

This district profile outlines the current activities by partner organisations (POs) in post-earthquake recovery and reconstruction. It is based on 4W and secondary data collected from POs on their recent activities pertaining to housing sector. Further, it captures a wide range of planned, ongoing and completed activities within the HRRP framework. For additional information, please refer to the HRRP dashboard.

FACTS AND FIGURES

Population: 147,984¹

50 VDCs and 6 municipalities

Damage Status - Private Structures

Damage Grade (3-5)	22,786
Damage Grade (1-2)	16,566
Total	39,352²

OPERATIONAL PRESENCE

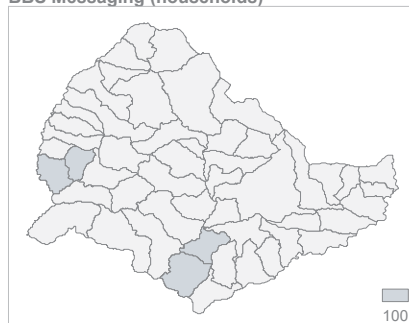

ACTIVITIES

The maps depict the reached figures according to different thematic areas³. A proper analysis of such information allows the stakeholders to identify possible gaps, minimize cases of duplication, and serves as a vital tool for supporting decision-making processes.

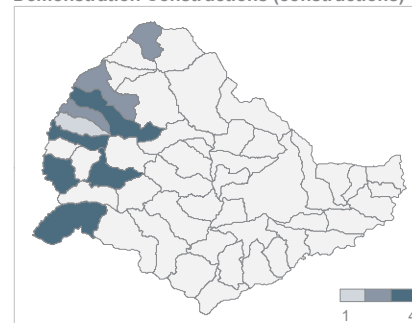

Mason Training - Short training (masons)

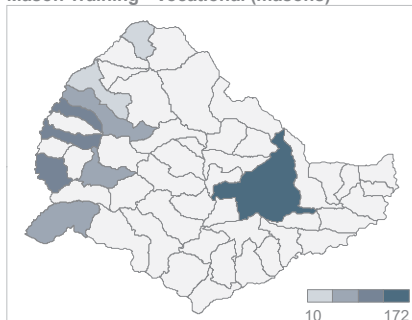

BBS Messaging (households)

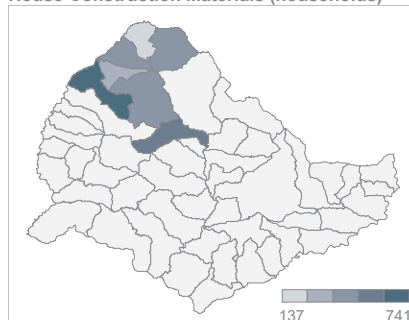

Demonstration Constructions (constructions)

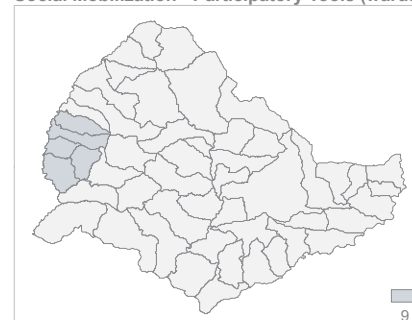

Mason Training - Vocational (masons)

House Construction Materials (households)

Social Mobilization - Participatory Tools (wards)

NEWS & UPDATES

1. Negligible amount of houses have been constructed in the district. It was noted that the houses were built without adherence to the technical guidelines or consultation with technical support team in DUDBC.

2. As per the reports from POs and local communities, most of the beneficiaries have planned to construct their houses after the end of monsoon season. In addition, scarcity of trained masons could prove to be a major impediment in smooth facilitation of reconstruction process.

3. Heavy monsoon has impeded the regular access routes and induced landslides in the major route connecting Okhaldhunga to Kathmandu.
