Report Prepared By:	<i>HRRP-Dhading Team and orientation facilitators</i>

Discussion: (Items/Knowledge Shared)

Inauguration and Overview – Er. Dilip Bhandari , Chief of DUDBC/DLPIU Dhading

Mr. Dilip Bhandari inspired/ motivated orientation program with summary on housing reconstruction flow and progress with needs & purpose of correction and exception manual.

He requested partner organization to provide support in structural analysis of those non- Compliance cases which could not be resolved by correction and exception manual as manpower deployed by NRA not to be sufficient .

He briefly explained correction/exception manual.

NRA District support engineer- Mr. Raman Shrestha

UNDP/NRA team as a District support Engineer to provide support in structure analysis of every non-compliance cases. Team has been working through DUDBC/DLPIU office and requested partner and DLPIU technical staff to provide detailed plan, dimension and pictures of non-compliance cases which do not fall in correction and exception manual and target of those houses should be in such a way that a single case will act as sample for certain number of cases. He discussed Design Catalogue of reconstruction of earthquake resistant house-Vol II and Information of design and detailing of 11 typical non complaint cases on RCC structure.

Presentation of 11 typical non complaint cases on RCC structure (Click here)

Orientation program on correction/exception manual and new approved designs- Mr. Pramod Khatiwada(NSET), HRRP Dhading

- Participants from various partner organizations and government attended orientation & participated throughout interaction and presentation sessions.
- He presented need, objective, scope, limitations and content of correction exception manual and walk through easy way to understand and use correction/exception manual.
- He also briefed about updated inspection forms and way to use old forms for exception and corrected cases. New approved designs and recently analyzed dry stone, RCC and low cost designs were also presented and explained in brief.
- Importance of effective communication was emphasized during presentation and brief introduction to various communication skills and tools were introduced to all participants.

Miscellaneous Items / AOB:

Decisions Made: (What, Why, Impacts)
1. Conduct Correction and Exception manual orientation at district for all partner organizations. 2. Continuation of support to supply chain assessment work from partner organizations. 3. The issues/challenges will be addressed in coming days by all relevant government bodies of Dhading.

Questions Collected	Who asked the Q?	Response Provided
Is there any possibility of opening in Gable Wall ?	UMN Coordinator	Yes, If properly band are provided but Gable is the most vulnerable part in the building, If opening are provided Wind Circulation may take place due to which building has an adverse effect, So we strongly suggest not to keep any opening in the Gable.
What should we do to inspect and provide corrective measures as we do not have updated inspection forms available now in our VDCs municipalities?	PO Staff	We need to use remarks column and elaborate why That requirements were fulfilled based on which clause of correction/exception manual.
