Field Visit /Joint Field Monitoring Visit Reports

Visit 1

Date:	Location:	Participants from HRRP and stakeholders
20 Jun, 2018	Tadi Rural Municipality Ward no 3, Kharanitar	• Badri Pyakurel

Objective(s)	- Objective 1 To know the reconstruction trend and highlighting the issues related to government grant - Objective 2 To understand the field challenges		
Summary	Tadi Rural Municipality is recently made from Narjamandap, Kharanitar, Raluka devi and Sundara devi VDC. As per the tranche Record it has 88 percent has 2nd tranche. But 3rd tranche seems quite slow comparative to other Palika. Main objective of the visit is to find the reconstruction progress in rural whereas lacking of proper transportation facility. People are encouraged to use local materials on their reconstruction. Technical Assistance seems poor due to the absence of technical person in regular way. They do not have proper drinking water facility formerly, but now Oxfam has supported to build water supply sanitation project. It has now sufficient water supply from long distance of source. Oxfam has livelihood support through existing cooperative.		
Challenges / Issues Identified	Action Required	Responsible	Timeframe
Transportation of reconstruction Materials	promote to use locally available materials	POs, Ward offices	Regular
Quality of reconstruction materials	Quality assurance to local supplier	DCC, Rural Municipality	Regular

House Owner: Shreelal Tamang Tadi RM, Nuwakot, Ward no 3, Dadagaun, BMC, 2 nd Tranche		House Owner: Dil Bdr Tamang Tadi RM, Nuwakot, Ward no 3, Dadagaun, CSEB Block 3 rd Tranche Received	

Housing Typology Report

			
House Owner: Ram Bahadur Tamang Tadi RM, Nuwakot, Ward no 3, Dadagaun, Stone Mud Mortar , 2 nd Tranche received		House Owner: Suk Man Tamang Tadi RM, Nuwakot, Ward no 3, Dadagaun, BMC, 3 rd Tranche Received	

Questions Collected

Question	Who Asked the Question?	Response Provided (By Whom)
When will I get 3 rd tranche?	Aaitman Tamang, Tadi RM-3,	Ward chair person has responded that will get next week.
We have listed in grievances list though I do not find first tranche. When do I find it?	Maya Biswakarma (Beneficiary) Dupcheswar Rural municipality Ward-7 Shikaharbesi	Contract to Ward office they will coordinate with MOFALD/DLPIU then they will answer problem.

Challenges and Way Forward

Challenge	Way Forward
Lack of technical assistance in the field. NRA engineers are not in regular monitoring to the house. When they visited for the inspection, they only commented for non-compliance.	MOUD-DLPIU should monitor the engineer and instruction for regular visit.
Delay in addressing the grievance. Real victim from the earthquake has not addressed as beneficiaries. They have applied for grievance many times but not addressed.	NRAs should address as soon as possible by the help of local elected persons, Like ward chair and other members.
When will retrofit start? People don't have trained manpower for the retrofit, they are waiting the response from NRA side.	Training and other technical issue with proper communication to the common people should be done before monsoon starts.

Case Study

Happiness of Being in Own House

Mrs. Kali Tamang age of 72 from Megyang Rural Municipality ward no 6, Pokhari of Nuwakot districts was supported to build a new house. She has physical weakness so usually she doesn't find equal opportunity like other people of the same locality. She belongs to a poor with mental disability, single women and unable to communicate in Nepali language properly. She is living alone in her house since from 2008 after she has lost her husband. Her house got totally damaged due to cause of devastating Gorkha earthquake of 2015. Although being single, helpless and roofless, her neighbors managed to make a temporary shelter for her.

Asking about her, she replied, ***"I could not do anything myself. I have no one to build a new house. Neither have I had money nor any idea."*** Oxfam/SSS has consulted with the neighbors about this program and they assure us that they will give their full support for building her a new house.

The humanitarian Project has built her house base on the OJT program. The team felt no difficulties during the OJT period. As per neighbors promise, they supported accordingly. They managed all required material for OJT on time. She was very happy for getting new home. She thanks SSS/Oxfam for assistance. She smiled and said, ***"Now I have not any fear to face the night and cold"***.

As a part of the Humanitarian Program, Sahayata Samajik Sanstha is working with its Partner OXFAM GB to restore and uplift their livelihood and empower them to be resilient. Along with this Shelter is one of the Program where Oxfam with partner Sahayata Samajik Sanstha (SSS) has conduct 50-days training on 'On the Job Training (OJT) to the Masons through House Construction' at Samari. This Program was aimed to produce skill manpower along with the construction of house for most vulnerable 5 Households.
