News & Updates

National Reconstruction Authority (NRA) have issued notice that mentions about conducting resurvey and reverification of grievances that have earlier submitted by beneficiaries. Further, the notice also mentions about final collection of grievances from people who wants to be listed as earthquake beneficiaries.

From the notice, NRA has urged local government bodies to support in providing authentic information on beneficiaries who have registered grievances, whose grievances were not heard and who wants to be listed into earthquake beneficiaries. From 29 March 2019 onwards (15th Chaitra 2075), the resurvey and reverification works will be carried forward by the reconstruction engineers deployed in local government bodies in earthquake affected districts.

Bhaktapur Reconstruction Update as of 14 March 2019

Lalitpur Reconstruction Update as of 14 March 2019

RETROFITTING STATUS: LALITPUR DISTRICT

Housing Typology Report

Beneficiary name: Bhairab Ale Magar, Puwar Gaun, Ward no. 10, Suryabinayak Municipality, cement brick as infill material, RC frame with steel post in the pillar.

Beneficiary name: Kabu Raj Ale Magar, Ward no. 10, Puwar Gaun, Suryabinayak Municipality. Two storey structure which is found to be non-compliance after structural analysis due to its skewness.

Challenges and Way Forward

Challenge	Way Forward
Coordination with local bodies regarding shelter reconstruction works.	As now NRA has handed over managing initiatives related to shelter reconstruction to local bodies, they should proactively see and respond to channelize coordinated efforts so that targets and deadlines set by NRA can be met in time.

Case story

Case story 1

Vulnerable beneficiary who received top-up support to rebuild the house

Mr. Birman Lopchan, an earthquake affected beneficiary running in around 40 years old lives in Ward no. 1, Chaughare, Konjyosom Rural Municipality. He lives with a 5 member family; spouse and 3 children. Birman is literate and has been earning his livelihood as daily waged labour. He has been regarded as among the marginalized and vulnerable beneficiary as 2015 earthquake completely damaged his single storey, 1 roomed house.

Lacking the resources to build a new home, Birman was left with no option but to continue living in temporary shelter for more than 1.5 years. Rural Institution for Community Development (RICOD), a partner organization working in cross cutting initiatives of reconstruction sector came into contact with Birman that provided top-up support of worth Rs 50 thousand such as sand, rod, other construction materials etc to reconstruct the 1 roomed single storey SMM house with attic. Elated Birman shares that moving into a reconstructed house was possible because of top up support along with technical assistance for safer reconstruction. He has managed to receive all of the tranches from government of Nepal. A total expense incurred in rebuilding his house is nearly 3.5 lakh.

Case study 2

Vulnerable beneficiary who received top up support to rebuild his house

Mr. Aita Singh Thing, 74 years old elderly man lives with his spouse in ward no. 1, Chaughare, Konjyosom Rural Municipality, Lalitpur. Aita is an illiterate person. He used to have large family of 5 daughters and 3 sons who are now settled with their family members after marriage and lives separately. Since long, Aita has been earning his living by animal husbandry and by selling milk in village.

2015 earthquake completely collapsed Aita's single storey 2 roomed SMM house. Thereafter for nearly 1.5 years, he along with his spouse lived in temporary shelter. Aita's dream of moving back into his own house was possible after Rural Institution for Community Development (RICOD), a partner organization working in cross cutting initiatives of reconstruction sector came into contact with him. Because of Aita's increasing age, he has been regarded as vulnerable beneficiary in the Ward areas. He has received construction materials worth Rs. 50 thousand by RICOD and he successfully managed to rebuild the house in the same place where his old houses used to stand. Nearly Rs. 6 lakh were spend in rebuilding his SMM 2 roomed, 1 storey with attic house and toilet. He reveals that much of the amount was spend in purchasing water. He also received few support from his son to rebuild the house who lives in same area. Aita has successfully received all of the three tranches from government.
