Questions Collected

Question	Who Asked the Question?	Response Provided (By Whom)
Has there been any duplication in the tranche amongst the partner organization and the GON?	Yogendra Rijal, Monitoring and Evaluation Specialist, MOFALD CLPIU	Sita Bhujel, CSRC: There has been a duplication in grants in Bhotekoshi 2, Duguna Gadhi, The beneficiaries are building two houses for each households. One from GON and another from Dwarika Foundation.
Shwetashree foundation has been developing Integrated Settlement in Jhyadi tol targeted at the very poor Majhi community. For each house, the cost is 7 lakhs. For financing, 3 lakhs is from the GON Housing grant, the remaining 4 lakhs is through the loan. As the households are quite poor, how would they be able to repay the loan	Pranjal Bhandari- DIMO, HRRP	The loan is being provided to Shwetashree Foundation at concessional rate by Laxmi Bank at only 2%. Furthermore, Shwetashree foundation are planning to develop the Integrated settlement as a Homestay and the residents are being trained for hospitality and other livelihood options. This would enable them to repay the loan. – Kedar Thapaliya, Project Coordinator, Shwetashree Foundation.
It has been quite a long time since the resurvey for the grievance has been done. When would the results come out?	Ward Chief, Dhuskun	The results need to come from the Central level. It would be decided very soon.
In one of the cases, the land is in the name of husband but the PA has been done in the wife's name. 1 st tranche has been taken and 2 nd tranche has come in the bank. but the wife has now left the husband. Both the husband and wife claim the remaining tranches. They threaten to sue the bank if the tranche is given to the other. The bank is in dilemma regarding whom to provide the tranche	Bigyan Pandey, Branch Manager, Prabhu Bank	Firstly, it should not be possible that the PA is done in name of other than the land owner. We would need to look into this and decide from the head office. – Yogendra Rijal, MOFALD CLPIU.

Meeting with Ward representatives in Tripurasundari 3, Dhuskun.

Meeting with Tripurasundari RM officials

A SMM House under construction in Tripurasundari 4, Piskar belonging to Laljung Pandey. The house is being

	constructed by the untrained masons who had been involved in construction before the earthquake. They have followed the instruction from the engineers well and the houseowner has received the second tranche.
	
A Non compliant house belonging to Bal Bahadur Bhandari in Tripurasundari 8, The house uses wooden bands and the attic size exceeds the limit. The houseowner claims to have followed the instruction from the field engineers. The owner has received the second tranche. There are 150 such houses in Piskar according to ward member. The question was raised regarding who would be responsible for the mistake of field engineer?	RCC house belonging to Brinda Jaisi in Piskar, Tripurasundari 8. She has taken 9 lakhs in loan for the construction of the house with four rooms but she has only been able to construct 2 rooms with the money. She has received second tranche and plans to complete the remaining two rooms after she receives third tranche but the engineer refused to forward her file unless the remaining two rooms are complete.
