 HRRP Housing Recovery and
Reconstruction Platform
BULLETIN

28 March 2022

Nepal Army's rescue team -RNA 16 and its firefighters along with technical support from Nepal Red Cross Society Bhaktapur district Chapter have performed a fire control practice/safety drill in front of the Nyatapola Temple, Bhaktapur Municipality on 25th March 2022. In the current dry season and likely fire outbreak incidents, the drill exercise was conducted particularly to raise public awareness and was observed by elected local officials along with the general public and pedestrians at large. "To prepare and inform local levels and the general public against fire, the fire drill exercise has triggered the general public for taking necessary protection measures against fire incidents", added by Mayor of Bhaktapur Municipality, Mr. Sunil Prajapati.

KEY HIGHLIGHTS

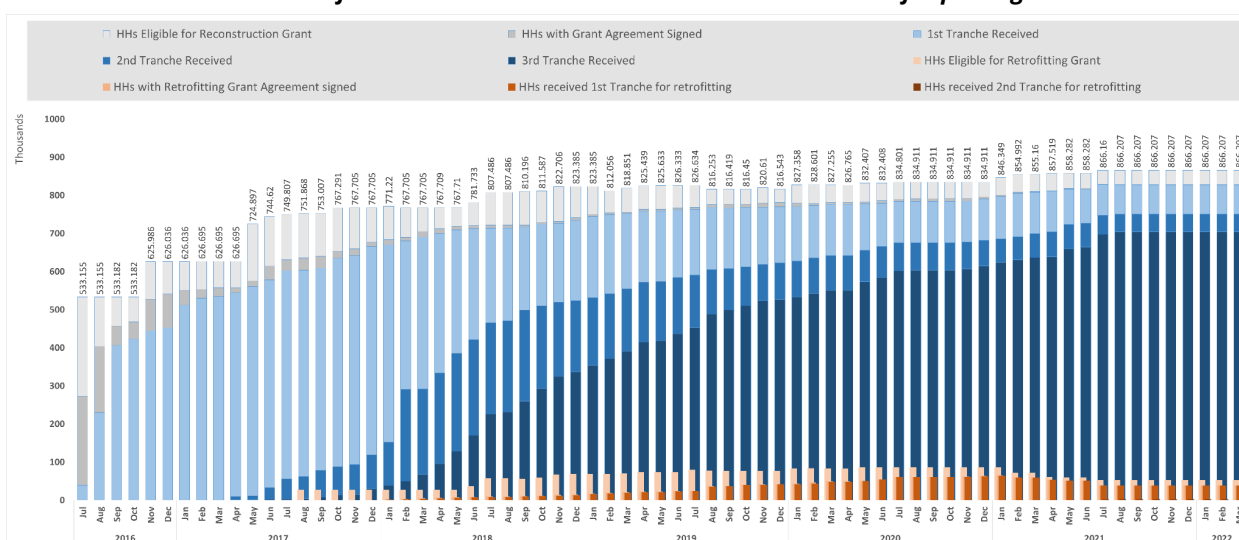

- i) The Proceedings of the fourth Asia Shelter Forum 2021 is out!
- ii) Fire outbreak incidents are increasing; its high time that we remain alert to safeguard against fire risk in our area
- iii) National Level Workshop on 'Private Sector Role in Disaster Risk Reduction stressed on collaborative approach by private sectors in mitigating disaster risk
- iv) Second Periodic Meeting (Semi Government) under the National Platform for Disaster Risk Reduction
- v) Sensitization Program on Sphere Standards were organized to sensitize local governments and humanitarian actors of Karnali Province
- vi) Thematic Periodic Meeting on Media Subjective Group were organized in Kathmandu
- vii) NDRRMA have conducted field assessment in Panchthar district to observe effects of post monsoon induced rainfall
- viii) Technical field assessment conducted by NDRRMA to observe the possible relocation sites of flood and landslide affected areas of Barhabise Municipality, Sindhupalchowk
- ix) NDRRMA with support from HRRP have conducted orientation on Reconstruction MIS to address issues of housing reconstruction of fire and monsoon affected households
- x) NDRRMA to conduct inception and consultation workshop on 'Localization Study on Disaster Risk Reduction and Management' on 29 March 2022 in Kathmandu
- xi) Report of the fourth Asia Shelter Forum 2021 is out!

NATIONAL UPDATES

MoUD CLPIU- Housing and Building Grant Disbursement Data, as of 28 March 2022

Reconstruction Grant	6 December	27 December	31 January	28 February	28 March

Progress with the disbursement of the GoN housing reconstruction and retrofit grants based on NRA GMAI CLPIU data as of 28 March 2022

The Proceedings of the fourth Asia Shelter Forum 2021 is out!

The Asia Shelter Forum (ASF) 2021 report is out with all presentations and video links. https://www.hrrpnepal.org/.../ASF2021KTM_compressed-min... Nepal hosted the ASF 2021 meeting at Hotel Himalaya in Kathmandu from 25-27 November 2021, led jointly by the Ministry of Urban Development (MoUD) and the National Disaster Risk Reduction Management Authority (NDRRMA) on behalf of Government of Nepal (GoN) with the support by USAID, UKAid, Global Shelter Cluster and ASF Organizing Committee members. HRRP acted as the Secretariat for ASF 2021. The fourth ASF 2021 was concentrated on "Regional Learnings and Collaboration in Shelter and Settlements". The emerging issues in long term shelter recovery of disaster impacted people were at the core of the discussions in fourth ASF 2021. The assembled development practitioners influenced the attention of

the government and its stakeholders by highlighting the need to work constructively and to use their influence to strengthen regional learnings.

Fire outbreak incidents are increasing; its high time that we remain alert to safeguard against fire risk in our area

Under Secretary of NDRRMA, Mr. Sundar Prasad Sharma informed that, 'Every year 80% of fire incidents occur during early March to May (Falgun, Chaitra, Baishak and Jestha month), therefore 80% of prevention efforts have to be applied during these periods'. Around 480 fire outbreaks in a day have been recorded as per NDRRMA currently in mid-March. This years' fire incidents have increased by fourfold compared to 5 years ago. Fire outbreaks prevention is a dangerous and risky task, however efforts should be geared towards applying measures to mitigate fire incidents from households level to community and public property level. Access awareness video message here: <https://remain alert against fire outbreaks-NDRRMA>

National Level Workshop on 'Private Sector Role in Disaster Risk Reduction stressed on collaborative approach by private sectors in mitigating disaster risk

In collaboration with Ministry of Federal Affairs and General Administration (MoFAGA), several organizations joined hands together namely -DPNet, Disaster Management Network Nepal (DiMaNN), Volunteer Service Overseas (VSO), Association of Youth Organizations Nepal (AYON), Association of Community Radio Broadcasters Nepal

(ACORAB) and Friends Service Council Nepal (FSCN) has organized a national level workshop programs entitled 'Role of Private Sector in DRR' on 18th March 2022 in Kathmandu. The workshop majorly stressed on sensitizing the private sector representatives about the importance of National Platform for Disaster Risk Reduction (NPDRR) and its nine thematic groups as well as to strengthen NPDRR Private Sector thematic group.

In the workshop, Under Secretary and Spokesperson of NDRRMA, Dr. Dijan Bhattarai shared a presentation titled 'Disaster Management and Climate Change Adaptation Governance'. Dr. Bhattarai stressed the need for collective efforts by stakeholders

in disaster risk reduction. Dr. Bhattarai informed the participants that realizing the fact of collective actions, the GoN through NPDRR have mainstreamed the roles of private sector in DRR as one of the important stakeholder of DRR with formation of Private Sector Thematic Group in order to accommodate all private sector in disaster management. He requested the private sector representatives to have discussions within the group and stressed to develop a proper five year plan. Dr. Bhattarai also circulated information to the participants about the recent letter by the Ministry of Finance that asked the NDRRMA to facilitate the private sectors to clearly state their concern and demand tax exemption while importing goods that are used in DRR. Dr. Bhattarai requested private sectors to give feedback to the government on how they can collaborate on mitigating the risk of disaster. Read more in detail:

[national-level-workshop-on-private-sector-role-in-disaster-risk-reduction](#)

Subjective Committee Meeting (Semi Government) under the National Platform for Disaster Risk Reduction

The second periodic meeting (Semi Government) under the NPDRR was organized by DPNet in collaboration with NDRRMA on 24th March 2022 in Kathmandu. Spokesperson and Under Secretary of NDRRMA, Dr. Dijan Bhattarai shared key highlights of ongoing engagements of NDRRMA and shared the importance of coordination and collaboration with different stakeholders. He shared how semi government organizations can strengthen the country's DRRM sector, developing a rooster for DRR and working guidelines for

NPDRR. Dr. Bhattarai also stressed on making a roster of a semi government organization working in DRR. Read more here: [subjective-committee-meeting-semi-government-NPDRR](#)

Sensitization Program on Sphere Standards were organized to sensitize local governments and humanitarian actors of Karnali Province

DPNet Nepal, with an aim to share knowledge and learnings of DRR, organized a Sphere Sensitization Program in close coordination with NDRRMA and Ministry of Internal Affairs and Law (MoIAL), Karnali Province, on 10th March, 2022 at Birendranagar, Surkhet district. Undersecretary and Spokesperson of NDRRMA Dr. Dijan Bhattarai, chaired the sensitization program. Mr. Prem Raj Giri, Secretary of MoIAL, Karnali Province graced the program as Chief Guest. Mr. Rishi Raj Acharya, Under Secretary of MoFAGA

Mr. Rishi Raj Acharya, Under Secretary of MoFAGA shared about the Issues of Humanitarian Standards in DRR Localization Process and Mr. Krishna Bahadur Rokaya, Officer of MoIAL, Karnali Province, presented a picture of Disaster Situation of Karnali Province. Dr. Bhattarai from NDRRMA emphasized on the necessity of collective initiation for provincial and local governments in DRR. He stressed the participants to implement the globally practiced humanitarian standards while delivering assistance during disaster. The participants of the Sphere Standard Sensitization Program were committed to practice the Sphere Standard in their response to the humanitarian crisis. Read detail news: [program-on-sphere-standards-in-karnali-province](#)

Thematic Periodic Meeting on Media Subjective Group were organized in Kathmandu

The thematic periodic meeting of the Media subjective group was organized by DPNet on 6th March, 2022 in Kathmandu. The objective of the program was to highlight the role of the media in DRR initiatives. Under Secretary and Spokesperson of NDRRMA, Dr. Dijan Bhattarai, highlighted the importance of media and said that media can play expertise in NPDRR Platform and requested a 5 year Action Plan for a good working strategy. Participants applauded the role of the media in working closely with the government to notify the citizens about vulnerable areas and flow of information in a timely manner. Acting Chair of DPNet, Dr. Raju Thapa has informed the program about the need to move in an inclusive way in disaster risk reduction and management in the country's changing scenario. NDRRMA conducted field assessment in Panchthar district to observe effects of post monsoon induced rainfall

NDRRMA conducted technical field assessment of post monsoon induced rainfall of October 2021 in locations of Panchthar district from 4-10 March 2022. HRRP has provided

support in data collection of landslides affected beneficiaries in the KoBo tool for initiating the enrollment process so that beneficiaries can reside in disaster resilient houses. The visit was initiated after NDRRMA received a request letter from three affected rural municipalities of Panchthar district namely Miklajung, Phalgunanda and Tumbewa.

The field visit team from NDRRMA conducted three orientations on KoBo tools and reconstruction MIS system to Engineers and IT officers of Miklajung, Phalgunanda and Tumbewa RMs respectively. A field verification was conducted and sample data were uploaded in KoBo tools. Engineers from Palikas were mentored on inspection of the affected houses on the basis of

damage grade. The assessment also conducted technical verification of 15 houses where 9 houses fell in damage grade 4 and 5 and remaining 6 houses were in damage grade 2 and 3. The assessment found that the affected HHs need to be shifted from temporary shelters into disaster resilient houses as the monsoon approaches. Further, the assessment also recommended relocation of some beneficiaries in safe and resilient houses before the monsoon that is approaching.

Technical field assessment conducted by NDRRMA to observe the possible relocation sites of flood and landslide affected areas of Barhabise Municipality

Team of geologists from NDRRMA have conducted technical assessment of relocation sites of monsoon affected various locations of Barhabise Municipality, Sindhupalchowk district from 23-25 March 2022. The major objective of this technical assessment was to assess the technical layout planning of relocation sites. HRRP provided technical support to conduct the assessment. During the technical assessment, the team visited probable relocation sites of Khagdal, Rumta, Tangsar and Khahare sites of Barhabise Municipality. Interaction with Deputy Mayor of Barhabise Municipality was also done

by the visit, informing about the preliminary findings of the assessment too.

NDRRMA with support from HRRP have conducted orientation on Reconstruction MIS

HRRP in coordination with NDRRMA have supported Reconstruction MIS (RMIS) virtual orientation to Engineers, IT Officers and other concerned staff working in data management in entire Palikas of total 10 districts till date. Districts completed with RMIS training include Dhankuta, Sunsari, Kanchanpur, Lamjung, Dolakha, Ramechhap, Kavrepalanchowk, Chitwan, Parsa and Dhading. The RMIS orientation was initiated mainly to address issues on data collection of fire outbreaks and monsoon affected HHs to be enrolled in NDRRMA's KoBo Collect Mobile App and to further implement the RMIS in full fledged manner. Similarly, the orientation also highlighted sharing to tackle the queries on technical issues while using KoBo App and RMIS along with a refresher training to revisit enhancing the learnings of the MIS personnels in the targeted districts.

NDRRMA to conduct inception and consultation workshop on 'Localization Study on Disaster Risk Reduction and Management' on 29 March 2022 in Kathmandu

NDRRMA in joint coordination with HRRP is carrying out study on localization of disaster risk reduction and management in Nepal with the purpose of examining and identifying the scope for strengthening institutional capacity of local governments on disaster risk management, within the context of post disaster housing reconstruction and recovery, as well as disaster risk management and post disaster recovery processes, during a time of political landscape transformation in Nepal. This localization study further aims to identify all actors involved in the process of localization of DRM and the post-disaster housing and settlement recovery process, bring them together, and map out their relationships to identify strengths, gaps and successes-as they pertain to implementing the DRRM Act 2017 and achieving the mandate of DRRM Strategic Plan of Action 2030.

To take valuable inputs and consolidate the feedback, NDRRMA has planned to conduct an inception and consultation workshop in Kathmandu dated 29 March 2022 in Kathmandu. The key targeted participants of this consultative workshop are influential representatives from NDRRMA, MoHA, MoUD, MoFAGA, Ministry of Forest and Environment, Ministry of Land Management, Cooperatives and Poverty Alleviation, along with Survey Department

and MoUD CLPIU Building & Housing. Similarly, NDRRMA has graciously included representatives from Municipal Association of Nepal (MuAN), National Association of Rural Municipalities in Nepal (NARMIN), key donors agencies, I/NGOs and other concerned agencies to capture their essence of involvements in several initiatives such as local level restructuring and inputs to key documents and policies on local level governance. For detail, contact: Mr. Minar Thapa Magar, National Coordinator -HRRP, 9841076869, minar@hrrpnepal.org.np

PARTNERS UPDATE

NDRRMA along with the organizations provided inputs to feed into development of UNDP's Five-year plan on DRRM

A meeting on taking feedback and valuable inputs in preparing a five year priority development plan on DRRM of UNDP Nepal was organized at NDRRMA dated 10th March 2022. The meeting was attended by Chief Executive of NDRRMA, Mr. Anil Pokhrel along with representatives of MoHA and other various organizations such as UNDP, NRCS, DPNet Nepal, Save the Children, CARE Nepal, Mercy Corps, Plan International, NSET, CRS and HRRP. Mr. Pokhrel from NDRRMA has highlighted the utmost need of adhering to policies mentioned in DRRM related National Acts, Regulations and Guidelines while formulating program development by UNDP. Multi-hazard disaster response, technical recovery and settlement relocation and recovery was at the core of the discussions.

NRCS is going to implement cash transfers through social protection for climate related hazards

The Nepal Red Cross Society (NRCS) is making plans to capitalize on last year's experience with simulated and real cash-interventions around two flood-peaks to continue work with local authorities to strengthen social protection and early action for climate-related hazards so that most vulnerable individuals and groups are reached with their support in a timely and cost-effective manner. With an eye on the forthcoming monsoon season, efforts are now underway to implement cash relief with pre-loaded debit cards, while also taking advantage of the GoN, Prime Minister's Employment Programme – a public works scheme – to implement early action. After a serious flood episode in late August 2021, NRCS was

engaged in a simulation assessment conducted in Bardiya and Kailali districts to test early actions and assess the feasibility of leveraging Nepal's existing Social Security Allowance (SSA) programme, essentially linking SSA components to forecast-based action. Read detail news: [Implementing cash transfers through social protection in Nepal – Red Cross Red Crescent Climate Center](#)

Orientation and Training on application and usage of BIPAD portal

A three-day orientation and training of using BIPAD (Building Information Platform Against Disaster) portal to HRRP staff was held virtually from 9-11th March 2022 with support from Youth Innovation Lab (YIL). HRRP is collaborating with YIL for the institutionalization of BIPAD portal at provincial and local levels in near future, along with other possible interventions on use of portal during and after disaster for research analysis.

The contents of training included- overview of the BIPAD portal & its national and international practices, initiation, and development of the portal and its different modules. Similarly, a walkthrough in the different modules of the portal was provided along with the IBF and VizRisk which are in the under development phase.

Overview of Open Street Mapping (OSM) and its importance in BIPAD was among the interesting sharing along with BIPAD for decision making, data driven policy, data collection methodology, data integration, report, and profile generation from BIPAD portal was also part of the sharing in the training. The participants have appreciated the BIPAD portal and have highlighted its importance in coordination with local levels for informed decision. Access program detail: [orientation on-bipad portal-YIL-HRRP](#). Contact Mr. Sachin Malego, IMO-National, sachin.malego@hrrpnepal.org

Project Kickoff and Sharing workshop on Community-based Landslide Early Warning System (CBLEWS)

Different stakeholders from the government, humanitarian organizations, and donor agencies participated and provided important feedback during the project kickoff and sharing workshop on launching of 'Community-based Landslide Early Warning System Project (CBLEWS)' dated 21st March 2022 in Kathmandu. The innovation project aims at disseminating early warnings to community members leveraging weather forecasts,

household-level vulnerability assessment data, and landslide susceptibility mapping. 'Institute of Himalayan Risk Reduction' together with 'NAXA' is working as a technical partner of Plan International Nepal in executing the innovative project funded by the 'Start Network'. The project will aid in effective anticipatory action implementation at the community level, saving lives in the rural corners of Nepal. For detail news: [CBLEWS Project launch-IHRRNepal](#)

Regional survey on 'Status of Ecosystem-based Adaptation (EbA) to DRR in Nepal, India and Bangladesh' has been launched

Supported by Asia-Pacific Network for Global Change Research, a regional survey on 'Status of ecosystem-based adaptation (EbA) to Disaster Risk Reduction (DRR) in Nepal, India and Bangladesh' has been launched. This survey is a two-year project, started from 2021, aims to systematically document the state of traditional and local knowledge (TLK) to DRR, and evaluate the extent of resilience provided by TLK using both empirical and theoretical frameworks. This survey aims to understand:

ECOSYSTEM-BASED ADAPTATION
disaster risk reduction
Nepal, India and Bangladesh
LOCAL AND TRADITIONAL KNOWLEDGE

Are you a DRR professional/expert?
yes We need you !

Take part of our regional survey on the assessment of traditional and local knowledge (TLK) to Disaster Risk Reduction (DRR).

<https://bit.ly/3pPlnXM>

1. What is the status of ecosystem-based adaptation to disaster risk reduction in Nepal, India and Bangladesh?
2. Has traditional and local knowledge been integrated into ecosystem-based adaptation to DRR?
3. How do key stakeholders involved in the DRR understand/perceive traditional and local knowledge?

Please participate in the survey by clicking the link below.

Training of Trainers were organized by NDRC Nepal to analyze the disaster risks on various scales of business and enterprises

National Disaster Risk Reduction Center (NDRC Nepal) in collaboration

with USAID's Tayar Nepal and technical support from ADPC APP Secretariats have conducted a Training of Trainers on Business Continuity Management and Business Continuity Planning from 22-25 March, 2022 at Dhulikhel, Kavre.

This ToT course has aimed to develop the capacity of around 25 training facilitators on disaster risk management or resilience with fundamental and practical knowledge to develop and operationalize a business continuity plan (BCP), which can be tailored for any kind of organization. Diverse participants were selected for this ToT, from commercial entrepreneurs to Micro Small and Medium Enterprises owners, NGOs owners and civil society organizations working on the development or humanitarian sector. Analysis on the impacts of disaster risks (risk assessment) were at the core of the discussion during the ToT. Read more: <https://ToT-BCP/ndrc.nepal>

HRRP supports NDRRMA to update current situation of fire brigade status of local government across the country

With the dry season approaching nearer, NDRRMA is in the process of updating the fire brigade datas from all 753 municipal governments across the country. NDRRMA in close coordination with HRRP Nepal has provided orientation to focal persons of all 753 local bodies (Urban and Rural Municipalities). NDRRMA Nepal has managed to accumulate updated data on fire brigade from 362 municipal focal persons. Almost 192 fire engine details have been updated till the day.

PROVINCIAL UPDATES - GANDAKI

Tanahu: A Memorandum of Understanding (MoU) has been signed between Vyas Municipality, Tanahu district and NSET to prepare the Risk Sensitive Land Use Plan (RSLUP) of the Vyas Municipality. Mr. Baikuntha Neupane, Mayor of Vyas Municipality and Mr. Surya Narayan Shrestha, Executive Director of NSET signed the MoU on 10th March, 2022. Refer: <https://nset/NSET2020>

Lamjung: HRRP- Gandaki province team have completed a meeting mainly with Chiefs of District Administrative Office (DAO) and District Coordination Committee (DCC) Lamjung district respectively on 22nd March 2022. DAO Lamjung is ready to initiate the survey of remaining reconstruction backlogs data which has yet not been uploaded into NDRRMA System for which HRRP team will be facilitating further and providing technical support for resolving any technical issues regarding on HHs survey tools and NDRRMA MIS system.

PROVINCIAL UPDATES - LUMBINI

Palpa: Caritas Nepal in support of Catholic Relief Services (CRS Nepal) has begun DRR awareness activities to the project communities of Ribdikot Rural Municipality, Bagnaskali Rural Municipality and Tansen Municipality of Palpa district. The project has targeted to reach 800 HHs through disaster risk awareness-based activities. So far 80 HHs have been reached at community level. A Palika Coordination Meeting was conducted at Ribdikot RM on 23rd March 2022 that has decided to collect disaster data from ward offices and record it in digital format at Palika office. The meeting has decided to involve government line agencies such as forest office, fire brigade office as well as community disaster lead activities of Palikas for larger sensitization purposes. Disaster training would be conducted in Ribdikot RM from May onwards.

PROVINCIAL UPDATES - BAGMATI

Bhaktapur: District Administration Office, Bhaktapur district with technical support from district Nepal Army team -RNA 16, Nepal Red Cross Society Bhaktapur district chapter and other concerned stakeholders have joined hands together to organize fire control practice and fire safety drill in front of the Nyatapola Temple, Bhaktapur Municipality, dated 25th March 2022. The drill program was attended by elected local officials of Bhaktapur Municipality along with a large number of public. The drill exercise has imparted key messages of how to safeguard and respond against fire outbreak or fire incidents at individual, households and community level.

Read more: [fire drill exercise-RNA 16-NRCS-BhaktapurMunicipality](#)

Kavre: A mock drill exercise as a part of preparedness activities to safeguard against disaster risk reduction was practiced at the stadium of Dhulikhel, Kavre district dated 7th

March 2022. The training was jointly organized by NRCS, Kavre Chapter and by security forces of Nepal Army and Nepal Police, Kavre district. Various drills and role play on safeguarding and protection against fire safety, preparedness against earthquake and to protect against gas leaks was conducted during the training. The general public was also present in the stadium to observe the program which imparted important messages of how to remain alert and safeguard against multi hazard disaster events. Mayor of Dhulikhel Municipality, Mr. Ashok Kumar Byanju stressed on collaborative approach between local governments and security forces in mitigating disaster risk, in preparedness also largely in rescue, relief and response efforts.

Read more: [mock drill-DRR preparedness activities-Dhulikhel](#)

Dolakha: 3-day Community Preparedness and Response training has been conducted in Ward No. 4, Malu Village of Tamakoshi Rural Municipality, Dolkaha during 2-4 March 2022. The training package consisted of Orientation on Disaster Risk Management, Damage

Assessment Training (DAT), Community Search and Rescue (CSAR) training, Basic Emergency Medical Response (BEMR) training and Simulation. Refer: <https://nset/NSET2020>

Interaction program held in a Disaster Resilient Model Village - Malu Khola of Tamakoshi Rural Municipality, Dolakha on 3rd March, 2022, that was participated by elected representatives, Chief Administrative Officer and staff members, local community members and teams from USAID/BHA & NSET. "Mero Surakshit Gaun", a USAID/BHA funded program implemented by NSET is providing support to the Rural Municipality for developing model villages. Refer: <https://nset/NSET2020>
