Field Visit /Joint Field Monitoring Visit Reports

Visit 1

Date: 3/7/2018	Location: Lakuridanda	Participants from HRRP and Stakeholders
		• Binod Kumar Kalauni • Ravi Pajiyar

Objective(s)	• To verify the list of vulnerable households • To observe ongoing reconstruction activities
---------------------	---

Summary

➤ To verify the list of vulnerable households

Field visit was aimed to verify the data of vulnerable households at Lakuridanda, Bhimeshwor Municipality - 09. During the field visit, lists of 36 households have provided to the ward chair to verify them through discussion between locals, ward level representatives and ward secretary.

The discussion resulted, more than 55% HHs has completed the construction, 1% has not started yet and remaining 40% has started their construction of permanent shelter after receiving of their first tranche.

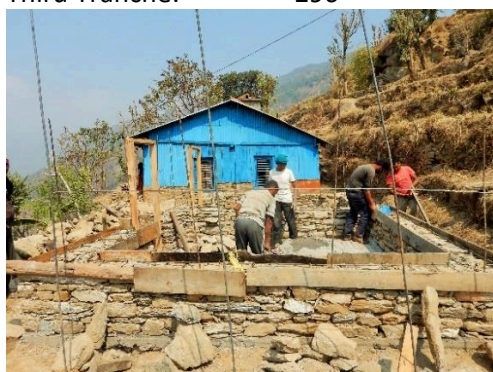

➤ To observe the ongoing reconstruction

The reconstruction status of Lakuridanda is good in comparison to other wards of Bhimeshwor Municipality.

The detail tranche data has been kept below:

Total beneficiary:	1,428
Total agreement:	1,293
First Tranche:	1,322 (90 by INGO)
Second Tranche:	1,026
Third Tranche:	296

	Most of the buildings are made from stone using mud mortar and brick in cement in Lakuridanda. Among them, one storey brick in cement mortar buildings are built by SOS under shelter project. During field visit, most of the masons working for reconstruction were from other districts like Sarlahi, Banke and Bardiya. Few of them are trained and others have been using their previous experiences and observation of constructions.		
Challenges / Issues Identified	Action Required	Responsible	Timeframe
Inspection of many houses have been delayed due to lack of presence of DLPIU engineer	Proper monitoring and deploy of DLPIU engineer is needed	DLPIU	
Building Drawing approval from municipality is difficult and tedious	Municipality should take of this	Municipality
