

Total of 6 nature-based solutions and bio-engineering works were installed in working wards of Rapti Sonari and Duduwa Rural Municipalities (Banke district) under the Emergency Preparedness and Response Project (EPRP) of CRS Nepal. These green themed nature-based solutions included construction of bio-embankments using sandbags, bamboo crib wall, plantations, and gabion walls to manage the overland flow and flooding impacts. Communities residing in close proximity were thoroughly involved in installing these nature-based solutions with an objective to empower communities, enhance local resilience, and foster a sense of ownership and pride in creating a sustainable future. #EcoFriendlySolutions #GreenInfrastructure #FloodManagement

- III. Empowering Nepal's youths: Reflections from impactful National Youth Conference

NATIONAL UPDATES

Promoting Volunteer Spirit and Humanitarianism: World Humanitarian Day 2023

On the occasion of World Humanitarian Day 2023, a discussion program was organized under the 'Disaster Dialogue' series at NDRRMA on 20 August 2023. In that event, the speakers and participants shared thoughts that the public awareness campaign should be conducted from the secondary level of the school to increase the spirit of volunteering regarding disaster risk. This year's theme was #NoMatterWhat.

In a world beset by challenges, #NoMatterWhat speaks volumes about the extent to which humanitarian workers go, in an often dangerous and violent world to continue their mission and alleviate the human sufferings. The United Nations leads this global initiative. Focal personnels representing NDRRMA, NSET, Nepal Red Cross Society (NRCS) expressed the concept of humanitarian aid and volunteering in Nepal. The dialogue was organized by NDRRMA in joint cooperation with NPDRR (National Platform of Disaster Risk Reduction). A minute silence was made in honor of humanitarian aid workers who lost their lives at the beginning of the program. Humanitarian workers all around the world commemorate this day in memory of the UN employees who died in an attack on the United Nations in Baghdad, the capital of Iraq on 19 August 2003.

Embarking interactive discussion on GEDSI in DRRM Integration Strategic Action Plan

National Housing and Settlements Resilience Platform, Nepal

Discussion on the draft of "Gender Equality, Disability and Social Inclusion Strategic Action Plan in Disaster Risk Reduction and Management (DRRM)" held on 13-14 August 2023. The interactive discussion workshop was perceived as fruitful for participating organizations representing from NDRRMA, Ministry of Home Affairs, Ministry of Federal Affairs and General Administration, Social Welfare Council, National Disabled Federation Nepal, World Bank, UNFPA, CARE Nepal, Gender Experts and Researchers. Meanwhile, the participants suggested valuable inputs on simplifying the Strategic Plan and to make implementation mechanisms. The workshop was organized with technical support from CRS Nepal and NHSRP. For more information, contact: Ms. Sabitra Nepal, National Technical Advisor - GEDSI at NHSRP. Email: sabitra.pariyar@hrrpnepal.org

Empowering Nepal's youths: Reflections from impactful National Youth Conference

National Youth Conference 2023 was a thought-provoking and impactful event that brought together many young minds from all over Nepal to discuss the challenges and opportunities facing the country. The three-day conference, with the theme of "Green Skills for Youth: Towards a Sustainable World," held in Kathmandu from 10-12 August 2023, was organized by the Nepal Youth Council (NYC). The conference was attended by 220 participants from all 77 districts of Nepal, with more than 50% of participants being women and youths from marginalized communities, LGBTQ, and persons with different abilities. NYC also invited more than 20 experts, entrepreneurs, and leaders from different sectors, including Members of Parliament below 40 years of age, to maintain the youth energy.

The conference was a great success, and it provided a platform for young people from across Nepal to come together and discuss the issues that matter to them. They also had the opportunity to network with other young people and learn from the experts and leaders who were present. The conference was made possible by the support of more than 20 sponsors, who collaborated with NYC to empower and motivate progressive youths of

Nepal toward social responsibilities and to combat challenges. The conference helped to raise awareness of the challenges and opportunities facing Nepal's youth and it inspired young people to take action and shape the future of the country. It also provided a platform for young people to share their ideas and experiences and to network with each other. CRS Nepal and NHSRP collaborated with Nepal Youth Council and joined hands as

one of the partners to organize the National Youth Conference 2023 focusing on Sustainable Cities and Communities, Youth in Entrepreneurship, and Sustainable Development.

PARTNERS' UPDATES

Disaster Preparedness and Response Plan of Lalitpur made public

With the objective of preventing and reducing the impacts of disasters in Lalitpur district through coordinated preparedness activities and improved response capacity, the District Disaster Management Committee (DDMC)- Lalitpur has made public its "Disaster Preparedness and Response Plan (DPRP), 2080" through a workshop organized in Lalitpur on 15 August 2023. DDMC Lalitpur prepared the

plan with the technical support and cooperation from NSET and DpNet Nepal. The participants of the workshop expressed their comments and suggestions on the contents of the plan after the presentations. The program was participated by around 70 people including members of the District Disaster Management Committee-Lalitpur, Mayor of Mahalaxmi Municipality, Chairman of Bagmati Rural Municipality, Chiefs of the offices and departments of government of Nepal based in Lalitpur, representatives of non-governmental organizations based in Lalitpur, DRR stakeholders, Journalists among others. Detail news: [DPRP of Lalitpur](#)

Strengthening linkages for disaster preparedness and response

Ministry of Home, Communication and Law (MoHCL) Madhesh Province successfully organized a one-day capacity-building training for strengthening linkages among province, district, and Local Emergency Operation Centers (LEOC) on 9 August 2023 at Janakpur. The training was supported by KOICA-Global Green Growth Institute Nepal (GGGI)/ Climate Smart Agriculture Project.

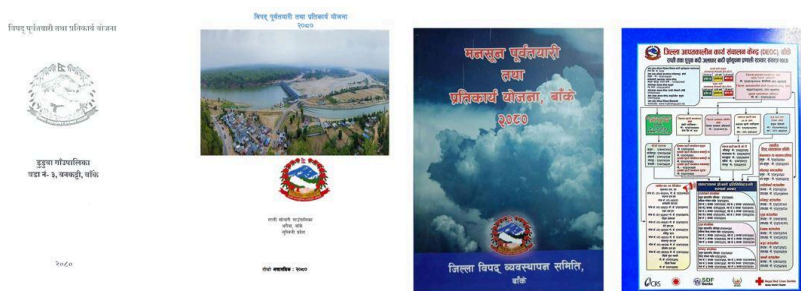

The training highlighted the responsibilities of LEOC, information management, weather forecast, flood early warning systems, monsoon bulletin and dissemination of authentic information to the community. The use of social networks to exchange disaster related information among LEOC and local communities was also presented by GGGI representatives. Participants of this training were representatives from Dhanusha and Mahottari districts covering 10 municipal governments, including District Emergency Operation Center (DEOCs) of Dhanusha, Mahottari, Dhanusha and Mahottari. The NHSRP Madhesh team coordinated with HoHCL to provide support in organizing the program. During the program, the NHSRP Madhesh team shared key insights from NDRRMA's Reconstruction Guidelines, BIPAD Portal, RMIS tool and beneficiary survey tool.

Fostering resilience through collaborative disaster preparedness initiatives

Emergency Preparedness and Response Project (EPRP) being implemented by CRS Nepal at Banke district in partnership with Caritas Nepal has prepared Disaster Preparedness and Response Plan (DPRP) of project wards and municipalities (Rapti Sonari Rural Municipality -1,2,3,4 & 5 and Duduwa Rural Municipality -1,2 & 3) and Monsoon Preparedness and Response Plan (MPRP) of Banke district in a systematic and structured participatory

approach. The process included identifying diverse stakeholders, including elected local heads to government officials and community members.

The local policy documents, DPRP and MPRP, clearly outline roles and responsibilities of each sub-sectors to ensure a comprehensive and coordinated approach to manage the hazards/disasters in their respective wards/municipalities/districts. The actions at different phases of disaster management such as prevention/mitigation, preparedness, response, and recovery included in the plans were identified through rigorous consultation and discussion with Disaster Management Committees (ward, municipality, and district) and local communities.

These plans were endorsed by respective wards/municipalities/districts and it has helped the local government to identify the resources required, budget allocation through local level planning and budgeting process and ensured coordination among relevant agencies. For more information, contact: Mr. Krishna Dev Joshi, DRR Coordinator-EPRP/CRS. Email: krishna.joshi@crs.org

Empowering communities and enhancing resilience through nature based solutions

Total of 6 nature-based solutions/bio-engineering works have been implemented in project working wards of Rapti Sonari and Duduwa Rural Municipalities (Banke district). This initiative was undertaken through EPRP, being implemented by CRS Nepal at Banke district in partnership with Caritas Nepal. The mitigation sites were identified by ward level disaster management committees during ward level vulnerability and capacity assessment process and are included in the DPRP were prioritized, based on past

events of disasters impacts, vulnerabilities and exposure of communities.

Consultation with respective wards and communities was carried out to analyze the need and requirement to finalize the implementation approach. The nature-based solutions included construction of bio-embankments using sandbags, bamboo crib wall, plantations, and gabion walls to manage the overland flow and flooding impacts. Community-led implementation of nature-based solutions was carried out in all 6 identified places with an objective to empower communities, enhance local resilience, and foster a sense of ownership and pride in creating a sustainable future. For more information, contact: Mr. Krishna Dev Joshi, DRR Coordinator-EPRP/CRS. Email: krishna.joshi@crs.org

Research report of EWAP shared with the local officials and communities of Gatlang, Rasuwa

Documentation of himalayan wooden architecture in Tamang Heritage trail of Nepal has been envisioned through Endangered Wooden Architecture Program (EWAP). CRS Nepal undertook the role of Host Institution for the "Consortium of CRS Nepal, Architecture Sans Frontières Nepal (ASF), and the National School of Architecture of Grenoble (France)" to implement this short research project in Nepal under Oxford Brookes University funding in which NHSRP provided technical support. The research works under EWAP initiated from February 2023 onwards.

The particular ancient wooden architectures of Tamang Heritage Trail in Ward -3, Gatlang, Rasuwa district for its relevance in a multi hazard prone area. The research revealed that there is a need to preserve it in a fast-changing context, in the reconstruction process following Gorkha's earthquake (2015). The research done by EWAP has scaled up the understanding and documentation of the Local Building Cultures (LBC) in different contexts, mostly affected by conflicts or disasters. During August end 2023, the final project report was shared with the Ward Chairperson and local communities of Ward -3. The report provided future significance at national and international level mainly on archiving the information collected by the project and its usage in long-term reference.

For more information contact: Mr. Rijan Gajurel, National Technical Coordinator-Government Coordination, NHSRP. Email: rijan.gajurel@hrrpnepal.org

Safer building construction training for masons and carpenters in Banke

On-the-Job (OJT) mason and carpenters training started at Rapti Sonari and Duduwa Rural Municipalities (Banke district) on Safer Building Construction supported by CRS Nepal and implemented by local partner- Caritas Nepal together with Department of Urban Development and Building Construction (DUDBC) Banke and technical support from NHSRP Lumbini. OJT aims to train masons and carpenters on flood and earthquake resilient housing construction. The 40-days training content includes theory and practical on improved stone and brick masonry techniques following DUDBC standard curriculum. Furthermore, carpentry training will be conducted to upscale carpenters for better joinery and connection of building elements to withstand flood and earthquake. In addition, training will also be provided on lime stabilized soil wall plasters and flood screed which are resistant to flood. The pilot demonstration construction is planned to go together with on-the-job OJT mason training where local masons of Rapti Sonari and Duduwa Rural Municipalities can apply learnings and construct a demo-community building for both municipalities.

The Technical Working Group (TWG) on Flood Resilient Housing Solutions contributed in drafting the training curriculum of OJT. Similarly, TWG laid technical guidance throughout on suggesting various house designs feasible for safeguarding flood damage in low lying areas and developing the design catalog on flood resilient housings. For more information, contact: Mr. Rupesh

Shrestha, Technical Coordinator-Flood Resilient Housing Solutions, CRS. Email: rupesh.shrestha@crs.org

UPDATES FROM BAGMATI

Strengthening capacities on building code implementation

One day training on Building Code Implementation (BCI) was organized at Chautara, Sindhupalchowk district on 3 August 2023. The main objective of the training is to impart knowledge on provisions of Nepal National Building Code (NNBC) and build the capacity of technical professionals so that they can evaluate the design, drawings and monitor construction works as per updated NBC requirements. Further, the training aims in imparting knowledge on the building permit process so that technical professionals can contribute in enforcing building codes. The training was attended mostly by technical personnel of all local municipal governments of Sindhupalchowk.

Crafting a knowledge-enriched disaster preparedness and response plan

Bagmati Provincial Disaster Preparedness and Response plan (DPRP) is in the stage of formulation under the leadership of the Ministry of Internal Affairs and Law (MoIAL). The NHSRP team facilitated technical support along with a series of meetings. The main purpose of the series of meetings is to review the draft DPRP with representatives from various ministries.

To incorporate the technical feedback in the DPRP, one of the key meetings included sharing the draft to the cluster lead agencies done physically and sharing with co-lead agencies of Bagmati province were done virtually. The intention is to incorporate these valuable inputs into the draft DPRP, ensuring that the plan is comprehensive, effective, and well-informed. This collaborative

approach involving different ministries and the NHSRP team reflects the commitment to developing a robust disaster preparedness and response plan for Bagmati Province.

UPDATES FROM GANDAKI

Collaborative effort and risk-informed mitigation through assessment studies

An extensive geohazard assessment took place across Wards 1, 3, 4, and 5 of Mangala Rural Municipality (Myagdi district) from 9-11 August 2023. The assessment was a collective effort, with the participation of NHSRP Gandaki team including the Geologist, the RM Chairperson, Ward Chairperson, DRR focal person, technical staff, and local community members. Notably, the team engaged in interaction with the local community at the field site, providing them with comprehensive insights into the identified risk sites which is likely to address a wide range of potential challenges and probable risks in near future.

Formulation of Local Guidelines to Facilitate Risk-Informed Decision Making

Draft of "Rural Road Construction Guideline" and "Geohazard Assessment Guideline" was presented to Executive Committee Members of Mangala Rural Municipality (Myagdi district) on 9 August 2023. The technical personnel from NHSRP Gandaki along with Geologist shared the key highlights from the draft documents that covered information on geological setting of Mangala RM, landslide hazard map, need of resilient roads and how local bodies itself can conduct the initial assessment of landslides. The documents are expected to guide the municipal executive committee to

take risk-informed decision making, enhance infrastructure resilience and safeguard the community from potential geohazards.

Enhancing expertise of local technical personnels on building code implementation

Five-days Training of Trainers (ToT) on Nepal National Building Code (NNBC) has been successfully organized from 25 – 29 August 2023, in Lamjung district. The main objective of the training is to impart knowledge on provisions of NBC and build the capacity of technical professionals so that they can evaluate the design, drawings and monitor construction works as per updated NBC requirements. Further, the training aims in imparting knowledge on the building permit process so that technical professionals can contribute in enforcing building codes.

Technical assistance and support for the training was provided by NHSRP and NSET-Nepal. The training was attended by a total of 22 technical personnels (engineers and sub-engineers) from various six municipal bodies including Vyas Municipality (Tanahun), Rupa Rural Municipality (Kaski), Besisahar & Sundarbazar Municipalities, Dordi and Marsyangdi Rural Municipalities (Lamjung). During the session, attendees achieved a shared comprehension of the ongoing progress in NBC implementation. They also gained extensive insights into both the theoretical and hands-on aspects of NBC through field-level monitoring exercises. The ToT program was organized under Homes and Communities Project -Lamjung (CRS Nepal) and implemented by local partner Rural Community Development Center -Lamjung.

UPDATES FROM LUMBINI

Advancing resilience by unveiling the implementation plan on DRRM procedures

Final Validation Workshop on Lumbini Province DRR Strategic Action Plan (2023-2030) Implementation Guideline was conducted on 10 August 2023 at Dang, under the leadership of Ministry of Home Affairs -Lumbini Province. The key highlights of the implementation measures of the Strategic

Action Plan were shared by the Expert and NHSRP team.

The program was attended by concerned representatives of provincial line ministries, security forces, partner organizations and local governments as well. The Secretary of MoHA Lumbini Province, Mr. Lal Bahadur

Kawari informed the participants of the formal endorsement from the upcoming executive committee meeting after the inputs are incorporated. The Strategic Action Plan along with the Implementation Guideline is received as the crucial step towards building a more resilient and safer future for Lumbini province.

Empowering disaster response and risk reduction through BIPAD Portal training

Three-days training on BIPAD Portal was organized by NRCS in coordination with the District Administrative Office of Rolpa, NDRRMA, World Bank and NHSRP Lumbini, from 7-9 August 2023. The program was attended by concerned representatives of all local levels of Rolpa. The training focused to enhance the capacities of mainly IT and technical personnels to view, edit and update the data from municipal level, from organizations and from District Emergency Operation Center (DEOC). Participants emphasized how to make best use of NDRRMA Reconstruction MIS, emergency warehouse and BIPAD Portal access with login. This training was seen as supportive to enhance capacities to execute necessary interventions on disaster risk reduction in Rolpa district for data-driven decision making in all aspects of disaster through the use of a portal.

UPDATES FROM KOSHI

Strengthening capacities of local governments in housing reconstruction

One day orientation on “NDRRMA’s Monsoon/Fire-Induced Disaster-affected Private Housing Reconstruction and Rehabilitation Grant Disbursement Guideline, RMIS tool and Kobocollect survey tool” completed at Sidingwa Rural Municipality (14 August 2023) and Maiwakhola RM (9 August 2023) of Taplejung district. The diverse group of municipal participants. Demonstration of the survey using Kobocollect survey tool was also rolled out by involving technical personnel of Ward -7, Sidingwa RM. To speed up the disaster affected housing reconstruction. The orientation was conducted through REACT Project (implemented by the consortium of CRS, NSET, NHSRP and Volunteers Corps Nepal) in order to enhance capacities of local governments to speed up the disaster affected housing reconstruction in response to the recent severe flood of 17 June 2023 that affected many parts of Maiwakhola & Sidingba RMs.

Geohazard assessment of landslide and flood affected sites in Maiwakhola and Sidingwa RM

A field visit regarding geohazard assessment of landslide and flood affected sites in Maiwakhola and Sidingwa Rural Municipalities (Taplejung district) was conducted from 8-17 September 2023. The NHSRP Koshi team along with Geologist consulted with respective rural municipalities about the assessment. Comprehensive details and the working activities of Taplejung Recovery Project was shared. The team visited proposed relocation sites along with the municipal local heads to gather precise information on the current geohazard condition, causes of landslide, identify possible solutions and challenges to recovery from the current status and mitigate further risks. One temporary relocation site was assessed which is under-construction for the landslide affected households. The municipal chairperson shared about the housing model and ongoing construction works. The geohazard assessments were conducted on prioritized locations where houses have been damaged by landslides and numbers of houses are at immediate risk from the landslides. More information: [Summary report of geohazard assessment site visit](#)

Exploring challenges in implementation of DRRM procedures through KIIs and FGDs

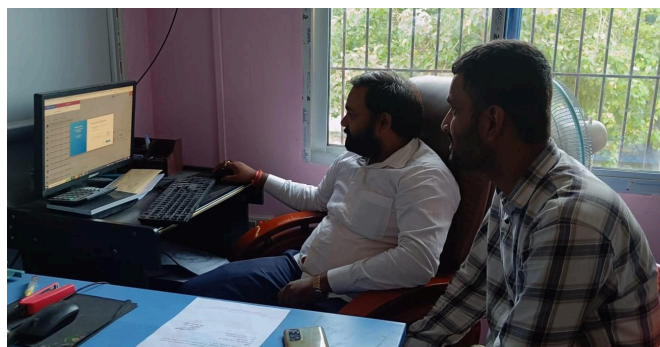

The NHSRP team visited Dhankuta Municipality on 24 August 2023 with a purpose to discuss the effectiveness of housing grant distribution processes provided by NDRRMA to address the disasters caused by monsoon and fire. The Key Informant Interviews (KIIs) and Focused Group Discussion (FGDs) were conducted by an expert team of NHSRP centered around the issues faced by those affected by disasters, particularly the landless population, and tracked the approaches the municipality has taken to address the local issues. Similarly, the team also conducted FGD with disaster-affected people who were able to receive their tranche as per the guidelines. This discussion also highlighted the challenges and issues that the disaster-affected municipality encountered while receiving the grants. On 25 August, FGD was conducted with the representatives of development partners working in Koshi province such as UNFPA, Habitat for Humanity, Rural Reconstruction Nepal, NRCS, NGO Federation, FEDO and Swiss Development Corporation. The FGD helped to explore the current status of GEDSI Integration by the CSOs in their projects, challenges and possible way forward.

UPDATES FROM MADHESH

Technical support for DRRM system effectiveness to municipal bodies

In the Rautahat district, the Madhesh team extended its technical support to Madhav Narayan Municipality. This support involved the crucial verification of beneficiaries for housing reconstruction following fire and monsoon-related incidents, utilizing the

RMIS tool. NHSRP Madhesh team extended technical support to Pokhariya Municipality (Parsa district) Chakraghatta Rural Municipality (Sarlahi district) regarding key highlights of NDRRMA reconstruction guidelines, BIPAD portal, RMIS tool. Creation of login credentials of BIPAD portal and RMIS were also included in the support package. Chakraghatta Rural Municipality similarly benefited from this expertise. Furthermore, the team played a pivotal role in relief distribution in the flood-affected areas of Rajpur Municipality and Durga Bhagwati Rural Municipality in Rautahat district. The team's efforts extended beyond immediate relief to encompass the assessment of needs and non-food item distribution to disaster-affected beneficiaries in Sarlahi and Rautahat districts. This approach ensures a more holistic response to the challenges faced by local communities.

Exploring challenges in housing grant distribution through KIIs & FGDs

To ascertain the integration status of GEDSI in Disaster Risk Reduction and Management (DRRM) efforts, the NHSRP team conducted KIIs and FGDs with focal officials from the MoHCL, Ministry of Physical Infrastructure Development, Ministry of Education, and Social Welfare of Madhesh Province. Additionally, an assessment was conducted in Kamala Municipality (Dhanusha district), aimed at identifying bottlenecks in effectively implementing the grant disbursement guidelines developed by NDRRMA. This comprehensive approach underscores the commitment of the NHSRP Madhesh team to bolstering disaster resilience through collaborative and multifaceted initiatives.

UPDATES FROM SUDURPASCHIM

Strengthening capacities of local governments in housing reconstruction

The NHSRP Sudurpaschim team has shed light on the "Monsoon/Fire-induced Disaster Affected Private Housing Reconstruction & Rehabilitation Grant Disbursement Procedures" and

"Reconstruction MIS tools" during the Provincial Council Meeting of Sudurpaschim Province on 2 August 2023. The team's efforts have resulted in clarity over the housing grant provisions as per the Guidelines & RMIS tool, paving the way forward for Council members to plan capacity enhancement programs involving the provincial & local agencies.

Technical coordination for strengthening capacities on disaster recovery procedures

The collaboration between the NHSRP Sudurpaschim team, Chure Rural Municipality, and Godawari Municipality (Kailali district) resulted in the provision of an orientation session focused on NDRRMA Reconstruction Guidelines, RMIS tool, and Kobocollect Apps. The orientation held in Chure aimed to enhance the capacity of technical personnel on the frontline, enabling them to effectively gather data from 116 households displaced by the landslide triggered by the relentless rainfall during the 2020 monsoon season. These households are situated in Ward-5. In a similar vein, an on-site orientation took place in Godawari Municipality, specifically in Ward- 4, Bhabar, Budhitola landslide area. This orientation proved invaluable in helping participants become proficient in utilizing Kobocollect Apps for the purpose of collecting beneficiary data. During the orientation, the NHSRP team provided guidance to the frontline staff, assisting them in creating accounts on both the RMIS platform and the Portal.

UPDATES FROM KARNALI

Enhancing local government capacities in DRRM mechanisms

NHSRP Karnali team NHSRP and Chaukune Rural Municipality (Surkhet district) signed a MoU for pilot municipality, to provide technical backstopper in various sectors of DRRM, including capacity building programs, policy dissemination, progress visualization, and DRRM bylaws formulation.

Meanwhile, Karnali team organized physical orientation on NDRRMA's Monsoon/Fire-induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Disbursement Procedures, Reconstruction MIS and Kobocollect Survey Tool with Chaukune Rural Municipality. This event brought together key officials and frontliners to strengthen technical coordination and capacity for DRRM. Karnali team also coordinated with Dailekh District Administration Office and Chingad Rural Municipality of Surkhet district for organizing virtual orientations on Reconstruction Guidelines and beneficiary enrollment procedures in the Reconstruction MIS tool. Capacity enhancement through virtual medium proved to be effective in coordinating disaster relief efforts in various districts.

****Bamboo Construction and Design Training** @Online ~~SCAN the QR code~~**

Habitat for Humanity Nepal (HfH) in collaboration with Base Bahay Inc. is planning to organize a series of Training on Bamboo Construction and Design. This capacity enhancement training aligns with Habitat Nepal's ongoing collaboration with Nepal Government (MoUD/DUDBC) on the development of the National Bamboo Guideline. Bamboo is the [#green](#), affordable, [#resilient](#) and [#naturebasedsolutions](#) to housings.

Hey Housing Practitioners!! Grab this wonderful opportunity to learn from the experts. SCAN the QR code present in the image to secure your spot now!

Enroll yourself through the [direct registration link](#)

The poster for the "CEMENT-BAMBOO FRAME TECHNOLOGY" training event features logos for The Foundation, Habitat for Humanity Nepal, and Base. It includes a list of speakers: Dr. Pablo Jorillo (Base General Manager), Engr. Luis Lopez (Base Head of Technology), Engr. Vembee Gohetia (Base Structural Engineer), and Ar. Luigee Castillo (Base Architect). The event is scheduled for September 7, 2023, via Zoom from 12:00 NN to 4:00 PM (NPT). A QR code is provided for registration, and the text "Free Registration" is displayed.

****9th Asia-Pacific Housing Forum****

Held every four to five years, this Forum is the largest regional gathering of stakeholders, policymakers, national governments, financial institutions, civil society, organizational practitioners and many more from specific urban sectors to discuss innovative solutions, identify common actions and objectives and strengthen effective partnerships to achieve sustainable urban development.

The poster for the "ASIA-PACIFIC HOUSING FORUM" features a stylized house icon with an upward-pointing arrow. The text "Enabling sustainable and affordable housing in informal settlements" is prominently displayed. The event dates are October 26-27, 2023, in Suwon, South Korea. The organizer is Habitat for Humanity, as indicated by the logo at the bottom.
