Field Visit Reports

Date	Location	Participants
3 January 2018	Bidur municipality ward – 6, Dhungentar	• Bed Prasad Gaudel (Act. Chief, NRA) • Badri Pyakurel • Buddha Singh Thakuri • Govinda Joshi (ICIMOD)
Objective(s)	• Objective 1: Observation of field activities of ICIMOD • Objective 2: To understand the barriers for reconstruction, issues and challenges in field Level • Objective 3: To understand the housing typologies and progress	
Summary	One day field visit was organized by ICIMOD and NRA requested us to participate in the team. We found that ICIMOD has Resilient Mountain Village project in Bidur-6 and Bidur-12 among the marginalized people who had very hard to make their own houses. ICIMOD has promoted on community engagement, brick manufacturing and shelter construction as alternative construction material in local level. Interlocking compressed stabilized earthen block (CSEB) has produced in local level and 44 houses are constructed by using the CSEB technology.	

Challenges / Issues Identified	Action Required	Responsible	Timeframe
Local participation	participation of locals in block production and house construction	ICIMOD and its Implementing Partner (SSS)	
Less masons trained	government need to train more masons	government	
Late on second and final tranche	regular follow up to the MOFALD/DLPIU	PO and engineers	

Photos

Construction of CSEB blocks in Dhungentar, supported by ICIMOD.

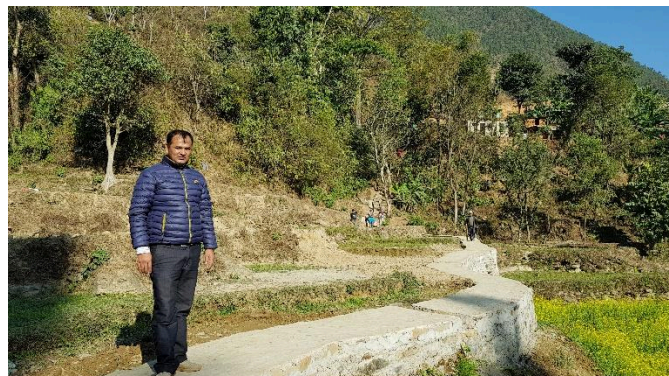

Pilling of blocks: Curing for 21 days. The blocks are prepared at the ratio of 5:3:1 soil, sand and cement. 44 houses are constructed and 77 are under plan.

Bidur municipality ward no 6: Beneficiary name: Laxman Sunar. He is 70 years single old and he is single in his family. ICIMOD supported him in construction of house using CSEB, which cost 5 lakh 65 thousands. Sunar is waiting for second tranche.

Culvert and foot trail construction: ICIMOD has supported to construct foot trail and culvert from Dhugetar to Archale (Bidur-6) Nuwakot. Govinda Joshi program coordinator of ICIMOD said that ICIMOD has spent 15 lakh to construct the trail and culvert which make comfortable to the people of Archale on access to construction materials and daily life.

Shanta Sunar, Bidur-6, Archale, made type-4 building using CSEB and she is waiting for the second tranche now. Engineer has approached for inspection but it is too late for tranche. She cannot complete her construction without the tranche payment.

Questions Collected

Question	Who Asked the Question?	Response Provided (By Whom)
Engineers are not coming on time for the verification?	Mrs Shanta Sunar (beneficiary) Bidur municipality ward-6	HRRP team convince him saying that we will take your voice to concern body
