

Post Disaster Recovery Framework (PDRF)

Overview

What is the Disaster Recovery Framework (DRF)?

The DRF turns the findings and recommendations of the PDNA into an action plan

It provides useful guidance for planning and implementing recovery and reconstruction

It sets out the policy framework and vision for the recovery programme

It prepares recovery plans for all the affected sectors which include priorities, costs, timeframe and implementation arrangements

It provides enabling support for implementation including institutional arrangements, financial provisions and monitoring mechanisms for recovery

National Reconstruction Authority (NRA), Nepal

Primary components, Sectors and Cross Cutting themes

Process and timeline for developing the PDRF

Consultations Stage	
Private Sector Consultation	March 10, 2016
Civil Society Consultation	March 10, 2016
Government Consultations	March 11, 2016
Prioritization Stage	
Sector Teams formed and confirmed	March 11, 2016
Sector Team Orientation (1/2 day)	March 15, 2016
Data analysis and writing (primary components, sectors, cross cutting themes)	March 16 to 24, 2016
Cross Sectoral Prioritization	March 25 to 27, 2016
Internal and external review of sector reports	March 25 to 27, 2016
Consolidation of sector reports into PDRF	March 28 to 31, 2016
Validation Stage	
Submission of final draft for validation	April 01, 2016
Report Finalization and Approval	
Incorporation of final comments	April 02 to 05, 2016
Editing, design and layout, printing	April 05 to 15, 2016
