### Objective(s)

- To observe the level of technical assistance and ongoing reconstruction work.
- To observe the ongoing reconstruction work that red cross has done.
- Over view of construction of Birthing Center

## Summary

Nepal Red Cross society under ERO program has been constructing Rampur birthing center work in Molung-2 Rampur Okhaldhunga. Due to Lack of Delivery Facilities in Rampur Health post Rampur Birthing Centre is being constructing within the premises of Health Post. The Financial Support of Birthing Centre is by IFRC.

The structure is constructed with RC frame structure having two room with attached bathroom and toilet facilities with excess of front 5 feet passage being provided with ramp for the disable and movement of bed. As in the field we saw that the construction has been on completion stage. The Community birthing center follows the minimum standard of construction. Earthquake Safety feature are added within in it, providing the corner stitching, horizontal bands and rebars as indicating on NBC. The structure is progress on aesthetic view after completing the cement plaster. Engineer Krishna updhyia informed us that the structure will hand over to the community in the last of Ashar, (25<sup>th</sup> of July).

The construction work of Rampur Birthing Centre by ERO under the health program have been finally completed. The work is good and technically supervised. It is as per the building code norms and technically sound. The expenses in local materials and labour cost till 25/06/2018 was nearly about 30 Lakhs.

The next hour we the team visited the ward-4 to look out the shelter activity and progress on reconstruction. We visited private house reconstruction that seemed welled and all the houses are been constructed with following the minimum standard set to construct the stone masonry house.
