

As a part of the humanitarian efforts to assist families affected by monsoon triggered landslides and floods in Taplejung district; CRS, NSET, VCN and NHSRP collaborate through Start Fund Nepal project, REACT. The project aims to address the urgent needs of at-risk communities in Taplejung district where 187 households in Maiwakhola Rural Municipality and Sidingba Rural Municipality will be directly assisted mainly through emergency support in initial phases. NHSRP will undertake interventions on transitional shelter and connecting with further disaster housing reconstruction and recovery in coordination with affected municipal governments.

KEY HIGHLIGHTS

- I. **Disaster response and recovery initiatives at Taplejung through REACT project**
- II. **Voluntary National Report on Mid-term Review of Sendai Framework**
- III. **Disaster dialogue: Incidents of high risk landslide on upward trend in Nepal**
- IV. **European Union supports government in local adaptation to climate change**

NATIONAL UPDATES

Disaster response and recovery initiatives at Taplejung through REACT project

In response to the alert raised by START Nepal, to support the households of Maiwakhola and Sidingwa Rural Municipalities (Taplejung district) affected by the devastating flood and landslides on 17 June, 2023, the consortium of CRS Nepal, NSET, Volunteers Corps (VCN) and NHSRP submitted a proposal and has been awarded with the project "Responding Humanitarian Emergency Needs of At-risk Communities in Taplejung" (REACT).

The REACT project initially started from 21 July 2023 and will end on 18 September 2023. This emergency response project will support Food and Hygiene Kits to the 187 affected families of both the municipalities.

Geohazard assessments will be conducted in both RMs to recommend a longer term recovery plan and enlist the affected households into NDRRMA's Reconstruction MIS procedures. The project will also support the relocation planning and temporary shelter construction of Maiwakhola RM targeting 64 households.

Specifically, the technical coordination of NHSRP is focused on building transitional shelters and connecting with the government systems for their buy-in on localizing NDRRMA's guidelines on post-disaster housing reconstruction procedures while CRS remains as the lead agency, NSET contribute as technical partner and VCN as the implementing local partner.

The local level officials of both municipalities have been directly reached and coordinated for forwarding

the emergency support and distribution tasks in the affected areas, which started from 27 July 2023. Need assessments were conducted with affected communities during the distribution of emergency materials. Voluntary National Report on Mid-term Review of Sendai Framework

The Government of Nepal (GoN) prepared a Voluntary National Report for the Midterm Review of the Implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 (MTR SF). Nepal has achieved remarkable progress in disaster risk planning and implementation, primarily in terms of reducing the risk of disasters and natural hazards, such as floods, landslides, droughts, earthquakes, and lightning. The GoN has prioritized mainstreaming DRR into Nepal's development, setting an agenda for action in the Disaster Risk Reduction National Strategic Plan of Action (DRRNSPoA) (2018—2030) based on priorities set by the Sendai Framework for Disaster Risk Reduction –specific to Nepal's disaster context.

With establishment of NDRRMA, the GoN further formulated policies, guidelines, and regulations, and implemented programs, projects, and activities to ensure the effective implementation of the law. The GoN continues to work towards the goal of “preventing new and reducing existing disaster risks” by significantly valuing the role of strong institutions as a foundation to implement the DRRNSPoA. Disaster dialogue: Incidents of high risk landslide on upward trend in Nepal

A disaster dialogue on ‘landslide risk assessment’ was conducted by NDRRMA on 5 July 2023 that focused primarily on discussing the activities, studies and results of landslide risk assessment in Nepal so far, and the need of further studies and future strategies directions were stressed. This dialogue at NDRRMA were actively participated by representatives and experts from relevant governmental and non-governmental agencies, along with paper presentation by noted experts.

Geologist/Senior Divisional Engineer of Water Resources Research & Development Centre, Dr Ananta Man Singh Pradhan quoted that the incidents of landslide have occurred in Nepal due to lack of real time data about the disaster and substantial research and studies. The exact identification and estimation of risky areas are therefore required. Dr Sanjaya Devkota, Executive Director of Forum for Energy and Environment Development underlined the importance of proper environment impact assessment while constructing roads along with alternatives for digging the roads in at-high risk areas.

Moreover, Dr Ranjan Kumar Dahal, Associate Professor for the Central Department of Geology, the Tribhuvan University raised the crucial need of conducting geohazard risk assessment that identifies the causes of landslides and its seriousness. Dahal suggested the proper preventive methods after risk assessment studies are completed which remains an asset in formulating disaster risk reduction and management plans. The NDRRMA admitted to lack of substantial work and programmes taking place to reduce landslides.

Under Secretary of NDRRMA, Mr. Rajendra Sharma raised the need to identify the geohazard risk assessment in terms of “scale, resolution and aim” and reiterated for the experts' assistance. Experts and participants mentioned the need for uniformity in studies and the results related to landslide risk assessment and also applauded the efforts of the Authority to bring dialogues on risk assessment in a single platform. European Union supports government in local adaptation to climate change

The Government of Nepal/Ministry of Finance and the European Union has signed two separate Financing Agreements -'Local Adaptation to Climate Change Initiative', and 'Quality Education for All' on 21 July 2023. The program on 'Local Adaptation to Climate Change' has the purpose to initiate with an overall objective to improve the sustainability and conservation of natural resources to notably increase their climate resilience in Sudurpaschim and Karnali provinces.

During the agreement signing program, Finance Secretary Mr. Arjun Prasad Pokharel appreciated the efforts of European Union's support to Nepal government and emphasized over plan and development of measures for disaster risk reduction to enable provincial and selected local levels and communities to manage their natural resources in regards to adaptation to climate change. PARTNERS' UPDATES

Discussion on forming technical working group on GEDSI integration into DRRM

A consultation meeting with civil society organizations (CSOs) was organized by NHSRP, under leadership of NDRRMA on promoting Gender Equality, Disability, Social Inclusion (GEDSI) integration in all levels of

DRRM initiatives. On 5 July, during a meeting, Under Secretary of NDRRMA, Ms. Hira Devi Poudel shared a presentation on the 'Draft GEDSI Strategic Action Plan'. The diverse participants from credible partners and CSOs highlighted the need to prioritize vulnerability and intersectionality issues by incorporating GEDSI-friendly targeted programs, budgets, and policies. The inputs mainly underscored the formation of "Technical Working Group for GEDSI integration into DRRM", to ensure that no one is left behind in DRRM efforts while channelizing targets of longer-term resilience in disaster. This way, the TWG aims to revamp the Vulnerable Support Working Group (VSWG) that was active in the former National Reconstruction Authority (NRA) period, to address the disaster affected housing needs of vulnerable and marginalized people from the equity and inclusion approach. The meeting provided a way forward by establishing a common platform among stakeholders to enhance collective efforts towards a more inclusive and equitable approach. Contact: Ms. Sabitra Nepal, Technical Advisor-GEDSI at NHSRP. Email: sabitra.nepal@hrrpnepal.org

Provincial meeting of Community of Practice organized in Sudurpaschim province

The Provincial Community of Practice (CoP) on Anticipatory Action was organized by the Ministry of Internal Affairs and Law (MoIAL) Sudurpaschim province on 28 July with the support of Nepal Red Cross Society (NRCS). The provincial CoP meeting aimed to strengthen the collaboration to foster a common platform for partnerships and networking among agencies working on anticipatory action to practice coordination, avoid

duplication, promote knowledge exchange and synergies and enhance effectiveness of the anticipatory action. The meeting was attended actively by the frontliner personnel of UN agencies and the representatives of governmental and nongovernmental organizations working in Sudurpaschim province. All the possible levels of the government at the provincial level were targeted to engage in the CoP meeting to facilitate dialogue, exchange experiences and development of joint strategies. The discussions in the program encircled around gathering support for at-risk people and communities exposed to the disaster risk, through the whole of the society approach. Application of Nature-based Solution (NbS) for Slope Stabilization

A demonstration event on the application of bioengineering for slope stabilization and landslide mitigation was held in Lamchedhunga, Ward -2, Uttargaya Rural Municipality (Rasuwa district) on 12 -13 July and at Chaku-Marming Road, Bhotekosi Rural Municipality (Sindhupalchowk district) on 20 July under the EU Humanitarian Aid funded Pratibaddha

project. The project is led by People in Need Nepal with its consortium partners Community Self Reliance Centre (CSRC), Save the Children in Nepal and Scott Wilson Nepal Pvt. Ltd. The event was helpful to raise awareness and empower communities, along with the technical team and elected representatives of the local government on the risk of hazardous slopes and the measures to adopt for mitigating the risks of landslides by using nature-based solutions (NbS). The event included a practical demonstration of bio-engineering measures that households, communities, and technical teams of local governments can use to stabilize slopes and reduce the risk of landslides. Detail updates: [Nature based solution](#)

Early warning systems installed in flood prone areas of Katahariya & Saptakoshi

An Early Warning System Testing and Flood Simulation was recently organized at Katahariya (Rautahat district) and Saptakoshi Municipalities (Saptari district) of Madhesh Pradesh.

With assistance from NDRRMA, automatic sirens were installed in the flood-prone areas of both municipalities. By sending out early warning messages, the multipurpose automatic siren will forewarn at-risk communities to promptly move to safer areas.

Similarly, the simulation was carried out jointly with Nepal Army, Armed Police Force, Nepal Police and organized by Saptakoshi and Katahariya Municipalities with the technical support from People in Need Nepal, CSRC, NHSRP and Koshi Victim's Society.

UPDATES FROM GANDAKI

Strengthening capacities on building code implementation

One-day Orientation on Building Code Implementation (BCI) was conducted in partnership with Rural Community Development Center (RCDC) at Besisahar Municipality on 27 July. The training was conducted through the Homes and Communities Project of CRS where NHSRP provided technical assistance of resource experts. Training was conducted The session

was attended by 30 participants mainly comprising technical staff from all the palikas. The NHSRP technical team provided technical support for conducting this orientation. The training contents includes building construction, building code implementation along with building bylaws specific to municipal structures and the roles of local bodies in the necessary implementation. The participants were also engaged in preparing the necessary strategies relevant to the building code implementation at local level. The BCI orientation also provided a brief outline of NDRRMA's reconstruction guidelines and discussed the grant provision as per the guideline.

Technical support for enhancing capacities of local level

'One-day orientation on BIPAD Portal' completed successfully at the Internal Affairs and Communication Division in Gandaki Province dated 2 July, which was chaired by Mr. Badri Nath Adhikari, Secretary of the Office of the Chief Minister and Council of Ministers-Gandaki Province. The program contributed to familiarizing the participants with the Portal, its features, data visualization from different models, and usage of reports and profiles in needful DRRM-focused data-driven decision-making and planning. Data

collection methodologies were discussed for optimal utilization by provincial ministries. The orientation saw the participation of representatives such as DRR along with IT focal points from provincial ministries, frontline staff of partner organizations, and technical staff from PEOC/DEOC. NHSRP Gandaki team laid smooth technical execution of sessions, enabling the participants to gain useful knowledge and skills in using the Portal.

UPDATES FROM KOSHI

Municipal consultation on making LDCRP

Meeting on Local Disaster and Climate Resilience Plan (LDCRP) conducted successfully at Dharan Sub Metropolitan City on 7 July with a purpose of presenting the final draft of LDCRP in upcoming months. The meeting also gathered inputs from key stakeholders, and discussed its implementation measures at municipal level. Mayor Harka Sampang Rai stressed that the plan will be instrumental in budget allocations for designing the relevant activities accordingly. The meeting also discussed the implementation measures through the Plan while aligning with a similar development program of the municipality. The NHSRP Koshi team laid extended support and coordination in preparation of LDCRP as Dharan is the pilot municipality of NHSRP.

Strengthening capacities on data driven disaster recovery procedures

'Provincial-level one day orientation on BIPAD Portal' completed successfully at Biratnagar, Koshi Province on 6 July, in coordination through Ministry of Internal Affairs and Law (MoIAL) and attended mainly by provincial level frontliner focal points (DRR, IT, partners, security forces & technical staff from Provincial Emergency Operation Center. The primary focus of the orientation was to highlight the portal's significance, demonstrate data visualization using various models, explain the usage of reports and profiles, and discuss data collection methodologies for optimal utilization by provincial ministries. Credible discussion laid forward by participants to enable further steps on improving the portal for DRRM system effectiveness at provincial level. The NHSRP Koshi team technically facilitated the orientation.

UPDATES FROM MADHESH

Technical coordination for DRRM system effectiveness

Under the leadership of the Ministry of Home, Communication, and Law (MoHCL) - Madhesh Province, a workshop was organized on 13 July that focused on discussions over the draft of Monsoon Preparedness and Response Plan 2080. The workshop was attended by focal points of different clusters representing Lead and Co-lead. The clusters include WASH, Education, Health & Nutrition, Food Security, Search and Rescue, Shelter

include WASH, Education, Health & Nutrition, Food Security, Search and Rescue, Shelter

and CCCM. Through this workshop, the MoHCL emphasized to enhance the preparedness and response capabilities of Madhesh Province during the monsoon season by collaborating with various ministries and cluster lead agencies. Insights on implementation measures of the Plan was provided by the participants.

In addition to this, the Provincial Disaster Management Executive Committee Meeting of Madhesh Province held on 16 July approved and endorsed the Monsoon Preparedness Plan 2080. The meeting reviewed the similar plans of previous years and mainly highlighted the roles of the different clusters and focused on collaboration to enhance the disaster preparedness and management efforts at the province level. The NHSRP Madhesh team extended technical assistance with the provincial ministry in the formulation of the plan as well as coordination in conducting the workshop. UPDATES FROM KARNALI

Geohazard assessment study conducted in Raskot areas of Kalikot

NHSRP Karnali team shared the preliminary findings of the geohazard assessment study conducted at Raskot Municipality (Kalikot district) on 30 July 2023 via presentation with the Ministry of Internal Affairs and Law (MoIAL) Karnali province, in presence of Minister Mr. Krishna Bahadur GC. The geohazard assessment was conducted from 24 – 28 July in Ward numbers 1, 2, 3, 4, 6, 7, 8 with a total of eight affected sites were assessed, that were hit hard by incessant rainfall occurred in October 2022. Debrief sharing was conducted at Raskot Municipality after completion of assessment on 28 July.

In the meantime, the team also shared key highlights of NDRRMA's reconstruction guidelines and Reconstruction MIS tool for the participants at Raskot Municipality comprising mainly the Ward Chairperson and engineers from all Wards & DRR Focal Person. The geohazard assessment study was conducted by the NHSRP Karnali team accompanied by Geologist, ward officials and communities as well.

Technical support for enhancing capacities of local level

The meeting of the District Disaster Management Committee (DDMC) organized and coordinated by District Administration Office (DAO) Surkhet on 24 July, has decided to request all the municipal level (Palikas) to open accounts of NDRRMA Reconstruction MIS. The NHSRP Karnali team shed light on the NDRRMA's Guideline on Monsoon/Fire-induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Disbursement Procedures and underlined the discussions on grant provisions as per the guideline.

Strengthening capacities on disaster housing reconstruction procedures

"Orientation on NDRRMA RMIS and Kobo Collect Tool" was organized by NHSRP Karnali on 13 July to the Administrative Officer, IT Officer and Engineer of Gurbhakot Municipality (Surkhet). The team coordinated with the Municipality to organize the orientation that focused to familiarize the participants with the Guideline and the Tools for taking forward disaster affected housing reconstruction.

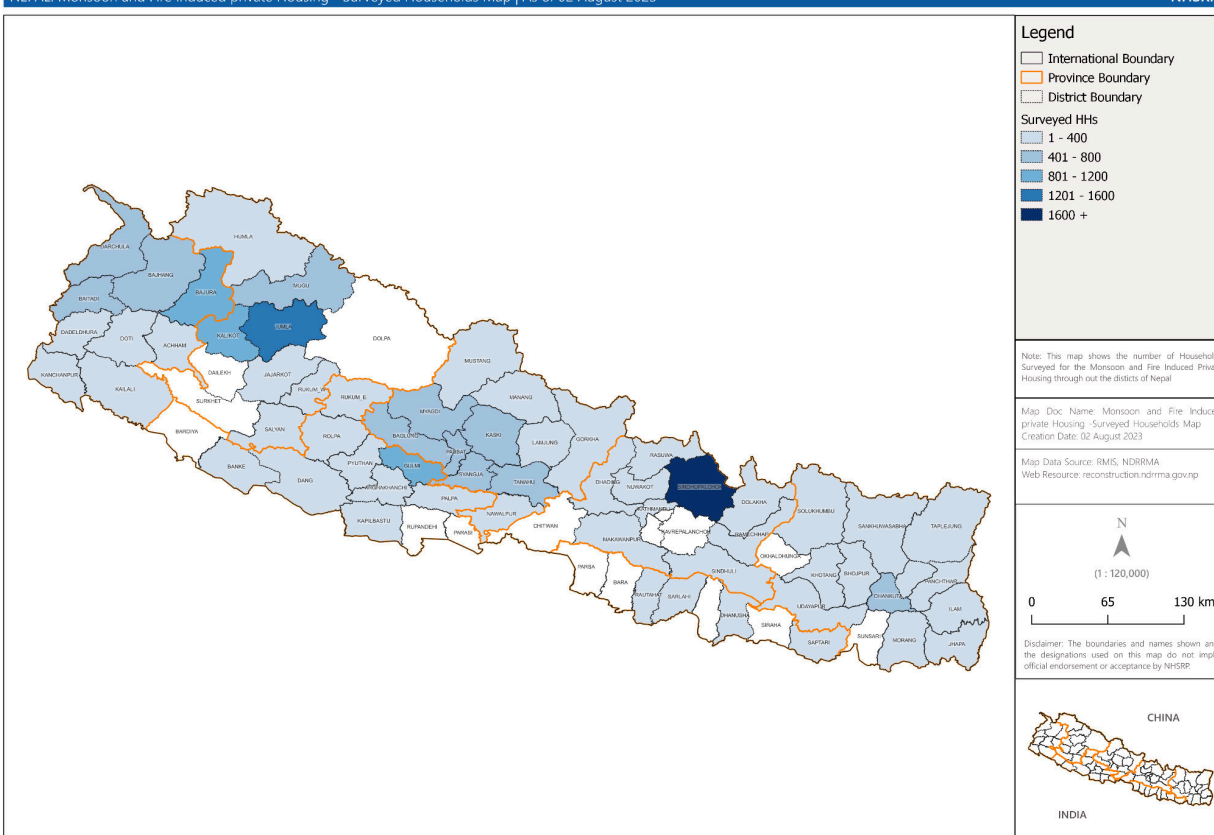

The team also laid forward discussion on NDRRMA Reconstruction Guidelines as well as tracked the DRRM Bylaws status of the Municipality in presence of Deputy Mayor, Maina B.K, local officials and frontline staff of International Organization of Migration (IOM).

****National Youth Conference 2023****

Nepal Youth Council is organizing the National Youth Conference 2023 (#NYC2023) to provide a platform for young people to learn about the importance of green skills and how they can contribute to a sustainable future.

The Theme of #NYC2023 is : Green Skills for Youth. The conference will be held from 10 -12 August 2023. Mark your dates.

Stay tuned for more updates on NHSRP's social media!

****7th Regional Symposium****

Save the date on **17 - 19 October 2023** to join the ****7th Regional Symposium on Effective Governance and Digital Transformation for Accelerating Progress towards the 2030 Agenda - Promoting Sustainable Resilient and Innovative Solutions.**

Two specific sessions that will be of great interest to local authorities:

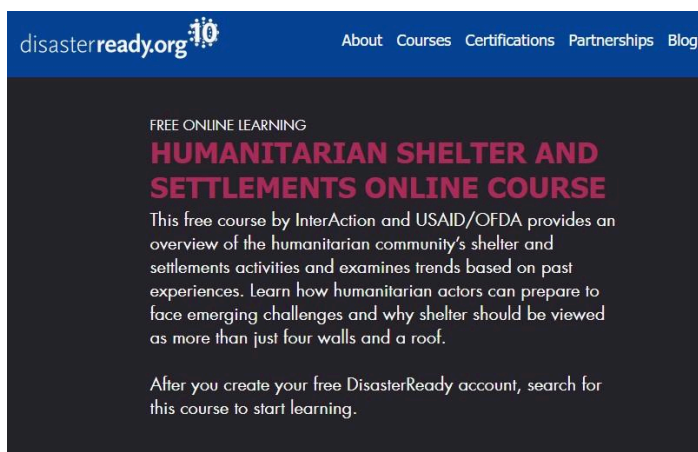

- Risk-informed Sustainable Development: Accelerating Resilience in Cities and Local Communities through Digital Government Innovation.
- Innovation and Digital Transformation at the Local Level for Enhanced Public Service Delivery

Registration is now available via the link [REGISTRATION](#), or visit [UNPOG Website](#).

****Free Courses on Shelter and Settlements****

This free course by InterAction and USAID/OFDA provides an overview of the humanitarian community's shelter and settlements activities and examines trends based on past experiences. More here www.disasterready.org

****NEEDS Conference 2023****

Attention PhD students and postdoctoral researchers in disaster risk and resilience!

[The Centre for Disaster Resilience](https://www.utwente.nl/en/needsconference/travel-grants/) is calling for processing the abstracts submitted for the NEEDS conference 2023. Those who have an ACCEPTED ABSTRACT, and are in need of funding, can apply for the travel grants. Apply by 5 August, 2023.
