6. Build back better housing/ 10 Key messages.
7. Update and share information by partners (concrete block)
8. Progress of 4W.
9. AOB
10. Next meeting

Key Discussion

Introduction:

The meeting took place at Nepal Red Cross Society Manthali, Ramechhap on 10th March 2016. The formal meeting started with short introduction. A total of 14 participants representing different organizations participated the HRRP coordination meeting. District coordinator (DFP) facilitated the meeting and it was focused more on Enrolment process and proposals for enrolment sites selection.

Review of previous Meeting Minutes:

Reviewed previous meeting minutes and most of the action point have been completed. Remaining one action point will be completed by next meeting.

NRA Update and Enrollment process:

East hub coordinator has updated NRA working modality and also shared about Shinghati pilot activities. He also briefed about enrollment process and emphasized support from partners in their enrollment centers,

Propose of enrolment center:

Open discussion on proposal for selection of enrolment centers. 17 enrollment centers have been proposed by the HRRP meeting and agreed to share this to NRA. This document will be helpful for NRA for the planning of enrollment centers. Please find attached list of enrollment centers and its VDC coverage map.

Support in enrolment sites by partner organization:

NRA seeks help from partners (NGO/INGO) in their enrolment centers during the working period. We also discussed on potential partners who can provide support in enrolment center. Most of the partners are ready to help enrollment centers based on their capacity. The meeting recommended all to think about potential partners who can support the enrollment centers and provide list of potential partners. We agreed to think about who can provide support for enrolment center as they will be planning for proposal.

Update and sharing information by partners:

We agreed that each partner at a time shares its activities if possible in power point.

Update 4w and information:

Information manager will update 4w and collect other relevant information. He will be sending email (updated 4w and information) to all concern partners twice a month.

Challenges:

1. **Lack of access both road access as well as market access. Several VDCs don't have even road access to deliver relief items and most of VDCs have only tractor access. Hence building enrollment centers and the process will be challenging task.**
2. **Lower number of high capacity Partner Organizations. So it will be difficult to get support for all 17 planned enrolment centres in future.**

Action Points:

1. **MEDAIR and EFSR/HELVETAS will be presenting about their activities and training in next HRRP meeting. Both partners will coordinate with each other and the presentations will be 15 minutes each.**
2. **The proposed enrollment centers/sites will be shared with the concern authorities.**
3. **Interested partners (NGO/INGO) will propose which enrollment center they are willing to support.**
4. **Information manager will update 4W and will send it as well as other information to all concern partner.**

Next Meeting:

TBD
