

DRRM-GEDSI Strategic Action Plan (draft stage) of NDRRMA is a crucial document that aims to integrate DRR, gender, disability and social inclusion considerations into the policies, plans and programs from a whole of the society approach. This 'Action Plan' focused to address the interconnected nature of various social identities and ensure that the needs and vulnerabilities of different groups are taken into account. A civil society consultation meeting organized in NDRRMA flagged this 'Action Plan' as a guiding document for horizontal and vertical coordination and collaboration among, within and outside the three tiers of government.

NATIONAL UPDATES

Nepal's budget 2080/081 prioritizes environmental preservation and climate adaptation at every stage of project implementation

In a parliamentary session on 29 May 2023 Monday, Hon. Finance Minister Dr. Prakash Sharan Mahat unveiled the budget for the forthcoming fiscal year 2080/81 (2023/024). The announcement took place during a joint session of the National Assembly and House of Representatives in the federal parliament. The budget speech by the Finance Minister has prioritized mainstreaming of the environmental preservation and climate adaptation and mitigation activities at every stage of project implementation. Integration of disaster management programs is highlighted and adoption of prevention methods.

The budget unveils that Nepal Model Climate Program will be conducted at different 43 local levels through coordination and cooperation between federal and local governments. Finance

Minister Mahat also said that the weather forecasting and early warning system will be made more reliable for which the weather radar centers in Surkhet, Palpa and Udaypur will be made fully operational.

The budget statement also mentioned enhancing the capacities of three tiers of security units in aspects of immediate search and rescue during disasters. Similarly, volunteer bureaus will be formed and massively mobilized at the local levels thereby increasing the participation of local communities in disaster preparedness search, rescue, relief and in rehabilitation works.

The budget also informed about the establishment of a multi-hazard early warning system and multi-hazard risk assessment system to reduce disaster risk. Finance Minister Mahat also mentioned the effective information messaging flow systems as the early warning system to reduce disaster risk. The budget statement mentioned the disaster risk and vulnerable areas from flood and landslides and the relocation of displaced families to safer locations. Government decides support to build temporary shelter for earthquake affected people

The 17th Executive Committee Meeting of NDRRMA concluded on 12 May 2023 (29 Baishak 2080) in presence of Hon. Deputy PM/Home Minister Mr. Narayan Kaji Shrestha. The EC Meeting decided mainly -

- i) To formulate Monsoon Preparedness and Response Plan in order to mitigate the risk of monsoon induced disasters (NDRRMA to take lead).
- ii) To provide Rs 50,000.00 for building temporary shelter to the people whose houses were damaged and affected by Doti, Lamjung, Khotang & Bajura earthquake (in two installments by forming necessary procedures).

Stating that there were complaints about lack of preparedness for disaster risk reduction (DRR), the Home Affairs Minister drew the attention of the stakeholders and concerned agencies to make it effective. Further, Minister Shrestha reiterated that disasters cannot be reduced to zero, but its impacts can be reduced for which right management is required from everyone concerned. Similarly, speaking at the meeting, Minister for Health and Population, Mr. Mohan Bahadur Basnet pledged to leave no stone unturned for implementing early preparedness for the DRR.

Likewise, Minister for Federal Affairs and General Administration, Mr. Amanlal Modi viewed that the early warning system and weather forecasting should be further advanced and modernized. Arguing that the early preparedness was important for DRR, he urged the concerned ones to make the preparedness more efficient and transparent. Also speaking in the meeting, Chief Secretary Mr. Shanker Das Bairagi underscored a detailed action-plan for disaster management. [17th Executive Committee Meeting of NDRRMA](#)

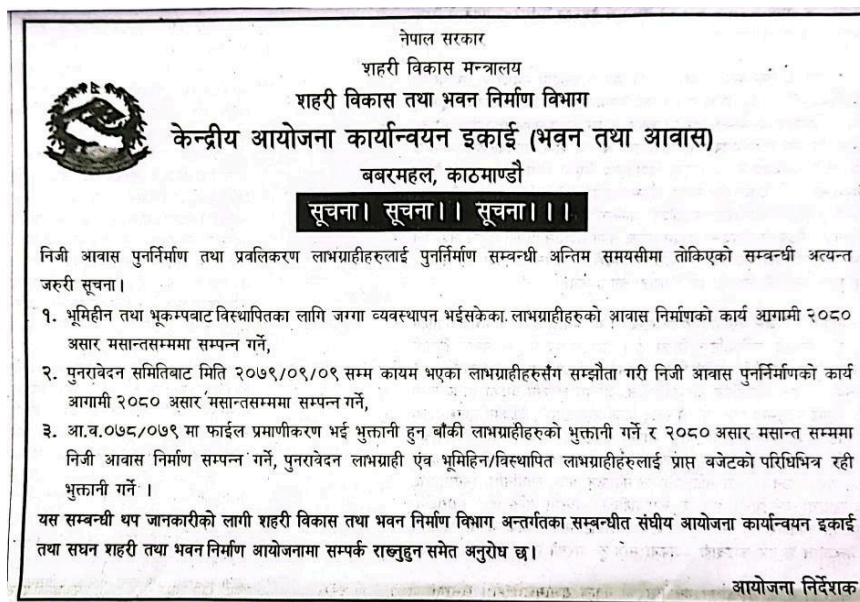

Government decision on completing halted private housing reconstruction

Government of Nepal/Council of Ministers dated 2 May 2023 (19 Baishak 2080) have decided to complete remaining private housing reconstruction and retrofitting works affected by Gorkha earthquake 2015. The decision is as per below-

i. Complete the construction of housing for the landless and earthquake affected and displaced beneficiaries (for whom suitable land management is already done) by 15 July 2023 (end of Ashad 2080).

ii. Complete the reconstruction works of private housing by 15 July 2023 (end of Ashad 2080) for those beneficiaries that are listed by date of 24 December 2022 (9 Poush 2079) through the appeal committee decisions.

iii. Pay the remaining beneficiaries whose files are verified in FY 2078/079, Complete the reconstruction of private houses by July 15, 2023, and pay the appellate beneficiaries and landless/displaced beneficiaries within the budget capacity.

For more information, contact Department of Urban Development and Building Construction/CLPIU- Building and Housing at Babarmahal, Kathmandu

Civil society consultation on the draft DRRM-GEDSI Strategic Action Plan

An interactive consultation meeting on 'Draft DRRM-GEDSI Strategic Action Plan' involving mainly the civil society organizations (CSOs) held on 14 May 2023 at NDRRMA. The objective of the program was to share the progress update on the draft of DRRM-GEDSI Strategic

National Housing and Settlements Resilience Platform, Nepal

Action Plan's current update and discuss it to gather feedback and inputs from the development personnel broadly so that the Strategic Action Plan can be finalized.

The meeting was chaired by the Chief Executive of NDRRMA, Mr. Anil Pokharel and attended by the members of GEDSI task force, representatives from concerned stakeholders including government line ministries, donor agencies and the CSOs engaged in DRRM at federal level. The introductory briefing on the status update on DRRM-GEDSI strategic Action Plan was presented by Under Secretary NDRRMA, Ms. Hira Devi Poudel. The participants present in the meeting provided constructive feedback and technical inputs for necessary updates to be incorporated into the GEDSI Strategic action plan.

The participants reiterated that the 'Action Plan' document should have a clear format that enables the application of intersectionality and majorly the principles of the Sendai Framework, and its four pillars namely: understanding disaster risk, strengthening disaster risk governance, investing in disaster risk reduction for resilience, and enhancing disaster preparedness for effective response. The participants affirmed that by adhering to these principles and guidelines, the 'DRRM-GEDSI Strategic Action Plan' can effectively promote the integration of gender and social inclusion considerations within disaster risk reduction efforts, while also aligning with sectoral ministries, local governments, and international frameworks such as the Sendai Framework.

The meeting concluded with a common consensus of sending written inputs/ suggestions by the stakeholders, for which NDRRMA and the GEDSI task force will work out on the inputs. NDRRMA organized similar consultations in Sudurpaschim and Koshi provinces for integration of appropriate inputs from various regions in the document. The program was technically supported by NHSRP and CRS Empower Asia Project. [Event report on civil society consultation](#)

Second National Dialogue on Anticipatory Action held in Kathmandu

The 2nd National Dialogue Platform on Anticipatory Humanitarian Action (#NDAA2023) completed in Kathmandu from 11-12 May 2023. The theme for this year was focused on 'Connecting Science and Policy with Action for the Community.'

National Housing and Settlements Resilience Platform, Nepal

This event brought together governments including provincial and local government line agencies, local governments, donor agencies, UN agencies, Red Cross Movement, local governments, academia, media, private sectors, researchers and I/NGOs to discuss the important topic of anticipatory action. Some of the technical and parallel sessions carry thematic areas of health risk, shock-responsive social protection, and disaster risk finance and risk transfer and to name a few.

Participants actively shared experiences, learnings, and insights on community-led anticipatory humanitarian action. Noted experts and specialists shed light on the importance of anticipatory action in emergency situations & emphasized that an anticipatory action plan could play a significant role in minimizing the impact of losses from disasters. Field level experiences and best practices sharing contributed to paving a roadmap in anticipatory actions. The panel sessions focused on sharing existing issues on particular thematic areas.

PARTNERS' UPDATES

Training on enhancing disaster preparedness in Bagmati province

With the support of EU Civil Protection & Humanitarian Aid, Pratibaddha-2 Project in collaboration with ICIMOD, Meteorological Forecasting Division, Department of Hydrology and Meteorology, and Ministry of Internal Affairs and Law (MoIAL) Bagmati Province organized a 2-days training on 'Enhancing Disaster Preparedness in Nepal's

Bagmati Province' in Hetauda, Makwanpur district. The training aimed at strengthening partnerships with provincial and local governments to improve and localize flood and landslide early warning systems, understanding rainfall forecast, flash flood monitoring and forecast based action for landslides in the Bagmati province as part of the monsoon preparedness. Technical staff along with disaster focal person of selected Palikas and representatives of district emergency operation center, province emergency operation center, representatives from security units along with identified partner organizations, personnels from MoIAL and DHM attended the training program. Secretary of MoIAL, Bagmati Province Mr. Dhruba Gaida reiterated that through working together collaboratively we can reduce the impacts of disaster.

Socio-technical assistance for Doti earthquake recovery

Launch of socio-technical assistance program for Doti earthquake recovery in Purbichauki Rural Municipality have started through joint coordination and collaboration by three partner organizations, NSET Nepal, Equality Development Center (EDC) Doti, and National Alliance of Women Human Rights Defenders (NAWHRD). The partners are working together for the reconstruction of residential buildings in Purbichauki RM that were damaged heavily by the Doti earthquake during November 2022.

NSET-Nepal with support from local implementing partners - EDC is providing socio-technical assistance for Doti Earthquake reconstruction. NAWHRD will work for social inclusion and gender issues. Awareness programs for different stakeholders and training like mason training, retrofitting on-the-job training for local masons will be carried out during the 8-month project. The program will support vulnerable people, women to rebuild and retrofit their houses. Let's work together to build back better.

Training on using drones for damage risk assessment

A four-day training on flying the drone and usage of image products for damage assessment and risk visualization completed in Nepaljung, Banke district from 15-18 May 2023. The training was facilitated and organized by CRS Nepal's project initiatives- EPRP (Emergency Preparedness and Response Project), through technical support from

National Housing and Settlements Resilience Platform, Nepal

Environment and Engineering Resource Center (EERC) Nepal and participated by front liner staff of NHSRP and CRS belonging to information management and program coordination. The training covered overview of drone technology, challenges of drone operations in emergency context, its scope in the humanitarian sector; policies, safety & compliance requirements for use of drones in Nepal; and drone images processing & proper usage in disaster management and recovery.

UPDATES FROM BAGMATI

Technical support contributed to DRRM system capacities

The NHSRP Bagmati team continued to lay technical support for ensuring DRRM systems effectiveness. On 22 May, disaster focal person of Manahari Rural Municipality (pilot municipality of NHSRP at Makawanpur district) was assisted one-to-one regarding

approval of surveyed data on NDRRMA Reconstruction MIS from municipal level.

Similarly, through virtual technical assistance, the NHSRP Bagmati team supported beneficiary enrollment procedures, data verification and approval procedures of various stages of housing reconstruction of disaster affected beneficiaries (fire & landslide mainly) in the NDRRMA RMIS tool. Support was provided to DAO Ramechhap, DAO Nuwakot and at Palika level of Belkotgadhi Municipality and, Likhu & Kakani RM (Nuwakot district) and Tamakoshi RM (Dolakha district).

Tracking of safer relocation site through geohazard assessment

A geohazard assessment was carried out for tracking and identifying safer relocation sites in Chautara Sanghachwokgadhi Municipality Ward 4 & 5 and Panchpokhari Thangpal Rural Municipality, Ward 2, 3 & 6 (Sindhupalchok district) from 1 to 3 May 2023 by NHSRP Bagmati team in coordination with NDRRMA. The geohazard field assessment was accompanied by District DRR focal point and Sub-Engineer along with some local people of respective Ward areas, Geologist and Civil engineer.

UPDATES FROM GANDAKI

Geohazard assessment conducted to identify settlements at risk

On 24 May, NHSRP Gandaki team carried out preliminary geohazard assessment at Lamjung district, Sundarbazar Municipality, Ward 1 (Kunchha) and Ward 2 (Duradada) in coordination with NDRRMA. The assessment was accompanied by concerned Ward representatives and technical staff. The team identified the settlements at risk and informed the ward authorities for preventive and mitigation measures.

Technical coordination forwarded for DRRM system effectiveness

NHSRP Gandaki team continued technical assistance to DAO Lamjung resolving the issues related to verification of beneficiaries list from the surveyed list and helped DAO for beneficiary enrollment processes. In the meantime, orientation on NDRRMA Guidelines and Reconstruction MIS procedures were provided to participants involving the frontliner program and technical staff of DAO Lamjung on 25 May.

UPDATES FROM LUMBINI

Sharing preliminary results of geohazard assessment studies

NHSRP Lumbini Province debriefed on the geohazard assessment report of Pyuthan and Arghakhanchi districts to the Secretary, Ministry of Internal Affairs and Cooperatives (MoIAC) on 21 May. A total of 15 sites (6 in Pyuthan and 9 in Arghakhanchi) were assessed by the team. MoIAC Lumbini is making arrangements to share the reports during the upcoming DDMC meeting. The debrief sharing included number of sites assessed, site condition, present hazard scenario in settlements, prevention methods, way forward etc.

Technical support provided for DRRM System capacities

NHSRP Lumbini team facilitated one-day orientation on NDRRMA Reconstruction Guidelines, RMIS tools and Kobo Collect Mobile Apps at Rapti Rural Municipality (Dang district) which was attended by a total of 16 participants. The technical assistance supported in localizing the Reconstruction Guidelines, use of Kobo Collect Mobile Apps and RMIS tool and also showcased the relevancy in proceeding the disaster affected housing reconstruction works.

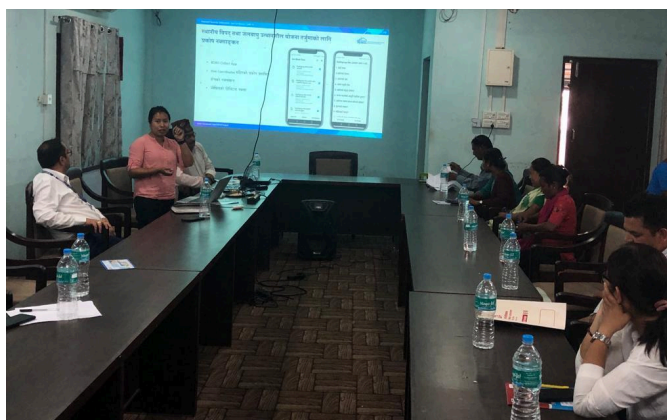

UPDATES FROM KOSHI

Technical support to LDCRP formulation of Budhiganga Rural Municipality

The NHSRP Koshi team discussed the work plan of the Local Disaster and Climate Resilience Plan (LDCRP) of Budhiganga Rural Municipality on 25 May. Budhiganga RM being a pilot municipality, NHSRP is playing the role of technical backstopper. Representatives from MoIAD Disaster Department along with Palika Chief, CAO, Palika executive members, Ward Chiefs including staff from different departments attended the discussion actively.

This discussion is seen as valuable in strengthening the development of DRRM Bylaws, which will play a crucial role in outlining the policies & guidelines on DRRM.

Similarly, ward-level consultation is undertaken in all wards of Budhiganga RM to identify major hazards, vulnerability, causes and their impact in settlement areas, as part of LDCRP formulation. The inputs from local level consultation will feed into the LDCRP.

Strengthening capacities for government system effectiveness on DRRM

On 19 May, NHSRP Koshi Province coordinated to conduct orientation on “NDRRMA Reconstruction Guidelines, Kobo Collect Mobile Apps & RMIS Tools” to participants including DRR focal person, technical and IT personnel of Dhankuta & Laliguransh Municipalities (Dhankuta district) and DAO Dhankuta

Similarly, the team continued its technical support to release the second & third tranche of disaster affected private housing reconstruction grants, providing one-to-one support to DRR focal person of Dhankuta Municipality.

NHSRP also assisted technical support through virtual medium to Aathrai Rural Municipality (Terhathum district) on NDRRMA's Reconstruction Guidelines, Kobo Collect Mobile Apps and RMIS tools. During the virtual orientation on 4 May 2023, account login through survey.bipad.gov.np was also completed. Participants involved were engineers and IT personnel of Aathrai Rural Municipality.

UPDATES FROM MADHESH

Technical assistance provided to conduct survey of fire-affected households

NHSRP Madhesh team provided technical assistance to DRR focal person of DAO Rautahat regarding know-hows & guidance on approval processes of the surveyed data from

municipal level on the NDRRMA RMIS tool. The survey of 17 fire affected households of Madhav Narayan Municipality (Rautahat district) completed with technical support from the NHSRP province team. DAO Rautahat will carry out further process on approval using NDRRMA RMIS after the surveyed data are verified & approved from Palika level.

NHSRP Madhesh team laid technical support to conduct a field survey of fire affected houses in Katahariya Municipality (Rautahat district), Kamala Municipality (Dhanusa district) and Saptakoshi Municipality (Saptari district) by using NDRRMA's Kobo Collect Mobile Apps. These houses were affected and completely destroyed by fire some months back. The surveyed household members provided a household identification number (nissa) which helps in identifying and tracking the houses affected by fire.

The survey was conducted by municipal officials with technical guidance from the NHSRP Madhesh team by creating surveyor IDs and field-level support to conduct the survey using NDRRMA Kobo Collect Mobile Apps. The objective of the survey was to evaluate the extent of the damage caused by the fire and connect it with the NDRRMA RMIS system.

Strengthening capacities for government system effectiveness on DRRM

On 22 May, Katahariya Municipality (Rautahat district) completed “One-day orientation on NDRRMA’s Reconstruction Guidelines, Kobo Collect Mobile Apps along with RMIS tools” with technical support from NHSRP Madhesh team. The orientation shared the working modality of NHSRP in the DRRM and housing recovery sector as well as highlighted the necessary mechanisms from NDRRMA’s reconstruction procedures.

UPDATES FROM KARNALI

UKAid Team's visit in Karnali and interaction

Dignitaries of FCDO UK along with UKAid Nepal/British Embassy Kathmandu team members on their visit in Karnali province interacted with NHSRP Karnali province at the Ministry of Internal Affairs and Law (MoIAL), Surkhet on 15 May. The meeting underscored exploring overall disaster risk challenges & opportunities of Karnali region. The Province team also shared key highlights on the working modality and upcoming plans of NHSRP's initiatives in Karnali province.

Strengthening capacities for government system effectiveness on DRRM

National Housing and Settlements Resilience Platform, Nepal

One-day orientation program on NDRRMA's Reconstruction Guidelines along with Kobo Collect Mobile Apps and RMIS tools' completed in Dailekh (25 May) and Surkhet (28 May) districts. The program was led by NDRRMA, in coordination with respective DAOs and technically supported by NHSRP. The team led by the Under Secretary of NDRRMA and NHSRP conducted field visits in disaster affected areas of Karnali region and interacted with the local communities.

On 3 May, Gurbhakot Municipality (Surkhet district) organized orientation on NDRRMA Reconstruction Guidelines, Kobo Collect Mobile Apps and RMIS Tools along with BIPAD Portal localization. The NHSRP Karnali province team facilitated the orientation in coordination with Gurbhakot Municipality. Basic overview of BIPAD Portal were provided to the participants along with key insights from the Guidelines and digital systems on data entry of disaster affected people.

Greening The Shelter Response

for more info : preeti.karki@hnrpnepal.org

OUTPUT

"Greening the shelter response" project intends to contribute to the Global Shelter Cluster efforts to mitigate the negative environmental and climate impacts of humanitarian shelter response and develop climate-friendly response strategies and innovative greener shelter solutions.

Objective

Strengthen local capacity to develop strategies for shelter and settlements that builds upon existing knowledge, expertise, and the sustainable use of local materials.

LOCALIZATION INITIATIVES

Research completed on green and environmentally sensitive response to ensure green shelter response by mapping policies and existing guidelines.

Development of tools and resources to ensure green practices are incorporated into local and national response plans.

Training to local stakeholders to wards minimizing environmental impact.

Documentation, learning and dissemination of results.

Principles Adopted From Gorkha Earthquake

- Environmentally sustainable Building design and construction withstanding future disasters.
- Promotion of alternative energy and energy efficient technologies.
- Conduct land use planning, including zoning.
- Proper Debris Management and solid waste disposal using principles of reuse and recycle.
- Design water and sanitation interventions reflecting changes in water resources and future climate change scenarios.
- Promotion of integrated water resource management (IWRM).
- Ensure livelihood restoration projects reflection of principles of resilient development.
- Promotion of equitable access of women and marginalized people to recovery support and strengthen community institutions and participation.
- Enforce environmental impact assessment/initial environmental examination regulations.
- Build capacity for green recovery and reconstruction.

Carbon Calculator Manual

The GHG calculator assesses building materials for environmental friendliness and advises NGOs, house owners, and suppliers. It calculates Total Greenhouse Gas Emissions for production and transportation and can be customized for different building types and materials.

Urban Resilience Intensive Training 2023
 20 - 28 June
 Copenhagen
CALL FOR PARTICIPATION

The Urban Resilience Intensive Training (URIT) 2023 brings together policymakers, practitioners and researchers. URIT aims at expanding the participants' knowledge on policies, tools, strategic and action planning for resilient urban transition, integrating climate mitigation and adaptation, for a just and green transition.

URIT brings together transdisciplinary knowledge and perspectives on urban resilience from science, policy, and practice. URIT builds skills and competencies to tackle global challenges in the Global South and North. Through a system thinking approach, the program focuses specifically on core topics such as climate change and resilience analysis, future scenarios, strategic and action planning; as well as cross-cutting topics such as ecosystem services, multi-level governance, nature-based solutions, disaster risk reduction and participation. The highly interactive programme includes keynotes from international speakers, peer-to-peer sessions among participants, field visits to best practices in Copenhagen and group work on specific cities worldwide.
