Typology Collected Ward

- Yes
- No
- National Park

Note:
The main objective of Joint Monitoring is to monitor and facilitate reconstruction progress and provide solutions to the issues and challenges effectively and efficiently. These visits are conducted in the 14 most earthquake affected districts jointly by CLPIU Building and Housing Recovery and Reconstruction Platform (HRRP). These visits started from February 2018.

Disclaimer: The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by HRRP.
