Field Visit Reports

Date	Location	Participants
2018/01/29	Vaachek, Ajirkot Rural Municipality	• Mr. Bed Prasad Acharya, Chief, NRA Gorkha • Mr. Shiva Poudel, NRA Gorkha • Mr. Chandra Gurung, District Coordinator, HRRP • Mr. Atit Shrestha, District Technical Coordinator, HRRP • Mr. Bibek Ghimire, Shelter Coordinator, OXFAM
Objective(s)	• To conduct rural municipality level coordination meeting in Ajirkot rural municipality • Formally appoint NRA/HRRP focal person at Rural Municipality supported by OXFAM/Unification Nepal • Update of housing reconstruction status of the rural municipality • Open interaction with local representatives and community people.	
Summary	Description of field visit (maximum 300 words)	
The team of NRA/HRRP Gorkha and OXFAM and its partner organization travelled to Vaachek for conducting rural municipality level coordination meeting. The rural municipality level meeting was chaired by the chairperson of the rural municipality and facilitated by Chandra Gurung, district coordinator, HRRP. The meeting was focused on 3 agendas, reconstruction updates of Ajirkot Rural Municipality, establishment of focal person/help desk in rural municipality office with the support of OXFAM and its partner organization UN Nepal, open interaction regarding issues challenges in reconstruction in the rural municipality.		

The facilitator presented the present tranche status of the rural municipality to the chairperson and officials of the rural municipality. Then the facilitator Chandra Gurung presented the concept of focal person to the rural municipality officials and introduced Mr. Ravi Adhikari from UN Nepal as the focal person of Ajirkot rural municipality. The focal person will be supported through OXFAM and UN Nepal and will be based in the rural municipality office.

The meeting moved on to the 3rd part of open interaction among NRA and rural municipality officials regarding reconstruction, issues and challenges present and any actions taken by the rural municipality regarding those issues and challenges.

Challenges / Issues Identified	Action Required	Responsible	Timeframe
Internally displaced people and landless issues were identified as prime concern of local representatives because they are asked by beneficiaries regularly about 2 lakh grants etc.	Timely information and clear policy framework on these issues need to be disseminated among beneficiaries and local representative so as to what they can resolve these issues as far practicable as possible.	GoN and NRA	By the end of Feb, 2018

Questions Collected

Question	Who Asked the Question?	Response Provided (By Whom)
Why are beneficiaries not getting tranche on time?	Beneficiary	If your house has been technically sound and recommended by engineers to DUDBC, and DUDBC to DCC and Kolenika, you will get tranche at the end of the moment. But the process is long sequence so that some time it took time to receive tranche (NRA)
In the beneficiary list received from bank, but they are not in agreement lists so that 60 beneficiaries are getting problems; how this happens?	Ward Chairperson	It should not be like that, however, what has happened, we will closely observe with the name lists and resolve the issues very soon. (NRA)
In the Budhi Gandaki affected areas, people built temporary shelters before releasing check lists, but now it is not recommended due to mis match with check lists?	Ward Chairperson/Engineer	Beneficiary need to improve their temporary shelters based on the check lists, if beneficiary did in such a way, they will get government grants. (HRRP/NRA)
What happens now to those beneficiaries who cannot have completed their houses within deadline?	Ward representatives	There is no possibility of extension of deadline now. After the steering committee meeting, NRA will of course take some actions. And for now, beneficiaries should continue their work and NRA district office will facilitate to receive 2 nd tranche. (NRA)

Questions Collected

What does NRA do for archeological, and heritage buildings about this deadline? Or the dead line is only for public?	Beneficiary	NRA center might have its answers and NRA district has no idea on this now. (NRA)
--	-------------	---

Challenges and Way Forward

Challenge	Way Forward
Beneficiaries are in confusion in building temporary shelters at Budhi Gandaki affected areas	Clear message and / or information must be disseminated by NRA and government of Nepal to the beneficiary level
No balance deposit cash in certain banks in the district causes difficulty in tranche payment from banks is also challenging issue in the district so that beneficiaries are not getting the tranche even for the long time.	NRA should take necessary lead in transferring cash in banks so that beneficiary can get tranche payment in time.
Internally displaced people and landless issues were identified as prime concern of local representatives because they are asked by beneficiaries regularly about 2 lakh grants etc.	Timely information and clear policy framework on these issues need to be disseminated among beneficiaries and local representative so as to what they can resolve these issues as far practicable as possible.
