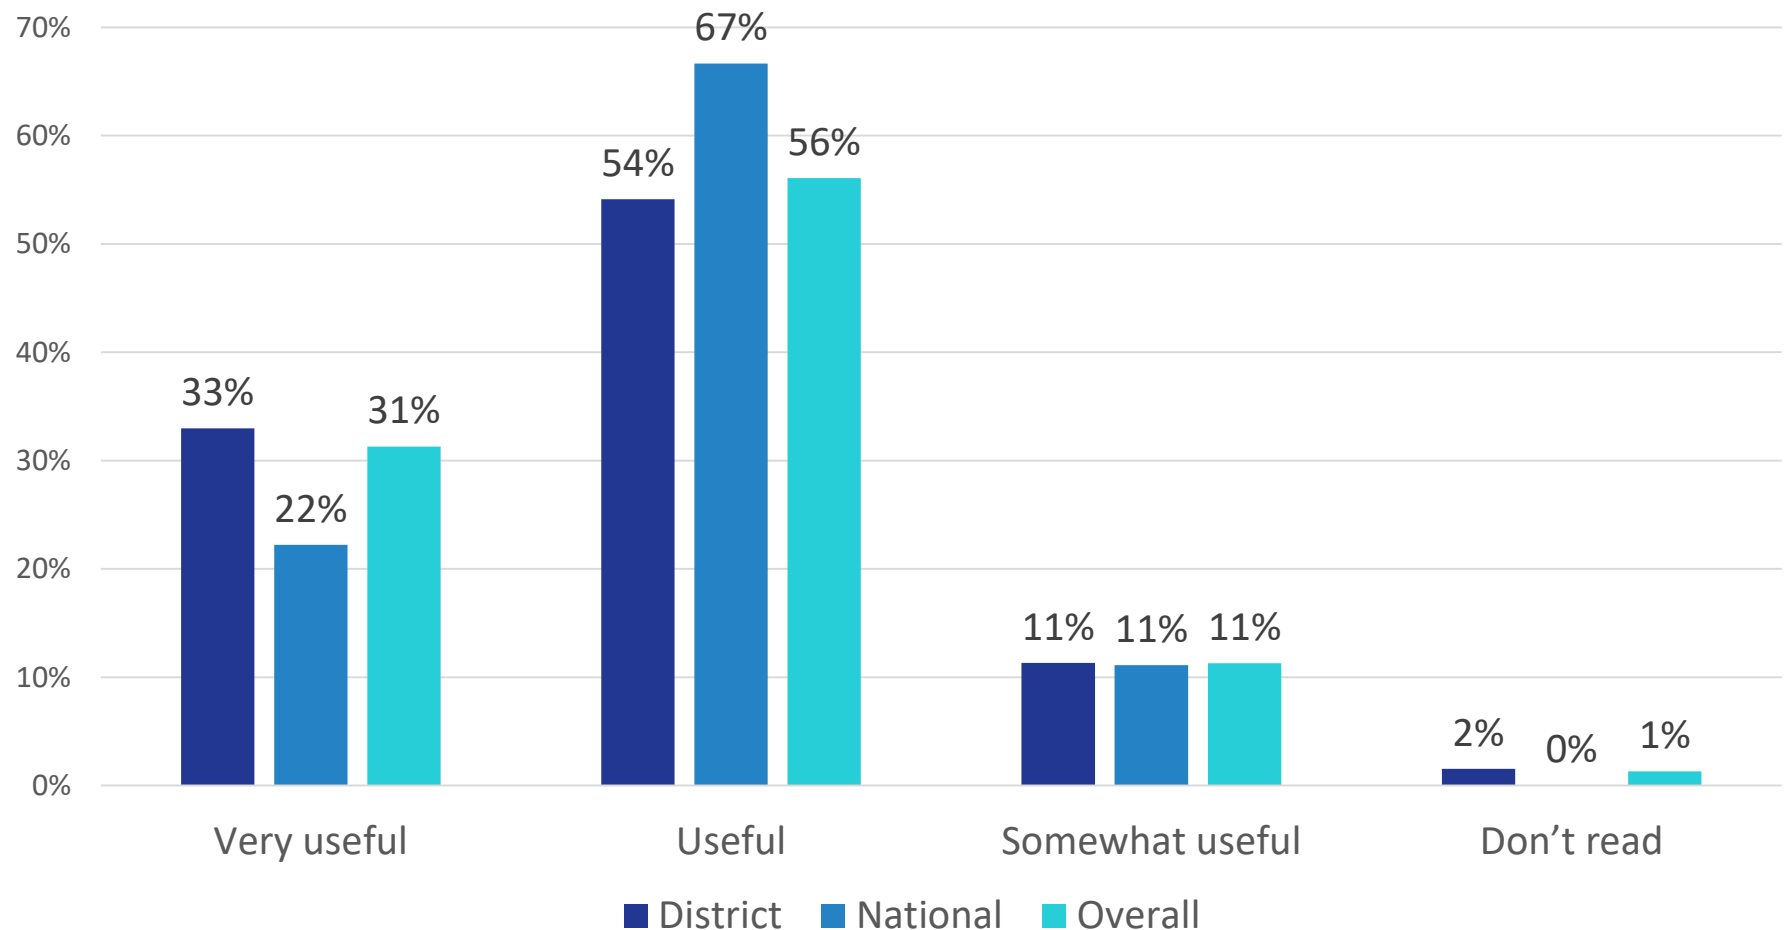

*FAQs and meeting minutes are already produced in English and Nepali.

Please share your suggestions/feedback to make the HRRP website more useful and user friendly:

- 24% of respondents stated that the website is good or they have no suggestion
- Some suggestions for improvements included:
 - More stories from households and technical staff (especially videos)
 - Specific pages for each district (this is coming in the updated website)
 - “Should contain pictures of reconstruction and that should be changed on fortnightly basis”
 - “It should contain online videos /visuals on manual orientations” (available on the HRRP Facebook page and group)
 - “Website in Nepali might be helpful and user friendly or one separate interface with resources in Nepali language might be helpful.”
 - Make the website mobile friendly
 - Share more success / case studies

How useful do you find the HRRP bulletins?

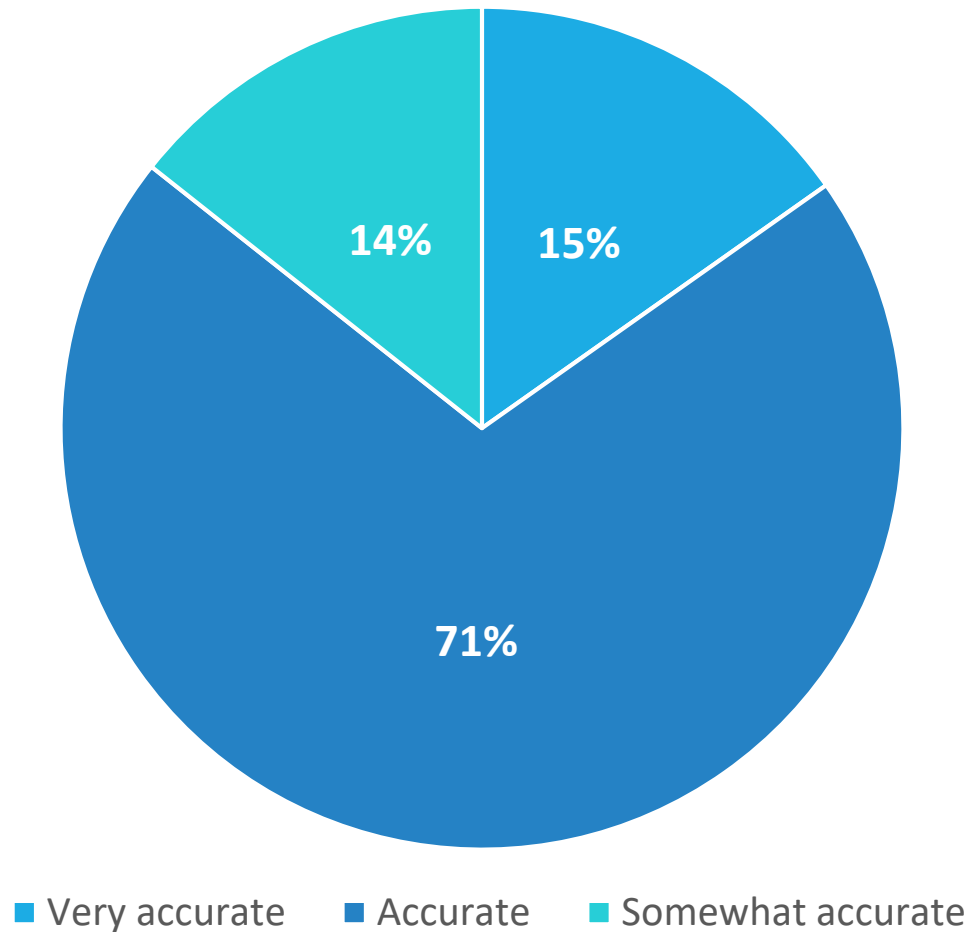

Please list any changes / additions that you feel would make the bulletin more useful, relevant or reader friendly:

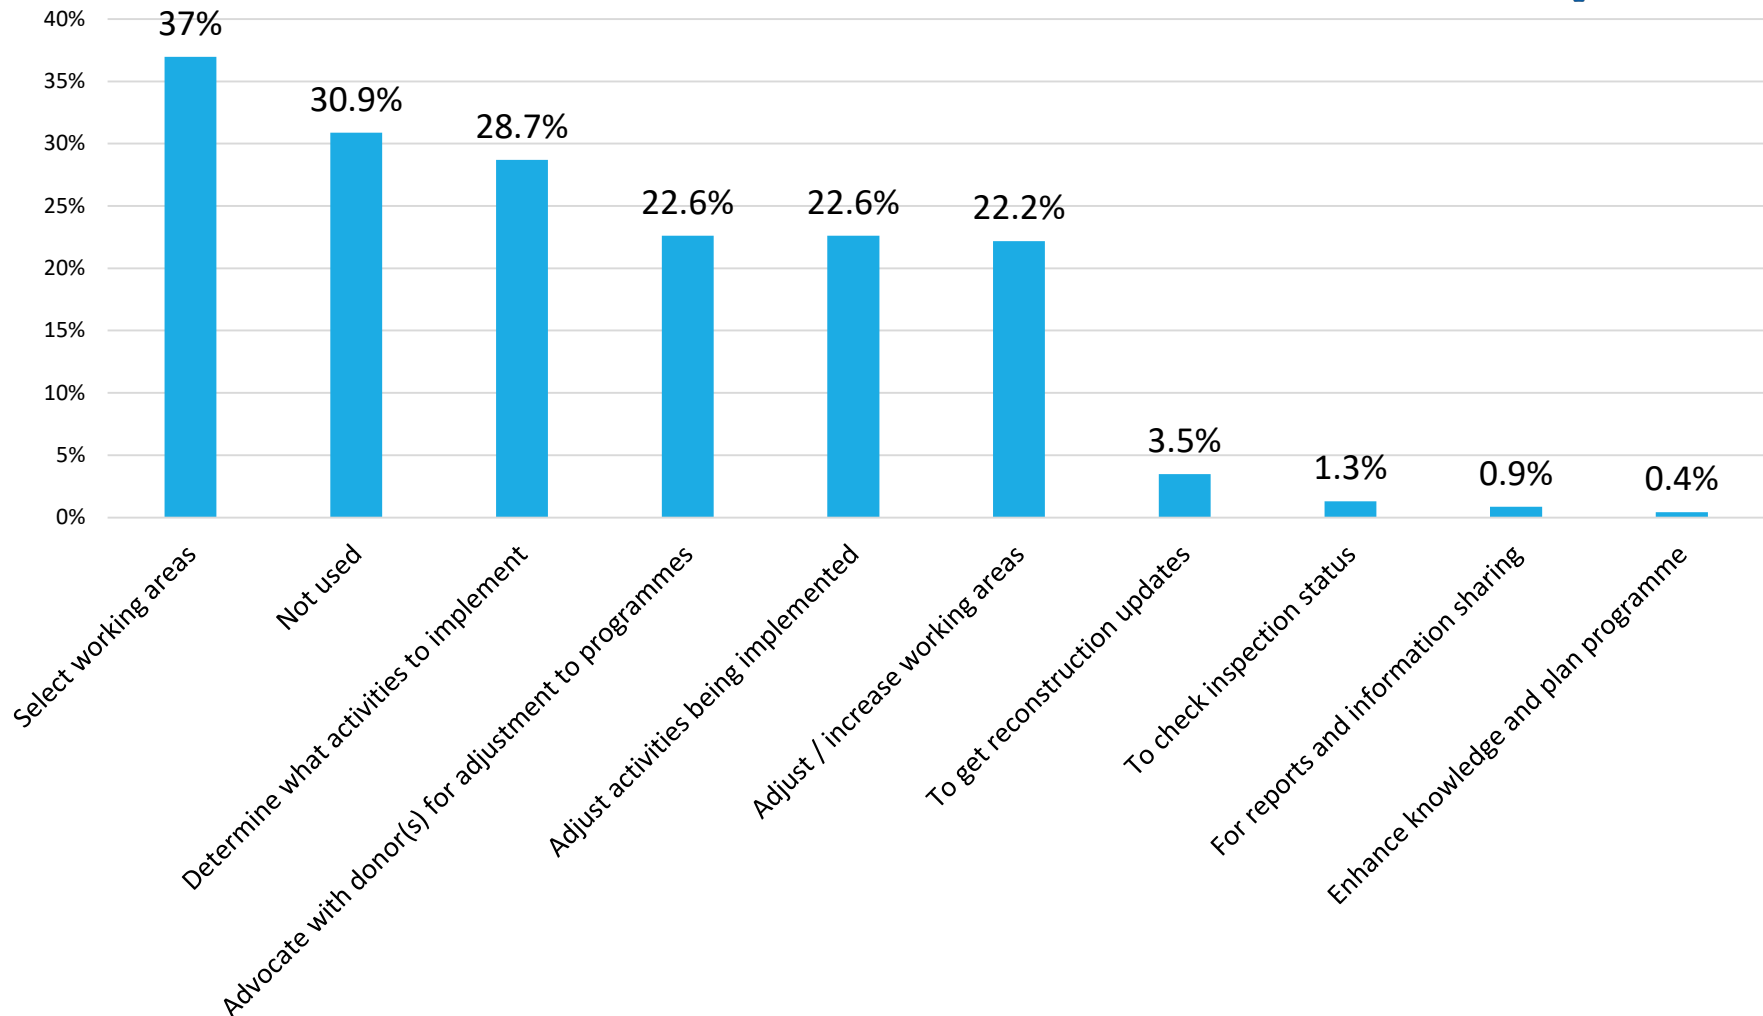

- Prepare the bulletin in Nepali and English
- The bulletin is good and “no changes are required”
- Several respondents suggested that the bulletin should include photos / more photos
- Include more case studies / stories from households / stories from local government / quotes from people involved in reconstruction, etc.
- Make the language simpler
- Shorten the length
- Less text
- “Make it more creative/attractive to catch reader's interest”
- “Bulletin data are not reliable”
- Include information from other sectors

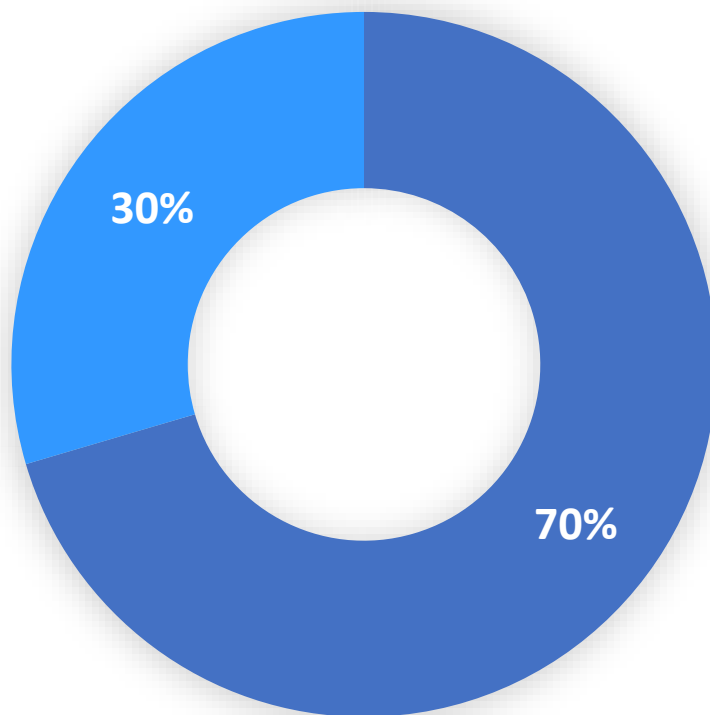

How would you rate the accuracy of HRRP updates on reconstruction efforts?

What purpose(s) have you used HRRP maps for? (multiple selection)

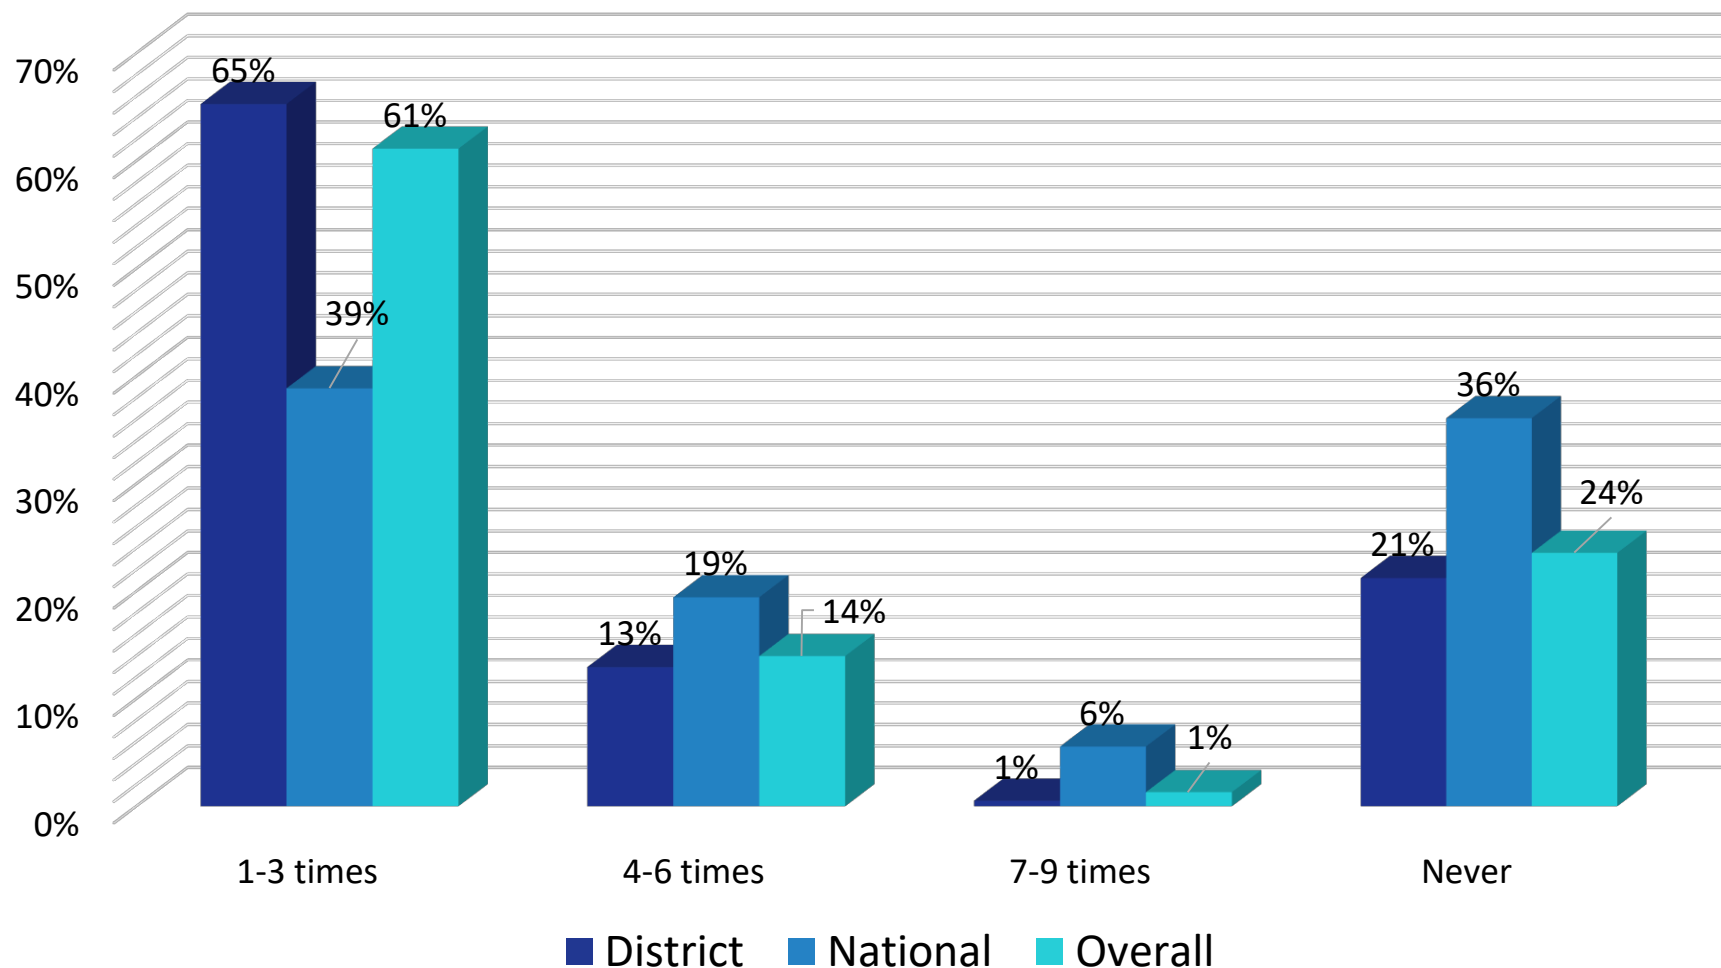

Have you / has your organisation used the HRRP district profiles for any purpose in the past 4 months?

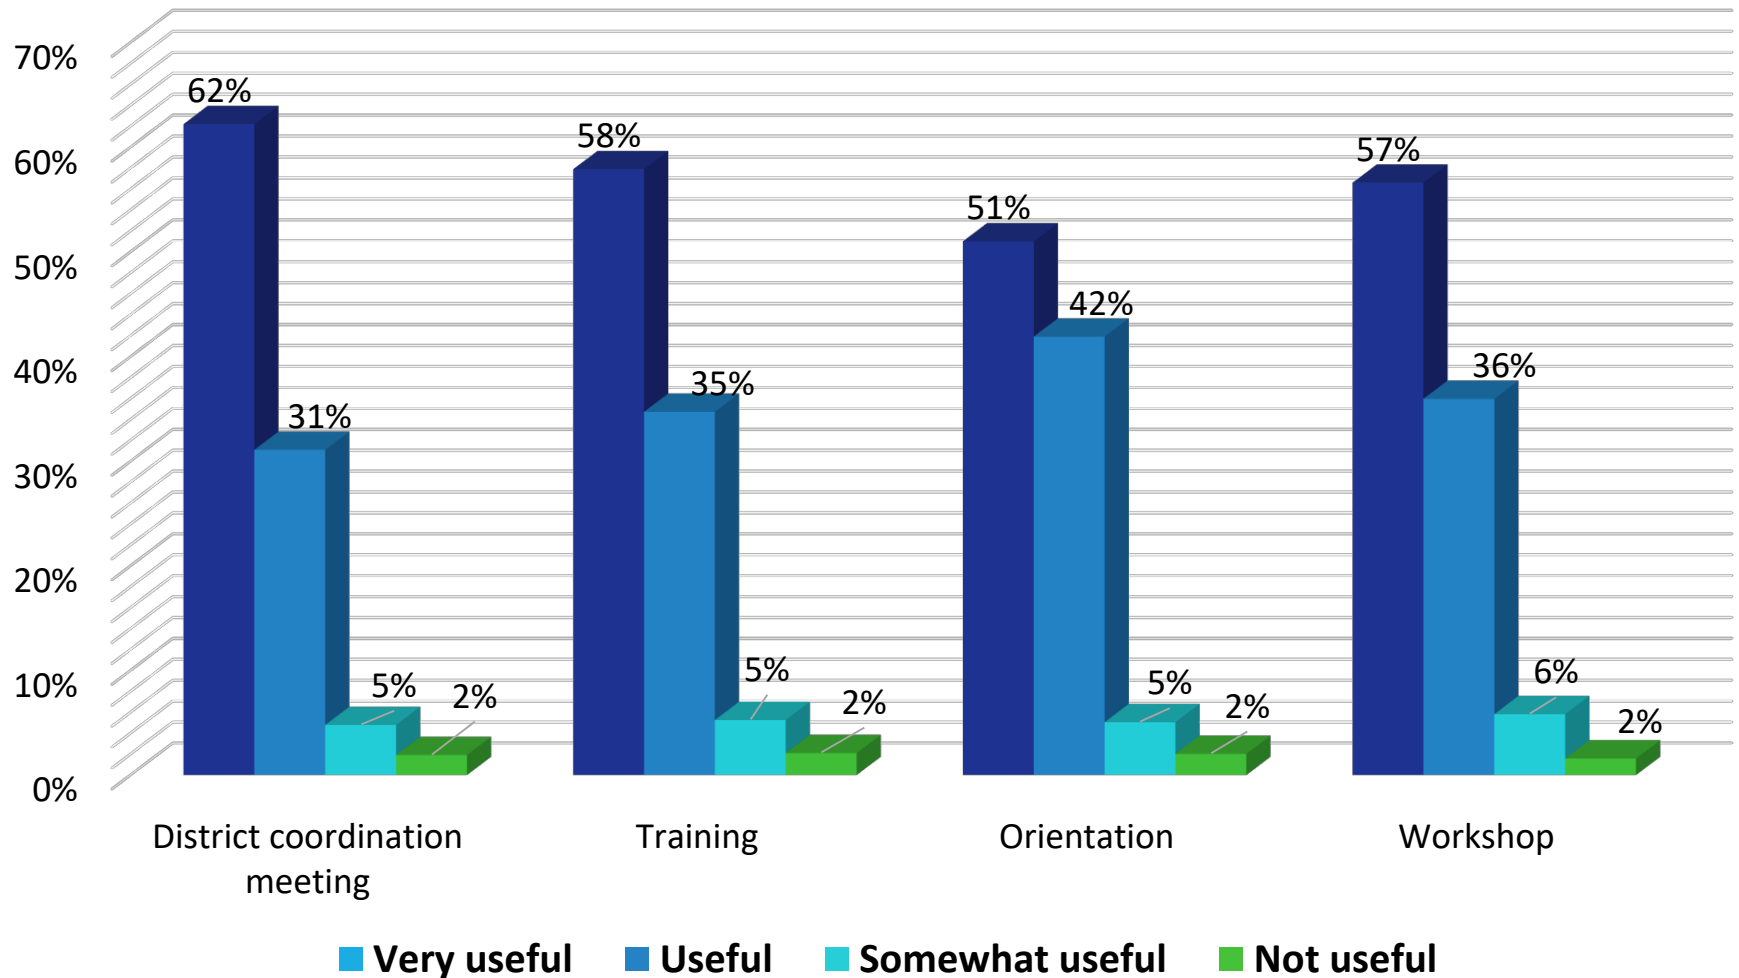

■ Yes ■ No

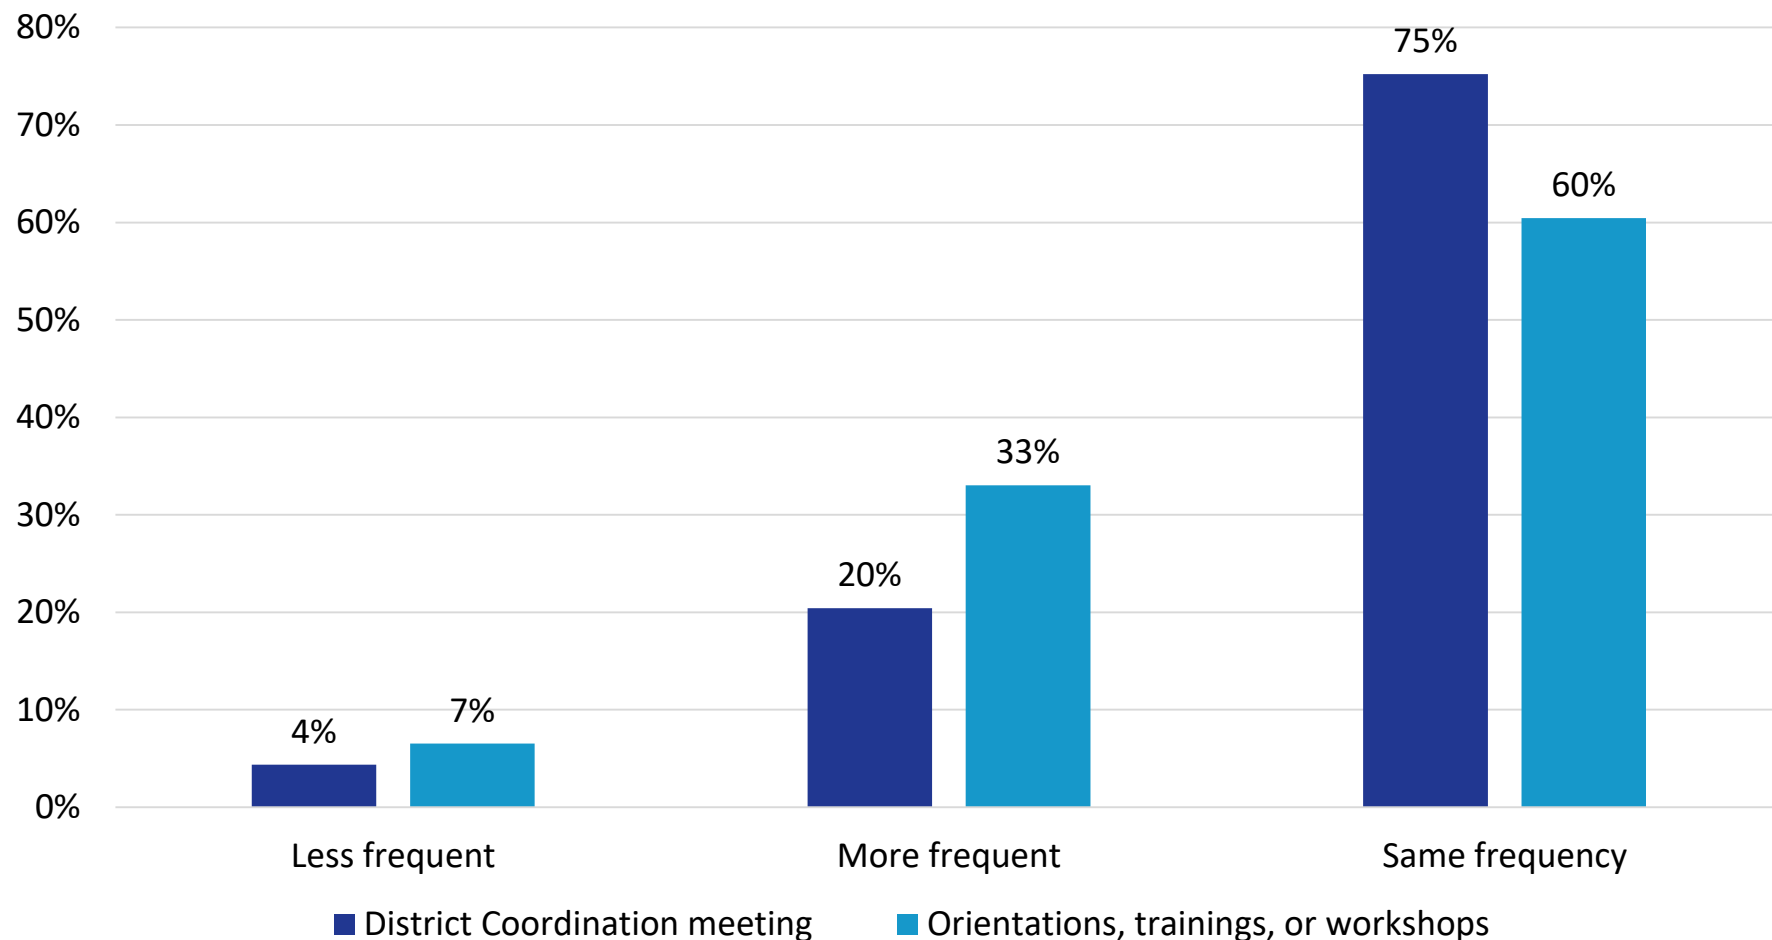

In the past 4 months how many times have you attended an HRRP district coordination meeting?

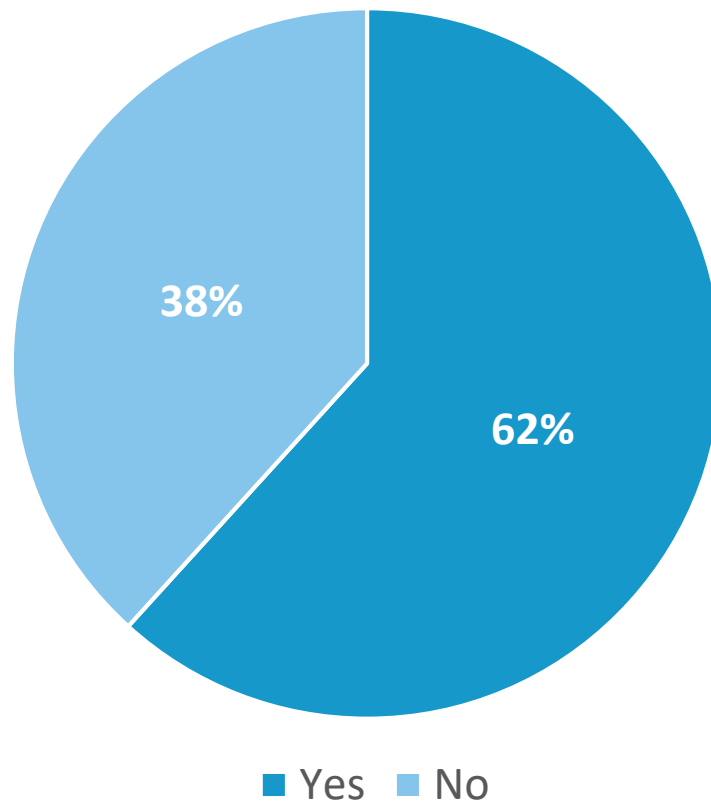

How relevant and useful have HRRP district orientations, trainings, or workshops that you have attended been?

In terms of the frequency of HRRP district level events do you feel that they should be:

Have you / has your organisation made any changes to your activities or programme(s) based on information shared or discussed at HRRP district level events?

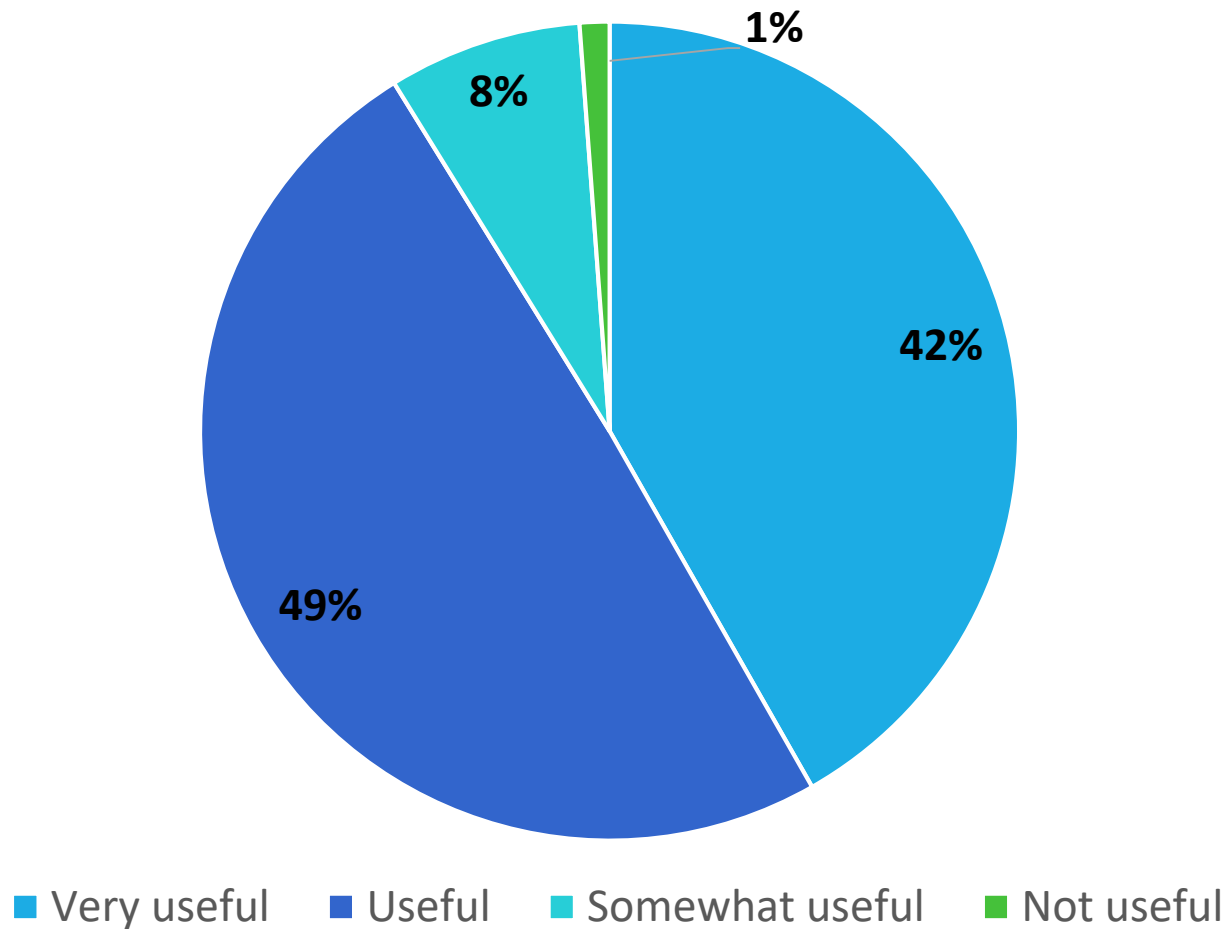

Please briefly describe any adjustments or additions you or your organisation made because of HRRP district level events:

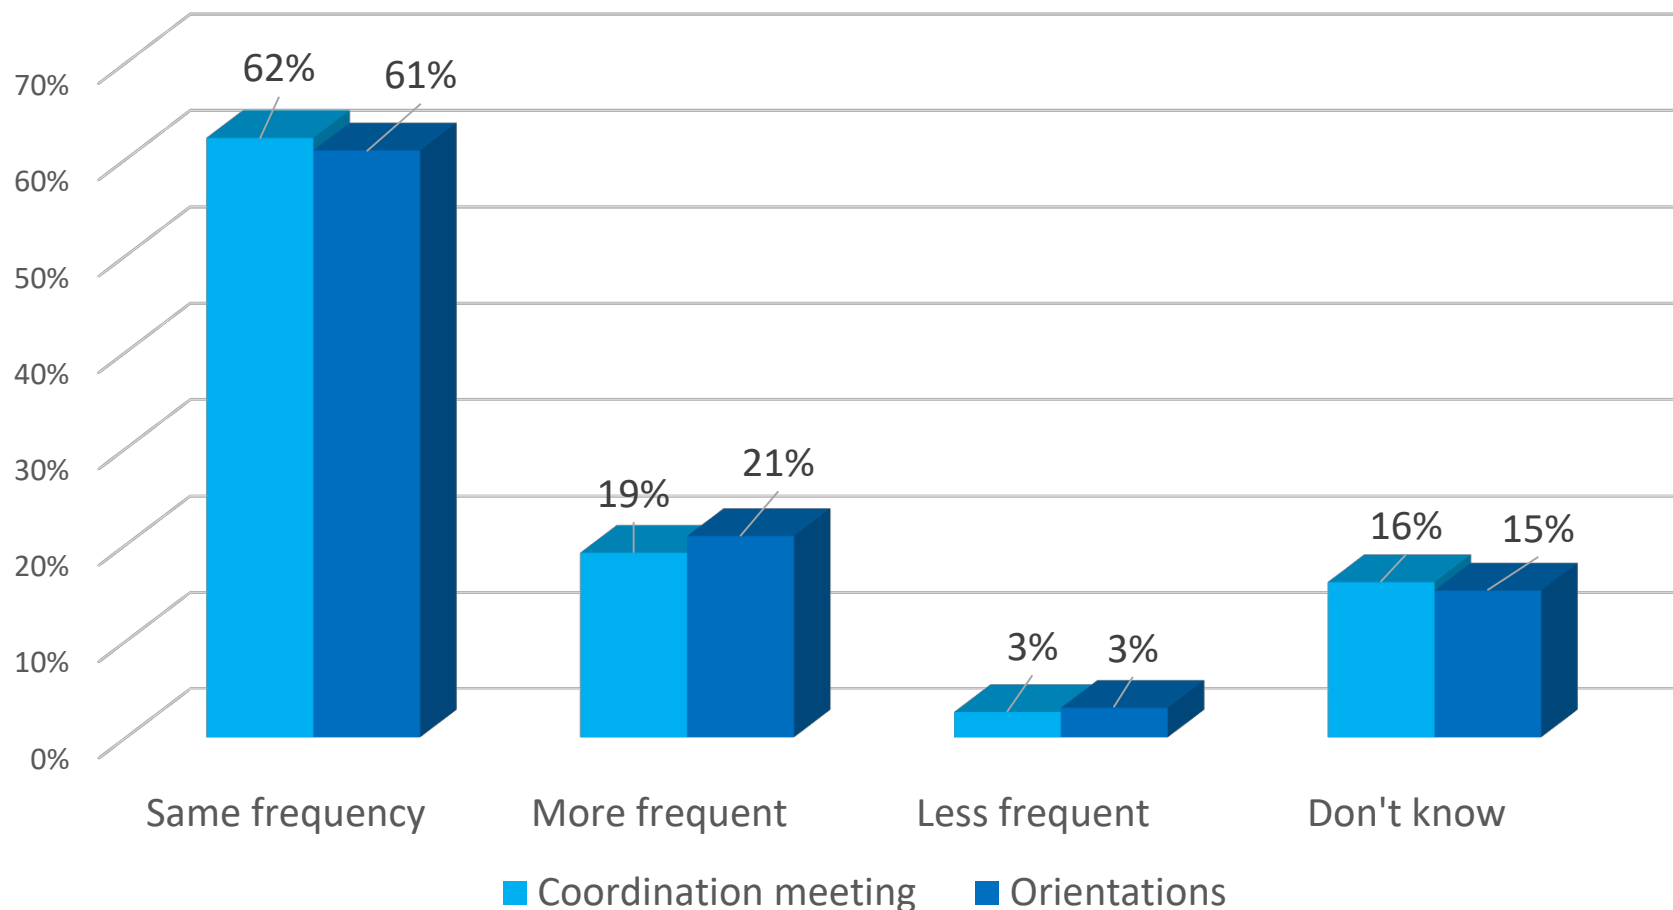

- “Little adjustments on every program”
- “Modification of the training content”
- “Vulnerable household support”
- “Yes, we have our TOT plan according to HRRP”
- “Added vulnerable top up to the most vulnerable beneficiaries, prepared the reporting format according to HRRP”
- “Coordination meetings has been platform to connect with various organisation”
- “Have improved coordination with district NRA office”
- “Obtained information for District Preparedness and Response plan 2018”
- “We have changed reconstruction school building location & design based on guideline and learning from others”
- “Informed properly with beneficiaries about technical matters”
- “Decreased duplications of POs support and made clarifications to donors”
- “Saw increased level of confidence among line agencies in responding to reconstruction works”
- “Reduced duplication in activities and increased communications”
- “Increased information clarifications from district level to ward level and to national level”
- “Enhanced relations and networking with engineers of government”
- “Improved networking and communication among municipal bodies and with POs”

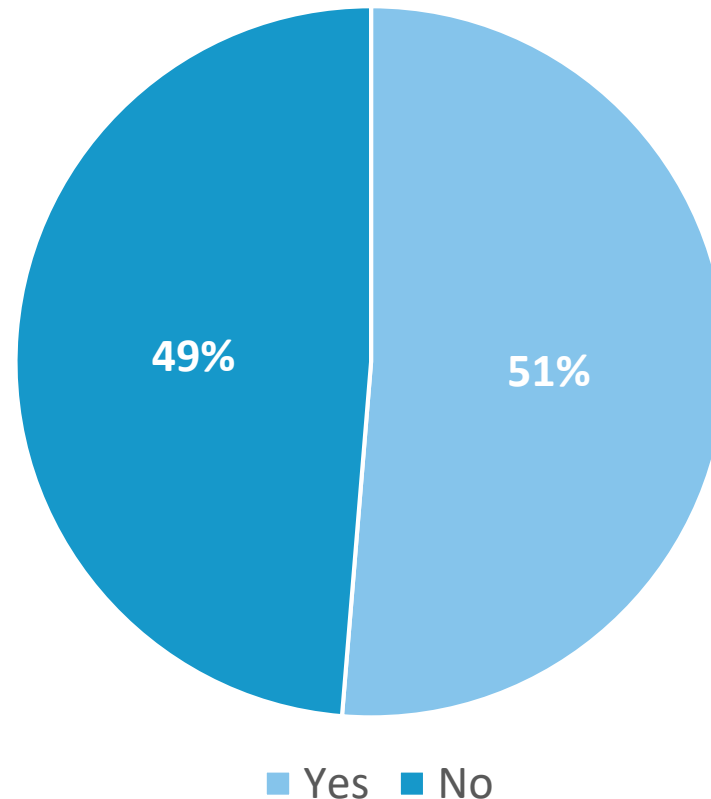

How relevant and useful have HRRP municipal coordination meetings or orientations that you have attended been?

In terms of the frequency of HRRP municipal coordination meetings or orientations, they should be

Have you / has your organisation made any changes to your activities or programme(s) based on information shared and / or discussions at HRRP municipal level events?

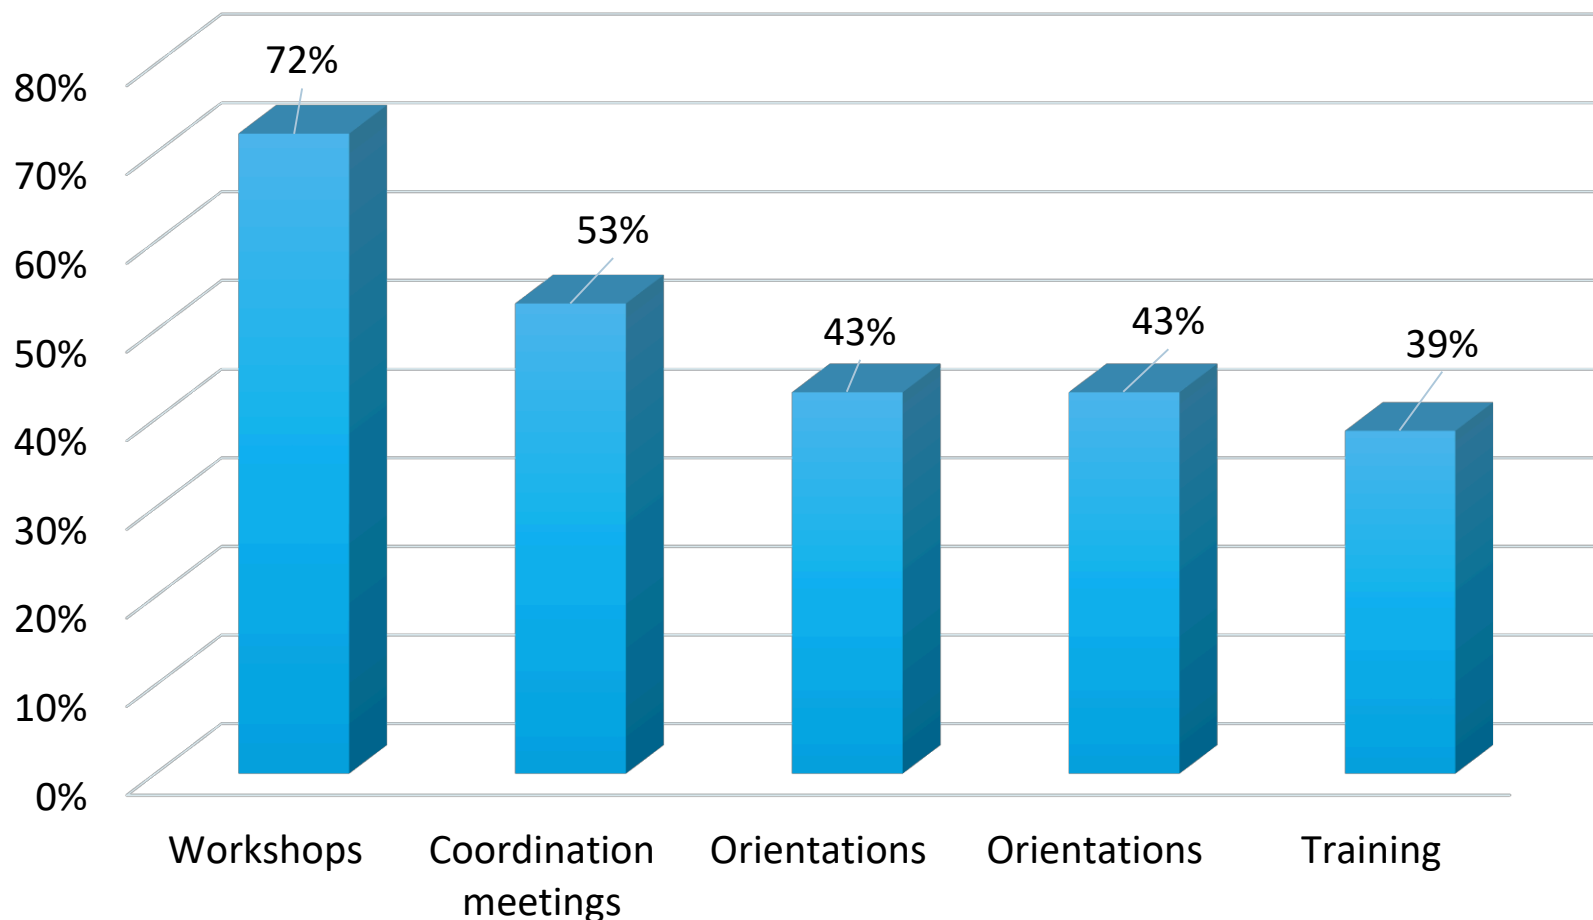

Please briefly describe any adjustments or additions you or your organisation made because of HRRP municipal level events:

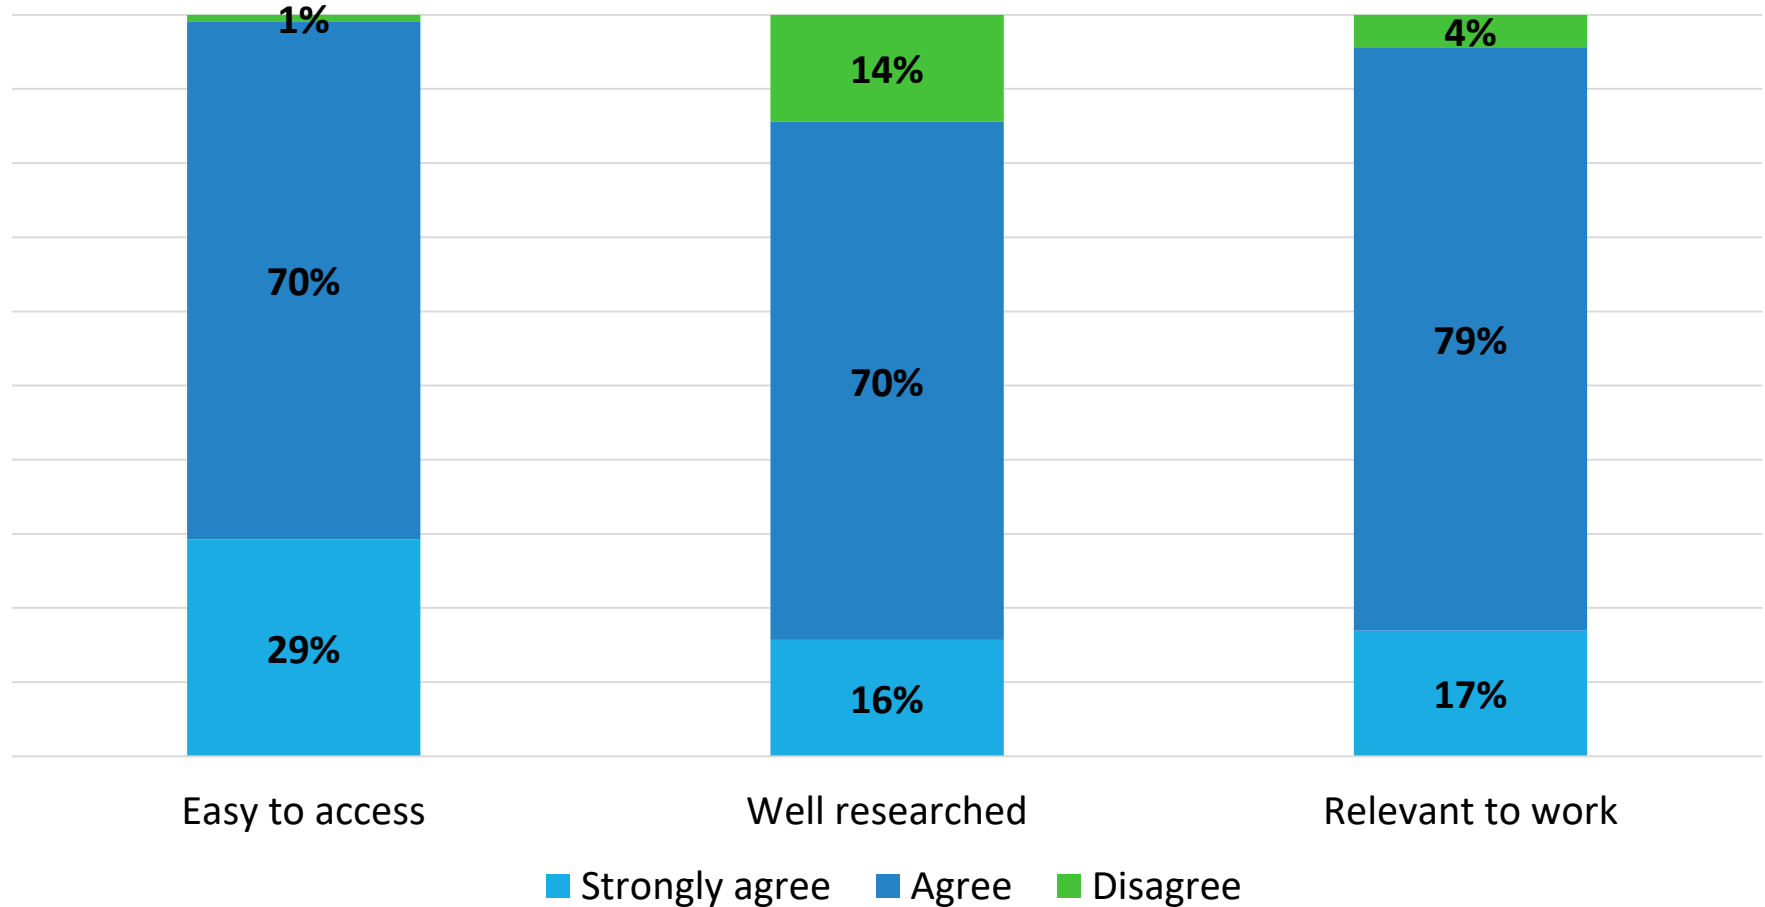

- “We don't know when and where HRRP organised coordination meetings, orientations and workshop”
 - Additions made to programme activities
 - “Increased coordination among ward officials and elected members especially”
 - “We had committed to provide mobile mason in each ward of municipality to support reconstruction”
 - “Improved coordination with district NRA office and other government agencies”
 - “Planned special activities for vulnerable households”
 - “Increased level of coordination and understanding of POs work”
 - Changed working area
 - “Revitalisation of relations and networking with municipal bodies:
- “We improved our ways of responding reconstruction works”
 - “After municipal/ward level meetings during field visits, proactiveness has been shown from the concerned local officials.”
 - “There has been increased understanding and coordination from municipal level authorities”
 - “Have witnessed increased coordination from the government agencies with POs”
 - “Targeting area lagging behind within working area”
 - “It has been easy for NGOs coordination with municipalities due to coordination meetings”
 - “Relations with local bodies has improved”
 - “Improved coordination and clarification of reconstruction efforts at municipality level”
 - “Increased trust among the municipal staff regarding reconstruction matters”

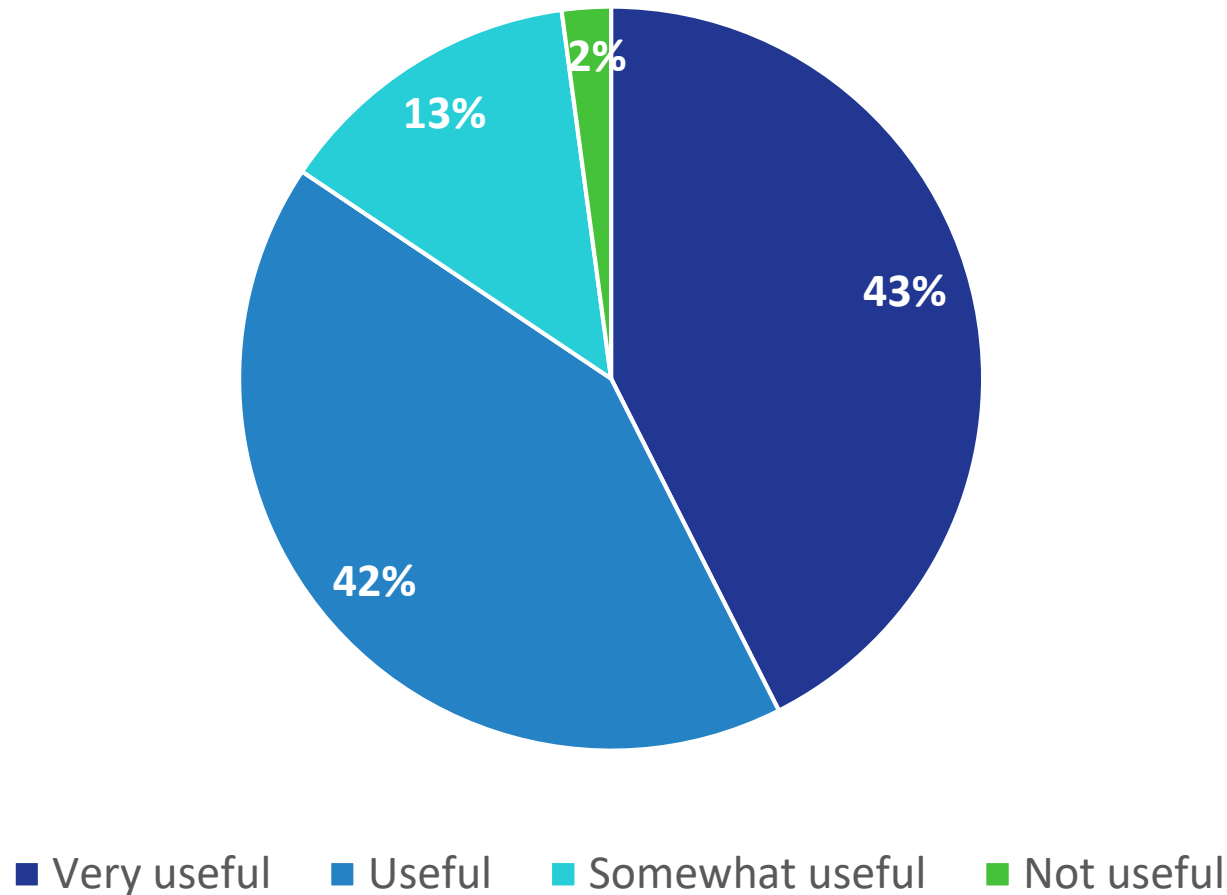

Which of the following do you feel that HRRP should conduct at provincial level?

Based on your experience, HRRP technical information and guidance is easy to access, well researched and relevant to work:

How relevant and useful have HRRP technical sessions you have attended been?

Please briefly describe any adjustment or addition you or your organisation made because of National HRRP technical sessions:

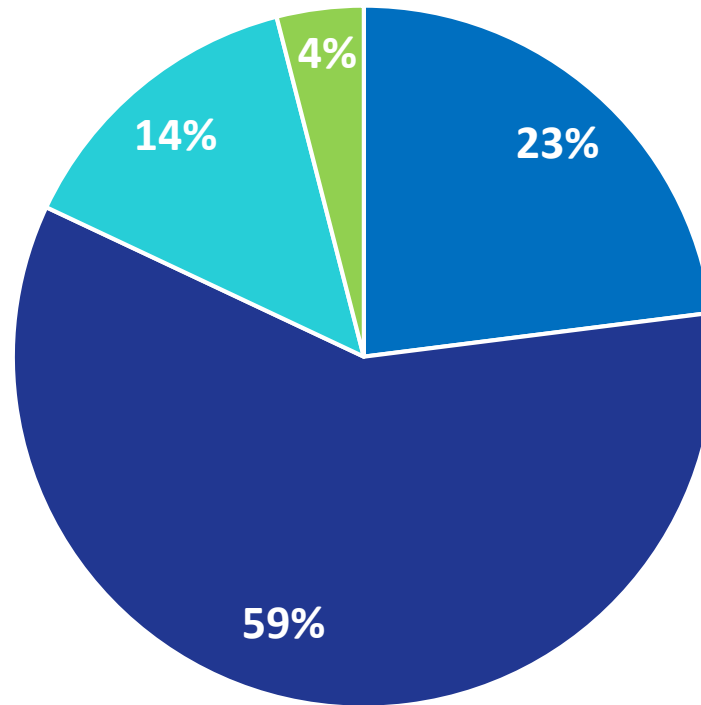

- “The publishing of the Socio-technical package description helped advocate for funding for this activity”
- Addition of support to vulnerable households to reconstruction programme
- “It has been useful in my work, especially explaining to beneficiaries about accessing grants and about technical processes”
- “Has helped in undertaking our activities or lobby with local ward officials or with beneficiaries in proposing reconstruction efforts to them for examples- correction and exception manual application, repair & retrofitting etc.”
- “Change in information management”
- “Solved technical issues related to reconstruction and also informed beneficiaries properly about technical matters”
- “We have improved ways of communicating with beneficiaries about technical matters”
- “Revisited and equipped knowledge level of engineers of my organisation”
- “After the timber orientation we were able to forward the inspection files which has been stopped earlier”
- “Enriched technical knowledge on those who participated as well as sharing and reflections of the technical sessions to in house staff”
- “Provided very useful information in terms of planning and to avoid duplication of work”

Please list any topics that you would like to propose for future technical sessions:

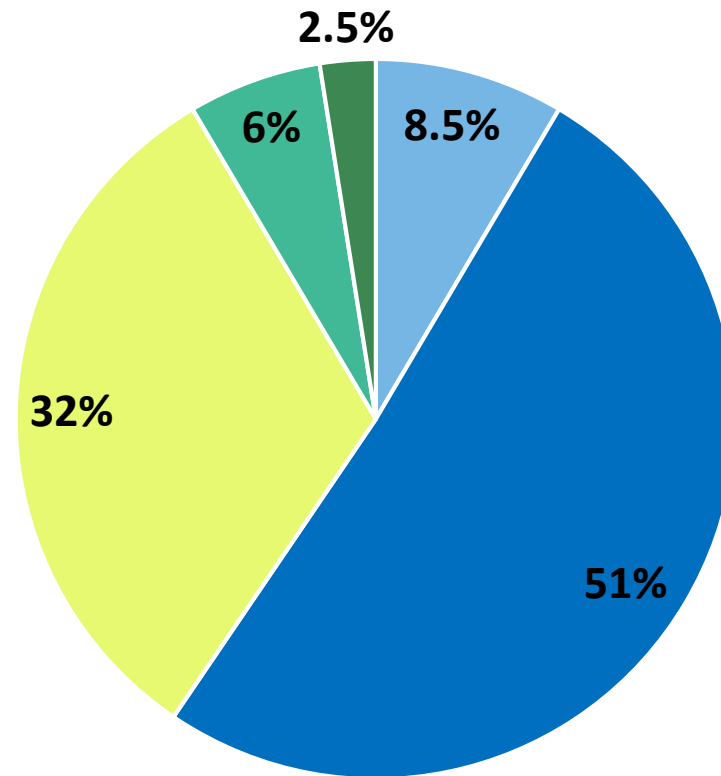

- 18 moderately affected districts
- Policy orientation
- Retrofitting
- Alternative construction materials and technologies
- Revisit correction and exceptions and repair and retrofitting manuals
- Outcomes of the various manuals and their application
- Steel frame truss specifications
- Positive and negative trends in POs activities
- Digital data collection
- Technical issues in reconstruction
- Information management
- DRR focused on landslides/landslips
- Use of local material in reconstruction
- Grievance process
- Project evaluation
- "Why housing grants are not distributed in transparent way in the community?"
- Interlocking blocks
- Experience sharing in selecting and supporting most vulnerable households/groups

How much do you agree with the statement 'HRRP has reduced gaps and prevented duplication in reconstruction efforts'?

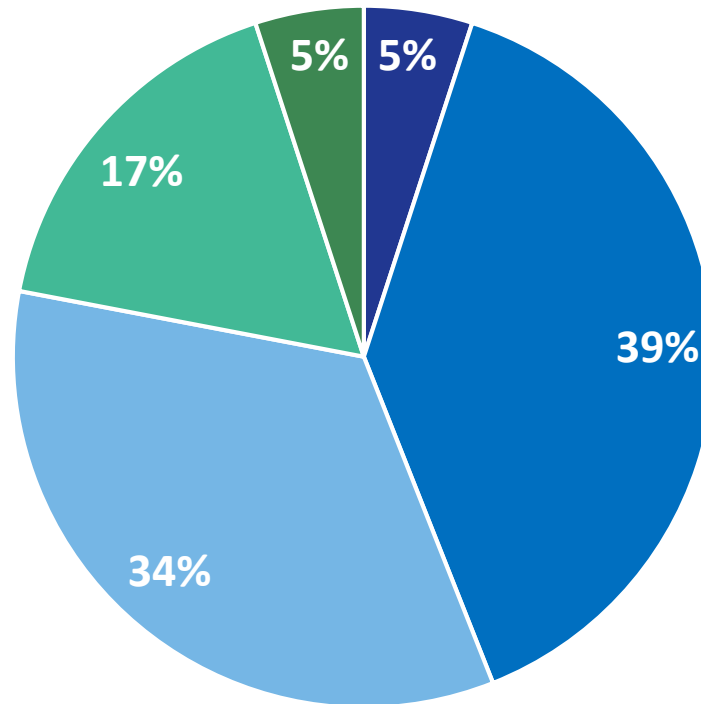

■ Strongly agree ■ Agree ■ Neutral ■ Disagree

How much do you agree with the statement 'HRRP has supported strengthening of emergency preparedness and response'?

■ Strongly agree ■ Agree ■ Neutral ■ Disagree ■ Strongly disagree

How much do you agree with the statement 'HRRP has promoted and mainstreamed Gender Equality and Social Inclusion (GESI) in reconstruction work'?

■ Strongly agree ■ Agree ■ Neutral ■ Disagree ■ Strongly disagree

If HRRP is extended, what changes or additions would you recommend to make the platform more useful for you / your organisation?

- “More work in the 18 moderately affected districts”
 - “More work on urban reconstruction”,
 - “Elements that complements and adds value to urban reconstruction such as water & sanitation, related public infrastructures should also be focused in an integrated approach”
 - “HRRP should have presence in all districts and there should be coordination with all stakeholders”
 - “Adjust its programs at all levels: local, province and center”
 - “Frequent training to social mobilizers regarding housing reconstruction as per government rules and social issues on how to deal with beneficiary houses or expectations of private house owner and importance of their roles and responsibilities.”
- “Not looking to only construction part of recovery, HRRP also have to go toward livelihood recovery”
 - “It would be more useful, if it covers other sectors like livelihood, heritage, health, education and so on and coordination with all sector government bodies and conduct work workshops and orientation on district level to strengthen the capacity”
 - “District team have to visit more field in coming days. It will help HRRP to cross verify the data.”
 - “Door to door technical assistance along with door to door Or mass community awareness is needed at the moment to reach the targets of shelter reconstruction in urban areas”
 - “HRRP should continue its advocacy on shelter reconstruction as well as its coordination mechanism till the NRA's official timeline.”

If HRRP is extended, what changes or additions would you recommend to make the platform more useful for you / your organisation?

- “Adjust its programs at all levels: local, province and center”
 - “More technical session on locally adapted reconstruction and its challenges”
 - “More technical expertise in district level”
 - “Inclusion of private sector in coordination platform along with elected bodies”
 - “Not needed after February 2019”
 - “HRRP should give priority to POs support in keeping ward level help desk. there should be rigorous sensitisation campaigns from the ward level”
 - “Should more focus on specific thematic area and should conduct monthly central level coordination meeting especially for the 5W reporting in Kathmandu”
 - “It would be useful for organization like ours who work in other aspects of reconstruction other than housing reconstruction if HRRP could cover them as well.”
- “Please include other aspects of reconstruction also like emergency preparedness, market strengthening, community infrastructures and livelihood”
 - “Same as previous is OK.”
 - “I would like to see more data analysis and accurate data of the household that did not start reconstruction.”
 - “Strengthen quality and accountability of local government”
 - “Technical support program should be done by HRRP”
 - “Comprehensive information of all sectors reconstruction work progress should be in HRRP”
 - “Look into NGO work at the grassroots on rebuilding and assist them to work better. Inform the INGOs and the government about how they are working so that they can continue to work on the process.”

Please briefly describe suggestions for how the HRRP could improve the coordination services it provides:

- “Do more at strategic level with donors / development partners - coordination and information updates and key advocacy points”
- “Conduct regular orientation program and training at ward level”
- “Better coordination with local government and other stakeholders”
- “Involve all the field staffs like project engineers in coordination work and have more communication”
- “Higher involvement with the NGOs in the fields too not confining to meetings”
- “Inclusion of private sector in coordination platform along with covering other sectors of reconstruction like community infrastructure”
- “Reconstruction engineers should be taken into forefront for coordination with local bodies”
- “It is much better now”
- “It is working good - no improvement required”

Please briefly describe suggestions for how the HRRP could improve the coordination services it provides:

- “Leadership & management ability of HRRP district team should be increased and should support national NRA & district NRA to meet the targets”
- Share information through SMS / Whats App / Viber
- “As district government is also conducting such meeting with stakeholders, now agencies are less interested in HRRP meeting. Agencies send junior staff just to participate the meeting.”
- “District level reconstruction agencies & their support should be used more to facilitate coordination services in local levels.”
- “Institutionalise within NRA, MOUD, MOFALD, districts, professional institutes, local academia and local media”
- “Should focus on relevant coordination rather than wasting time”
- “What you are doing is fine. Just do these things better”
- “Ask questions on the work the NGOs are doing and share better practices on the matter”
- “Need to improve coordination services to local level, ward level as far as possible”
