Field Visit Reports

Date	Location	Participants
06 – Feb – 2018	Bidur -10, Gerkhutar	- Mr. Buddha Singh Thakuri - DSE Saurab Dahal
Objective(s)	To understand the housing typology and understanding the challenges faced by beneficiaries To understand the new type of housing mud bag and reporting to DUDBC	

Photos

Beneficiary Name: Rita Magranti
Address: Gerkhutar, Bidur - 10
Tranche Status: First Tranche
Housing Structure: **Mud bag** house.
These houses are constructed immediately after emergency relief. There are 18 houses with new techniques of housing with mud bag and already completed but they have not got 2nd and 3rd tranche. They are in the process of getting tranches.
Methodology of making mud bag: Locally available mud and sand are mixed in certain proportion and packed in a plastic bag.

Location: Gerkhutar, Bidur 10
This house is made up of hollow concrete block with 2 rooms but DSE Mr.Saurv said that this is not under compliance due to insufficient vertical reinforcement. Beneficiary is complaining that technical engineers are not coming in right time to inspect.

Beneficiary Name: Goma Pudasaini

Location: Gerkhu, Bidur – 10

Tranche Status: First Tranche

She has 3 daughters and one mother. Since earthquake strike, she has been staying in temporary shelter due to loss of her house and she also lost her husband during homewar of Nepal. She is willing to build new house but can not afford therefore, looking for support.
