NATIONAL UPDATES

Nepal's participation in COP27: Raised the alarming issues of climate change affecting the mountains

The 27th session of the Conference of the Parties (COP27) to the United Nations Framework Convention on Climate Change (UNFCCC) completed from 6- 18 November 2022, organized at Sharm El-Sheikh, Egypt. Country heads, world leaders, climate change activists, and working groups from around the world have met successfully in Egypt to discuss the issues of climate change, adaptation, mitigation, finance, threats of rising temperature and greenhouse gas (GHG) and many other issues that the world is suffering from since the last few decades. Nepal also marked its presence; which was participated by higher officials from the Government of Nepal. Mountain-related issues remained as the main agenda at the conference, in which Nepal is prepared to raise mainly eight thematic issues including climate change adaptation, losses and

damage, climate finance, food security, indigenous people and agriculture. Nepal prepared and presented its ambitious Nationally Determined Contributions (NDC) in COP 27 and the Ministry of Forest and Environment (MoFE) has lobbied best to bring support to implement NDC in Nepal.

As per the NDC, the country has committed to maintaining 45 per cent of the total area of the country under forest cover (including other wooded land limited to less than 4 per cent) by 2030 and the forest cover has already reached 45.31 per cent, including 3.62 percent other wooded lands (OWL). The country has also committed to going to Net Zero by 2045. Similarly, GoN also advocated for creating an easy environment to bring climate finance and they should come in the form of financial grants to promote the concepts of adaptation, resilience and green development in Nepal. The Nepali team of delegates led by MoFE along with the Minister for Women, Children and Senior Citizen, Ms. Uma Regmi participated in COP 27 that included the Secretary and Joint Secretary of MoFE, representatives from other ministries and representatives from different government and national/international non-governmental organizations that have concerns and interventions around disaster resilience, climate change adaptation and environment conservation. Read in detail here: [COP27 and Nepal's participation Outcomes of COP27](#)

At least six local died in Sudurpaschim earthquake struck at Doti of Nepal

On the early morning of 9 November 2022, an earthquake of 6.6 magnitude struck Doti district in the far western part of Nepal. According to the National Seismological Centre, the earthquake occurred at 2:12 am with its epicenter at Khaptad National Park in the Doti district of the quake-prone Himalayan nation, damaging scores of houses and sparking panic among the people who were sleeping. The shock was felt strongly in the adjoining district, as well as in some parts of India. Furthermore, many aftershocks were felt in the affected areas. According to data from the Government of Nepal, six people were killed and eight were injured. In the evening of 12 November, another strong earthquake was felt in Bajhang district.

After the earthquake struck Doti on 9 November, a search and rescue operation was conducted in which Security personnel from Nepal Police, Nepali Army, local representatives and locals cleared out debris to look for missing people. Eight houses were

completely destroyed by the tremor at Gairigaun, Purbi Chauki Rural municipality-3 in Doti district who were buried beneath debris of houses that collapsed during the earthquake.

Asia Shelter Forum 2022: Stand by the collaborations for resilient shelters and settlements for vulnerable populations in the Asia

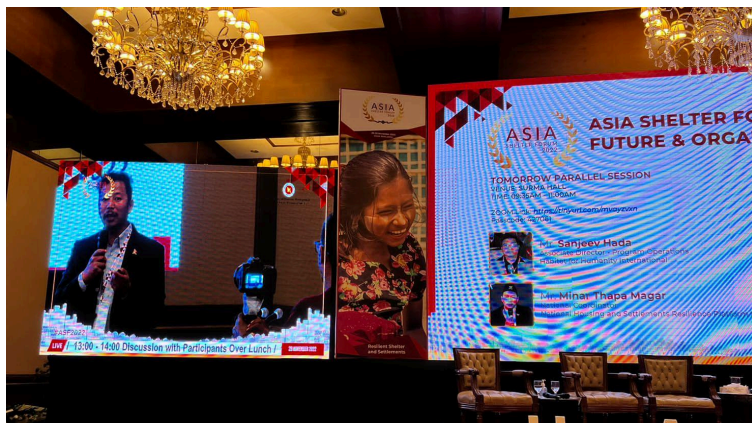

The “Asia Shelter Forum” (ASF) annual conference 2022 is completed in Dhaka Bangladesh from 28-30 November, successfully hosted by the Government of Bangladesh under the leadership of the Department of Disaster Management (DDM) and Ministry of Disaster Management and Relief (MoDMR) with technical and financial support from ASF organizing committee members. The theme of the conference in Dhaka stands by “Resilient Shelters and Settlements.”

The ASF aims to improve coordination, collaboration, share learnings and best practices among countries in the Asia region by engaging governments, donors, development partners, shelter cluster mechanisms and humanitarian organizations and partners. Vigorous discussion between participation by regional governments, development actors and professionals in disaster risk reduction and shelter recovery sector culminated into developing a culture of sharing best practices, maintain integrity.

The first day of the ASF conference was inaugurated by the Chief Guest & the Member of Parliament & Honorable State Minister, Dr. Md. Enamur Rahman, Ministry of Disaster

Management and Relief. Highlighting the significance of the ASF, Dr. Rahman said that the “Asia Shelter Forum can be a great avenue where regional learning and sharing experience can mitigate vulnerabilities of the disaster-prone countries. Dr. Rahman strongly expressed that such a forum needs to be strengthened with an effective partnership and more robust collaboration so that shelter recovery and disaster risk reduction stakeholders around the Asia region can work together to provide accountable assistance to support affected people to survive, recover and rebuild their lives with dignity.”

National Coordinator of NHSRP, Mr. Minar Thapa Magar presented on the journey of NHSRP from HRRP and shared priorities on vision 2030 of the platform. Similarly, NHSRP along with other facilitators co-lead on sharing the Asia Shelter Forum vision 2030 and its governance structure.

Vigorous discussion among participating regional governments, development actors and professionals in sharing, presenting and showcasing the best practices of disaster risk reduction and shelter recovery sector were major highlights of ASF 2022, in which Joint Secretary of NDRRMA, Ms. Anita Niraula shared the ongoing shelter provisions practiced in Nepal through NDRRMA to facilitate the disaster affected housing reconstruction of the affected population. Similarly, Joint Secretary of NDRRMA, Mr. Rameshwar Marahatta along with Undersecretary of MoUD presented about 2015 Nepal post earthquake recovery lessons. Joint Secretary Marahatta also touched upon the key priorities of NDRRMA's National Disaster Resilient Framework (NDRF) and

budget allocation for the priority program.

Representatives from the Nepal government include the Ministry of MoHA, NDRRMA and MoUD. Fruitment meetings of the Nepal team with Director General, Department of Disaster Management, Mr. Md Atiqul Haque, Bangladesh government was in line with knowledge exchange and building skill. A field visit was conducted on 30th November around Dhaka City by the Department of Disaster Management (DDM), Bangladesh government to observe the successful cases of Government of Bangladesh housing project "ASRAYAN PROKOLPO" for providing homes to homeless and landless people. Finding efficient solutions and identifying gaps in flood resilient housings

One-day workshop on “Flood Resilient Housing Solutions Workshop: Identifying gaps and way forward” was organized on 22 November 2022 at Kathmandu, in joint coordination with NDRRMA and MoUD and supported by People in Need, Community Self Reliant Center (CSRC), NHSRP, Durable Solutions and UK Aid in Nepal. A panel discussion was also held, chaired by the Joint Secretary of NDRRMA, Mr Rameshwor Marahatta and panelists were representatives from Habitat for Humanity, NSET, CSRC and Institute of Engineering (IoE). The sharing in the workshop was focused around discussing existing practices in flood resilient housing solutions, challenges, gaps and opportunities and showed possibilities of further exploring sustainable and resilient housing solutions and its integration in our building culture, practices, code and curriculums.

A group discussion was focused on several subject areas i) adaptation to reduce damage to buildings and settlements in Nepal caused by floods, ii) mitigation, iii) preparedness and relief works, iv) reconstruction and recovery related various actions. Notable measures proposed and explored by the participants through the sharings were in line of i) Avoid ii) Resist iii) Adapt. More focused research, study, assessment and discussions were highlighted in the group discussion. The series of knowledge and experiences learned from post-earthquake reconstruction programs initiated by government and by non-governmental organizations were considered to be applicable as solutions to flood resilient housings.

In closing remarks, the Chief Executive of NDRRMA, Mr. Anil Pokhrel informed that a task force has been formed under leadership of the Joint Secretary of NDRRMA to further explore, discuss and conduct study, research and assessment over the damages caused by monsoon induced disasters and propose suitable and sustainable housing solutions. He added that homes and communities can be safeguarded through collective efforts and building knowledge over application of proven local technologies and nature-based solutions.

Urban planners insisted for a smart, disaster resilient and liveable cities

The Government of Nepal MoUD organized an interaction program to mark jointly World Cities Day 2022 and World Urban Planning Day 2022. The program was conducted at the Department of Urban Development and Building Construction (DUDBC) with a slogan of 'local efforts for sustainable development'. Chief guest and Mayor of Bhaktapur Municipality, Mr. Sunil Prajapati addressed the interaction program highlighting the necessity of creating liveable

smart cities by maintaining balance between have and have-nots and also by ensuring gender equity and social inclusion.

Speaking on the program, Joint Secretary of DUDBC, Mr. Padam Kumar Mainali stated that prosperity is not possible unless there is local involvement in the development of the country. Mr. Mainali informed that MoUD has formulated the Urban Development Act which is underway and submitted to the Ministry of Law, Justice and Parliamentary Affairs, GoN for the review. The program was attended largely by senior officials of DUDBC, senior urban planners, noted architects and other urban planning stakeholders.

PARTNERS' UPDATES

Emergency humanitarian response support provided to households affected by Doti earthquake

To address the needs of the over 250 families affected by the earthquake in Doti district, humanitarian relief and

response support were provided by some organizations. UNICEF delivered emergency supplies – including tarpaulin sheets, blankets, water purifying chlorine solution, water containers and mobile toilets – to the Doti office of the Nepal Red Cross Society, from where it were distributed to the community children and families in the earthquake hit community in Purbichauki Rural Municipality.

With two health facilities in the district having been completely destroyed in the earthquake, UNICEF also stretched its interventions working with the district and local health authorities, and other partners, to assess immediate needs and help to ensure that essential health services can continue. In addition, UNICEF and partners also worked out to provide psychosocial support to children and families in the wake of the disaster.

ActionAid International Nepal (AAN) in coordination and collaboration with District Administrative Office (DAO) - Doti and Equity Development Centre (EDC), local partner organization, supported 30 most earthquake affected families in Purbichauki Rural Municipality with blankets and p-foam mattresses ensuring the families are

kept warm during approaching winter season and changing weather condition. The support complimented the assistance provided by other agencies with shelter. AAN is coordinating with other agencies working in the area to undertake further response activities based on emerging needs.

Following the earthquake, Nepal Red Cross Society (NRCS) volunteers at Doti district chapter are engaged in providing response and relief to the affected. With the approach of the winter season, NRCS scaled up its distribution of non-food items and supported some transitional shelter solutions for the most vulnerable households. So far, NRCS has distributed 282 tarpaulins, 190 mattresses, 16 utensil sets in the affected area. The Society has also provided First Aid service to the injured followed by 10 squatting plates for temporary toilet construction and dignity kits and solar lamps in collaboration with other development partners.

Lutheran World Federation (LWF) provided support in setting up of emergency shelters and re-established the family latrines. Families were provided water sanitation and hygiene dignity kits along with female hygiene products too. Source: various organizations

Collective efforts emphasized to address disaster preparedness in Karnali region

A review of the disaster response and preparedness action plan was conducted in Birendranagar Surkhet on 6 November with support from European Union, UNDP and

UNICEF. In the review, disaster expert Dr. Sirjan Bahadur Malla presented the paper that elaborated the organizational structural problems at all three levels of the state that lead to shortcomings of the development programs; the paper gave recommendations that were in line with the need to improve these underlying structures. The presentation discussed the importance of forming a local disaster management committee with proper human resources and equipment for the effectiveness of local disaster assistance.

Representatives of UNDP informed about the preparation of Karnali province level earthquake response framework that basically targets to support the province government in making future action plans. The participants emphasized collective efforts by all partners in the region for disaster risk response and therefore highlighted the necessity of a preparedness plan. The program also reviewed the emergency assistance provided to October 2022 monsoon affected people in the Karnali region. The program was attended largely by officials of the Ministry of Internal Affairs and Law (MoIAL) Karnali Province, NRCS district chapter along with other district based line agencies, security units and media personnel. NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM BAGMATI

Coordination meetings to collaborate on technical support

NHSRP Bagmati province team conducted coordination meetings at Makawanpurgadhi and Manahari Rural Municipalities dated 9 Nov. and 10 Nov. 2022 respectively. The meeting decided to take forward these local bodies as 'pilot municipality' and provide technical support in various DRRM related activities such as capacity building of palikas IT team regarding DRR information management,

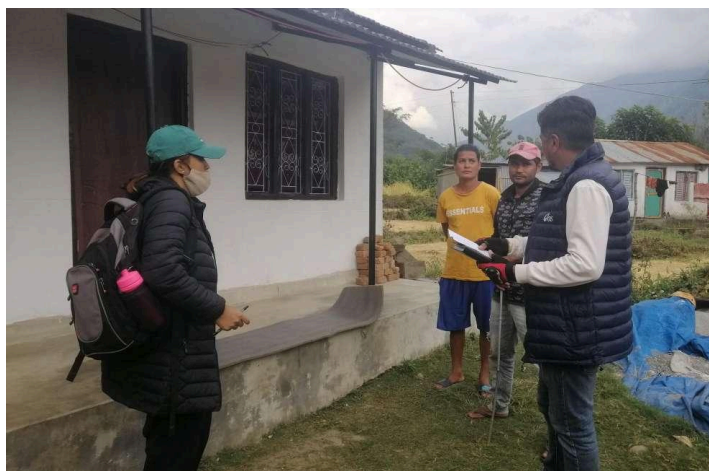

preparation of the annual report, localization of the BIPAD portal, amendment and update of the Local Disaster and Climate Resilient Plan (LDCRP), Local Disaster Resilience Plan (LDRP), preparation of standard operating procedures of Local Emergency Operation Center (LEOC) and building code implementation.

The Bagmati Province team also conducted coordination meetings at the DAO Makawanpur on 2 Nov. regarding caseloads of the monsoon-induced disaster affecting private housing reconstruction and rehabilitation beneficiaries in the district. DRR Focal person of DAO Makwanpur raised the need of conducting the orientation on NDRRMA's monsoon induced disaster affected housing reconstruction and rehabilitation procedural guidelines and NDRRMA MIS system to concerned focal persons, technical staffs and elected bodies. The team has continued support to all districts in Bagmati province with NDRRMA's tranches disbursement for monsoon induced disaster affected private housing reconstruction and rehabilitation grant procedure.

UPDATES FROM GANDAKI

Technical support in inspection of reconstructed houses for third installment release

NHSRP Gandaki Provincial team provided support to conduct a second Inspection of monsoon induced disaster affected private housing reconstruction that started in Lamjung district, Marsyangdi Rural Municipality Ward no. 3 Pallotari from 7 Nov. Lamjung based NHSRP Technical Team provided guidance and technical support to the technical staff from Rural Municipality that allocated two technical staff to complete a second inspection in the Pallotari area within two days. 42 Households from Marsyangdi RM had received their second tranche in October 2022 from NDRRMA. The Inspection team also requested the technical staff to include those houses in the reconstruction phase that were left out during the last inspection.

In close coordination with Ministry of Internal Affairs (Gandaki Province), DAO Myagdi, and Malika & Mangala Rural Municipalities; NHSRP Gandaki Provincial team conducted field visit in Myagdi district from 7-11 November for providing technical support on household inspection for releasing the final tranche of reconstruction completed houses and to minimize the NDRRMA RMIS fund management issues. On 7 Nov, the team visited Malika Rural Municipality where around 40 households were affected by incessant rainfall of July 2020. These households received 2nd tranche from NDRRMA for undertaking reconstruction as per monsoon induced disaster affected private housing reconstruction and rehabilitation guideline and NHSRP conducted technical inspection for 3rd / last tranche release.

Technical support in information management

Gandaki provincial team continued its technical support especially on handling NDRRMA RMIS system to the districts as per the need and demand. The task is assisted through direct visit to the districts, or through the virtual medium. The technical support was found effective in updating the knowledge and skill of the technical staff as well as of IT personnel responsible to handle the database of beneficiaries. One to one assistance to the representative of DAO Parbat at MoLA Gandaki province on RMIS system on 29 November.

UPDATES FROM LUMBINI

Geo-assessment study in Dang & Pyuthan

Geo-risk assessment study completed in Dang and Pyuthan districts, scheduled from 8-11 November, to assess the landslide hit areas affected by incessant rainfall in October 2022. The DRR Focal Person from the MoIAL, Lumbini Province, the Chairperson of Rural Municipalities, Ward Chiefs, Chief Administrative Officers along with 1 Geo-technical Engineer and 1 Civil Engineer from NDRRMA were involved in this study. The NHSRP Lumbini Province team provided technical assistance in conducting the risk

assessment, as well as insight into how the monsoon-induced disaster affected private housing reconstruction and rehabilitation guidelines of the NDRRMA. The landslide has affected nearly 270 households from Banglachuli Rural Municipality (Dang) and 150 households from Mandavi Rural Municipality (Pyuthan), forcing them to live in a temporary shelter or a neighbor's house.

Verification for second installment release

With the request of the DAO Gulmi district and NDRRMA, the NHSRP Province technical team assisted in the verification of the 55 households altogether from Musikot and Resunga Municipalities and Chandrakot, Ishma and Satyawati Rural Municipalities for the release of the second installment with the assistance of Caritas Nepal. Second installment of monsoon induced disaster affected private housing reconstruction grant will be released only after completion up to plinth level. A municipal technical person in the field performed the first level of verification.

Orientation on localization of BIPAD Portal

BIPAD Portal localization training and orientation on NDRRMA KOBO/RMIS and guideline orientation were conducted in Rampur Municipality with the assistance of the NHSRP Province Technical team. The participants also practiced a walk through of NDRRMA KOBO Mobile App for database entry of disaster affected beneficiaries along with website visit of BIPAD Portal. The training was attended by eight technical personnels from the municipality.

NDRRMA RMIS Orientation

The NHSRP Provincial team conducted orientation in Mandavi Rural Municipality, Pyuthan district on NDRRMA RMIS on 30 November. Several important aspects of guidelines on monsoon induced disaster affected housing reconstruction and rehabilitation were shared with the participants. The participants in the orientation practiced a walk through of

NDRRMA KOBO Mobile App for database entry of disaster affected beneficiaries along with the hands-on session on data collection.

UPDATES FROM PROVINCE 1

Interaction program on DRRM

Interaction program on DRRM was conducted in Province 1 on 6 November, which was jointly organized by NDRRMA and Ministry of Internal Affairs and Law (MoIAL) Province 1 with the technical support from NHSRP. The interaction program aimed to strengthen the coordination among MoIAL Province 1, NDRRMA, district and local levels along with non-governmental partner organizations in terms of Disaster Risk Reduction and Management (DRRM) and share the needs, gaps, issues in DRRM and provide recommendations. Province no .1, Minister of Internal Affairs and Law, Mr. Kedar Karki. Minister Karki drew the attention of participants on the sufferings of the public due to haphazard construction of structures thereby ignoring the disaster. He emphasized on the serious consideration of disaster risk while investing in basic infrastructures. During the interaction, Joint Secretaries of NDRRMA, Ms. Anita Niraula and Ms. Roshani Kumari Shrestha shared the presentation about the policy arrangements, future directions and information management systems related to interventions of disaster risk reduction and management by NDRRMA. The workshop had the participation of representatives from various District Administration Offices, Army, APF, municipal governments, NGOs/INGOs and UN agencies.

Coordination meeting to collaborate on technical support

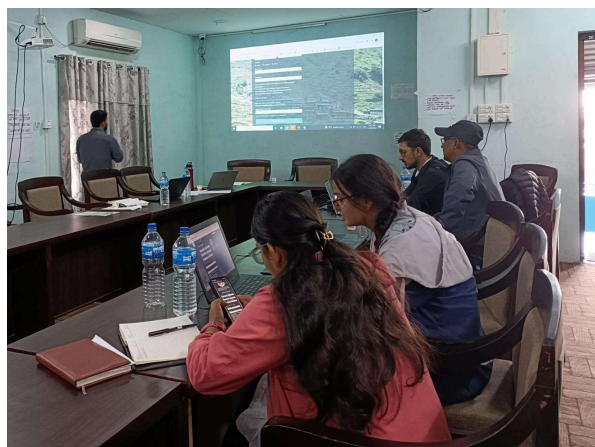

NHSRP Team conducted coordination meetings in Dharan Sub Metropolitan City and Budhiganga Rural Municipality on 7 Nov, 2022. NHSRP team selected these both local bodies to develop as 'Pilot Municipality' and agreed to provide technical support in various DRRM related

activities such as preparation of annual report, localization of information management, preparation of DRRM annual work plan, update of LDCRP/LDRF and building code implementation. Similarly, dates of BIPAD Portal localization training and orientation on NDRRMA KOBO/ RMIS training were worked out in both the local bodies.

NDRRMA RMIS Orientation

The NHSRP Provincial team completed orientation in Budhiganga Rural Municipality of Morang district on NDRRMA RMIS and on the guidelines of monsoon and fire induced disaster affected housing reconstruction and rehabilitation on 29 November. The participants also practiced a walk through of NDRRMA KOBO Mobile App for database entry of disaster affected beneficiaries along with the hands-on session on data collection. The orientation was attended by the technical staff such as the engineers, IT Officers, DRR focal person of the municipality in which the Disaster Management Department, MoIAL, Province 1 also shared overview and insights of ongoing DRRM updates of the province. An overview of BIPAD Portal was also presented during the program. Similarly, a virtual orientation on the monsoon-fire included disaster affected private housing reconstruction and rehabilitation guidelines and on database information management was provided to technical staff of Gauradaha Rural Municipality, Jhapa district.
