

HRRP District Coordination Meeting Minutes

Meeting Purpose:	Palika Level Coordination Meeting
Meeting Date:	13 August 2019
Meeting Time:	12:30 AM-2:00 PM
Meeting Location:	Municipality Hall, Namobuddha Municipality
Meeting Facilitator:	Kamal Kuikel, Focal Person
Minutes Taken By:	Reshma Shrestha

Discussion: (Items/Knowledge Shared)

Welcoming GMALI/DLPIU Chief

- Mayor of Namobuddha NP welcomed GMALI/DLPIU Chief Sagar Acharya in the district. He also expressed his beliefs on more coordinated efforts for reconstruction in the palika and district.

Remarks by GMALI/DLPIU Chief Sagar Acharya

- The roles, responsibilities and authorities of Ward Officials were briefed with the major stress on the authority of ward for effective mobilization of technical persons.
- The procedure and the essential documents required for beneficiary change from RTB to RCB and beneficiary name change for death cases were explained.
- As the first tranche has been suspended, the ward chiefs were requested to send the list of beneficiaries who needs to be enrolled along with a convincing reason to enroll by Bhadra 15.
- The deadlines for second and third tranche are Kartik and Magh respectively.

Municipal Reconstruction Status, Technical Focal Person Sanskar Shrestha

- Only 2666 beneficiaries have received third tranche which is only 35% progress.
- A total of 18 technical persons; 10 engineers, 4 sub engineers and 4 asst. sub engineers are working in 11 wards of the municipality.
- The major issues of the district are: need of beneficiary change from RTB to RCB, delay in punarabedan process and tranche delay by bank.
- A separate coordination unit has been formed at the municipality which has eased in reconstruction coordination in the municipality. A three day reconstruction related program was conducted in all wards of the municipality which helped in collective collection of all reconstruction related data and also aware the beneficiaries on updated reconstruction policies.

Ward Level Grievances

- Major of the houses listed in retrofitting are Stone in Mud and Adobe masonries. A total of 340 applications have been collectively sent from all the wards to convert the beneficiary from retrofit to reconstruction. The long delay in converting the beneficiaries needs to be looked by GMALI/DLPIU.
- Punarabedan process too is a very long process. An orientation program on punarabedan is required at the ward level as many of the documents have been returned specifying incorrect and incomplete documents.
- None of the banks have provided loan to the beneficiaries. Tranche delay by bank too is a major issue in the municipality.
- Water scarcity is one of the major challenges for reconstruction and the construction deadline set by NRA too is not according to the construction season.
- Wards are still not clear about the directives on constructions in public land, government land and guthi land.
- Communication to the ward level too is a major issue. The important notices at the ward are received after several months.

Bank Remarks

- Beneficiary change after death is the major issue at banks. Most of the beneficiaries do not know the

policies of name change as well.

- *Banks are never invited to any reconstruction related meetings and policy awareness meetings. Thus there is always a gap in their understanding and the policies.*
- *Branch level banks do not receive the change in policies and documents timely.*

Closing Remarks, Mayor

- *Reconstruction strategy and structure is new to the country. It is a method of mistakes, learning from them and amending the mistake and thus is not an accurate process.*
- *Though many reconstruction meetings have been conducted in the palika and its ward, it is the first one with all the stakeholders including bank and thus is a complete reconstruction meeting. Such practices need to be conducted at regular intervals.*
- *As the deadlines have been set and the progress is low in the palika, more coordinated effort is required to complete the reconstruction within deadline. Along with encouraging beneficiaries to reconstruct, it is high time to identify and remove the beneficiaries not interested to reconstruct from the beneficiary list.*

Action Points

- *With the coordination of Palika Focal Person and GMALI/DLPIU, communicate with central NRA to know the status and accelerate the process of beneficiary change from RTB to RCB of 340 beneficiaries.*
- *GMALI/DLPIU to communicate with central NRA to ease and accelerate the beneficiary name change in beneficiary death cases.*
- *Palika to send the remaining PA Forms for digitization as soon as possible.*
- *Wards to enroll and send the list of enrolled beneficiaries to GMALI/DLPIU office along with recommendation and specific explanation of delay in enrolling by 15th of Bhadra.*
- *Wards to coordinate with ASF Nepal for vulnerable top-ups and technical drawings required for building permits.*
- *In case required, palika to request GMALI/DLPIU for a program related to Punarabedan and GMALI/DLPIU to coordinate with NRA to conduct ward level punarabedan specific programs.*
