Key Discussion

Introduction:

The meeting took place at DDC office, Manthali, Ramechhap on 21 April 2016. The formal meeting started with short introduction. A total of 32 participants representing different organizations participated the HRRP coordination meeting. Mr Dinesh Raj Pant LDO chaired the meeting and District coordinator (DFP) facilitated the meeting and it was focused more on 2nd phase Enrolment center and identified of partner I/NGO

Shared of pilot Okhreni enrolment center:

Medair and HRRP Ramechhap shared working modalities, problems/challenges of pilot enrolment center from Okhreni. This experience will be a model and reference for new enrolment centers.

2nd phase enrolment center:

The meeting selected two new VDCs (Salu and Bhatauli) for second phase enrollment center. Both VDC secretaries agreed to start enrolment center at Salu and Bhatauli from on 24 April 2016.

Support for 2nd phase enrolment centers (Salu and Bhatauli):

DDC and Manthali Municipality will manage computer, printer, and photocopy machine while the other logistic and manpower (staff) will be managed by local NGOs. The President of NGO federation will lead/coordinate all NGOs to prepare the support and planning list for enrolment center. They will provide the list to LDO/DDC by tomorrow. DO/DDC will lead management and monitoring of enrollment centers.

Challenges:

- 1. Lack of access both road access as well as market access. Several VDCs don't have even road access to deliver relief items and most of VDCs have only tractor access. Hence building enrollment centers and the process will be challenging task.**
- 2. Lower number of high capacity Partner Organizations. So it will be difficult to get support for all enrolment centres in future.**

Action Points:

- 1. SDC and USAID/Partner will be support at other enrolment center in future. Both partners will coordinate with each other and the support activities.**
- 2. Interested partners (NGO/INGO) will propose which enrollment center they are willing to support.**

Next Meeting:

TBD
