Name of activity/event	Event date	Participants summary		Contact Person	Reference Document
		Male	Female		
Coordination visit to DLPIU, Office of Practical Action				dc.nuwakot@hrrp.nepal.org	
Field Visit to Mygang Rm ward no 04 Kimtang, Major Findings: 73 HHs should relocate, 17 HHs has purchased land in secure place and 7 are in final stage. Only 7 HHs are remained to take 2 nd tranche among 73 HHs	16 th August			dc.nuwakot@hrrp.nepal.org	
Participation in the program organized by Durable solution in which they present progress report and update on formal program at CDO office with the presence of DCC Chief, Mayors, chief of government offices and stake holders. The comprehensive discussion ranged regarding the subject matter of relocation of those who were displaced by earthquake and those of landless. Similarly, the Geo-hazard risk scoring was also presented during the session to show the actual situation of vulnerable households who are in potential risk of landslide.	13 th Aug 2018			im.nuwakot@hrrpnepal.org	
Work regular duties to coordination with POs, info pack preparation and contact list update				dc.nuwakot@hrrpnepal.org/im.nuwakot@hrrpnepal.org	
Uploading trainings dataset to online EHRP online system. (World renew, HFH Nepal)				Im.nuwakot@hrrpnepal.org	
Coordinating with POs for requesting update of training datasets and 5W for round R2.				Im.nuwakot@hrrpnepal.org	

Field Visit /Joint Field Monitoring Visit Reports

Date:	Location:	Participants from HRRP and stakeholders	
16 August, 2018	Mygang Rural Municipality Ward no-4, Kimtang	• Badri Pyakurel, HRRP DC • Kalpana Neupane, PC CSRC • Shanti Lama Tamang, Vice Chair of Myagang RM	
Objective(s)	• Objective1: Highlighting the issues, challenges and construction rate • Objective2: Understanding the Geo-hazard Relocation Construction. • Objective3: Highlight the Issue of Livelihood to the relocated people.		
Summary	Four wards of former Kimtang VDC has been affected by Land slide. More than 93 households are badly affected by the Land slide. The land slide is somehow older than earthquake but it had affected more households more than pervious time. Now People are constructing their house in the same place where geo expert has suggested it as vulnerable area. 73 HH has more vulnerable among them but most of them has received even 3rd tranche as on completed their house. Some has received 2nd tranche but they had completed their construction before the rainy season. We found that people has dual mentality to leave their traditional locality because they have their agricultural land, pasturing land and other necessity in their area. Though 17 HH has purchased land by the help of NRA recently. Remaining 7 HH are preparing their documents for the next purchasing in the ward. Among the remaining 47 HHs are not interested to move from there and some have land in secure place. Our team has suggested to the people to move to secure place and cooperate to the team which is working to relocate mission. We suggested to ward chair for more strong community mobilization program through different model and method. The major concerns of the beneficiaries are that they have not already spent the NRA Tranche and their saving for the construction. And now government personnel has suggested to back the tranche. But they don't have money. So they informed us that they are ready to move but they can't return back the tranche. This is a major issue regarding the relocation, so our suggestion to all stakeholder that Kimtang should take as special case and should take a proper decision by the government and NRA Officials.		
Challenges / Issues Identified	Action Required	Responsible	Timeframe
Beneficiaries from land slide vulnerable has constructed their house in the same place because they are not informed timely.	Should take appropriate and prompt decision.	NRA, GMALI	As soon as possible
Transportation of reconstruction Materials	promote to use locally available materials	POs, Ward offices	Regular
Quality of reconstruction materials	Quality assurance to local supplier	DCC, Rural Municipality	Regular

Questions Collected

Question	Who Asked the Question?	Response Provided (By Whom)
I have already Constructed my house by the NRA tranche and my savings and loan as well. Then people from ward and different organization came to return back the tranche to move from the landslide area, from where should I back the Money.	Balsing Tamang, Meghang-4, Kimtang Beneficiary	Our Response is that be in close contact with ward office, it will informed you. And we have informed to ward Chair about his concern.

Questions Collected

How much Land will get in New place? Only 4 aana land may not sufficient for our livelihood.	Balchhi Tamang, , Meghang-4, Kimtang Beneficiary	Our Response is that contact to GMALI
Now I am living in landslide vulnerable place, but not listed as NRA beneficiaries, where do I for further process?	Subba Tamang, , Meghang-4, Kimtang Beneficiary	Our Response is that contact to GMALI
What will be support to us, in coming days?	Lal Bdr Taamng, Relocated beneficiaries from Urleni	GMALI Act, Usesh Shrestha has respond that as per need NRA may continue the supports.

Challenges and Way Forward

Challenge	Way Forward
Lack of technical assistance in the hard to reach field area. NRA engineers are not in regular monitoring to the house. When they visited for the inspection, they only commented for non-compliance.	MOUD-DLPIU should monitor the engineer and instruction for regular visit.
Delayed and partial addressing of grievance. Real victim from the earthquake has not addressed as beneficiaries. They have applied for grievance many times but not addressed.	NRAs should address as soon as possible by the help of local elected persons, Like ward chair and other members.
When will retrofit start? People don't have trained manpower for the retrofit, they are waiting the response from NRA side.	Training and other technical issue with proper communication to the common people should be done before monsoon starts.

Case Study

फेरीदै दैनिकि...

नुवाकोट जिल्लाको अत्यन्तै विकट ठाउँमा अवस्थित तादी गाउँपालिका वडा नं २ रालुकादेवीमा बस्ने राममाया तामाङ्ग सामान्य परिवारको कृषक महिला हुन् । उनको दैनिकी खेतीपाती र घरको कामले बित्ने गर्दथ्यो तर अहिले उहाँको दैनिकी फेरीएको छ । २०७४ साल असोज महिनामा प्राक्टिकल एक्सन र सहायता सामाजिक संस्थाको साभेदारीमा सञ्चालित “पुनर्निर्माणका लागि निर्माण सामग्रीहरुको आपूर्ती श्रृङ्खला सबलीकरण परियोजना” मार्फत स्थानीय स्तरकै स्रोत र साधन प्रयोग गरी सी.एस्.ई.बी. उत्पादनका लागि लागत साभेदारीमा उद्योग सञ्चालन भइरहेको छ ।

उद्योग सञ्चालन पश्चात स्थानीय भुकम्प पिडितले सर्वसुलभ मूल्यमा घर बनाउन सी.एस्.ई.बी. प्रयोग गरिरहेका छन् । यस स्थानमा सी.एस्.ई.बी.को उच्च माग रहेको उद्यमी राममाया तामाङ्ग बताउँछिन् । उद्योग सञ्चालन भएदेखि उनले ६ जनालाई रोजगारी समेत प्रदान गरिरहेकी छिन् । अहिले सम्म ८ वटा घर निर्माण भइसकेको छ । जसबाट करिब ८ हजार सी.एस्.ई.बी बिक्री भइसकेको छ र पुनर्निर्माणलाई द्रुत गतिमा अगाडि बढाउन मद्दत गरेको छ । उनको उद्यो गमा सी.एस्.ई.बी.को मूल्य रु ५५ प्रतिगोटा पर्दछ भने रातो इटाको मूल्य प्रतिगोटा रु २० पर्दछ । ३ वटा रातो इटा बराबर एउटा सी.एस्.ई.बी.हुन्छ र सी.एस्.ई.बी. ले घर बनाउँदा अन्त्यमा करिब ३५ प्रतिशत लागत कम हुन जान्छ । उद्योग सञ्चालन पूर्व खेतीपातीमै समय बिताउने र कम उत्पादन हुने अवस्थालाई पार गर्दै उनको अहिले आर्थिक अवस्था समेत मजबुत हुँदै गएको छ ।
