

Highlights

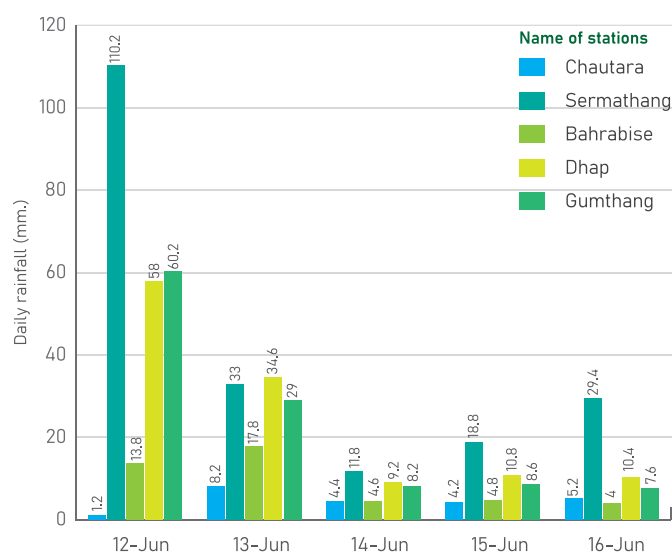

1. **5** people died, **6** injured and **20** are missing.
2. **123** were rescued and **1,242** were temporarily transferred to safe locations.
3. **525** people displaced.
4. **337** houses fully damaged and **97** houses partially damaged.
5. **18** Suspension bridges, **7** Motorable bridges and **1** Bailey bridge damaged. **14** Hydropower stations (big and small) have sustained damages.

Overview

The 2021 southwest monsoon entered Nepal on 11 June, bringing destructive landslides and floods across the mountain districts from the very first week of its onset. Sindhupalchowk bore the biggest brunt. Unprecedented floods, landslides (up into the high mountains > 3000 m) and debris flow in Melamchi and Indrawati rivers along with floods in the upstream reaches of Marsyangdi River led to the displacement of **867 families** with **414 houses** fully damaged and **97 houses** partially damaged. **20 people** are missing with **525 families** displaced in Sindhupalchowk. **235 families** have been displaced with no human casualty in Manang. **107 families** have been displaced in Lamjung. **12 Hydropower stations** have been affected in Lamjung alone cutting off electricity supplies. Connectivity to Helambu Municipality in Sindhupalchowk has been lost. **65 kilometers** of road connecting Lamjung to Manang have been cut off, impacting relief supplies and distribution in the affected areas.

Rainfall in Sindhupalchowk District

Persons missing, deaths & displaced

Districts	Rural/Urban Municipality	Missing Persons	Injured	Death	Displaced HHs	Fully Damaged houses	Partially Damaged houses
Sindhupalchowk	Melamchi, Helambu, Chautara Sagachokgadhi	20	6	5	525	337	0
Manang	Chame, Naso, Manang Disayan	0	0	0	235	59	20
Lamjung	Dordi	0	0	0	107	18	77
Total		20	6	5	867	414	97

Data Source: Initial Rapid Assessment (IRA)

Note: Additional 46 HHs have been temporarily transferred to safe locations due to the risk of flooding in Lamjung District.

Damaged Road Network

District	Road	Condition	Location
Sindhupalchowk	Araniko Highway	Obstructed	Dam site & Liping bridge
Sindhupalchowk	Panchkhal Melamchi Timbu Road	Obstructed	Melamchi bazar
Manang	Dumre Besisahar Chame Road	65 kilometers of road length damaged (35 km in Lamjung 30 km in Manang)	Timag Khola, Dharapani, Bagar Chhap
Lamjung	Dumre Besisahar Chame Road	Damaged in different section of this road (Obstructed)	

Data Source: District Administration Office (DAO) and Initial Rapid Assessment (IRA)

Damaged Public Structure

District	Bridge	Hydropower	Other
Sindhupalchowk	13 Suspension and 7 motorable	1 hydropower	10 Trout Farms, 1 covered hall and 1 green city park.
Manang	5 Suspension and 1 Bailey	1 hydropower	1 Bailey bridge
Lamjung	None	12 hydropower	2 community building, 1 government building

Data Source: District Administration Office (DAO) and Initial Rapid Assessment (IRA)

Relief and Rescue

A rescue team of Nepal Army (NA), Armed Police Force (APF) and Nepal Police (NP) supported by local authorities have been conducting initial rescue and response in the affected areas. The Nepal Red Cross Society (NRCS) district chapter is supporting the District Disaster Management Committee (DDMC) in carrying out Initial Rapid Assessment (IRA) in all districts. **123** people were rescued and **900** people were transferred to safe temporary locations in sindhupalchowk. Similarly, **235** people in Manang, and **107** people in Lamjung were transferred to temporary locations.

Needs

These needs are projected based on the IRA to appeal for emergency humanitarian assistance. More detailed data is to be updated when a detailed assessment is completed.

District	Shelter	WASH	Food Items	Non Food Items	Health
	Tarpaulins+Tents (HHs)	Basic Hygiene, Sanitation Kits (people)	Ready to eat foods and relief packages (People)	Clothes + Blankets + Sleeping Mats (People)	COVID Safety Kits and Emergency Health Support (People)
Sindhupalchowk	400	1,060	1,000	800	1,000
Lamjung	250	1,700	1,700	1,700	1,700
Manang	50	90	90	50	90
Total	700	2,850	2,790	2,550	2,790

Data Source: Initial Rapid Assessment (IRA).

Protecting settlements and bridges from bank cutting using gabion boxes. Restoring road and electricity connectivity. Provision of solar panel chargers. CGI sheets for temporary shelters.
