

This report is produced by Housing Recovery and Reconstruction Platform (HRRP) and Shelter Cluster Nepal, Gandaki Province in collaboration with partners. It covers the situation of Lamjung and neighbouring districts after the jolt of the earthquake and subsequent aftershocks in the morning of May 23, 2021.

Highlights

1. A total of **8404 people** are reported to be affected by the earthquake and its after-shocks.
2. **6 people** got injured with none death with approximately **1195 people (239 households)** displaced.
3. **408 houses** are fully damaged and **1694 houses** partially damaged in **Lamjung, Tanahun and Kaski** districts of Gandaki Province.
4. At the Local level, Ward Chairpersons are leading rapid assessment and the relief work.

Situation Overview

On **19 May 2021**, Wednesday at 5:42 AM local time, the earthquake measuring **5.8M** followed by subsequent aftershocks of **4M** at 8:16 AM and **5.3M** at 8:26 AM, hit Lamjung district of Gandaki Province in Nepal as per the Seismological data. According to the preliminary source of information from local governments, **6 people** were injured; **408 houses** were fully damaged and **1694 houses** were partially damaged. The initial assessment of the loss and damage is ongoing by the local governments. The approaching monsoon is likely to impact on the livelihoods and access to basic services for these affected households impacted by this earthquake. People panicked and rushed out of their homes as they felt the tremor. Most of the people were seen in the open spaces and roads after the earthquake.

The impact of this earthquake was felt heavily in and around the epicenter of Lamjung district including the neighbouring districts Kaski and Tanahu with weak shaking reaching as far as Kathmandu City, the capital of Nepal, 121 km from the epicenter. This earthquake comes at a time when Nepal is still in the process of recovery and reconstruction, almost approaching the end of the given tenure of National Reconstruction Authority (NRA), mandated to Nepal's post earthquake recovery and reconstruction from 2015 Nepal earthquake.

Loss and Damage

Based on the preliminary sources of information from local governments, the injured persons and displaced persons along with damage of houses are reflected in the table given below:

Districts	Injured Persons	Fully damaged houses	Partially damaged houses	Death	Displaced HHs
Lamjung	6	402	1598	0	239
Tanahun	0	2	9	0	0
Kaski	0	4	87	0	0
Total	6	408	1694	0	239

Response

Initial Rapid Assessment is still ongoing in some wards of Lamjung district with support from local ward representatives. DDMC meetings were held on 20th May and 23rd May and made several decisions to cope up and accelerate the relief and response. One door policy will be implemented to reduce the duplications and learnings from the past earthquake. Discussion with district and local level stakeholders is ongoing for response and support. Currently, Government stakeholders together with Partners organization are jointly working on relief and response for affected households.

Key Points from District Disaster Management Committee (DDMC) Meeting

- DDMC Lamjung commits to distribute the achieved relief materials through a one door policy system as soon as possible to the affected households in the presence of elected local governments.
- Households that were totally damaged by the earthquake will be provided NPR 15000/- as relief support.
- I/NGOs will be informed to take forward supporting the earthquake affected households through DDMC one door policy and coordination measures will be taken.
- DDMC meeting has formulated the Team composed of 5 key persons - Ward Chief, Ward Secretary, 2 Technicals and 1 Local Police representatives. The Team will collect major data of the affected households within a 1 week timeline. After verification of data by DDMC, it will be shared to the federal as well as provincial government, requesting for formulating a long term reconstruction action plan.

Current Needs & Priorities

- 1572 affected households require urgent and immediate relief support in terms of Shelter and Non-Food Items.
- 239 displaced HHs are staying at community buildings or with relatives during this Covid-19 pandemic period.

- Immediate response and relief process to be prioritized with inclusive and protective distribution and technical support.
- Along with Shelter/NFI relief items, 1,772 Health Safety Kits (mask, sanitizers, soap) are required for displaced and affected individuals to prevent from COVID-19 infection.
- 1,972 IEC materials for safe use of shelter and NFI kits, safe construction of temporary shelters are required to convey knowledge and raise awareness at community level.
- Technical orientation for technical staff for damage assessment/data collection before starting shelter assessment at community level.
- Uniform reporting and targeting in coordination with GMALI-DLPIU and DAO office. 4W(Who, What, Where, When) tracking system is required to fill up for avoiding duplication, resolving gaps and for better coordination.
