Field Visit Report

Date	Location	Participants
8 th March 2018	Bhumlu Gaupalika (Chaubas, SalleBhumlu, Bhumlutar)	HRRP Kavre (Ishor Neupane, Reshma Shrestha)
Objective(s)	- To conduct HRRP Survey on Women in Reconstruction - To collect possible housing reconstruction updates during the survey	
Summary	The field visit was basically targeted to conduct the survey on Women in Reconstruction, Mason. In coordination with HELVETAS, the visit was planned as Vocational Trainings have been conducted by the PO. During the survey, masons at the frontiers working as contractor, head masons, supporting masons and some masons who were unable to continue as masons were interviewed. At Bhumlutar, two temporary local brick kilns were visited. Both with the capacity of	

35,000 productions per batch fire the kiln twice a year. The bricks are sold locally at NPR 12. Local clay is used for the bricks. Bricks are sun dried for at least 3 days and piled in layers with fuel (coal, timber, hopped straw) at regular intervals. To seal the kiln, 4-5 courses of refractory bricks are laid and topped with mud. The kiln is burnt for 24 hours and left to rest for a week.

Objective(s)	- To conduct HRRP Survey on Women in Reconstruction - To collect possible housing reconstruction updates during the survey	
Summary	The field visit was targeted to conduct the survey on Women in Reconstruction, Mason. In coordination with HELVETAS, the visit was planned as Vocational Trainings have been conducted by HELVETAS and SABAL.	

Photos

This house was constructed by Sharmila Tamang who participated in 50 Days Vocational Training, Mason conducted by Helvetas. Since then she started working as supporting mason then as head mason and currently as a contractor. She also was a trainer for vocational training conducted by SABAL. Initially she had to face societal pressures against working as a mason but with time she has received many contracts for reconstruction.

Housing Typology Report
