

Four-days training on 'Forest Fire Risk Management' concluded from 22 -25 March 2023 at Hetauda, Makawanpur district, particularly involving forest technicians, security personnels and forest guards. Forest fire control simulation was also performed to practice the forest fire control methods. The training was effective and influential in imparting knowledge of fire controls. The learnings and feedback from this training will be incorporated into the e-learning curriculum of NDRRMA.

NATIONAL UPDATES

National Shelter, Housing and Settlement Forum (NSHSF) scheduled in April 2023

The Nepal Shelter, Housing and Settlement Forum (NSHSF) event is planned to be organized on 25 -26 April 2023 in Kathmandu Nepal with the purpose of bringing together stakeholders from the shelter, housing, and settlement sectors in Nepal to discuss and address issues related to these sectors.

follow us on  <https://www.facebook.com/nhsrpnepal>

Nepal Shelter Housing and Settlements Forum 2023

"From Risk to Resilience: Coming together for affordable, green and climate adaptive local solutions"

The Nepal Shelter, Housing and Settlements Forum seeks to provide an effective learning and networking platform for practitioners and relevant stakeholders to meet and share lessons and experiences. The forum intends to explore best practices and lessons learned from the work through communities that have safe, adequate, and dignified shelters, housing, and settlements with appropriate access to land and finances.

 Event Date : 25-26 April, 2023

Organizer:

 Government of Nepal
Ministry of Home Affairs
National Disaster Risk Reduction and
Management Authority
Kathmandu, Kathmandu, Nepal

National Housing and Settlements Resilience Platform, Nepal

NSHSF is positioned with the theme of **‘Sustainable and resilient shelter housing and settlements’**.

The event is led by key ministries and stakeholders of Nepal including Ministry of Home Affairs (MoHA), Ministry of Land, Cooperatives and Poverty Alleviation (MoLCPA), Ministry of Urban Development, and NDRRMA. This event is supported by actors and stakeholders from three tiers of government, from federal to provincial and local.

NSHSF was envisioned through vigorous discussions from [Asia Shelter Forum \(ASF\)](#) International Conference which was organized in November 2021 in Kathmandu Nepal. It was agreed among all concerned governmental and non-governmental shelter, settlements and DRRM practitioners to hold an annual event – ‘NSHSF’ and work towards institutionalizing the engagement by building on existing coordination mechanisms.

The event provides a platform for government agencies, non-governmental organizations (NGOs), civil society organizations, other stakeholders, like-minded researchers, academicians, and students to exchange information, share best practices, and identify solutions to emerging issues and challenges in thematic sectors of shelter, housing, settlements, recovery, reconstruction and DRR, disaster preparedness, climate adaptive green solutions and many more compelling ideas. NHSRP has taken responsibility of Secretariat of NSHSF's Organizing Committee Organizations (CRS, HfH, IFRC-NRCS, IOM, NSET) to prepare ToR and Concept Note of the Forum and for arranging related managements. National level consultation on first draft of GEDSI Strategic Action Plan

NDRRMA organized a one day national level consultation event on prioritizing the most vulnerable in the DRR process and consultation on the first draft of 'Gender Equity Disability and Social Inclusion (GEDSI) Strategic Action Plan' with technical support of NHSRP and

National Housing and Settlements Resilience Platform, Nepal

EMPOWER Asia project of CRS Nepal on 3 March 2023. The one-day workshop served as a milestone majorly to fulfill key objectives of - bringing together key stakeholders in DRRM with the GEDSI to share experiences, challenges, and lessons learned and to identify key recommendations for GEDSI integration in DRRM and to gather feedback on the draft GEDSI strategic action plan of NDRRMA.

Joint Secretary of NDRRMA, Ms. Anita Niraula during opening remarks emphasized on the necessity and rationale of developing the GEDSI strategic action plan in DRRM embracing the Leave No One behind and Do No Harm principles. Group work for feedback collection on the GEDSI Strategic Action Plan perceived rich insights while attending organizations such as Plan International, Habitat for Humanity, NHSRP, NSET-Nepal, Lumanti Support Group for Shelter and Gurkha Welfare Trust shared key highlights on best practices and experiences on DRR, lesson learned and GEDSI related tools.

National Coordinator of NHSRP, Mr. Minar Thapa Magar shared experiences on the Vulnerable Support Working Group (VSWG) and its relevance to support the GEDSI Task Force of NDRRMA for vulnerability identification and mapping. Chief Executive of NDRRMA, Mr. Anil Pokhrel in his concluded remarks insisted that VSWG can work as a supporting role for standardization, making necessary tools, drafting guidelines & frameworks for NDRRMA as required demonstrating its effectiveness. [Detail event report](#)

Fire incidents in Nepal have been on the rise, government alert public to risk

As the season of forest fires starts, authorities alert the public to risks and urge all to be careful. Chief Executive of NDRRMA, Mr. Anil Pokharel at the press meet organized by Authority on 23 March 2023 reiterated that due to extremely low winter rainfall this year has posed the high risk of forest fires. Authority emphasized that the state agencies as well as the public should be aware of fire and fire control.

According to the data NDRRMA, there were 18,791 fire incidents across the country from 14 April 2013 to 21 March 2023 which caused 769 people to lose their lives and 2,568 people

were injured. There is a lot of environmental damage from forest fires including the death of wild animals and burning of herbicides.

To address increasing forest fires and fire outbreaks, authorities have taken various measures. Distribution of 'sets' of equipment used in fire control including portable water pumps for fire control to 21 districts so far is the commendable intervention of NDRRMA. Further, set up of fire and forest fire control squads encompassing a team of Nepali Army, Nepal Police and Armed Police Force have been done. Similarly, E-Learning courses are being designed by developing training materials that are suitable for local forest users' groups at local level and forest technicians of the Government of Nepal. [Detail news on press meet](#) [Government warns public on fire outbreak](#)

Forest fire risk management training instrumental to enhance fire control capacities

Four-days training on 'Forest Fire Risk Management' concluded from 22 - 25 March 2023 at Hetauda, Makawanpur district. The participants of this training program includes the security personnels of district security agencies including the staff from

security and fire brigade unit of Hetauda Sub Metropolitan City.

As a part of the training, forest fire control simulation was conducted by involving training participants and Janhit Community Forest Users Group, Manahari Rural Municipality.

The training covered both theoretical and practical aspects of forest fire where participants were trained to construct a fire line, control burning and use of local tools and fire control equipment to control and reduce the risk of fire outbreak. [4-days intensive training on forest fire management](#)

International conference series on Geohazards and Geo-Infra Disasters held in Kathmandu

With the Ministry of Education, Science and Technology as organizing partner, an international conference series of Nepal Geotechnical Society (NGS) successfully completed from 16 -17 March 2023 in Kathmandu. Conference series held every three years, the theme of 2023 were “Geohazards and Geo-Infra Disasters.” Through this international conference series, 1st GeoMandu, geotechnical engineering community in Nepal expected to appeal to all stakeholders of Nepal as well as to our international colleagues unique geohazard types, and geo-infra disaster issues in the Nepal Himalaya and share the problems and learn the solutions.

The conference explored 35 plus paper presentations from researchers and experts exploring the impact of geohazards, such as landslides, floods, and earthquakes, on urban

development in Kathmandu, and how to incorporate geotechnical knowledge into urban planning to create more resilient and sustainable communities. [Details of extended volume of proceedings](#)

PARTNERS' UPDATES

Flood affected farmers are paid-outs through climate insurance program

A unique climate insurance program in Western Nepal is gaining support after thousands of farmers found a way to protect themselves against increasingly violent flooding. The program, run by [Practical Action](#) Nepal, has paid out insurance claims of cash crops of nearly 1000 small holder farmers who are vulnerable to the effects of climate change and whose farm products were affected by the flood of 2022.

The beneficiary farmers are from flood-prone areas of Nepal. Practical Action Nepal implemented a pilot project in lower Karnali River and has also come to a pay-out stage after the flood hit the agreed indices. Insured Farmers in the area got pay-outs of 25% in 2022, to put their lives back together after the devastating floods that hit the region. The project's key features that make it unique and innovative are its pre-defined, pre-agreed Indices, which link science with the community. The claim process is simplified and reduces administrative hassle. It involves the private sector and micro institutions, and this develops strong local ownership. [The Index-Based Flood Insurance \(IBFI\)](#) project was introduced in March 2021 by Practical Action Nepal to strengthen the resilience of developing countries to protect the lives and livelihoods of poor and vulnerable people against the impact of floods. Detail news: [Index-base-flood-insurance-project of Practical Action](#)

Risk visualization through multi-hazard risk maps

Analysis of current and future risks visualization through multi-hazard risk maps for DRR Planning under Lamjung Recovery Project (LRP) were conducted in project Palikas of Lamjung district which was implemented by CRS Nepal in partnership with Rural Community Development Centre (RCDC). The priority actions/plans identified to mitigate the prevalent risks scenarios and develop resilience capacity of community members will be used to develop Local Disaster Resilience Framework (LDRF) of working municipalities.

The community level risk assessment process was carried out 20 wards (@ 5 wards per project palikas), attended by all the related stakeholders, including community members, local government officials, and other relevant organizations. Based on the analysis, the proposed LDRF of each municipality will include activities contributing to 4 priority areas and 18 priority actions identified in Disaster Risk Reduction National Strategic Plan of Action (2018-30) and contribute for improving emergency preparedness and response at municipality level. The first draft of LDRF developed will be validated through a municipal executive committee meeting planned by the first week of April 2023.

School focused earthquake preparedness efforts

Earthquake preparedness efforts have been conducted in schools in Kailash Rural Municipality, Makawanpur district. Shangri-La Development Association (SDA), with the technical support from NSET-Nepal, conducted sessions on earthquake preparedness & risk reduction and evacuation drill events during 25 Feb – 4 March, 2023.

National Housing and Settlements Resilience Platform, Nepal

Orientation sessions were held in Kalika Basic School, Praja Utthan Basic School, Deutis Basic School, Nandikeshar Basic

School, Bhawani Secondary School. Also, a session on the same theme was conducted in Kailash Rural Municipality. The events were focused to involve students, teachers, community peoples, security force, rural municipal authorities, and staff & representatives of Kailash RM where earthquake evacuation drill was done in each event. NSET instructors facilitated the orientations and drills. The activities have contributed to make participants aware of earthquake hazard and risks in Nepal and preparedness measures to adopt, and also encouraged to initiate the institutionalization of a system of periodic simulation exercises and drills in Kailash RM. [Detail news](#)

DRR Sectoral Integration Mechanism Workshop held in Kathmandu

Supported by National Platform for DRR (NPDRR), Disaster Management Network Nepal (DiMaNN), ActionAid International Nepal and Habitat for Humanity, “DRR Sectoral Integration Mechanism Workshop” successfully concluded on 24 March 2023 in Kathmandu. Over 100 participants from various sectors, government agencies, and NGOs

attended the event to discuss the need, practices, opportunities, and challenges for sectoral integration of DRR.

The workshop was a great platform for different network organizations to raise concerns on policy harmonization, deepen understanding of DRR in each sector, and acknowledge

their contribution to mainstreaming DRR. Chief Executive of NDRRMA, Mr. Anil Pokharel emphasized the importance of differentiating between integration and mainstreaming, while acknowledging the revision of the National DRR Strategic Plan of Action 2018-2030.

By bringing stakeholders from different sectors together and promoting the exchange of ideas and experiences, this workshop has paved the way for ongoing collaboration in disaster risk reduction. [Detail news](#)

Joint monitoring visit in flood affected areas of Banke by UK Aid representatives

Field visits along with community interaction were conducted by representatives from British Embassy UKAid (FCDO) at Duduwa Rural Municipality, Banke district on 3 March 2023. Representatives from British Embassy UK Aid were Ms. Heidi Tavakoli, Deputy Development Director and Mr. Joe Robertson, Climate Change Advisor, accompanied by Mr. Duane Clifford Jones, Team

Leader-FCDO Project Coherence Unit (PCU) and other personnels of FCDO's Lumbini PCU. Palika and Ward representatives along with flood affected beneficiaries also attended the visit and thoroughly shared their sufferings, status and situation in post-disaster conditions. The program was facilitated by the NHSRP Lumbini team in close coordination with Palika and Caritas Nepal. Updates regarding NDRRMA's disaster affected housing reconstruction and rehabilitation were also provided to the visitors.

NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM BAGMATI

Technical facilitation of BIPAD Portal training

A 2-days BIPAD Portal training successfully completed at Makawanpurgadhi Rural Municipality (Makawanpur district) from 16-17 March 2023. Disaster focal person and technical staff including engineers, sub-er, and assistant sub-er were the main participants of the training. The training provided participants an overview of BIPAD Portal and its application in data-driven decision making in DRRM. Makawanpurgadhi RM is the pilot municipality of NHSRP.

Technical assistance to strengthen DRRM systems in local bodies

In line with the NHSRP mandate to lead technical coordination and capacity strengthening for DRRM, Memorandum of Understanding (MoU) has been signed between NHSRP and Manahari Rural Municipality (Makawanpur district) on 14 March 2023, in presence of Rural Municipality Chief Mr. Ranjan Kalakheta and Chief Administrative Officer, Mr. Mohan Kumar Shrestha. The MoU assures to provide technical assistance to local bodies by NHSRP in various sectors such as to ensure policy dissemination, technical support to use DRRM information management systems, annual reporting, progress visualization, DRRM bylaws formulation and act as technical backstopper.

UPDATES FROM GANDAKI

Joint monitoring visit conducted to verify enrollment of disaster affected beneficiaries

A three-day field visit to Sundarbazar Municipality -1 (Lamjung district) was organized from 15-17 March 2023 which was planned and organized from DAO Lamjung to conduct verification on enrollment of monsoon-induced disaster affected beneficiaries. The joint field visit included officials from DAO, Palika, Ward and NHSRP. Areas affected by landslide and the impacted houses were visited while the NHSRP team also briefed on the enrollment procedures and the upcoming steps for the enrollment of beneficiaries and the distribution of NDRRMA's tranche.

Similarly, the NHSRP Gandaki team provided information management capacity building support to account management officials of DAO Syangja on 3 March 2023 for beneficiaries enrollment process.

UPDATES FROM LUMBINI

Technical support extended on conducting orientation and survey

NHSRP Lumbini team facilitated 'Orientation on NDRRMA Guidelines for Private Housing Reconstruction and Rehabilitation Affected by Monsoon/Fire-Induced Disasters, Kobo Apps and RMIS' at Rapti Sonari Rural Municipality (Banke) and Gulariya Municipality (Bardiya) on 28 February and 1 March 2023 respectively. Key insights from the Reconstruction Guideline were shared with the participants that included the majority of concerned municipal & ward -level representatives and staff. Focus of the orientation was to start the survey of flood affected households of affected ward areas of oriented local bodies which are prone to monsoon-induced flood every year.

Following the orientation, Rapti Sonari Rural Municipality, Banke district started a field survey of flood affected households at Ward -1, in close collaboration with a team of NHSRP Lumbini Province, CRS Nepal and Caritas Nepal. All technical staff along with local officials were present in the field where they were oriented on-the-spot about filling the beneficiaries' details through NDRRMA Kobo Collect Mobile Apps. Through at-the-spot coaching, technical staff are now confident to start surveys in respective Ward areas from tomorrow.

Field monitoring and community interaction in flood -affected areas

National Housing and Settlements Resilience Platform, Nepal

From 13-15 March 2023, field visit along with community interaction was conducted by the Country Representative of CRS Nepal at Rapti Sonari and Duduwa Rural Municipalities of Banke district. The team also met local officials of Rapti Sonari RM and discussed disaster-affected (primarily monsoon-induced flood) housing reconstruction. Community interaction with flood affected people and monitoring of housing typologies of houses conducted by Janata Aawas were the major highlights of the field visit. A team of Emergency Recovery and Response Project (ERRP)- CRS, Geologist and NHSRP Lumbini Province facilitated the visit.

Coordination meeting with Provincial Minister

On 28 March 2023, NHSRP Lumbini team conducted a coordination meeting with Lumbini Province, Minister of Internal Affairs, Law and Cooperatives (MoIAC) Mr. Tulasi Ram Sharma. The meeting has laid way forward mainly on -providing immediate technical support to monsoon induced disaster affected households in local levels of Pyuthan district at various local levels (Palika); conduct rapid geological study at the earliest in affected areas of Pyuthan district and to provide technical support in enrollment of monsoon affected beneficiaries as soon as possible.

UPDATES FROM KOSHI

Strengthening capacities for government system effectiveness on DRRM

On 9 March 2023, the NHSRP Koshi team in close coordination with Ministry of Internal Affairs and Law (MoIAL) and DAO Morang have completed facilitation of "Orientation on NDRRMA Guidelines for Private Housing Reconstruction and Rehabilitation Affected by Monsoon/Fire-induced Disasters, RMIS System and BIPAD Portal". Technical staff and IT personnel learned important insights from the Reconstruction Guideline and RMIS measures.

National Housing and Settlements Resilience Platform, Nepal

Similarly on 11 March, Koshi team facilitated using NDRRMA Kobo Collect Apps in Biratnagar Metropolitan City. Participants gained key insights on using the Kobo Collect Apps, walked through on creating user accounts and were given hands-on training on data collection for initial survey of disaster affected households through NDRRMA's Kobo Collect Apps.

Koshi Team also laid forward technical assistance to conduct 2-day BIPAD Portal training localization on 21-22 March at Budhiganga RM, a pilot municipality of NHSRP. Technical know-hows on using BIPAD Portal, overview of data entry and data access were useful mainly for technical staff and IT personnel. Similarly, on-the-spot technical assistance to Dharan Sub Metropolitan City were provided by Koshi team to upload capacity and resources in BIPAD Portal.

Provincial consultation on DRRM preparedness, response and on draft guidelines

On 27 March, the consultation and orientation program on preparedness and response in DRRM was organized in Biratnagar, Koshi province, Biratnagar in leadership of NDRRMA. The program is specifically related to sharing and collecting feedback on some of the draft guidelines of NDRRMA's Shock responsive Social Protection, GEDSI Strategic Action Plan, etc. A total of 81 representatives from different organizations participated in a one-day consultation and feedback collection workshop. During the program, Chief Executive of NDRRMA, Mr. Anil Pokhrel emphasized on embracing to leave no one behind approach through such inclusion-oriented guidelines. The Secretary of MoIAL-Koshi Province suggested including basic issues of vulnerable groups in the guidelines.

UPDATES FROM MADHESH

Technical support for DRRM system effectiveness in local bodies

The NHSRP Madhesh Team in coordination with DAO Parsa, DAO Bara and the Birjung Metropolitan City, have successfully facilitated to conduct "Orientation on NDRRMA Guidelines for Private Housing Reconstruction and Rehabilitation Affected by Monsoon/Fire-Induced Disasters and NDRRMA RMIS". The orientation was planned during a joint monitoring visit by a team composed of NDRRMA, NHSRP and Caritas Nepal team during 27 Feb - 7 March 2023. Similarly, the NHSRP Madhesh team facilitated sharing key highlights from NDRRMA's Reconstruction Guidelines, RMIS system and BIPAD Portal", during 'Local Disaster Governance Workshop' conducted at DAO Dhanusha on 20 March.

UPDATES FROM SUDURPASCHIM

Technical support for DRRM system effectiveness of local bodies

On 17 March 2023, DAO Kailali and Janaki Rural Municipality jointly collaborated & coordinated to organize 'Orientation on NDRRMA Reconstruction Guidelines for Monsoon/Fire-induced disaster-affected private housing reconstruction and rehabilitation grant disbursement procedures', Kobo Collect Mobile Apps and RMIS System". The NHSRP Sudurpaschim team facilitated the orientation which was attended mainly by technical staff, IT Staff and DRR Focals of Janaki Rural Municipality and Mohanyal Rural Municipality, Kailali.

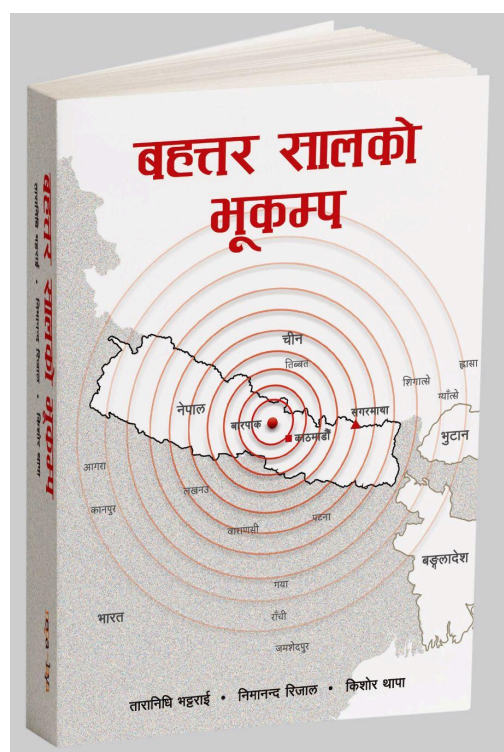

UPDATES FROM KARNALI

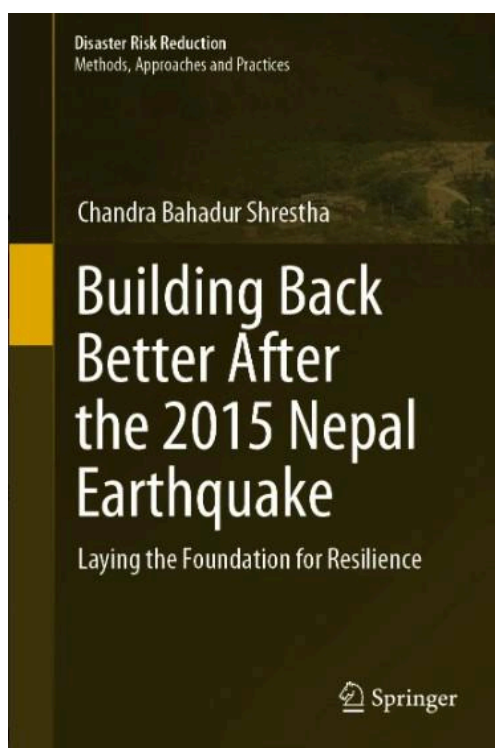

NHSRP extends engagements in Karnali Province

DRR Gap and Capacity Assessment of 79 local bodies (25 Municipalities and 54 Rural Municipalities) of Karnali province have been initiated through telephonic and email conversation. After receiving the majority of information on the gap assessment form, DRR needs of the Palikas will be identified. Based on the assessment results, proper planning and execution of the activities will be designed.

****NSHSF 2023 - Extension of Eoi Call****

Nepal Shelter, Housing and Settlement Forum (NSHSF) is the result of our joint commitment towards building a disaster resilient nation by 2030. Due to growing interest in NSHSF 2023, Call for Expression of Interest (Eoi) has been extended due to growing interest in this forum. The extension provides ample opportunities, time and space for those who want to interact together in this marvelous forum.

Register your ideas through link: <https://bit.ly/eoi-nshsf> Expression of Interest (Eoi)

CALL FOR EXPRESSION OF INTEREST

Nepal Shelter, Housing and Settlements Forum 2023

25 - 26 APRIL 2023

THEME

The Nepal Shelter, Housing and Settlements Forum seeks to provide an effective learning and networking platform for practitioners and relevant stakeholders to meet and share lessons and experiences of Shelter, Housing and Settlements work in Nepal. The forum intends to explore best practices and lessons learned from the work through communities that have safe, adequate, and dignified shelters, housing, and settlements with appropriate access to land and finances.

The theme for the 2023 Nepal Shelter Housing and Settlements Forum is Sustainable and resilient shelter housing and settlements. From Risk to Resilience: Coming together for affordable, green and climate adaptive local solutions. This year's forum highlights the need for shelter housing and settlements to be sustainable (socially, economically, and environmentally) and resilient (absorptive, adaptive, and transformative).

FIVE MAIN TRACKS

- Localized approach
- Multi hazard DRR and climate change adaptation
- Innovative and affordable practices
- Integrated approach
- Strengthening DRRM governance

Idea call for Innovation Grant 2023

Do you have any sustainable or innovative ideas that can address social, environmental, and climate challenges?

Here's a great opportunity!

CREASION Nepal in coordination with its consortium lead [Youth Innovation Lab](#) and partners [Restless Development Nepal](#) and [Centre for Disaster Management Studies](#) is calling for applications from Climate Smart Ideators, Entrepreneurs, and Businesses in the Karnali Province.

Youths of Karnali Province aged between 15- 29 are eligible to apply!

Funded by
the European Union

Do you have any Idea/Enterprise?

that addresses Social, Environmental, and Climate challenges?

Awards:

- 20 shortlisted enterprises will receive mentorship for six months
- Six best enterprises will receive Rs. 1,25,000 as an innovation grant
- Many other benefits

****Urban Resilience Intensive Training 2023****

The Urban Resilience Intensive Training (URIT) 2023 brings together policymakers, practitioners and researchers to Copenhagen between the 20th and 28th of June 2023. [Link to URIT](https://tinyurl.com/2p8wrw3z)

****Free Courses on Shelter and Settlements****

This free course by InterAction and USAID/OFDA provides an overview of the humanitarian community's shelter and settlements activities and examines trends based on past experiences. More here www.disasterready.org

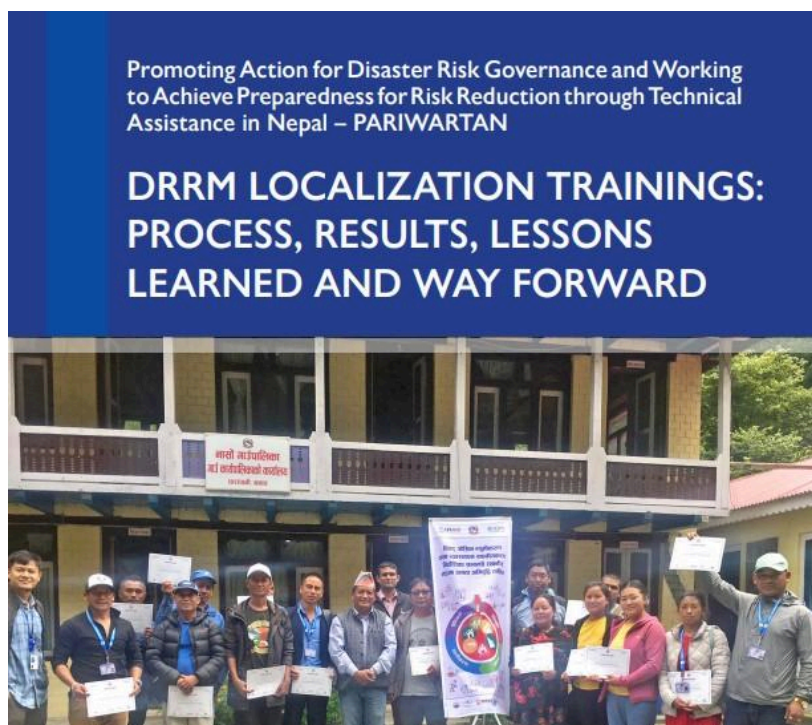

The banner for the Humanitarian Shelter and Settlements Online Course features a dark blue background with the 'disasterready.org' logo in the top left corner. The logo includes a stylized '10' icon. To the right of the logo, there are links: 'About', 'Courses', 'Certifications', 'Partnerships', and 'Blog'. The main text on the banner reads 'FREE ONLINE LEARNING' in white, followed by 'HUMANITARIAN SHELTER AND SETTLEMENTS ONLINE COURSE' in large, bold, red letters. Below this, a paragraph in white text describes the course: 'This free course by InterAction and USAID/OFDA provides an overview of the humanitarian community's shelter and settlements activities and examines trends based on past experiences. Learn how humanitarian actors can prepare to face emerging challenges and why shelter should be viewed as more than just four walls and a roof.' At the bottom, another paragraph in white text says: 'After you create your free DisasterReady account, search for this course to start learning.'

Reflection Report

Report on DRRM Localization Training

[#DRRM](#) Localization Trainings completed in all 753 local governments in Nepal under the [#PARIWARTAN](#) project, that was implemented by [IOM Nepal](#) under the leadership of the Government of Nepal and supported by [USAID Nepal](#) USAID's Bureau for Humanitarian Assistance

The training was implemented by a consortium of @National Society for Earthquake Technology- Nepal, ([National Society for Earthquake Technology - Nepal \(NSET\)](#)), Lutheran World Federation (LWF) and Practical Action Consulting (PAC).
