

Shova Lamaichhane, a trained mason, from Kakani Rural Municipality, Chaturale in Nuwakot district, constructs her own house with the socio-technical assistance from **NSET, Baliyo Ghar Program**. Community members selected her house as a model house construction in the community, after which NSET engaged community members and trained masons including Shova as one of the OJT participants during the model house reconstruction. She was able to gain all the required skills and knowledge of house construction during the course of the training including other helping hands from her friends and Community team members. The total cost of her house was NPR. 600,000.

FEATURED TECHNICAL STAFF STORY: Surya Bahadur Rana, Assistant Sub-Engineer

Surya Bahadur Rana

*Assistant Sub-Engineer
Bagmati Rural Municipality,
Gimdi, Lalitpur*

Surya Bahadur Rana, Assistant Sub Engineer had been deployed in Ward no 7, Gimdi, Bagmati Rural Municipality, Lalitpur district by DLPIU Building Office, Lalitpur, since reconstruction works kicked off in Lalitpur district (June 2016). Surya Bahadur's hometown is located in Surkhet, Mid-western Nepal. He is field based and stationed at Gimdi which is nearly 55 km from central Lalitpur city.

According to Surya Bahadur, nearly 90% beneficiaries have accessed the 3rd tranche in Gimdi Ward Cluster. He has been providing technical assistance, conducting inspection works and relevant housing reconstruction support works to beneficiaries in Gimdi from the time when housing reconstruction work started in Ward no 7 of Bagmati Rural Municipality.

Progress with the disbursement of the GoN housing reconstruction and retrofit grants based on NRA, GMaLI CLPIU data as of 29 June 2020.

[HRRP published a study report on Impact of COVID-19 on post earthquake recovery and reconstruction:](#)

This is the latest study report conducted by HRRP from 1-10 May in the midst of COVID-19, nationwide lockdown situation to understand the impact of the COVID-19 on recovery and reconstruction in the 32 earthquake affected districts. HRRP employed telephonic survey as the COVID-19 safe means of data collection. The assessment findings and recommendations are expected to contribute in formulating strategies for the National Reconstruction Authority to move ahead with the reconstruction during and after the COVID-19 lockdown. The preliminary findings of the assessment were presented in the webinar jointly organized with NRA on 14 May, 2020 and collected suggestions and recommendations to finalize this report through wider consultation.

[NRA circular to CLPIU-GMaLI & CLPIU-Building to continue doing partner agreement and first tranche distribution:](#)

NRA has sent a circular to CLPIU-GMaLI and CLPIU-Building requesting them to continue with the partner agreement and distribution of first tranche to those enlisted in private housing reconstruction / retrofitting beneficiaries pursuant to Chief Executive Officer level meeting held on 22 June 2020 until further provision is made regarding the tranche deadline. The decision has been made because of the COVID-19 impact on the eligible earthquake affected beneficiaries due to GoN imposed

nationwide lockdown since 24 March 2020. Earlier, the 129th NRA Executive Meeting, held on 3 March 2020, had decided the end of Chaitra 2076 (mid April) as the deadline for the enlisted private housing reconstruction/retrofitting beneficiaries to do the partner agreement and receive the first tranche.

NRA public notice for submission of research papers/articles related to Gorkha earthquake: NRA has issued a public notice to all those concerned for the submission of both published/unpublished materials in the form of research papers, research reports, news articles, photographs, documentaries, video clips etc. (Nepali or English language) that are related to the 2015 Gorkha Earthquake. The materials will be published in various NRA publications. Please submit to nraconferencesecretariate@gmail.com or mghimire@nra.gov.org.np by July 15 2020. You can also contact in the following numbers for further information: 01-4211467 or 9851255790

NRA public notice to interested non-beneficiaries for the registration of their grievance at the Appeal Committee: NRA has issued a public notice to all those non-beneficiaries, who are dissatisfied with the results published by NRA on the grievance hearing and resurvey results conducted at various times, and sent the list of non-beneficiaries to DLPIU-GMaLI for public display at the respective ward offices. In this regard, NRA has requested all the interested non-beneficiaries, who are dissatisfied by the NRA decisions, to contact DLPIU-GMaLI Offices for the registration of grievances along with the copy of NRA decision at the earliest possible. For more information, please contact: **Toll free No. 1660-01-72000 or 9801572111**

COVID-19 Pandemic: Live Updates & Nepal Humanitarian Response Update

According to MoHP source of information, as of 28 June 2020, total cumulative new cases is 12,772 (89% Male: 11% female) out of which confirmed cases undergoing medical treatment in isolation is 9731 and discharged after recovery is 3013 with 28 deaths. There are a total 61,731 in quarantine facilities. The nationwide lockdown ended on 15 June 2020 midnight.

International Webinar on “Addressing Multi-hazard Risk in the context of Covid-19: A Global Perspective.” NSET marked its 27th Anniversary by organizing an International

Webinar on 'Addressing Multi-hazard Risk in the Context of Covid-19: A Global Perspective', on 22 June. The webinar aimed at bringing prominent international experts on the international perspective especially on Disaster Risk Reduction (DRR) in the context of COVID-19 and expected change in the paradigm. It further discussed the possible consequences and risk reduction measures of complex emergency in coincidence with COVID-19; role of Governments and CSOs for the new normal and shared the learnings and experiences on responding to COVID 19 and other disasters in the context of COVID-19.

The webinar brought together a panel of prominent speakers including experts, practitioners and researchers from various countries with different backgrounds related to DRR and disaster management to discuss how the current COVID-19 experiences impact the future planning of DRR sector. Two keynote speakers Mr. Manu Gupta, Co-Founder, SEEDS India/ Executive Member, ADRRN talked on How to deal with Multi hazards in COVID-19 situations, and role of Government and Civil Society Organizations for new normal, and Mr. Kendra Hirata, Director of Programs, CityNet Yokohama, Japan spoke on how cities can get better prepared for pandemic like covid-19 in conjunction with threats of multi-hazards. Prof. Dr. Alexander Densmore, IHRR, Durham University, UK; Mr. Sanat K. Bhowmik, Deputy Executive Director, COAST Trust, Bangladesh; and Dr. Rizwan Naseer Director General, Punjab Emergency Service Commander, Pakistan Rescue Team DRF – PAK Emergency Services Academy Rescue 1122/PES Pakistan shared their experiences and expected changes in DRR paradigms, and future directions of academic research, Experience from Bangladesh to respond to Cyclone Amphan in times of COVID-19 and , Responding COVID-19 by Rescue 1122 in Pakistan: Lessons learned and challenges respectively. Similarly from the perspectives of professionals and practitioners, Prof. Cui Peng, IMHE, CAS, Chengdu, China, Mr. Surya Narayan Shrestha, Executive Director, NSET, Dr. Amod Mani Dixit, Chair, ADDRn and Mr. Aloysius Jayant Rego, MARS Practitioners' Network, India, shared COVID-19 experiences, change in DRR paradigms, and future directions for academic research in the new normal and multi-hazards situations.

Urban Recovery Working Group: The UR-TWG held its 13th meeting on 24 June 2020, with the participation of CRS, NSET, Lumanti and HRRP. In this remote session, members shared their ongoing documentation and research for the development of a comprehensive

“Urban Recovery Strategy”. Currently, recommendations are being developed with a focus on 4 core issues of finance, land, policy and STA. The 1st draft of the document will be handed over to the NRA for review and feedback by mid-July. For further information and if you wish to contribute, write to sneha@hrrpnepal.org

TOT training manual preparation for NRA engineers: HRRP is currently working on the preparation of 7 days Training of Trainers (ToT) manual for engineers on earthquake resistant building construction. HRRP has supported CLPIU-Building in conduction of several 7-days-TOT on construction of earthquake resistant buildings in earthquake affected districts for NRA engineers. This manual will help to enhance the knowledge of technical people in preparing earthquake resistant designs, in-depth understanding of NRA manuals and presentation skills. This document provides a detailed outline of seven days ToT lesson plans to help trainers deliver training effectively.

Call for Case Studies: HRRP would like to request for case studies, especially related to your experiences on implementing and/or supporting vulnerable households approaches including best practices, success stories, shared challenges and lessons learned. We would like to include your case studies for the research paper on **“safer homes for vulnerables: key gaps and challenges.”** Your case studies will also be published in NRA monthly and bi-monthly publications. We would be grateful if you could submit your case stories to Ruplal Aidi, National Coordination Officer: nco2@hrrpnepal.org by **15 July 2020**.

DISTRICT & MUNICIPAL UPDATES

Lalitpur/Bhaktapur: DLPIUs (GMaLI and Building) of both districts have opened now and are operational. Work has resumed and most of the staff have rejoined the offices after the strict COVID-19 lockdown, with proper precautions, such as applying physical distance, and application of proper handwashing practices and other health hygiene.

As part of regular work, DLPIUs are working on MIS compliance, data verifications and web-based applications updates. In addition, some other crucial tasks are ongoing to achieve the results, like regular communication and coordination and follow up with

banking institutions to facilitate the tranche process in a better way. Furthermore, the HRRP district team effectively updated the Municipal Profile dataset through which updated Municipal Profiles of all Municipalities are going to be published, (in total-282 Municipals). HRRP has also updated district contact lists, 5W dataset update, further improvement in cost calculator application, and most importantly launched Building Code Implementation (BCI) status survey as part of Localization (Exit Strategy) with Godavari Municipality in Lalitpur and Changunarayan Municipality in Bhaktapur, which is targeted to publish the assessment report by August, 2020.

Kavrepalanchok/Sindhupalchok: DLPIU-GMaLI of Kavre has resumed its work. In this month, more than 300 beneficiaries received services from DLPIU by following precautionary measures of health safety, social distancing, hand washing practices. Further, GMaLI office prepared reimbursement to beneficiaries and forwarded files to other departments and banks for further process.

DLPIU-Building Kavre is working on different integrated settlement development projects that are ongoing in Kavre district. DLPIU-Building is also working on estimating the projects, monitoring, and supervision as well. Municipal DLPIU engineers are remotely providing technical assistance through phone calls and remotely and providing technical assistance to beneficiaries to reconstruct houses. A few engineers are continuing inspection and monitoring as much as possible along with the digitization process of housing inspection. In addition, HRRP collected data on retrofitting from various municipalities of Kavre, and conducted dataset updates on Municipals profiles and launched BCI status survey.

In **Sindhupalchok**, District Facilitation meeting was conducted on June 8, 2020 by DLPIU-GMaLI. The meeting was chaired by DCC Chief, Gopal Tamang and was attended by DAO officer Umesh Kumar Dhakal, KOLENIKA representative, DLPIU-Building representatives, and representatives from other different reconstruction stakeholders. The meeting decided on resolving land issues with the support from the District land revenue office and District survey office in coordination and collaboration with other POs such as Durable Solution that are working on the land issues. The District Administration Office will facilitate and support in the safe return of all engineers working in the district to expedite the reconstruction process.

Makwanpur: DLPIUs (GMaLI, Building and Education) are operational with staff resuming their offices after the relaxation in lockdown. DLPIU-GMaLI has so far organized five staff meetings including the DCC meeting in the district. As part of the regular process, tranche related files are being received from the DLPIU-Building and tranche release processes are smoothly going on from GMaLI office. Field visit was also conducted led by a social development specialist.

The Retrofitting Task Force (RTF) in Makwanpur has observed around 10 retrofitting cases of existing structures that are currently undergoing through the retrofitting process. District retrofit task forces are planning to conduct awareness programs including training at the ward level as much as possible and are ready to support field technicians for any technical problems.

In relation to Vulnerable households, Centre For Community Development Nepal (CCDN) has been supporting housing reconstruction of vulnerable beneficiaries at Thaha Municipality and Kailash rural Municipality. The progress of reconstruction of vulnerable housings is in its final stage. For example, in Kailash RM, all 66 HHs have completed and received 3rd tranche. In Thaha Municipality, out of 125 HHs, 125 received 2nd tranche and 75 received 3rd tranche.

Dolakha/Ramechhap/Sindhuli: DLPIU Offices have opened in all three districts. In Dolakha, District Reconstruction Facilitation Committee meeting took place on 11th June 2020 under the chairmanship of DCC Chief, Mr. Dabal Pandey embracing the social distancing rules. The issues on private housing reconstruction, Integrated Settlement and Heritage settlement were discussed in the meeting.

Dhading/Gorkha: In Dhading, the DLPIU GMaLI office is operational and most of the staff have re-joined the office. It usually opens from 8am to 6pm (someday 8am-8pm) considering work load to complete work by mid-July. Proper safety measures have been adopted against Covid-19 and social distancing has been maintained. Separate hand wash station has been arranged to beneficiaries as a precaution measure against Covid-19.

As one of their regular activities, DLPIU GMaLI has published the new beneficiary list of Batch-7 (289 beneficiaries), Batch-8 (5 beneficiaries) and Beneficiary list from HIOP (28

beneficiaries) of Dhading District and requested to circulate in respective wards for agreement process. GMaLI has also continued tranche disbursement and grievance handling work which was halted before due to nationwide lockdown. Various services to beneficiaries related to tranche have been ongoing. GMaLI has been working on vulnerable beneficiary data collection and verification to provide additional grants to the vulnerable beneficiaries.

Nuwakot/Rasuwa: In Nuwakot, District Facilitation Meeting was conducted on June 17 2020. The main agenda of the meeting was to identify the vulnerable beneficiaries eligible for additional top up. The meeting decided to approve the list provided by GMaLI Nuwakot, and send it to the concerned Municipality for final verification of the beneficiaries. GMaLI will provide 50,000 as extra top up to 339 Vulnerable beneficiaries upon reverification by the Palika Officials. According to GMaLI source of information, in Nuwakot, out of total 1169 vulnerable beneficiaries, 95% have received first tranche, 85% have received second tranche and 70% have received third tranche. No beneficiaries have received extra top up in Nuwakot. Likewise, In Rasuwa, out of 275 vulnerable beneficiaries, 93% have received first tranche, 87% have received second tranche and 78% have received third tranche. 74% (204) have received extra top up from Red cross Society Rasuwa. DLPIUs of both Districts are open and are operational.

Kathmandu: The regular work of DLPIU-GMaLI and DLPIU-Building has started. The NRA deployed technical staffs have also started the work from their respective workstation. DLPIU-GMaLI has been working on a regular basis whereas DLPU-Building has implemented shift hours for the staff, i.e. from 8:00 am- 1pm and 1pm – 5pm. The 8th batch of grievances registered through resurvey and reverification has been published where 11 beneficiaries of Kathmandu have been listed as potential beneficiaries. Two reconstruction beneficiaries have been converted to the retrofitting list.

Lamjung: DLPIU-building office has started its regular work like IDA compliance verification, government building re-construction process and supporting NRA technical staff who have returned to duty station. GMaLI has deposited all the remaining housing grant at beneficiaries account and after the government has allowed inter district transportation beneficiaries are also collecting grants from the bank. In regards to IDA

compliance, a total of 214 cases have been forwarded from the center to Lamjung DLPIU for IDA compliance verification. Out of which 37 cases have been made compliant and clear. The remaining cases are halted due to the lack of clarity in the photos and third and final inspection done by the technical staff at the same time. The district technical staff have been requested to send the clear information and photos of the houses as soon as possible.

HRRP District Coordination Team Bhaktapur, Lalitpur Monthly Report, 22 May – 25 June 2020

	Ward No 21, Lalitpur Metropolitan City, Lalitpur: Three storey plus attic frame structure. The homeowner has received a second tranche and applied for the third tranche of the Government housing grant.
---	--

HRRP District Coordination Team Dolakha, Ramechhap, Sindhuli Monthly Report, 22 May – 25 June 2020

	Ward 6, Kalinchowk Rural Municipality, Dolakha: A mixed typology, Stone in Mud Mortar in ground floor and semi stone and timber in upper floor. The homeowner has received a second tranche of the Government housing grant.
---	---

HRRP District Coordination Team Dhading, Gorkha Monthly Report, 22 May – 25 June 2020

Ward 3, Khaniyabas Rural Municipality, Dhading: Stone in Mud Mortar Structure with two rooms in ground floor and an attic. The homeowner has received the first tranche of Government housing grant. The total cost of construction was 500,000 NPR.

HRRP District Coordination Team Kathmandu Monthly Report, 22 May – 25 June 2020

Ward 28, Kathmandu Metropolitan City, Kathmandu: Three storey load bearing brick in mud mortar structure with flexible roof.

HRRP District Coordination Team Kavrepalanchok Monthly Report, 22 May – 25 June 2020

Ward 5, Khanikhola Rural Municipality, Kavrepalanchok: Two story, Stone and Mud Mortar Masonry (SMM) structure. The house was retrofitted using a wire mesh method. The homeowner has received the first tranche and applied for the second tranche of the Government retrofit grant. The total cost of retrofitting was 300,000 NPR including transportation and material cost.

HRRP District Coordination Team Makwanpur Monthly Report, 22 May – 25 June 2020

Ward 7, Kailash Rural Municipality, Makwanpur: Single storey, two-roomed, Stone and Mud Mortar load bearing structure. The homeowner has received all tranches of Government housing grant. The total cost of construction was 600,000 NPR.

HRRP District Coordination Team Nuwakot, Rasuwa Monthly Report, 22 May – 25 June 2020

Ward 5, Suryagadhi Rural Municipality, Nuwakot: Two story with, Stone and Mud Mortar Masonry with an attic damaged by 2015 earthquake. The homeowners are still living in the same house while the construction of the new house is going on. The homeowner has received a second tranche of Government housing grant.

HRRP District Coordination Team and Lamjung Cluster Monthly Report, 22 May – 25 June 2020

Ward 3, Marshyangdi Rural Municipality, Lamjung: Single storey, two-roomed, load bearing hollow concrete block structure. The house does not have a roof band, thus considered non-compliant. The homeowner has received a second tranche of Government housing grant.

FEATURED STORY

Featured Technical Staff, Surya Bahadur Rana, Assistant Sub Engineer had been deployed in Ward no 7, Gimdi, Bagmati Rural Municipality, Lalitpur district by DLPIU Building Office, Lalitpur since reconstruction works kicked off in Lalitpur district (June 2016). Surya Bahadur's hometown is located in Surkhet, Province -6, Karnali Pradesh, Nepal. He is field based and stationed at Gimdi which is nearly 55 km from central Lalitpur city.

He has been providing technical assistance, conducting inspection works and relevant housing reconstruction support works to beneficiaries in Gimdi since from the time when housing reconstruction work started in Ward no 7 areas of Bagmati Rural Municipality. He attended 7 days mason training provided by a couple of POs such as ICDO, Oxfam, ENPHO where he also joined the training team to share his technical expertise with the front line team of masons and guided them to reconstruct resilient houses.

In the meantime, he received several chances of attending training/orientations provided by DLPIUs and CLPIUs as well, which has helped to sharpen his technical skills.

Ward no 7, Gimdi is the largest Ward Cluster of Bagmati Rural Municipality, despite this geographical difficulties he had been able to provide technical support and conduct inspection works. Housing reconstruction work is quite satisfactory in Ward no 7 Gimdi and if things were smooth then housing reconstruction would have been completed by end of June (Ashad 2077).

According to Surya Bahadur, nearly 90% beneficiaries have accessed the 3rd tranche in Gimdi Ward Cluster. However due to lockdown, he himself has not been able to travel back to his hometown so he has stayed back in his field station in Gimdi. Since lockdown, by maintaining physical distance in Ward no 7, Ward office, he has been involved in providing relief support to needy people along with Officers of Rural municipality office.

He had given continuity to providing relevant suggestions and assistance to beneficiaries whose housing reconstruction were underway when lockdown was declared. Similarly, he also initiated recommendation of further 2nd and 3rd tranche tranche during lockdown periods and the prepared files were sent to the Building office by himself whenever there was transportation service having passes were available.

Similarly, final inspection works were also given continuity. Some beneficiaries have faced problems of shortage of construction materials. The local hardware shops are out of stock during peak lockdown periods. Surya Bahadur further shares that after lockdown is lifted, the pending shelter reconstruction work will expedite as most of the beneficiaries have reached upto roofing works mainly in Gimdi and majority of 2nd and 3rd tranche files have been approved (sent) to DLPIU Building office.

Households Retrofit amidst COVID-19 Lockdown

Dhan Bahadur Syangtan, Ward No.5, Khanikhola Rural Municipality, Kavrepalanchok: Dhan Bahadur Syangtan of Khanikhola Rural Municipality, ward no. 5 of Kavre district, did not lose hope even during lockdown due to COVID-19 and continued to retrofit his house with support of masons, social mobilizers and the focal engineer. He started to retrofit his house before lockdown and completed retrofitting of his house recently during the lockdown period.

Dhan Bahadur with his family and technical team in front of the completed retrofitted house(Two-Storey , Stone Mud Mortar-SMM); Masons and supporting team during retrofitting of the house, with Wire Mesh retrofit technique.

Dhan Bahadur Syangtan has completed retrofitting of his house successfully with support of five mobile masons, two social mobilizers and technical assistance, advice and support of municipal focal engineer. He has received the first tranche and second tranche is in process. He was convinced by a focal engineer to retrofit his house. He retrofitted his

house by using the Wire-Mesh retrofitting method. It is a two storey, SMM house with an attic. According to Dhan bahadur, the total cost of retrofitting his house is 3 lakhs NPR.

He is thankful to his wife, masons, social mobilizers and other supporting team to complete retrofitting of his house. He is also very thankful to the focal engineer for his remote technical support and facilitation of tranche process even in this difficult time of COVID-19, during which he completed the retrofitting of his house. Now he feels safer and has built trust over the retrofitting of earthquake houses. He is proud that he has retrofitted his house maintaining all the features of his existing house.

Vulnerable Households Reconstruction and support of PO

Chandra Bahadur Regmi, Ward No.9, Bhimeswor Municipality, Dolakha:

“Then I believe the possibilities which never fades”

Lakuridada is the largest ward of Bhimeswor Municipality, but unfortunately far away from municipal facility. Even the basic facility for any place like water sanitation is not properly managed in this ward. No proper drinking water, no health facilities, no age care center for elderly people and people living with disabilities. In addition, the accessibility of roads for each *tole* in the community is also somehow unmanaged as there is no transportation facility in the rainy season.

Chandra Bahadur Regmi, 38, a permanent resident of Bhimeswor Municipality ward no- 9, Lakuridada, is a differently abled person. He lost both his feet during the 2015 earthquake. Life became more complicated in his eyes after the earthquake as he lost his physical power to live. In every winter after the Nepal earthquake, lots of people were still living in temporary shelters. With his four daughters and wife, he is also the one still living in temporary shelter. Their homes were badly damaged and were simply scared to sleep inside. Snowstorms affected several communities very severely, damaging shelters and exposing people to the bitter cold. He received the first tranche to reconstruct his house but no socio-technical assistance and therefore remained helpless. He was feeling

emotionally weak as others had reconstructed and that he had not been able to start his house reconstruction. He was waiting for the right time and for helping hands to build a permanent house. With such hope, his dream came true with the UNDP/CDRMP project in Dolakha ECHO-II through HURADEC as an implementing partner that had started working in Lakuridada. His name was there in a vulnerable list of NRAs and still waiting to rebuild his house, through the Grantee support Program. He is still not believing that the support is a dream or reality in his own words. He said "It is quite humbling to see how the developing agencies like UNDP are helping the helpless to help themselves and encouraging people to reconstruct and are making to do with what they have. There are also encouraging signs that people are getting on with their lives in the best way possible under their condition, I still cannot believe whether it is reality or dream for the people like me. I was almost losing my hope to rebuild my home with this condition of mine. With all my broken physical condition I was thinking like I have to spend the whole life in this temporary shelter and my dependents to do so. But the possibility never fades. Thank you so much to the whole project team and my own community to select me as a grantee."

Reconstruction of his house was completed around April 2020, just before lockdown and he received all three tranches.

Vulnerable, Chandra Bahadur Regmi, 38, and his house under reconstruction, with support of UNDP/CDRMP- (HURADEC).

A Trained Female Mason Builds Her Own Home:

Shova became a trained Mason and constructed her own house: Shova Lamichhane is now working as a trained mason of the area. She is from Kakani Rural Municipality, Chaturale, Nuwakot. She has completed her own house with the help of other friends and team. Her life was not so easy after the demise of her husband, Amar Lamichhane. They were in Kathmandu with children. She has small business for livelihood. Her husband was addicted to alcohol though he was a guardian of the children. She has three small children but no source for daily livelihood. Health, Education and shelter are the most fundamental requirements along with the daily needs. She has sought support, but has not received it. She has more pressing anxiety of supporting the medical needs of her children and a permanent shelter. Her life was running with daily wages of agriculture fields.

Shova Lamichhane during the training

One day a friend suggested she participate in the On-the-Job training, going to organize in her own community by NSET Baliyo Ghar. The program has selected her house as model house support. Then she started to learn how to work as a mason. During the training she got a chance to learn many things about the construction materials, method and typology.

Vulnerable Households Reconstruction (June 2020): Of the total NRA identified vulnerable list, 88% (16,279 have received the first tranche, 63% (11,686) have received second tranche and 53% (9,839) have received third tranche. In total 2,698 HHs have been supported by various partner organizations.

MEDIA COVERAGE & COMMUNICATION ON RECONSTRUCTION

[Baliyo Ghar Surakshit Nepal-Part 21 | 23 June 2020](#): This episode focuses on discussing the NRA guideline to be followed for the COVID-19 risk reduction while undertaking reconstruction of private housing including other physical infrastructures effective from 29 May 2020. This program was aired on Kantipur Television on 23 June at 6:30 & 10:00 PM.
