News & UpdatesField Visit Reports

Date:	Location	Participants
May (7 th – 9 th) 2018	Dhunibesi Municipality, Chhatredeurali, Jeevanpur, Kewalpur VDCs.	• Khagendra Awasthi (MOUD-CLPIU, M&E) • Prabin Gautam (HRRP) - DC
Objective(s)	• Joint monitoring visit with MOUD-CLPIU • To know the current progress status of reconstruction • Community involvement in reconstruction and their challenges. • Coordinate with the municipality for Information management training. • Municipality-level meeting.	
Summary	HRRP team member, MOUD CLPIU M&E together with Dhunibesi municipality mayor, radio Dhading station master conducted a close meeting on 8th May 2018. The meeting was focused on the motive of HRRP's field visit and its modality of work it has been doing since the beginning of its establishment. The meeting was focused to address the need for the reconstruction purpose within the municipality. Dhunibesi municipality has been least prioritized from I/NGOs regarding support for the reconstruction to the beneficiaries. Many of the houses constructed just after earthquake have not yet received 2nd tranche. This may be due to the case of being a non-compliant. Thus, people are scared to build their houses due to uncertainty in receiving government grants. But people have been gradually being awareness on how they would receive government grants. NRA engineer's presence is satisfactory. Looking at the progress status of Dhunibesi municipality, it seems gradually increasing the rate of construction but not in a satisfactory way in comparison to neighboring rural municipalities. Mayor of Dhunibesi Mr. Balakrishna Acharya told that there are some of the beneficiaries who are under poverty line and are not able to build house due to disability or old aged or lower financial status. Such people have received 1st tranche but are not able to build even up to the plinth level. NSET has been conducting OJT program through Training Center Nepal (TCN) at Dhunibesi municipality. Thus, mayor want to make focus of such program to be targeted for rest of the vulnerable beneficiaries within the locality. Adding to this, HRRP is always ready to help and coordinate with relevant stakeholders to support such people within the district. HRRP also focused the meeting in a topic of "Information Management" event necessary to be conducted for the IT staffs of rural/municipality for capacity building purpose. A positive feedback was given by the mayor regarding it and instructed HRRP to move forward to accomplish the goal. Similarly, HRRP visited and conducted close meeting at ward level offices to find out the current situation. Ward leaders and staffs are keen to know the result of grievance and have been constantly pressurized by the victims of 2015 earthquake. They urged HRRP to support on this by providing the result through NRA office-Dhading. Informative maps of HRRP were distributed at municipality office as well as wards offices.	

M&E from MoUD-CLPIU, closely monitored the construction situation within the locality. He instructed beneficiaries to follow NRA guidelines and take support of NRA field engineers, sub-engineers and ass. Sub engineers for technical difficulties.
