

HRRP General Meeting, Anniversary Edition

Dhoikhama Café

21st April 2017

HRRP3

Exists to support 7 stakeholders groups with services for coordination of the post-earthquake housing reconstruction:

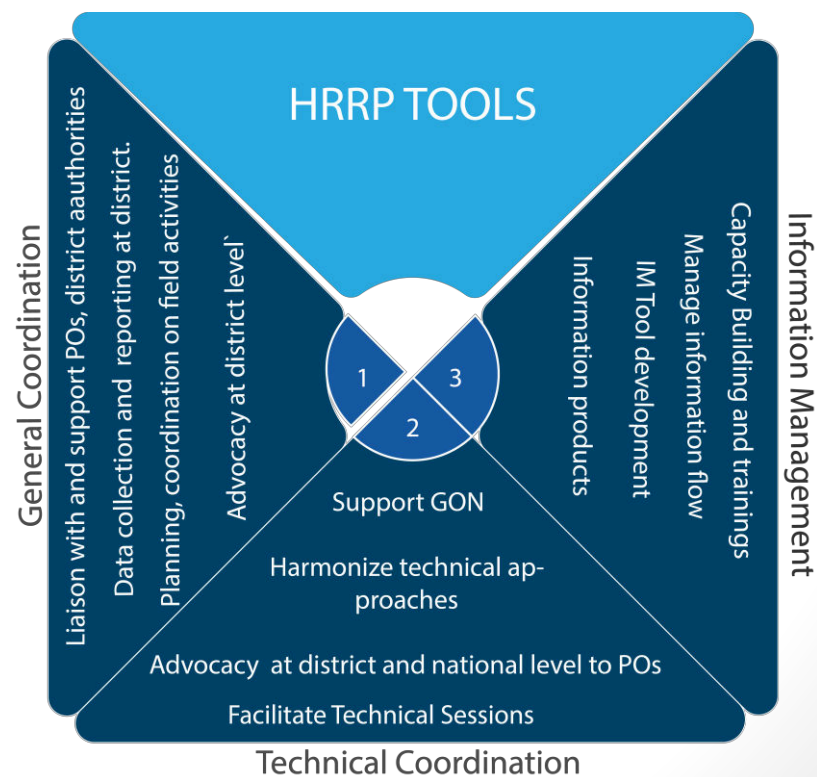

- National Reconstruction Authority (NRA)
- Ministry of Urban Development CLPIU (MoUD)
- Ministry of Federal Affairs and Local Development CLPIU (MoFALD)
- Other relevant government authorities
- Partner Organisations (POs)
- Donors
- Private Sector

3 focus areas

- Improving coverage and quality of technical assistance
- Addressing gaps and duplications
- Harmonized approach to reconstruction and recovery

3 tool for coordination support

- General Coordination
- Technical Coordination
- Information Management

HRRP3

- Approved by NRA for two years, up to end Feb 2019
- Financial contributors: DFID, CRS Nepal (lead organisation), SDC, Caritas Nepal, Build Change, ACTED, Christian Aid, Plan International, Habitat for Humanity
- **34%** funding gap; for example no partner for district coordination in Nuwakot or Sindhuli, 17 districts
- 1,800+ people on HRRP mailing list

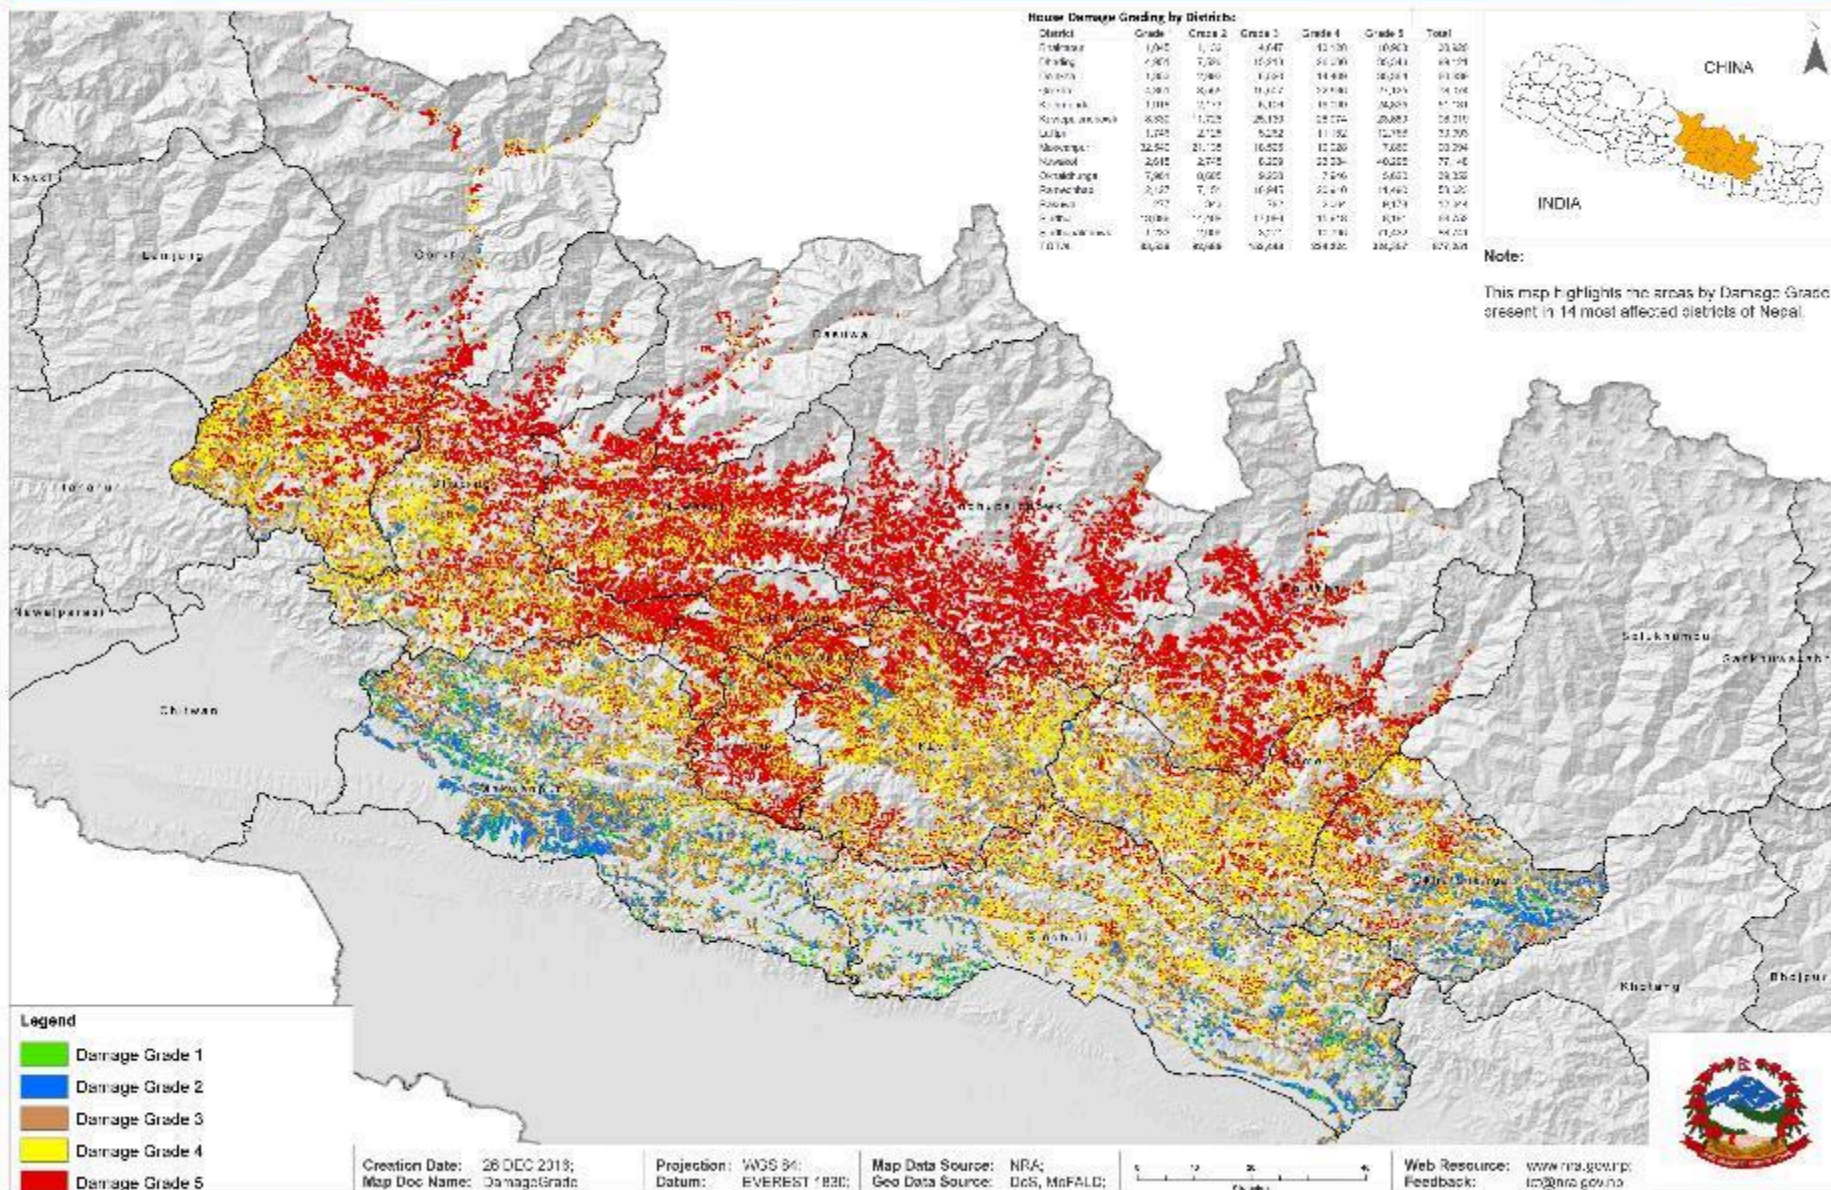

Reconstruction Context

Different Typologies and Solutions

- Mid-hills
- Southern districts
- Urban Areas
- Northern Areas
- 17 districts
- Displaced HHs

Technical Context

- Retrofitting
- Corrections / compliance
- Supply Chain, Materials
- Emerging technologies
- Non-compliant architecture
- Heritage / vernacular architecture

5,403 Individuals Trained in 163 VDCs

Vocational
Training

24,795 Individuals Trained in 339 VDCs

Short
Training

Demo Construction in 357 VDCs

Demo
Construction

Orientation

5,637 HH orientated in 155 VDCs

Helpdesk

14,108 HH reached in 115 VDCs

D2D
Tech
Support

10,190 HH reached in 119 VDCs

Successes

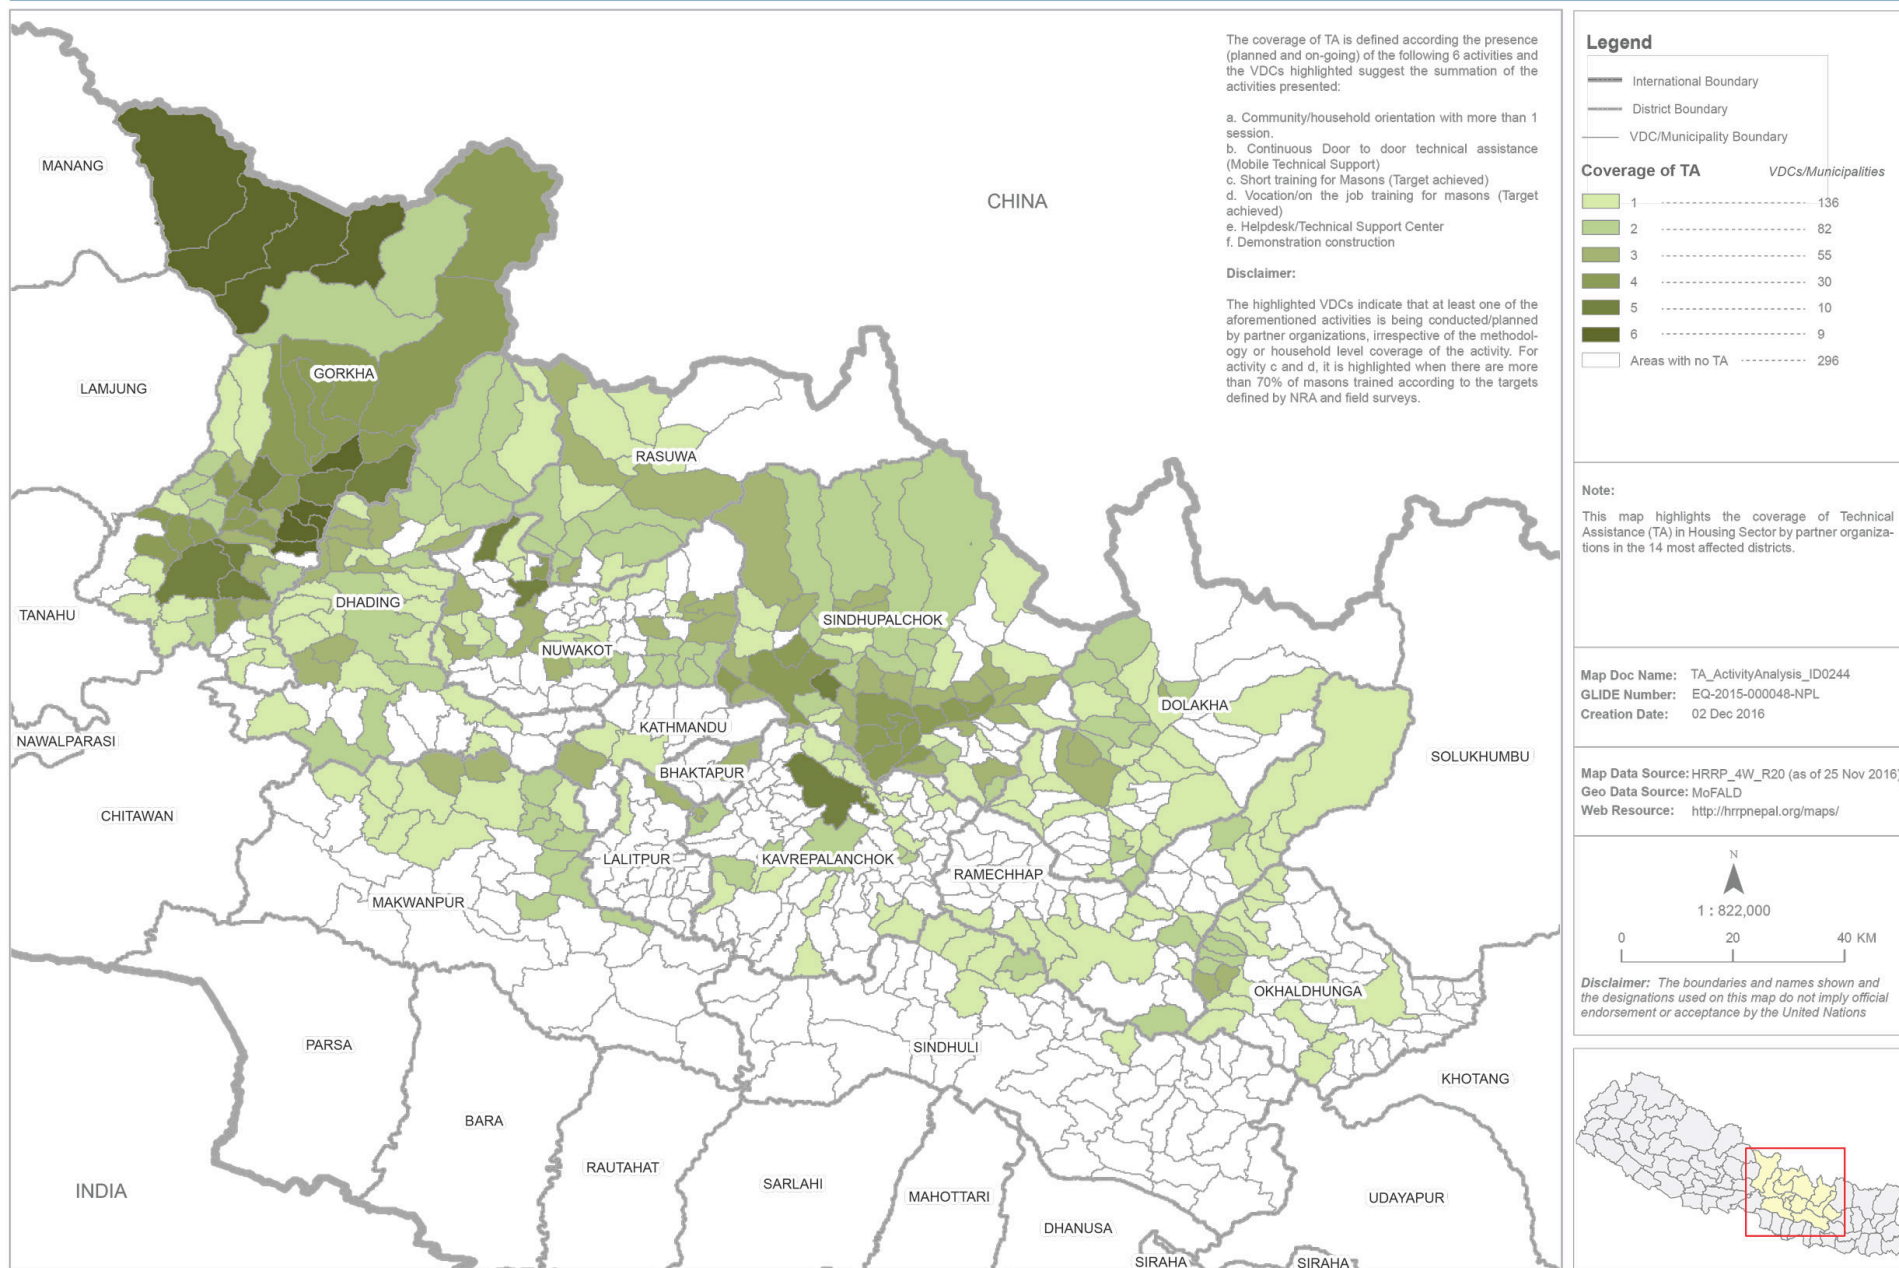

- Some POs adjusting programmes to provide more TA instead of providing reconstruction grant
- Number of VDCs with no TA has gone from 296 in November 2016, to 150 in March 2017
- Number of VDCs receiving full package of TA has gone from 9 in Nov 2016 to 25 in March 2017
- District technical workshops conducted in 14 districts in January and February

Challenges

- POs committing resources to providing housing reconstruction grant
- Coverage and quality of technical assistance
- Approach in 17 districts?
- Miscommunication, lack of common understanding
- Communications methods

Challenges Contd.

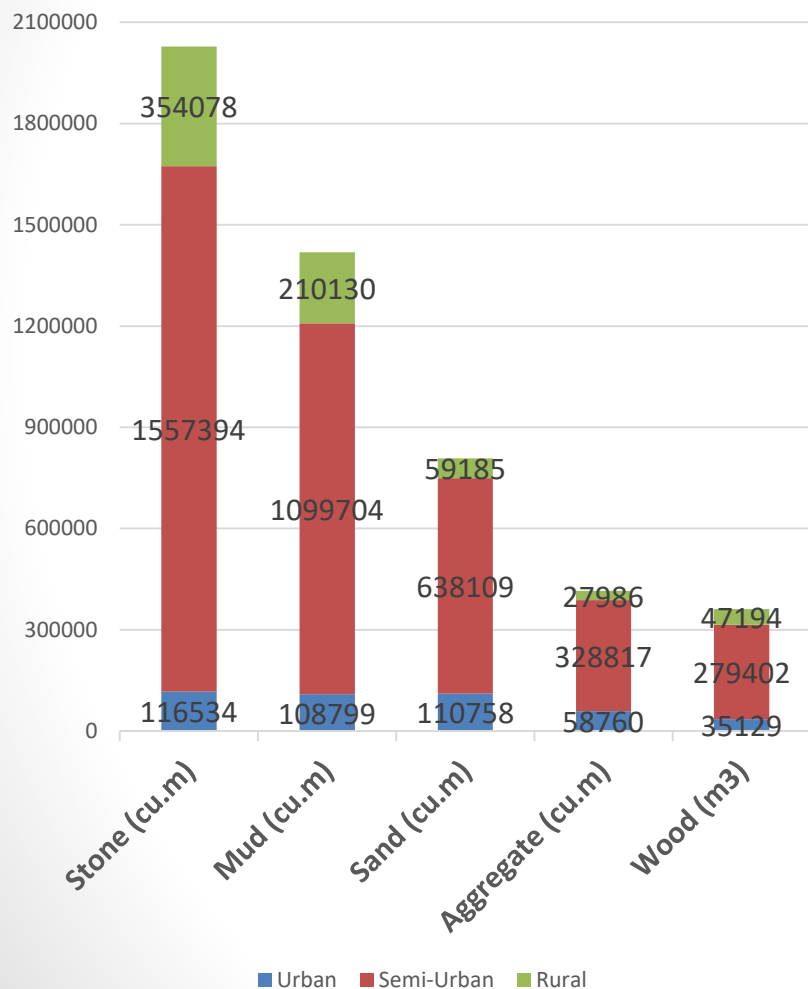

- Emerging technical trends
- Non-compliant architecture
- Heritage / vernacular architecture
- Urban areas
- Relocation
- Corrections / Retrofitting

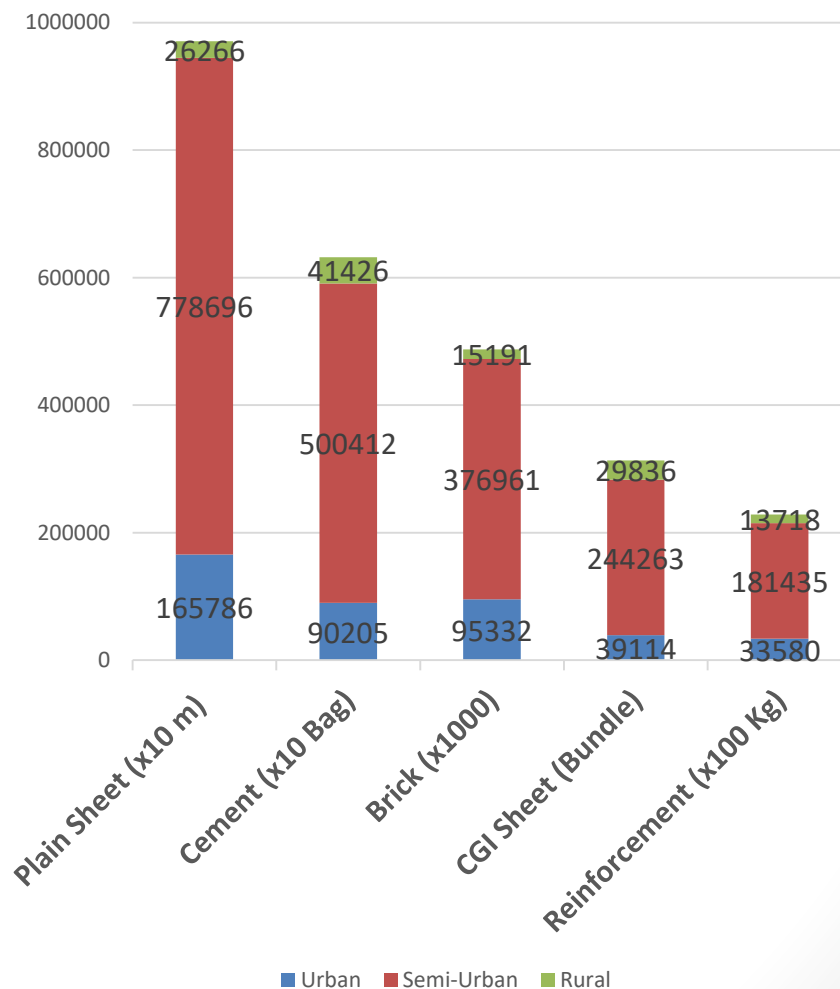

Supply Chain Assessment

Resource Demand for the District of Gorkha

Local Resource Demand

Non-Local Resource Demand

What Next for partners?

- Adjust programmes to move funds from reconstruction grant to full package of TA and / or vulnerable top ups
- Support to 17 districts?
- Support to VDC Secretaries to activate community reconstruction committees

What Next for partners?

- Work with, and support DL-PIU engineers and VDC staff
- Engagement of, and support to, masons as key actors in the reconstruction
- Equip TA teams to communicate effectively with HHs and communities
- Development of market hubs as information hubs
