| 10 January 2018     | Dupcheswar Rural Municipality Ward – 7, Shikharbesi                                                                                                                                                                                                                                                                                                                                                | <ul style="list-style-type: none"> <li>• Bed Prasad Gaudel (Act. Chief, NRA)</li> <li>• Badri Pyakurel</li> <li>• Bhuwan Waiba (CARDSN)</li> </ul> |
| <b>Objective(s)</b> | <ul style="list-style-type: none"> <li>• Objective 1: Observation of field activities of OXFAM</li> <li>• Objective 2: To understand the barriers for reconstruction, issues and challenges in field Level</li> <li>• Objective 3: Observe the retrofitting in Shikharbesi</li> </ul>                                                                                                              |                                                                                                                                                    |
| <b>Summary</b>      | <p>One day field visit was organized by CARDSN, implementing partner of OxfamGB. HRRP also joined the group of NRA and partners and visited Shikharbesi, Dupcheswar municipality ward no. 7. We found that Oxfam is working on different sectors along with housing. and had supported two households for retrofitting, technically supported by Build Change.</p> <p>1. Buddhi Bahadur Pandit</p> |                                                                                                                                                    |

| 2. Ganesh Bahadur Thapa                                   |                                                                                                                |                                                                                  |                    |
|-----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|--------------------|
| Challenges / Issues Identified                            | Action Required                                                                                                | Responsible                                                                      | Timeframe          |
| Second tranche distribution is delayed                    | Technical inspection should be in time                                                                         | DUDBC and ward office should monitoring about the presence of engineer in field. | Regular and recent |
| Lack of local construction materials (sand and aggregate) | Local government and district level authority should monitor the mining area to regularize the market channel. | Government of district and local level body.                                     | Regular basis      |

#### Photos

House of BuddiBahadur Pandit, has just completed retrofitting, shifted here from temporary shelter. Construction was supported by OXFAM. He received first tranche and signed a contract to Oxfam not to participate on remaining tranches provided by Nepal government.

Mud mortar house has been retrofitted with using band, cement concrete pillar and wooden and iron support.

Ganesh Bahadur Thapa, Dupcheswar-7, Shikhabesi has just completed retrofitting his mud stone house. The retrofitting is new in Dupcheswar municipality. Most of the retrofitting listed beneficiaries are comfortable for new building.

Bahadur Bishwakarma, Dupcheswar municipality ward no 7, Shikharbesi seems in hurry to complete his house with the help of local callings (mason). He is using all existing materials of previous house but now he is more conscious on earthquake resistance. He is following all the instruction by the technical inspectors. Engineer has informed him as adequate for 2<sup>nd</sup> tranche but he does not find it yet.

## Questions Collected

| Question                                                                                              | Who Asked the Question?                                                            | Response Provided (By Whom)                                                                         |
|-------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| Why did Engineers delayed for inspection and next visit come with many more complain on construction? | Bahadur Biswakarma (Beneficiary)<br>Dupcheswar municipality ward-7<br>Shikaharbesi | HRRP has notify to meet regularly while construction which may reduce the complaint on construction |
| We have listed in grievances list though I do not find first tranche. When do I find it?              | Maya Biswakarma (Beneficiary)<br>Dupcheswar municipality ward-7<br>Shikaharbesi    | Contract to ward office they will coordinate with MOFALD/DLPIU then they will answer problem.       |
