Er. Dinesh Prasad Bhatta officially assumes the role of Executive Chief of the NDRRMA

KEY HIGHLIGHTS

- **Appointment of Chief Executive of NDRRMA**
- **Inauguration of Earthquake Reconstruction and Rehabilitation Implementation Unit in Jajarkot, Achham and Bajhang**
- **Private Housing Reconstruction Begins Following Jajarkot Earthquake**
- **Training for Engineers Assigned to Conduct Detailed Damage Assessment (DDA) of Private Houses Affected by Earthquakes in Doti, Bajhang, and Jajarkot**

Appointed Executive Chief of the National Disaster Risk Reduction and Management Authority (NDRRMA) Assumes Office

Er. Dinesh Prasad Bhatta has officially assumed the role of Executive Chief of the NDRRMA. On March 18, 2025, Er. Bhatta was formally welcomed at NDRRMA by former Executive Chief Dr. Bhisma Kumar Bhusal and the team.

In accordance with Section 12 of the Disaster Risk Reduction and Management Act, a committee comprising the Secretary of the Ministry of Home Affairs (MoHA) and two other members recommended Er. Bhatta for the position by following the prescribed selection process and after fulfilling all required criteria. The Cabinet appointed Er. Bhatta as the Executive Chief of NDRRMA on March 17, 2025.

The position had been vacant since December 16, 2024, following the successful completion of the five-year tenure of the first Executive Chief, Mr. Anil Pokhrel. To cover the interim period, in accordance with Rule 5 (Ga) of the Disaster Risk Reduction and Management Regulations, 2076, Joint Secretary Dr. Bhisma Kumar Bhusal was appointed as the Chief Executive on January 17, 2025.

During a brief address at the welcome ceremony, Executive Chief Er. Bhatta emphasized his commitment to enhancing disaster preparedness and risk reduction efforts to minimize the loss of lives and property. He also highlighted the importance of strengthening human resource management within NDRRMA to ensure the effective implementation of disaster risk reduction initiatives.

NHSRP congratulates and extends best wishes to the newly appointed Executive Chief, Er. Bhatta, for his five-years tenure.

Home Minister Ramesh Lekhak Inaugurates Earthquake Reconstruction and Rehabilitation Implementation Unit in Jajarkot, Achham and Bajhang.

Home Minister Ramesh Lekhak has inaugurated the District Earthquake Reconstruction and Rehabilitation Implementation Unit established in Rimna, Bheri Municipality-1, Jajarkot.

Speaking at the event following the inauguration, Minister Lekhak stated that the establishment of the district office aims to accelerate the reconstruction process after formulating the necessary regulations, standards, and procedures, along with ensuring the required budget allocation.

Earlier, on Saturday, Minister Lekhak had inaugurated the implementation unit in Achham, followed by the inauguration of the unit in Bajhang on Friday.

The Jajarkot-based office will facilitate the reconstruction, strengthening, and rehabilitation of private housing in earthquake-affected districts, including Jajarkot, Rukum West, and Salyan. Similarly, the Achham office will oversee facilitation in Bajura and Doti, while the Bajhang office will also cover Dadeldhura.

Earthquake beneficiaries has been started in Dadeldhura

PARTNERS UPDATE

Private Housing Reconstruction Begins Following Jajarkot Earthquake

The reconstruction of private houses damaged by the Jajarkot earthquake has officially begun. The process commenced in Ward No. 2 of Chaurjahari Municipality, where the detailed damage assessment has been completed.

On Chaitra 5, 2081, the National Disaster Risk Reduction and Management Authority (NDRRMA), after conducting a detailed damage assessment and uploading the data into the disaster information system, verified the details through its technical team. Based on this verification, a list of beneficiaries for reconstruction was sent to Chaurjahari Municipality for identification and confirmation.

Following a recommendation from the Chaurjahari Municipality Disaster Management Committee, the District Disaster Management Committee, Rukum (West) approved 10 households as beneficiaries on the same day.

In accordance with this decision, today, in Ward No. 2 of Chaurjahari Municipality, Ward Chairperson Bir Bahadur Rana signed grant agreements with Bishnu Prasad Gautam and Shasila Rawat. The first installment of NPR 50,000 each has already been disbursed to their accounts as part of the reconstruction grant.

Two-Day Training Begins for Engineers Assigned to Conduct Detailed Damage Assessment (DDA) of Private Houses Affected by Earthquakes in Doti, Bajhang, and Jajarkot at NDRRMA and IoE Pulchowk.

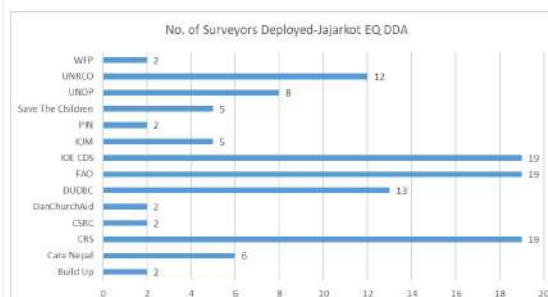

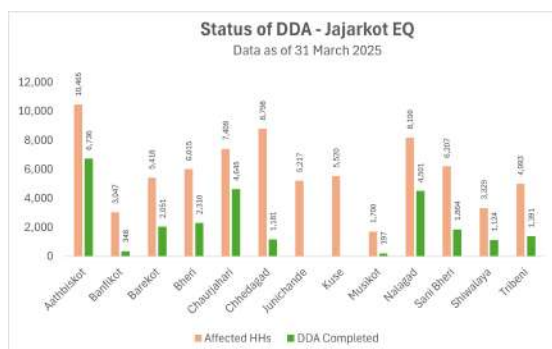

A two-day training program has commenced for engineers being deployed to conduct the Detailed Damage Assessment (DDA) of private houses damaged by the earthquakes centered in Doti, Bajhang, and Jajarkot.

A total of 17 engineers, mobilized through the United Nations Resident Coordinator's Office (UNRCO), the International Organization for Migration (IOM), IoE (Supported by FAO) and the World Food Programme (WFP), are participating in the training.

Detailed Damage Assessment Survey Completed for 19,439 Households Affected by the Jajarkot Earthquake

The Detailed Damage Assessment (DDA) survey of 19,439 households affected by the Jajarkot Earthquake of Kartik 2080 in Jajarkot and Rukum (West) has been completed. A total of 118 technical personnel were deployed 50 in Jajarkot and 68 in Rukum (West) including engineers from Pulchowk Engineering Campus, the Ministry of Urban Development, UN agencies, and various humanitarian organizations.

reconstruction or retrofitting grants. Households classified under the reconstruction category will receive NPR 400,000 in three installments, while those eligible for retrofitting will receive NPR 50,000 to 100,000 in two installments. As per the "Disaster-Affected Private Housing Retrofitting, Reconstruction, and Resettlement Grant Procedure, 2081," grant amounts vary by geographical region: NPR 500,000 for Himalayan areas, NPR 400,000 for hill regions, and NPR 300,000 for Terai regions. The grant is disbursed in three phases: upon signing the agreement, after foundation work, and after the completion of the roofing level.

30th Meeting of the Disaster Risk Reduction and Management Executive Committee Concludes

The 30th meeting of the Disaster Risk Reduction and Management Executive Committee, chaired by Home Minister Ramesh Lekhak, was conducted on The meeting decided to request the Ministry of Finance to mandate all three levels of government to allocate and categorize disaster budgets under a specific budget code for proper tracking and management of disaster-related funds in the upcoming fiscal year.

Furthermore, the meeting reviewed the progress of the detailed damage assessment and grant distribution for the reconstruction of earthquake-damaged private houses in western Nepal.

- The detailed damage assessment of houses damaged by the Jajarkot-centered earthquake is currently ongoing.
- The authority has also planned to begin damage assessment for private houses affected by this year's monsoon-related disasters.

The meeting also approved **various standardized training module curricula** to enhance the capacity of search and rescue teams. The approved training module curricula include:

- Community Action for Disaster Response (CADRE)
- Medical First Responder (MFR)
- Collapsed Structure Search and Rescue (CSSR)
- Hospital Preparedness for Emergencies (HOPE)
- Swift Water Rescue (SWR)

These curricula will play a crucial role in establishing and enhancing search and rescue teams at the **federal, provincial, and local levels**, ensuring effective **search, rescue, and relief operations**. Additionally, they will help in organizing disaster response command structures and setting uniform training standards for security agencies.

PARTNER'S UPDATE

CRS Nepal Concludes RELIEF Project focused on WASH and Irrigation Recovery Post September Floods 2024

The Restoring Local Assets and Infrastructure through Emergency Financing (RELIEF) program led by CRS Nepal was implemented in Panauti Municipality, Roshi Rural Municipality, and Temal Rural Municipality of Kavre by Shanti Jana Adarsha Sewa Kendra (SJASK), as well as in Godavari Municipality and Bagmati Rural Municipality of Lalitpur by Caritas Nepal from Nov 2024 to Feb 2025. This initiative was a response to the devastating floods and landslides triggered by record-breaking rainfall in September 2024, which destroyed community-managed drinking water infrastructure and irrigation facilities. The disasters led to widespread water shortages, contamination of water sources, and increased vulnerability among affected communities.

Training to the village maintenance worker form the different water user committees on the proper method for fitting pipes

Training to the village maintenance worker form the different water user committees on the proper method for fitting pipes

Under the program, 47 water supply schemes were restored and rehabilitated through community user committees, benefiting 1,420 households (4,911 people) by providing access to clean and safe drinking water. Additionally, 20 asset restoration projects were completed through cash-for-work programs, with 703 households receiving an average of NPR 4,152 per person. Through debris clearance and maintenance of irrigation canals, 128 hectares of agricultural land regained access to irrigation facilities.

upkeep. The training also covered water safety plans, water testing, and other essential maintenance skills, empowering communities to manage their water supply systems effectively.

Orientation on the Water borne diseases conducted to ensure safe water use and WASH safety communication and improve the capacity in the community to mitigate potential outbreak of water-borne diseases.

Installation of the visibility board displaying the information, education and communication material on the water treatment process and the water borne disease

Community people participation on the irrigation canal debris removal thorough CFW

Testing of water from the different sources

Information, Education, and Communication (IEC) materials on the safe use of water, causes and prevention of waterborne diseases, as well as community orientations, were distributed and conducted in 47 communities. Furthermore, water testing was carried out for all 47 water supply schemes, with disinfection and treatment of water sources conducted where water was found unsafe for drinking.

The social audits have been conducted in all participating municipalities in the presence of local government representatives, community members, and user committees. These audits presented the physical progress, successes, challenges, and financial expenditures during the project's implementation, ensuring transparency and accountability. The RELIEF program has significantly improved water access, sanitation, and agricultural productivity while strengthening community resilience and disaster preparedness in the affected regions.

NHSRP PROVINCIAL ENGAGEMENTS

PROVINCIAL UPDATES - SUDURPASCHIM

MToT on Blpad Portal Localization at Dhangadi

The Master Training of Trainers (MTot) on the Bipad Portal Localization has been organized from 19 to 23 March 2025 in Sudurpaschim Province organized by Ministry of Internal Affairs and Law (MOAIL) and National Disaster Risk Reduction and Management Authority (NDRRMA). This initiative is a key step towards strengthening disaster information management at all government levels.

This collaborative effort between Managing Risk through Economic Development (M-RED)/Mercy Corps and the EU-funded SUPER program focuses on:

- Developing trainers to conduct capacity-building on the BIPAD Portal for provincial, district, and local government staff.
- Enhancing the BIPAD Portal by equipping Disaster Risk Reduction focal and Information Technology (IT) officers with technical expertise to ensure risk-informed decision-making before, during, and after disasters.
- Strengthening emergency response with participation from DRR focal persons from 9 District Emergency Operation Centers (DEOCs) 11 Local Emergency Operation Centers (LEOCs) and Provincial EOC from Karnali and Lumbini.

PROVINCIAL UPDATES - KARNALI

Technical Support for MoIAL in Disaster Risk Reduction (DRR) Orientation

Housing and Settlements Resilience Platform (NHSRP) / People in Need (PIN) continues to provide technical support to the Ministry of Internal Affairs and Law (MoIAL) in strengthening disaster awareness and preparedness initiatives. As part of this effort, NHSRP/PIN assisted in preparing a comprehensive presentation and conducted two key sessions— Earthquake and DRR Scenario and

literacy among students and local stakeholders, fostering a more informed and resilient community.

ECHO Shelter and Settlement/WASH Expert Mission to Nepal (March 5-7, 2025)

5 to 7, 2025, Mr. Damien Blanc, Thematic Expert for Shelter and Settlement/WASH from the ECHO Regional Office in Bangkok, and Mr. Piush Kayastha, Programme Officer from the European Civil Protection and Humanitarian Aid Operations (ECHO), conducted a mission to Karnali. The primary objective was to initiate discussions on a proposed project, including its scope, coverage, and operational modalities.

As part of the mission, the delegation engaged with key stakeholders, including the Ministry of Internal Affairs and Law (MoIAL) and the Ministry of Physical Infrastructure and Urban Development (MoPIUD) in Karnali Province, as well as members of the Shelter and CCCM Cluster in Karnali. The team also visited Jajarkot, where they interacted directly with temporary shelter beneficiaries and District Shelter Cluster members to gain firsthand insights into ongoing challenges and community needs.

NHSRP/PIN facilitated the mission, providing critical coordination and logistical support to ensure productive engagement and effective communication between the visiting experts and ministry representatives.

Basic Search and Rescue Training in Nalgad Municipality

(March 14-16, 2025 / 2081 Chaitra 01-03): A three-day Basic Search and Rescue Training was successfully conducted from March 14 to 16, 2025 (2081 Chaitra 01-03), at the Nalgad Municipality Office Hall. The training was jointly organized by the Ministry of Internal Affairs and Law (MoIAL), Karnali Province, and the Pratibaddha III (funded by the European Union) with facilitation by the Nepal Red Cross Society, Karnali Province.

A total of 24 participants (13 women and 11 men) actively engaged in the training, which encompassed both theoretical and practical sessions. Key topics included the fundamental principles of search and rescue, emergency response strategies, methods and procedures for rescuing injured individuals during disasters, and practical techniques for effective disaster response. MoIAL-Karnali expressed

appreciation for the commitment and collaboration demonstrated by the Pratibaddha team and conveyed their enthusiasm for continued partnership. They reaffirmed their commitment to providing the necessary facilitation and support for future initiatives.

Official Handover of the Humanitarian Staging Area (HSA) to the Karnali Provincial Government

On March 9, 2025, Honorable Home Minister Ramesh Lekhak officially handed over the Humanitarian Staging Area (HSA), now rebranded as the Provincial Emergency Warehouse, to the

Programme (WFP), represents a critical milestone in strengthening provincial disaster preparedness and response capacities. The handover marks a significant transition from National management to provincial ownership, reinforcing the province's self-reliance and capability in managing emergency logistics during disasters. As a key asset for humanitarian response, the Provincial Emergency Warehouse will serve as a central hub for the prepositioning and distribution of essential relief items, facilitating timely and coordinated disaster response efforts.

Home Minister Ramesh Lekhak emphasized the government's commitment to enhancing provincial disaster management systems, while acknowledging WFP's instrumental role in establishing and operationalizing the facility. The Provincial Emergency Warehouse is expected to streamline coordination mechanisms among stakeholders, optimize resource mobilization during emergencies, and strengthen the capacity of the Provincial Emergency Operations Center (PEOC) in Surkhet. Additionally, this facility will support the ongoing efforts of the Karnali Province to implement comprehensive disaster risk reduction and management strategies, aligning with the national DRRM framework.

Key Activity:

- Finalized the Housing Insurance Guideline, incorporating the technical corrections approved by the Parliament. The guideline has been submitted to the Chief Secretary of Karnali Province for final approval and signature.
- MoIAL_Karnali published a notice on rates for search, rescue, and relief materials procurement, allocated under this fiscal year's budget.
- Provided technical support to the Ministry of Internal Affairs and Law (MoIAL) for the Orientation Program on Natural Hazards and Disasters at Gurash Municipality, Dailekh.
- Provided ongoing support to the PEOC in publishing the daily provincial bulletin, incorporating forest-induced incidents.
- Created a WhatsApp group to disseminate disaster-related notices and decisions to Development Partners (DPs).
- Organized inter-cluster meetings to enhance coordination and actively tracked the activities of partners and stakeholders.
- Ensured the Provincial Emergency Operations Center (PEOC) remained fully operational and responsive to emergencies.

UPDATES FROM LUMBINI

Shelter Cluster Meeting

On March 19, 2025, the Shelter Cluster Meeting was convened at the Ministry of Physical Infrastructure Development in Lumbini Province, under the leadership of Secretary Bimarjun Pandey. The meeting received financial assistance from the SUPER Project, with overall coordination support provided by the NHSRP.

The primary focus of this gathering was to conduct a comprehensive review of the Monsoon Preparedness and Response Plan (MPRP) for the fiscal year 2018, along with developing the Emergency Contingency Plan for the Shelter Cluster for the upcoming fiscal year 2082.

Additionally, the meeting addressed the formation of a Technical Working Group, aimed at enhancing the efficacy and responsiveness of shelter-related initiatives. This group is expected to play a crucial role in advising on technical matters, ensuring that the shelter strategies are well-structured and aligned with the needs of the community. This collaborative effort underscores the commitment of the involved organizations to bolster disaster preparedness and enhance the resilience of shelter infrastructure within the province.

PROVINCIAL UPDATES - KOSHI

Disaster Risk Mapping of Koshi Province in the Final Stage

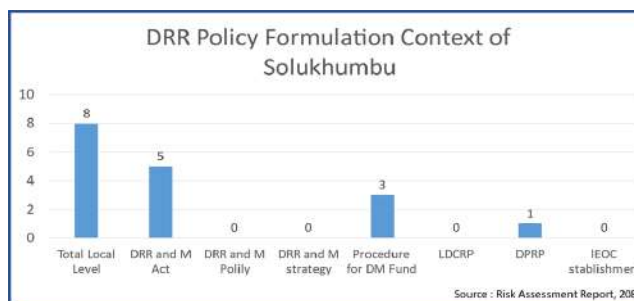

Under the leadership of the Ministry of Internal Affairs and Law, the disaster risk analysis and risk area location mapping for Koshi Province has reached its final stage. District-level disaster profiles have been drafted based on information gathered from consultation workshops with local governments and sectoral offices at the district level. Currently, validation workshops are being conducted at the district level to refine these drafts.

As part of this process, on 4th march, 2024, a validation workshop was conducted in Solukhumbu

offices. During the event, discussions highlighted that Solukhumbu District is at high risk of disasters such as landslides, human-wildlife conflicts, glacial lake outbursts, and fires. Stakeholders emphasized the need to integrate disaster risk reduction efforts with development planning to ensure effective mitigation.

The governance status of local governments in Solukhumbu District regarding disaster risk management was also analyzed. Among the eight local governments, only five have enacted a Disaster Risk Reduction Act. Furthermore, none of the municipalities have formulated a disaster risk reduction and management policy or strategy. In terms of relief distribution, only three municipalities have operational guidelines and standards for relief funds, while just one municipality has developed a disaster preparedness and response plan. Additionally, it was found that awareness regarding Local Emergency Operations Centers (LEOCs) remains low among local governments.

Agreement for Preparing the Provincial Disaster Profile

The Ministry of Internal Affairs and Law, the District Administration Office, and local governments are working in coordination to prepare the Disaster Profile of the Province based on the following agreements:

1. Ministry of Internal Affairs and Law:

The ministry is leading the overall process of disaster profile development and digital mapping. This includes:

- Conducting consultation workshops
- Designing questionnaires and forms for data collection
- Tabulating information
- Developing a mobile application for data entry
- Uploading collected information to Google Maps, decorating, and publishing the final disaster profile

As of Falgun 20, 2081, the draft disaster profiles for 12 districts have been prepared and validated through feedback workshops. Additionally, 35 local governments have already uploaded their location tracking data, while the remaining municipalities are continuously updating their data.

2. District Administration Office:

- Organizing initial workshops and draft profile-sharing workshops by bringing together local governments and district-level sectoral offices
- Collecting and coordinating the required information from sectoral offices based on the prescribed format

3. Local Governments:

- Providing municipality-level data in the required format
- Preparing a list of high-risk areas and resource institutions

- Managing administrative costs for data collection and on-site location tracking

This collaborative approach aims to ensure accurate disaster risk analysis and improve preparedness at the provincial, district, and local levels.

The work is being carried out based on the mentioned modality, with a plan to complete it by the end of Baisakh.

Joint Monitoring visit and Orientation on Disaster-affected HHs ,Retrofitting, reconstruction, and resettlement grant distribution procedure – 2081 and RMIS System

On 4th March 2025, a Joint Monitoring field visit was conducted to DAO Dhankuta and Dhankuta Municipality to verify the release of the Government Tranche and assess the construction progress of 55 households. The visit was carried out by Sadananda Bhattarai (DRR Focal Person, MOIAL), Bhagwan Man Shrestha (Senior Accounts Officer,, MOIAL), Birendra Shrestha (NHSRP) . During the visit, discussions were held with key officials to address tranche confirmation issues and gaps in data updates within the RMIS system.

Additionally, in-person orientations were provided to the DRR and IT personnel on Orientation on Disaster-affected HHs ,Retrofitting, reconstruction, and resettlement grant distribution procedure – 2081 , and RMIS System. A site visit was conducted to evaluate reconstruction progress and identify challenges. The visit concluded with recommendations to improve reporting accuracy and streamline the tranche release process.

Provincial-Level Discussion and interaction program on Disaster Risk Management

On 17th March 2024, a provincial-level discussion and interaction program on disaster risk management was conducted at the MOIAL Hall. The event aimed to gather feedback and suggestions on the digital mapping of disaster-prone areas and the preliminary draft of the Provincial Disaster Profile. The program was chaired by MOIAL Minister Mr. Rewati Raman Bhandari, with Chief Guest Mr. Ajambar Rai, Chief of the District Coordination Committee, Morang.

from various government offices, local government representatives such as mayors, deputy mayors, chief administrative officers, IT officers, and disaster focal persons. Representatives from various security agencies Nepal Army, Nepal Police, Armed Police Force, were also present.

Discussions focused on the accuracy and completeness of disaster-prone area data, ensuring the inclusion of all vulnerable zones within municipalities.

Participants provided insights into gaps in existing disaster risk assessments and highlighted the need for improved coordination mechanisms. The event concluded with recommendations for refining the disaster profile and strengthening disaster preparedness strategies at the provincial and local levels.
