Field Visit /Joint Field Monitoring Visit Reports

Visit 1

Date: 12 th July 2018	Location: Jilu, Bhimeshwor Municipality-4	Participants from HRRP and Stakeholders
		• Binod Kalauni • Ravi Pajiyar • Kamal B Mahat • Er. Santosh Mishra(DLPIU) • Sita KC, Ward member • Haribansha Chaulagain, Ward Chair
Objective(s)	• To observe the reconstruction activities of Integrated Settlement; • To advocate the integrated settlement's households grievances to the central HRRP and other stakeholders in district and central;	

	To discuss the stakeholders about the integrated settlement including ward chair			
Summary	To observe the reconstruction activities of Integrated Settlement: Field visit at Jilu where integrated settlement for 183 HHs has been approved by NRA was visited to collect information and to observe the reconstruction activities. During the visit proposed area was observed by walking along the approach road planned for settlement. Additionally, settlement has been planned on both side of the approach road and for houses not linked to approach road are linked with service road. As per the engineer who has been directly involved in the preparation of master plan told that plots of 5 aana for individual household has been allocated and all the people have agreed for the size.			
	Further, people who don't have land to build their house can buy the land on the standard rate which has been fixed after the consultation with the people. Till date, not even single household has started construction of their house because the plotting of land has not been done. Recently, the tender has been awarded for the plotting of land and road construction to a Kathmandu contractor.			
	People of integrated settlement are expecting the extension of tranche deadline for them since, they will not be able to construct their houses prior to deadline fixed by government as plotting of land has not been started according to the master plan developed by DLPIU for integrated settlement. They are seeking support from government and development agencies for building of permanent shelters, drinking water facility and sanitary works. They have requested HRRP to coordinate with INGOs for the financial and in kind support to the 183 HHs in building permanent shelters.			
Challenges / Issues Identified		Action Required	Responsible	Timeframe
Tranche deadline set by NRA is near but they will not be able to construct their houses prior to the finalization of plotting.		Needed revise of tranche deadline for specific cases like integrated settlement, displaced communities etc.	NRA	Till the integrated settlement completed

Case Study

Jilu: Integrated Settlement, seeking support to rise

Case Study:

Jilu, politically, ward no. 4 of Bhimeshwor Municipality has been recognized as suppliers of agricultural products in Charikot. Recently, it has been approved for Integrated Settlement where 183 households have been residing currently. More importantly, The entire members of community were agreed to build similar houses just after the devastation. However, the decision was made earlier publication of NRA's Directives of Integrated Settlement Development 2018(2074 BS). The committee members of the Integrated Settlement faced numerous hurdles to make it happen and at the same time they were unknown about the process and procedure to begin their project.

Recently, Engineers from Ministry of Urban Development (MoUD/District Level Project Implementation Unit (DLPIU) has completed master plan of infrastructure development of settlement. Most importantly, roads are opened for Approach road and Service road according to the master plan of the project. Further, filling and cutting are their upcoming plans for making plots for housing construction.

Currently, tender for the project is awarded to a construction contractor of amount 73.2 Million. As the process of Integrated Settlement is ongoing, government is supporting as well, on the other hand the community members are not been enrolled yet as beneficiaries and are still living in temporary shelter. If they are not enrolled they will be deprived from government grant. Expectedly, they are waiting for the extension of tranche deadline to be postponed for them as special provision because they are constructing integrated settlement.

Most significantly, for the construction of model permanent integrated shelter, they have been expecting support for the shelter construction especially from the government, development partners. As one of the member of the integrated settlement in Jilu recently told in the meeting 'if any organizations who could support us 3 lakh, 4 lakh or how much it could for each household; we will construct our houses earthquake resilient.'

Case Study:

Jilu, Bhimeswor Municipality-4 where current proposed integrated settlement will build.
