

WEEKLY BULLETIN

12 February 2018

Quiz competition on the topic of earthquake safety and safe construction at Jhatteshowori school, Bijulikot, Ramechhap. Photo Credit: Medair Nepal.

Highlights

- NRA Steering Committee approves extension of second tranche deadline to mid-April 2018
- Reminder: [Round 2, HRRP Partner Satisfaction Survey](#) – the survey will close this FRIDAY! Please, please, please take part and help us to improve the platform.
- [Global Compact for Safe, Orderly, and Regular Migration, Zero Draft, 5 February 2018](#)
- [Sakcham Access to Finance Programme Challenge Fund Call for Proposals, Innovative Model Concepts](#)
- [HRRP Housing Reconstruction Progress Maps](#), based on MoUD CLPIU inspection data as of 5 February
- [HRRP Technical Assistance Coverage Maps](#), based on HRRP 4W data as of 25 January 2018
- Summary of HRRP District and Municipal Coordination Meetings during 28 January – 9 February
- [Local building cultures for sustainable & resilient habitats, CRAterre, IFRC and SC-CF](#), developed within the framework of the ‘Promoting Safer Building’ working group (led by CARE and CRAterre) under the Global Shelter Cluster.
- Maps of Partner Presence (at ward level) for [this construction season](#) and [next construction season](#): the maps show a worrying trend in reduced support from the end of this construction season.
- Contact list for the [MoUD DLPIU Chiefs / Deputy Chiefs](#) and [MoFALD DLPIU teams](#) in the 17 districts

UPDATES & REQUESTS

National

NRA Steering Committee Agree Second Tranche Deadline Extension, 9 February: during the steering committee meeting last Friday, it was decided to extend the deadline to receive the second tranche of the GoN housing reconstruction grant to mid-April 2018. Honourable Finance Minister, and Steering Committee member, Gyanendra Bahadur Karki stated that efforts are being made to secure resources for the additional grant of 100,000 NPRs which cabinet has proposed to provide to earthquake (and flood) affected households. He informed that the World Bank has already agreed to provide 40 billion NPRs support towards this. The Committee's Vice Chairperson, Bhim Rawal expressed concerns about the frequent changes in NRA leadership and emphasised that all should be united for the post-earthquake reconstruction whether they are in government or the opposition. The NRA CEO informed the committee that despite challenges faced due to a lack of technical manpower and skilled masons, they are about to achieve 50% of the private housing reconstruction target. NPC Vice Chairperson, Dr. Swarnim Wagle, presented to the committee on the potential to have a second donor conference to mitigate budget deficit. Steering Committee member, Taranidhi Bhattarai, stressed the need to work as quickly as possible for the relocation of risk prone settlements identified through the NRA geo-hazard risk assessment.

MoFALD CLPIU Enrolment Data, as of 11 February (Nepali and Unofficial English Translation): the data now includes new columns to provide numbers of households that have applied for the second and third tranche, as well as % columns for all parameters.

	28 January	1 February	11 February
Total No. Eligible HHs	767,705	767,705	767,705
HHs Enrolled	684,468	684,468	692,066
HHs Received 1st Tranche	671,495	671,577	679,722
HHs Applied for 2nd Tranche			197,115
HHs Received 2nd Tranche	162,114	166,320	194,297
HHs Applied for 3rd Tranche			47,841
HHs Received 3rd Tranche	40,487	41,003	47,394

NRA gives authority for an additional 11 billion NPRs for the housing grant tranche distribution in the districts (Nepali): on Tuesday, 6 February, the NRA gave authority to MoFALD CLPIU for the additional amount in view of the possibility of high demand for grant disbursement due to the increased construction rate. Mr. Manohar Ghimire, NRA Joint Secretary and Information Officer, stated that there are no problems with the disbursement of the tranche amounts and the NRA has provided authority in advance to avoid any deficits in the amount required at district level. Mr. Ghimire advised all eligible households to continue with their reconstruction in full confidence that the funds for the tranche disbursement have been transferred to all districts as demanded. The pace of housing reconstruction continues to increase with 291,815 houses under construction and 227,854 households approved for the second tranche as of 5pm on 6 February. The World Bank and the Ministry of Finance signed an agreement in mid-January for loan support of 30 billion NPRs committed the private housing reconstruction.

One-day Orientation for MoUD DLPIU Chiefs & Deputy Chiefs for the 17 Districts, 8 February: the event was conducted by MoUD CLPIU and included session on budget and programme of reconstruction in MoUD CLPIU and DLPIUs, GoN housing reconstruction / repair grant distribution procedure, DUDBC building design catalogue volume 1 & 2, retrofitting and the correction and exception manual (delivered by HRRP), MoUD CLPIU M&E procedures, and MIS and database system for inspection data entry. NRA Executive Member Dr. Hari Ram Parajuli chaired the opening session and NRA CEO Mr. Yuba Raj Bhusal also visited the programme and encouraged the participants to speed up the reconstruction so that they can achieve the target of 60% completion of private housing reconstruction before this year's monsoon. The contact list for the MoUD DLPIU Chiefs / Deputy Chiefs in the 17 districts is available [here](#).

Cash Coordination Group (CCG) Meeting, 7 February: the major points from the meeting were:

- WFP have drafted a Cash Transfer Programme (CTP) guideline which will be shared during the next CCG meeting in on 23 February.
- WFP are planning a study on the tools, techniques, technologies, and modalities used by agencies for CTP in Nepal. A ToR has been developed which will be shared with CCG members.
- CCG have developed a 3W to collect data on CTP for flood response.
- During the CCG meeting on 23 February (at 10am, at the DCA office) the group agreed to work on the action plan, strategy, and resource requirements for the CCG.
- HRRP presented the recently prepared map of financial institutions - <https://goo.gl/JEoihy>. WFP suggested that the class of financial institution should be included in the map. UNCDF informed that they have been working to geo tag all Financial Service Providers (FSPs), as well as mapping the population using the FSPs. This provides information on the number of bank accounts opened, debit card holders, financial transactions, etc. UNCDF will share the report and associated data with CCG members during the next meeting on 23 February.

UN expert calls for better protection against abuse and exploitation for Nepali workers seeking foreign employment: during his first official visit to Nepal, Mr. Felipe González Morales, UN Special Rapporteur on the Human Rights of Migrants, acknowledged that the GoN has made progress in ensuring protection of the rights of its citizens migrating to work abroad, but highlighted that protection gaps continue to exist in the legislation, and challenges in enforcement, implementation and monitoring remain.

Districts

Gorkha Reconstruction Workshop, Pokhara, 11 and 12 February: the reconstruction workshop was organised by NRA-Gorkha with facilitation support from HRRP Gorkha and the logistics and costs for the event have been shared by development partners (OXFAM, LWF, CARE, WVI, EHRP/JICA, CRS, INF, Build Up, Samaritan's Purse, and GNI) working in the district. The objective of the workshop is to review and reflect the progress during the last year and prepare a strategic action plan for the upcoming year. The workshop will be concluded with the Pokhara Declaration-2074. The report from last year's workshop is available [here](#).

Winterisation Support, Bigu Rural Municipality: Christian Aid distributed blankets to 31 families in Aalampu-6 who are living in temporary shelter and are disabled, elderly, or living below the poverty line. The initiative was coordinated by HRRP-Dolakha after a request for winterisation support was received from Bigu Rural Municipality.

HRRP District and Municipal Coordination Meetings, 28 January – 9 February: during this period district coordination meetings took place in [Bhaktapur \(28 January\)](#), [Nuwakot \(30 January\)](#), [Dhading \(31 January\)](#), Ramechhap (6 February), and Sindhupalchowk (6 February) (meeting minutes for Ramechhap and Sindhupalchowk coming soon). Municipal level meetings took place in Chisankhugadhi RM, Okhaldhunga (29 January), Ajirkot RM, Gorkha (29 January), Kispang RM, Nuwakot (31 January), Sahid Lakhani RM, Gorkha (31 January), Raksirang RM, Makwanpur (31 January), Palungtar RM, Gorkha (1 February), and Tripura Sundari RM, Dhading (6 February). Some of the highlights from these meetings include:

- In Bhaktapur, two engineers have been moved into Changu Narayan Municipality where gaps in staffing had been causing challenges in addressing the reconstruction needs of the 10,647 households eligible for the reconstruction grant in this area.
- In Nuwakot, Acting NRA Chief, Bed Prasad Gaudel, encouraged POs to continue their support for housing reconstruction and assured that Central NRA would find a way to adjust the second tranche deadline.
- In Dhading, HRRP team presented on a recent field trip to Netrawati Rural Municipality where they found there is insufficient and inaccurate information regarding reconstruction (including lack of knowledge on how to access the tranches of the GoN reconstruction grant), scarcity of water in some areas, high numbers of non-compliant houses, and some households are still living in hazardous areas.
- In Chisankhugadhi RM, Okhaldhunga, the local representatives raised concerns because the list of households eligible for the GoN housing reconstruction grant has never been shared with them.
- In Ajirkot RM and Sahid Lakhani RMs in Gorkha, the meetings focused on reconstruction updates, establishment of reconstruction focal person / help desk in the RMs, and open interaction on reconstruction challenges. Internally displaced people and landless issues were identified as prime concern of local representatives as well as delays in the tranche distribution.
- In Kipsang RM, Nuwakot, the local officials raised concerns about the 138 houses that were reconstructed before the formation of the NRA as they were not clear on if / how these households can access the GoN housing reconstruction grant. They also highlighted that the tranche deadlines set by NRA had led to many household constructing a one room house just to get the reconstruction grant, even though the house does not meet their living requirements.
- In Raksirang RM, Makwanpur, it was decided during the meeting to create a fund for reconstruction under the ward office. This fund would be used to help households to construct their houses while they are waiting to receive the tranches of the government grant. Once they receive the tranches they would repay the money to the ward office fund.
- In Tripura Sundari RM, Dhading, the local representatives raised concerns about the number of households that have not been approved for the second and / or third tranche as well as concerns regarding the procedures for non-compliant houses to carry out corrections and receive the tranches.

HRRP District Coordination Team Dolakha, Weekly District Report, 2 - 8 Feb 2018

Bigu Rural Municipality (formerly Aalampu VDC, ward 6): a single storey, two roomed, stone and mud mortar masonry house with RCC band under construction. The home owner has received the second tranche. The local masons working on the construction were trained by HURADEC Nepal, an implementing partner of Christian Aid.

HRRP District Coordination Team Dhading, Weekly District Report, 2 - 8 Feb 2018

Gumdi-04, Gangajamuna Rural Municipality, Dhading: two storey hybrid structure under construction. The home owner has received the first tranche and has been approved for the second tranche. The estimated total cost for construction of house is 600,000 NPRs.

HRRP District Coordination Team Kathmandu, Weekly District Report, 2 – 8 Feb 2018

Ward No. 1, Gagalphedi, Kageshwori Manahara Municipality, Kathmandu: brick in cement mortar masonry house. The home owner has used salvaged materials and has received the first tranche and applied for the second tranche.

HRRP District Coordination Team Ramechhap, Weekly District Report, 2 - 8 Feb 2018

Khadadevi, Ward No. 7, Khadadevi Rural Municipality, Ramechhap: stone in cement mortar masonry house with RCC bands. The home owner has received all three tranches of the GoN housing reconstruction grant. The total cost of constructing the house was 600,000 NPRs.

Requests for Partner Support

REMINDER, Round 2, HRRP Partner Satisfaction Survey: the survey will close this FRIDAY! The survey should take approximately 10 to 15 minutes to complete, but will take longer if you choose to provide more detailed feedback in the open answer questions, and can be conducted in Nepali or English. Please, please, please take part and help us to improve the platform.

Sakchyam Access to Finance Programme Challenge Fund Call for Proposals, Innovative Model Concepts: the call is open to licensed Financial Service Providers (FSPs) operating in Nepal who are willing to introduce innovative business models but are constrained by high initial costs, and / or hesitating to invest due to high risks. There are 9 business models that are encouraged; increase downscaling by commercial banks, increase value-chain financing products, extend remittance products, increase uptake of micro-insurance, replicate technology for loan automation, replicate and scale financial literacy initiatives, roll out Mobile Financial Services (MFS), create bank agent ecosystem, and provide targeted support for G2P payment. The process to apply is outlined on the Sakchyam website - <http://sakchyam.com.np/sakchyam-challenge-fund-process/>.

[Partnership Agreement Signed between HH and GoN](#)

[1st Tranche Received](#)

[Construction Started](#)

[Compliance Rate – 2nd Tranche](#)

[Compliance Rate – 3rd Tranche](#)

[Construction Completed](#)

Technical Assistance Coverage Maps: based on HRRP 4W data as of 25 January 2018.

[Coverage of 7 Technical Assistance Activities](#)

[Areas with no Technical Assistance with Damage Overlay](#)

[Door to Door Technical Assistance](#)

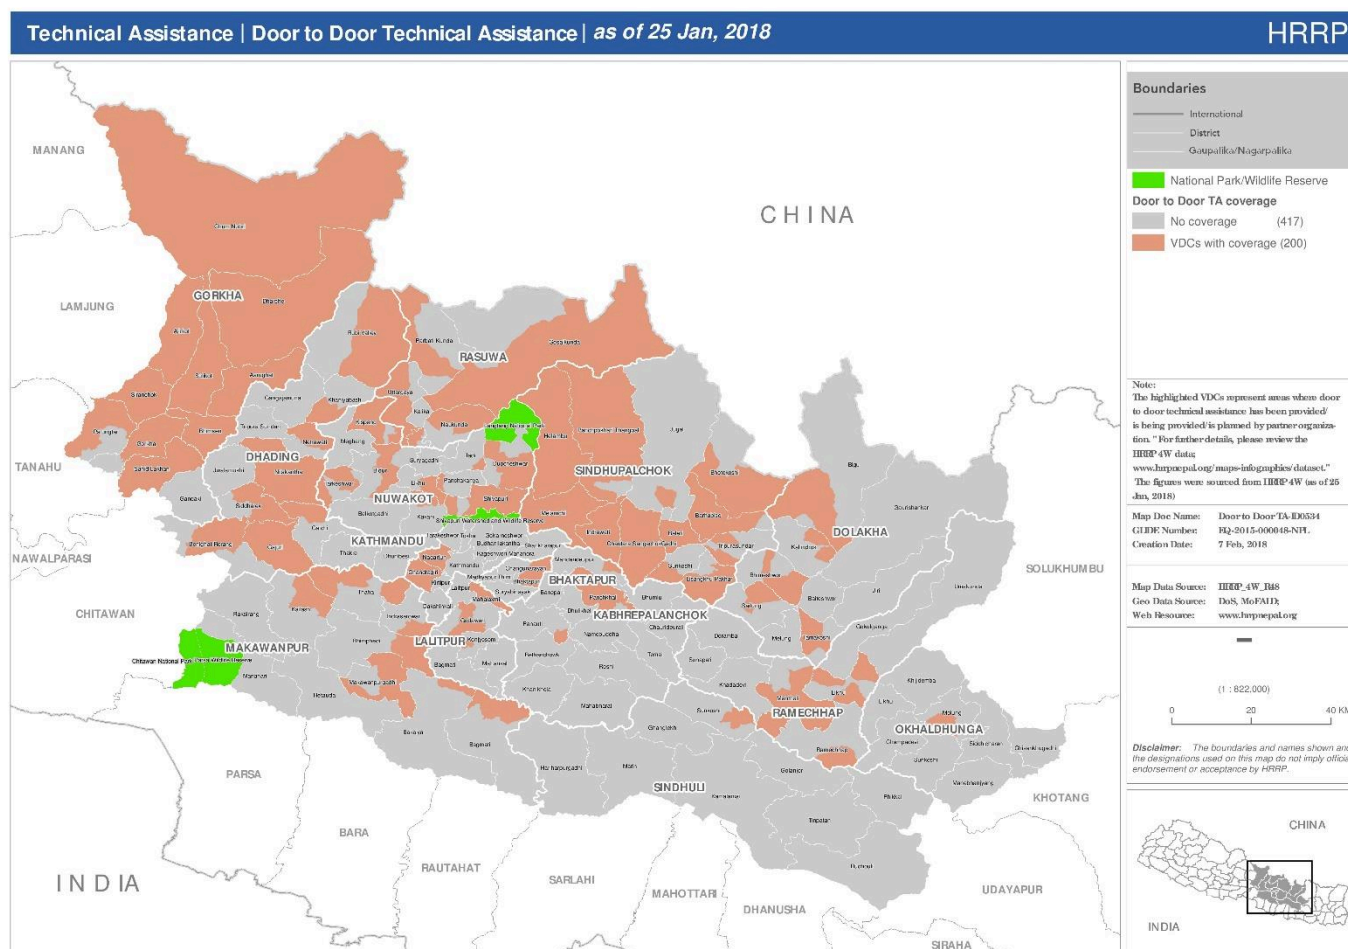

[Community & Household Orientations](#)

[Demonstration House Construction](#)

[Helpdesk / Technical Resources Centre](#)

[Masons Short Training Coverage](#)

[Masons Vocational Training Coverage](#)

The map of door to door technical assistance coverage (completed and on-going activities) provides a very clear and visual indication of how low levels of support are for households. Door to door technical assistance is the most critical part of the reconstruction and is essential to ensure that households have access to the information they need in a timely manner. As the rate of construction increases, but the level of support decreases further it can be expected that there will be an impact on the compliance rates.

Maps of Partner Presence (at ward level) for this construction season and next construction season: the maps are based on data from the HRRP 4W and as such there is a possibility that data may not be accurate for the next construction season. HRRP will be working with partners to refine and improve the maps. However, the maps do show a worrying trend in reduced support from the end of this construction season.

DRAFT, Lessons from Earthquake Recovery for Flood Recovery: HRRP has developed this draft set of lessons through consultations with the platform's Strategic Advisory Group (SAG) and other partners. We are still working on revising and refining the document and any feedback or suggestions on the document are most welcome and should be sent to Siobhan Kennedy, HRRP Recovery Advisor, siobhan@hrrpnepal.org.

Partners

[Local building cultures for sustainable & resilient habitats, CRAterre, IFRC and SC-CF](#): part of a set of tools developed within the framework of the 'Promoting Safer Building' working group (led by CARE and CRAterre) under the Global Shelter Cluster, this document has been prepared to enhance the appreciation of local practices developed by communities to adapt their housing / settlements to their specific environment, including risk preparedness. It presents a series of worldwide examples of local techniques, know-how and knowledge that can be used in reducing housing vulnerability. The idea is that, with these examples in mind, field staff will have a sharpened capacity to identify such local solutions during preliminary field inspections.

[How To Make Cities More Resilient A Handbook For Local Government Leaders, UNISDR](#): the handbook is designed primarily for local government leaders and policy makers seeks to support public policy and decision making so that activities to reduce disaster risk and build resilience can be implemented. It sets out practical guidance for putting the "Ten Essentials for Making Cities Resilient" into action; 1. Organise for Disaster Resilience, 2. Identify, Understand and Use Current and Future Risk Scenarios, 3. Strengthen Financial Capacity for Resilience, 4. Pursue Resilient Urban Development and Design, 5. Safeguard Natural Buffers to Enhance the Protective Functions Offered by Natural Ecosystems, 6. Strengthen Institutional Capacity for Resilience, 7. Understand and Strengthen Societal Capacity for Resilience, 8. Increase Infrastructure Resilience, 9. Ensure Effective Preparedness and Disaster Response, and 10. Expedite Recovery and Build Back Better.

[Global Compact for Safe, Orderly, and Regular Migration, Zero Draft, 5 February 2018](#): the compact expresses the collective commitment of Heads of State and Government and High Representatives to improving cooperation on international migration. It also sets out a common understanding of migration, as well as shared responsibilities and unity of purpose regarding migration.

[Citizen Helpdesk Monthly Bulletin, Issue No. 11 \(Nepali, English\)](#): the bulletin tracks and fact-checks rumours, queries, and concerns collected through citizen feedback in four districts; Dhading, Nuwakot, Kavre, and Sindhupalchowk.

[Municipalities and People on the Move: Cities' Development Policies for Successful Local Management of Migration and Displacement, UNDP](#): the note aims to enable UNDP country offices to support cities to adopt adequate public policy interventions to increase the positive and decrease the negative impacts of human mobility.

[Thematic series, 'UnSettlement: Urban displacement in the 21st century, Research Agenda and Call for Partners, Internal Displacement Monitoring Centre](#): this paper sets out the research areas that will be considered under this thematic series. The IDMC is inviting partners interested to support the research to help with answering the many questions raised in this paper. The first phase of the research will focus on small and medium-sized cities in low and middle-income countries. Over the coming years, case studies and qualitative research on such cities across the globe will be conducted. IDMC will also be looking to increase coverage of all urban displacement by systematically monitoring new displacements and differentiating between rural and urban settings. Partners are also sought for studies on large cities in hazard-prone regions with substantial development projects that generate displacement.

[ASF Nepal Newsletter #14, January 2018](#): includes news updates on relief and reconstruction, from the ASF Nepal (in partnership with HfH Nepal) Nepal Earthquake Assistance Program (NEAP) and Resilience by Design (Rbd) programme in Bungamati, the Lakha tirtha Conservation Initiative, and information about the World Urban Forum (WUF).

[CRS, Gorkha Recovery and Resilience Program \(GRRP\) Newsletter, January 2018](#): provides detailed updates on progress towards targets in each component of the programme, as well as information on capacity building events and donor visits.

[Milijuli Nepali, BBC Media Action, Episode 866](#): this episode of Milijuli Nepali was recorded in Bhumlu village, Gorkha. In the episode, the presenter talks to the residents about their lifestyle, different ways of income generation at a local level, and adoption of healthy eating habits. The residents also shared their plans for reconstruction of their homes.

[Baliyo Ghar TV Programme, Episode 90](#): the programme focuses on the reconstruction status in the Kathmandu Valley, including analysis of the challenges and opportunities that exist. The programme includes field reports from Kageshwori Manahara Municipality, as well as interviews with the local authorities there.

The poster for 'Baliyo Ghar' (बलियो घर) TV Programme, Episode 90, features a collage of images showing people in various settings, including interviews and community activities. The text on the poster includes the title 'काठमाडौँमा पुनर्निर्माण' (Reconstruction in Kathmandu), 'कागेश्वरी मनहरा क्षेत्रको पुनर्निर्माण प्रगति, अवस्था र चुनौतिहरू' (Progress, Status, and Challenges of Reconstruction in Kageshwori Manahara Area), and 'भाग - ९०' (Part - 90). It also lists the broadcast schedule: Sunday 7:00 PM & Monday 01:30 PM, Wednesday 8:00 AM, 2:00 PM & Thursday 04:30 AM, and Saturday 8:30 AM, Sunday 04:30 AM & 03:00 PM. Logos for USAID, NSET, and Media Partner are displayed at the bottom.
