"Sustainable Urban Regeneration of Heritage Settlements for Nepal's Urban Recovery and Development"

Urban webinar series is a virtual gathering for sharing learnings from Nepal's urban housing recovery and intends to connect these learnings to longer term Nepal's urban development vision in order to facilitate efficient, sustainable and inclusive urban settlement recovery. It offers a platform for national and international knowledge sharing on urban housing recovery issues best practices and success stories.

HIGHLIGHTS

- [HRRP Partner Satisfaction Survey update](#)
- Invitation to Webinar on [“Sustainable Urban Regeneration of Heritage Settlements for Nepal’s Urban Recovery and Development”](#)
- [Workshop on extension of Masonry houses built under NRA’s private housing reconstruction efforts, 22 March 2021](#)
- New study on taking forward urban housing strategic issues kicks off- inception meetings organized
- The Urban Recovery-Technical Working Group (UR-TWG) holds its 19th meeting
- Economic Impact Study update
- COVID-19 live updates from Ministry of Health and Population (MoHP)
- [Stories from Field: Interaction with mobile masons, social mobilizers, and vulnerable beneficiaries was made to get their experiences on housing reconstruction. CLICK HERE](#)

FEATURED TECHNICAL STAFF STORY: Purnima Shrestha, Assistant Sub-Engineer, Ward no 11, Hetauda Sub-Metropolitan City, Makwanpur district

*Purnima Shrestha,
Assistant Sub-Engineer
Hetauda Sub-Metropolitan City-11
Makwanpur*

Purnima Shrestha, Assistant Sub-Engineer, Hetauda Sub-Metropolitan City, Ward - 11, Makwanpur.

Purnima Shrestha is working as an Assistant Sub-Engineer for the NRA (National Reconstruction Authority), based in Ward-11, Hetauda Sub-Metropolitan City, in Makwanpur district. Shrestha, 25, shared her experiences and challenges faced during her reconstruction journey. Earthquake affected beneficiaries were also reluctant to build their houses complying the NRA guidelines due to high cost and unclear grant distribution policy of NRA.

Overcoming all those odds and challenges faced during reconstruction, Ms. Shrestha is giving her best to complete private housing reconstruction

in her assigned wards in the Municipality, within the time frame of NRA.

NATIONAL UPDATES

NRA, CLPIU GMAI and Building. Grant Disbursement Data, as of 29 March 2021

Reconstruction Grant	30 November	28 December	25 January	22 February	29 March
Total No. Eligible HHs	834911	834911	846349	854992	855160
HHs Enrolled	791787	796282	800973	808489	809711
HHs Received 1st Tranche	785078	790266	796809	804978	807908
HHs Received 2nd Tranche	677557	681953	685600	691264	699351
HHs Received 3rd Tranche	606505	614642	624096	631203	636252
Retrofit Grant	30 November	28 December	25 January	22 February	29 March
Total No. Eligible HHs	78033	78033	64887	65162	65309
HHs Enrolled	55649	57319	54580	53795	53298
HHs Received 1st Tranche	54859	56478	54723	53728	53278
HHs Received 2nd Tranche	303	332	339	368	418

Progress with the disbursement of the GoN housing reconstruction and retrofit grants based on NRA GMAI CLPIU data as of 29 March. 2021

Invitation to Urban Webinar on “Sustainable Urban Regeneration of Heritage Settlements for Nepal’s Urban Recovery and Development” planned for 31 March

2021, 4 pm (Nepal time): Housing Recovery and Reconstruction Platform (HRRP) has planned an urban webinar series #3 focusing on sustainable urban regeneration of heritage settlements for Nepal’s urban recovery and development. HRRP would like to invite you through this [link](#) for advance registration.

Urban webinar series is a virtual gathering for sharing learnings from Nepal’s urban housing recovery and intends to connect these learnings to longer term Nepal’s urban development vision in order to facilitate efficient, sustainable and inclusive urban settlement recovery. It offers a platform for national and international knowledge sharing on urban housing recovery issues, best practices and success stories.

HRRP Partner Satisfaction Survey (PSS): The HRRP would like to thank all the partners, who took their time in providing their valuable feedback through the second round of PSS that was launched on 22 February and open until 5 March. It was very encouraging that 50% respondents were represented by the government followed by INGO -24%, NGO -16%, private sector -3% including donor 2%. Some of the major findings from the PSS results are mentioned here under:

- 87% of the reconstruction stakeholders stated that they have improved capacity for decision making to support housing reconstruction of vulnerable households.
- 78% partners have used HRRP information products for decision making. The most often used information products are: HRRP monthly bulletins, palika profiles and research reports.
- 83% of the government respondents stated that they have used EHRP MIS to access information on reconstruction and recovery.
- 73% of the government respondents stated that they have used NRA PMIS to access information on reconstruction and recovery..
- 18% NGOs and 36% INGOs have used 5W to access information on recovery and reconstruction.
- 86% of the respondents stated that sharing experiences, lessons learned and best practices of reconstruction stakeholders are very useful.

- The PSS respondents suggested HRRP to publish and share the achievement and lessons learned documents as many of the reconstruction partners have wrapped up their projects. HRRP should focus on the exit strategy of NRA and should try to reach at the local government level.

Workshop on extension of Masonry houses built under NRA's private housing reconstruction efforts, 22 March 2021

Photo credit: NRA

On 22 March, a half day "Workshop on Extension and Maintenance of Masonry Buildings Built during the Housing Reconstruction Programme" was conducted as a part of the International Conference on Nepal's Reconstruction (ICNR). The workshop was organized by the NRA/ CLPIU -Building and supported by NSET-USAID-supported *Baliyo Ghar* Program. The workshop was planned for a wider discussion on the philosophy, approach and technical specifications highlighted in the guidelines and to discuss them in a wider arena. The workshop was intended to further support the development of the guideline as well as in standardization and approval process as per the standardization policy of the NRA. This

guideline is prepared so that technical human resources engaged in house construction can apply earthquake resilient elements while extending additional rooms in their houses to meet their family requirements in rural areas. Mr. Jhapper Singh Bishwakarma, Deputy Project Director at NRA/CLPIU-Building and Mr. Ranjan Dhungel, Program Manager, *Baliyo Ghar* Program/NSET, jointly presented on the key points of the work procedural guideline along with engineering drawing and designs that are useful for engineers and technical persons engaged in house reconstruction. The Executive Committee Member of NRA, Dr. Hariram Parajuli and international experts Mr. Jitendra Bothara from New Zealand and Mr. Bibek Rawal from India provided expert opinion on the work procedural guideline prepared by CLPIU-Building with technical support from NSET. The work procedural guideline will be applicable after the endorsement from NRA Executive Committee. The event was participated by representatives of NRA, Senior Officials, Ministry of Urban Development (MOUD), Department of Urban Development and Building Construction (DUDBC), Local Government Officials, national and international experts, development partners including NRA Engineers deployed in the reconstruction field.

Training Module on Tools based on Scoring Method to assess hydro-geohazards in the Mountain region, 24 March 2021

On 24 March, the National Disaster Risk Reduction and Management Authority (NDRRMA)

organized a training titled “Training module on tools based on scoring method to assess hydro-geohazards in the mountainous region” for participants representing from government and non-government organizations as part of capacity building of the individuals engaged in disaster risk management and risk reduction (DRRM). The training focused on scoring methods to assess hydro-geohazards in the mountainous region based on identified and analysed parameters of water-induced hazards in the mountain region. Scoring method is a simple tool to identify potential risks of water-induced hazards analysed based on scoring method against each of identified parameters namely: landslide, soil erosion, gullies, additional water coming to gullies, roads, protected forest, abandoned land, water resource, farm terrace, village trails, migration gender & special impacted groups (SIG), all of which are inter-linked to one another. The tool basically helps local leaders and those at the managerial positions in local governments to take prompt, immediate protective measures to protect lives and properties of local populations based on informed decisions. In addition, it provides a basis for the local, provincial and federal government to make policy decisions in accordance with the current policies, guidelines and national policy framework on disaster risk reduction and management. The tool enables local governments to prioritize DRR strategy and navigate the monitoring framework of the DRR goals within local targets, contributing to national data sources. Further, draft guidelines for resettlement planning for the communities affected by natural disaster in the hilly region of Nepal was also presented and discussed during the training session. NDRRMA strives to achieve its intended results outlined in the Disaster Risk Reduction Plan of Action 2018-2030 with active engagement of local governments. For more information contact, NDRRMA, Section Officer, Mr. Tulshi Bhattarai, email: tulshibhattarai2068@gmail.com

Economic Impact Study Update: HRRP is coordinating the Economic Impact Study executed by a team of three independent consultants, technically supported by NRA. The objective of this economic impact study is to do a comprehensive post-evaluation of recovery and reconstruction work within the mandate of NRA. The study aims to assess the NRA's contribution to National Gross Domestic Product (GDP), employment generation, poverty reduction, skill development and empowerment of women and marginalized communities, made during the NRA's 5-year term (2016 to 2020). As part of the study, on 15-16 March, the consultant team provided training to NRA field engineers of 24 districts

navigating through each of the survey questions and highlighting on the objective of the survey and quality of survey data. On 22 March, the consultants launched a quantitative sample survey of 6,600 earthquake affected households across Bhaktapur, Kathmandu, Lalitpur, Kavrepalanchowk, Khotang, Lamjung, Makwanpur, Nuwakot, Okhaldhunga, Bhojpur, Tanahu, Chitwan, Dhading, Gorkha, Gulmi, Kaski, Parbat, Syangja, Ramechhap, Rasuwa, Dolakha, Sindhuli, Sindhupalchowk and Solukhumbu districts with the support of NRA deployed field engineers as enumerators for this survey. As of 29 March, 559 out of 6600 households have responded to survey questions. HRRP District teams in close collaboration and coordination with DLPIU-Building are providing coordination services and facilitating consultants for timely completion of the survey questions. For more information, contact HRRP District Management Team - Coordinator, Mr. Sufi Mohammad Faiz (9851241401) dmt.coord@hrrpnepal.org

For economic impact survey at the district level, following contact persons can be contacted at the District [Focal Point for NRA Socio-Economic Impact Survey](#).

New study on taking forward urban housing strategic issues kicks off- inception meetings organized.

On 16 March, an inception meeting was organized by HRRP for the new consultancy/study titled 'taking forward urban housing strategic issues' for policy and legislation reforms through amendments in acts and regulations among key stakeholders DUDBC, NRA, LUMANTI, CRS and HRRP. The study is commissioned by NRA with technical support by HRRP, CRS and NSET. The meeting was chaired by NRA and included presentation of draft inception report and work plan by lead consultant of this study, Mr Surya Bhakta Sangache, followed by discussions, feedback and way forward for the study.

The study was formally rolled out during the first week of March by an urban consultant team. The objective of the new consultancy is to collate learning elements and prepare ground for integration of evidence-based urban strategies into specific government Acts, Policies, Working procedures and Regulations, so basically to make recommendations for the caveats in the existing rules. NRA is the Key Executing Agency of this study; while intensive engagement is ongoing with MoUD/DUDBC as key implementing agencies and integrating in key relevant federal, provincial and local government legal documents,

policies. NRA will provide guidance and oversee overall study progress and address key issues. The study is currently being carried out by the consultant team as per its ToR, under the guidance of NRA and with support from HRRP, CRS and NSET and preparation for FGDs and KIs are ongoing. Plans are afoot for organizing three consultations/dissemination events.

Meanwhile, in this context, on 26 March a preparatory meeting was convened by NRA with CLPIU, NSET, HRRP and CRS representatives in regards to organizing the first wider consultative workshop for the presentation of inception report, as part of this study.

Further to this inception meeting of the study, an introductory meeting was held earlier on 15 March, while follow up & work plan meeting was held on 23 March; and core support team (CRS, NSET, HRRP) meeting held on 25 March, all facilitated by HRRP. The HRRP team continues to play a key support, coordination and facilitation role for the study. For further information please contact, Mr. Bishan Wagle, Urban Coordination Officer, HRRP at: uco@hrrpnepal.org

The Urban Recovery-Technical Working Group (UR-TWG) update:

On 03 March, the UR-TWG members held the 19th TWG meeting virtually. Status update of past UR-TWG activities since the last meeting was shared, including the update following the submission of the merged Urban Recovery Recommendation Report to NRA and CLPIU on 02 Feb by HRRP, for their feedback and review. The recommendation report is based on qualitative and quantitative studies carried out in Jan 2020 and August 2020, respectively, by UR-TWG organizations, including core members, HRRP, CRS, NSET and LUMANTI, in collaboration and support from NRA/CLPIU-Building. Based on the feedback as received from NRA, including suggestions on the modality for its publication and considering the time factor, the meeting decided to process further steps towards publishing the report soon, in line with NRA guidance. The Recommendation Report is currently in the professional editing phase, which is expected to be completed soon. Following this, it will move to the design & publication stage, early April. The meeting also discussed TWG's current ToR, future activities, scope etc. For further information please contact, Mr. Bishan Wagle, Urban Coordination Officer, HRRP at: uco@hrrpnepal.org

COVID-19 live updates from Ministry of Health and Population (MoHP)

According to the Ministry of Health & Population (MoHP) [website](#) data, as of 28 March 2021, total cumulative new cases are 276,750 out of which 272,530 (98.47%) have recovered and 1282 (0.46%) are undergoing medical treatment in isolation. So far, 3,027 (1.09%) have lost their lives due to COVID-19. The MoHP has operationalized two call centers **1115 (from 6 am - 10 pm)** and **1133 (24 hours)** to provide counselling services regarding COVID-19 prevention and treatment.

DISTRICT & MUNICIPAL UPDATES

In **Lalitpur**, DLPIU-GMaLI did monitoring and supervision of Monasteries (Gumba) reconstruction. Ward Offices of municipalities and rural municipalities of the district have issued public notice stating to apply for second and third tranche by the end of Baisakh 2078 (mid week of May 2021). Mobile masons are working together to reconstruct houses of vulnerable beneficiaries. So far, 365 earthquake affected beneficiaries have converted their beneficiaries types from retrofitting to reconstruction. NRA Municipal Focal Engineers and Ward based Engineers along with social mobilizers are engaged in household survey for the Economic Impact Study. Beneficiaries' File management works are ongoing at DLPIU-Building Office.

In **Bhaktapur**, engineers and social mobilizers are doing door-to-door visits to track beneficiaries who have not received subsequent tranche after receiving a second tranche. Mobile masons are continuously engaged in vulnerable housing reconstruction under technical supervision of the engineers. So far, 77 earthquake affected beneficiaries have converted their beneficiaries types to reconstruction from retrofitting while 36 beneficiaries did conversion to retrofitting from reconstruction. Also, 17 beneficiaries in the district have voluntarily returned their first tranche amount to DLPIU-GMaLI till date. NRA Municipal Focal Engineers and Ward based Engineers along with social mobilizers are engaged in household survey for Economic Impact Study.

In **Kathmandu**, DLPIU-GMaLI has planned to conduct mason training under the "Home Accessible to all" Program. So, DLPIU-GMaLI has requested municipalities of the district to

provide a list of the interested mason. DLPIU-GMaLI has also requested all municipalities to do follow-up with beneficiaries either to utilize tranche amount for reconstruction or to return tranche amount if they are not willing to reconstruct a house. Till date, 323 beneficiaries have not withdrawn the first tranche amount from the bank. DLPIU-Building is collecting details of the beneficiaries who have multiple ownership and beneficiaries purchasing land under NRA grant of NPR 200,000 for relocation. Also, 127 reconstruction beneficiaries have converted their beneficiaries types to retrofitting while 52 retrofitting beneficiaries changed their beneficiaries types to reconstruction.

In **Makwanpur**, DLPIUs (Building and GMaLI) jointly held a meeting on 19 March. The meeting concluded with decisions on monitoring reconstruction progress, tracking progress against municipal action plans, and to send earthquake affected beneficiaries details to CLPIU, who have not received the first tranche within the timeframe of NRA.

In **Sindhupalchowk**, of the 177 landless beneficiaries, 82 beneficiaries received NPR 200,000 to purchase land. Out of 89,390 Partnership Agreement Number in Sindhupalchowk, collection of 82,930 is completed. The second quarterly review of DLPIU-GMaLI was completed virtually on 21 March. In the quarterly review meeting, overall project status of Environment and Social Management Plan, reconstruction progress and financial status were shared. Issues of landless beneficiaries and vulnerable settlement status were also discussed in the review meeting. Though the deadline to receive the first tranche has expired, DLPIU-GMaLI is still receiving enrollment requests. So, DLPIU-GMaLI has decided that the first tranche will not be disbursed to beneficiaries requesting for enrollment after the deadline of the NRA. DLPIU-GMaLI is currently engaged in supervision, monitoring, and quality control works of 15 under reconstruction monasteries (Gumba). DLPIU-GMaLI is also disbursing tranche to beneficiaries, whereas GMaLI finance and MIS team are working on data reconciliation along with the Bank and the treasury office of GMaLI. DLPIU-GMaLI has also commenced different activities under environment and social management plan which includes landslides mitigation work, drinking water work, plantation work, WASH training, improved cooking stove training, occupational health & safety training. DLPIU-Building is continuously working on tranche certification handover and rendering technical assistance for reconstruction. DLPIU-Building is also engaged in supervision, monitoring, and quality control works of seven under reconstruction

monasteries, which are over 100 years old. DLPIU-Building is also reviewing the tender of monasteries and working on tender of different public buildings like health posts.

In **Nuwakot**, 1,106 beneficiaries have converted their beneficiary types from retrofitting to reconstruction beneficiaries. A Pilot survey for Economic Impact Study is completed. NRA Municipal Focal Engineers and Ward based Engineers along with social mobilizers are now engaged in household survey for Economic Impact Study.

In **Rasuwa**, 83 retrofitting beneficiaries have converted their beneficiary types into reconstruction, where the majority of the beneficiaries have completed reconstruction upto DPC level.

In **Kavrepalanchowk**, DLPIU-GMaLI are collecting beneficiaries who have not processed for the second tranche and the details of those beneficiaries will be forwarded to CLPIU. DLPIU-GMaLI is also doing cross verification of beneficiaries supported by partner organizations. Follow up on digitization of the remaining Partnership Agreement (PA) is on-going. Due to delay in budget release from the Ministry of Finance, tranche amount is not transferred to the Bank. DLPIU-Building is engaged in reconstruction inspection, beneficiaries file management, and collecting required data based on the NRA action plan. Till now, 812 earthquake affected beneficiaries have converted their beneficiaries types from retrofitting to reconstruction.

In **Lamjung**, a meeting with DPLIU-GMaLI and the bank representatives was held on 5 March, to discuss uploading payment service providers (PSP) of beneficiaries whose tranches were disbursed from the banks and dummy accounts (who have not updated KYC form and withdrawn first tranche amount from the bank). On 19 March, Monthly Coordination Meeting was held with the presence of municipal technical staff, DLPIU-Building, and GMaLI, where DLPIU-GMaLI requested technical to provide partnership agreement (PA) either in hardcopy or softcopy by 7 April. The DCC has approved a list of vulnerable beneficiaries provided by Besisahar Municipality and Dordi Rural Municipality. The remaining six rural municipalities/municipalities have sent verified lists to DLPIU-GMaLI which will be approved in the next DCC meeting.

In **Dolakha**, orientation on Building Code Implementation (BCI) for local representatives was conducted at Bhimeshwor Municipality on 12 March. The orientation was jointly organized in coordination with Transparency International Nepal. The program was chaired by DCC Chief, Mr. Dabbal Pandey. Municipal representatives from Gaurishankar Rural Municipality, Bhimeshwor Municipality, Melung Rural Municipality and Sailung Rural Municipality were present at the orientation. Coordination with GMAI on partnership agreement file collection is on-going and DLPIU-Building is also working on beneficiaries file indexing for handover to respective rural municipalities/municipalities and ward.

HRRP District Coordination Team Bhaktapur, Lalitpur Monthly Report, 15 Feb - 24 Mar 2021

Ward-9, Changunarayan Municipality, Bhaktapur: This house was rebuilt by a team of mobile masons of DLPIU Building Bhaktapur, facilitated by Social Mobiliser. The house owner belongs to the category of vulnerable single women senior citizen. House is a single story made up of hollow concrete brick with room. The house owner has utilized salvaged materials for reconstruction and construction of a flexible roof is under construction. The house owner has received the first tranche from the government housing grant and has applied for subsequent tranches.

HRRP District Coordination Team Dolakha, Ramechhap, Sindhuli Monthly Report, 15 Feb - 24 Mar 2021

Ward-6, Bhimeshwor Municipality, Dolakha: The house is a single storey made up of brick in cement mortar. House owner has received all tranches from the government housing grant.

HRRP District Coordination Team Kathmandu Monthly Report, 15 Feb - 24 Mar 2021

Ward-10, Budhanilkantha Municipality, Kathmandu: Two storey RCC structure house. The beneficiary has received all the tranche under government housing grant.

HRRP District Coordination Team Kavrepalanchok Monthly Report, 15 Feb - 24 Mar 2021

Ward-4, Khanikhola Rural Municipality, Kavrepalanchowk: Stone Mud Mortar house construction started. Mobile masons and social mobilizers are working on reconstructing vulnerable beneficiary's house.

HRRP District Coordination Team Lamjung Cluster Monthly Report, 15 Feb - 24 Mar 2021

Ward-7, Bhanu Municipality, Tanahu: One storey stone Masonry in cement mortar house with a plinth area less than 1000 sq feet. The construction of the house is completed. It is a two rooms compliant house with horizontal and vertical RCC bands at all levels. The house owner has received all the tranches from the government Housing grant.

HRRP District Coordination Team Makwanpur Cluster Monthly Report, 15 Feb – 24 Mar 2021

Ward-6, Raksirang Rural Municipality, Makwanpur: Load bearing stone in mud mortar. Stone in mud mortar house with single storey two room house. House owner has received all tranches from the government housing grant.

HRRP District Coordination Team Solukhumbu Cluster Monthly Report, 15 Feb – 24 Mar 2021

Ward-5, Solu Dudh Kunda Municipality, Solukhumbu: Stone with mud mortar house and RCC band being used. The house owner has received all the subsequent tranches from the government housing grant.

HRRP District Coordination Team Rasuwa, Nuwakot Monthly Report, 15 Feb – 24 Mar 2021

Ward-7, Bidur Municipality, Nuwakot: Housing under construction. Load bearing brick masonry in cement mortar with RCC band. Mobile mason along with a social mobilizer working to reconstruct vulnerable beneficiary house.

HRRP District Coordination Team Sindhupalchowk Monthly Report, 15 Feb – 24 Mar 2021

Ward-4, Panch Pokhari Rural Municipality, Sindhupalchowk: Load Bearing structure house with stone and cement mortar. Masonry with RCC bands and CGI roofing. This house was built under the technical assistance of Nepal Red-Cross.

FEATURED STORY

Purmina Shrestha, Assistant Sub-Engineer, Ward no 11, Hetauda Sub-Metropolitan City, Makwanpur:

Purnima Shrestha is working as an Assistant Sub-Engineer for NRA, based in Ward-11, Hetauda Sub-Metropolitan City in Makwanpur district. Shrestha, 25, shared her experiences and challenges faced during her reconstruction journey. Earthquake affected beneficiaries were also reluctant to build the house complying the NRA guidelines due to high cost and unclear grant distribution policy of NRA. Frequent change in NRA rules and regulations and different housing design catalogs also made it problematic to initiate reconstruction in the beginning. She further said,

“House owners started reconstructing houses without aligning with the standards set by NRA because those design catalogs fail to address the needs and intentions of house owners.”

Overcoming all those odds and challenges faced during reconstruction, Ms. Shrestha is giving her best to complete private housing reconstruction in her assigned wards within the time frame of NRA. Her majority task now, is to give priority to housing reconstruction of vulnerable beneficiaries. Along with mobile mason and social mobilizers, she is doing door-to-door visits to render technical assistance to low cost housing reconstruction. She guides house owners on how to build earthquake resistant housing techniques, and also orient them to build houses following the building code. She did regular field monitoring to inspect housing under construction and provide onsite coaching.

CASE STORY

“Binod has his own house”

Binod Mijar is residing in Ward no 11, Gerkhu, Bidur Municipality, Nuwakot. He lost his father when he was young and his mother left him at the age of 12. He has no way of living. His uncle Ram Bahadur Mijar supported him continuously for living. But his uncle did not have a good source of income to

support him. His father had a small house, but a devastating earthquake destroyed his dwelling completely. To sustain for living, he worked on daily wages. He lived in the temporary shelter for about four years and it was a horrifying experience for him.

Though his house falls into Grade Five category, he was not enlisted in the eligible beneficiaries list. After the grievances application, his name was enlisted in the earthquake affected beneficiaries list. With the support of his uncle, he started reconstruction. His uncle also provided him construction materials. Mobile masons from Bidur Municipality were also engaged to rebuild the house. With the housing grant support along with STA, his house was constructed, which made him happy.

Vulnerable Households Reconstruction

Vulnerable Households Reconstruction (March 2021): Of the total **18,505** NRA identified vulnerable households, 89% (**16,553**) have received the first tranche, 68% (**12,569**) have received the second tranche and 59% (**10,970**) have received the third tranche. In total 2,698 HHs have been supported by various partner organizations.

Grievances Data Update: As of March 2021, **15,643** grievances have been addressed by NRA, out of which **7,919** HHs have been enlisted as reconstruction beneficiaries and **7,724** as retrofitting beneficiaries.

MEDIA COVERAGE & COMMUNICATION ON RECONSTRUCTION

Baliyo Ghar Surakshit Nepal | 17 March 2021: This episode focuses on retrofitting progress of buildings constructed during the Rana regime. This program airs on Nepal Television every Friday 7:00 PM and every Saturday 10:30 AM.

[The Asia and the Pacific Sustainable Development Goals Progress Report:](#) The Asia and the Pacific Sustainable Development Goals Progress Report 2021 is the fifth in a series of flagship reports of the Economic and Social Commission for Asia and the Pacific (ESCAP). It provides evidence of current progress towards the 17 SDGs and anticipated progress towards the 169 targets in the Asia-Pacific region and its five subregions (Parts I and II). The report provides a valuable benchmark as we take stock even in times of great change.

Palika Profiles (Municipal Reconstruction Profiles)

The recovery profiles contain various updates on the reconstruction and recovery at the Municipal level for all 282 earthquake-affected municipalities. The municipalities are updating the profiles on a monthly basis with technical support from HRRP.

Reconstruction and Retrofitting Information Pack

This highlights the reconstruction and retrofitting progress in all 32 earthquake-affected districts at the municipal level. This data is updated by HRRP district staff in close coordination with municipal focal persons. The links will be automatically updated to provide the reconstruction snapshot (PDF) for the month.

Municipal Dataset on Reconstruction

CSV, PDF

A composite dataset for 282 municipalities (urban status, damage grade, reconstruction, retrofitting and vulnerable HHs as identified by NRA can be assessed here as CSV and PDF). The dataset is updated by the municipalities with support from HRRP.
