

The second edition of Nepal Shelter Forum, themed "From Recovery to Resilience: Localizing National Policies and Frameworks for Multi-Hazard Resilience," successfully concluded in Kathmandu from May 7th to 8th, 2024, organized under the leadership of the NDRRMA. As esteemed guest of Closing Session of #NSF2024, Honorable Deputy Prime Minister and Home Minister Rabi Lamichhane informed the participants about approval of "Disaster Affected Private Housing Retrofitting, Reconstruction and Resettlement Tranche Disbursement Procedure" with amendments to provide housing grants to the affected people who have lost their homes after multi-hazard disaster. The gathering of government stakeholders and development actors showcased the heightened shared goals of promoting post disaster recovery, reconstruction and resilience in the region.

KEY HIGHLIGHTS

- I. **Completion of 2nd Nepal Shelter Forum: Guided by Slogan of “From Recovery to Resilience: Localizing National Policies and Frameworks for Multi-Hazard Resilience”**
- II. **Jajarkot Joint Recovery Plan (JJRP) in Nepal to address the West Nepal Earthquake**
- III. **Approval of 'Procedure on Temporary Housing Construction Grant Disbursement for Disaster Affected Households'**
- IV. **Approval of National Monsoon Preparedness and Response Action Plan 2081**
- V. **Third National Dialogue on Anticipatory Action held in Kathmandu**
- VI. **First International Expert Dialogue on Mountains, People, and Climate held in Kathmandu**

NATIONAL UPDATES

Completion of 2nd Nepal Shelter Forum: Guided by Slogan of “From Recovery to Resilience: Localizing National Policies and Frameworks for Multi-Hazard Resilience”

Key Overview: Two-day 2nd Nepal Shelter Forum (NSF 2024) took place in Kathmandu from May 7th to 8th, 2024, under the theme **"From Recovery to Resilience: Localizing National Policies and Frameworks for Multi-Hazard Resilience."** Organized by the NDRRMA, focused on discussing policies, framework, and solutions to enhance disaster resilience across all levels of government and communities.

The event was inaugurated by Federal Affairs and General administration Minister, Honorable Mr. Bhanubhakta Joshi in special presence of Honorable Chief Minister of Karnali Province, Mr. Yamlal Kandel. In the Inauguration session, Joint Secretary of NDRRMA Mr. Rameshwor Marhatta warmly welcomed the participants and NSF 2024 Secretariat NHSRP Deputy National Coordinator Ms. Reshma Shrestha shared the event objective and importance. Mr. Usec Henry Yap from Department of Human settlements and Urban development (DHSUD)

Philippines has shared a virtual message as an organizer of Asia Pacific Shelter and Settlements Forum (ASF 2024). The Inauguration session was concluded with the remarks by the Chief Executive of NSF 2024 Organizer (NDRRMA).

At the Closing Session of #NSF2024, Deputy Prime Minister and Home Minister Rabi Lamichhane announced the approval of the amended **"Disaster Affected Private Housing Retrofitting, Reconstruction, and Resettlement Tranche Disbursement Procedure 2081."** This amendment aims to provide housing grants to those who have lost their homes due to various disasters. He reaffirmed the government's commitment to ensuring the right to housing as guaranteed by the Constitution of Nepal. He highlighted the need to utilize local resources and technology for future reconstruction efforts, which would create job opportunities and stimulate local economic development. The gathering of government stakeholders and development actors underscored their collective commitment to promoting post-disaster recovery, reconstruction, and resilience in the region.

Key Session Highlights:

Panel Discussions: A total of 9 Panel Sessions in NSF2024 contributed to better understanding of several sectoral needs and integrated approaches to multi-hazard disaster resilience, recovery and provided useful suggestions for future recovery works by Leveraging the engagements through Gender Equality Disability and Social Inclusion (GEDSI), Innovations through Green Resilient and Inclusive Development (GRID) and Advancements through Information Communication and Technology (ICT) utilization for combating climate induced disasters.

- On the first day of the program, there was tremendous discussion about the post-earthquake responses done by the government system and by development organizations for reconstruction of West Nepal. In addition, there was an in-depth policy dialogue reflecting about the West Nepal earthquake, improving the governance mechanisms to improve

-

Development Partner Organizations has shared the Collaborative efforts in response to West Nepal earthquake, by development partners in supporting vulnerable people to move from emergency to transitional shelter, restoring livelihoods and dignity was shared combinedly by Shelter Cluster Coordinator of NRCS, Mr. Manish Timsina and by National Technical Coor

National Housing and Settlements Resilience Platform, Nepal

Nirajan Pokhrel, Start Fund Network focused on the contingency pooled fund managed by NGOs to provide rapid funding to respond to and in anticipation of, Nepal's under-funded small to medium-scale crises. The sharings encircled around the Jajarkot Earthquake Response and emphasized both immediate humanitarian emergency responses along with ongoing initiatives in constructing the temporary shelters. Dr. Daniel Neyer-Project Leader of Building Energy Efficiency in Nepal (BEEN) Project shared the insightful highlights on the significance of energy efficiency in shelter design and construction, particularly in post-disaster recovery and reconstruction.

Participation: The event witnessed the participation of esteemed guests, including government officials, development partners, humanitarian agencies, researchers, and media personnel. Notable figures such as Member of the National Planning Commission Dr. Araniko Panday and Ms. Sangita Singh, former Urban Development Minister Ramkumari Jhankri, and former Foreign Minister Dr. Bimala Rai Poudyal and former Chief Executive Officer of NRA, Sushil Gyawali, mayors of various municipalities and chairperson of rural municipalities graced the occasion as the Panelists. Over 300 plus dynamic participants, including government officials from several ministries & Department, Sectoral Line agencies, DRRM Experts and Specialists from bilateral donor agencies, I/NGOs, humanitarian organizations, along with academics, scholars, students, security agencies, and media personnel at large graced the opening session. Their graceful presence and active participation marked a vibrant start to the event.

NHSRP as NSF Secretariat in managing coordination, operations and management of overall program activities of NSF2024. The Financial Contributors of NSF2024 were the World Bank

Group/MDTF (Multi-Donor Trust Fund), UNDP along with a cluster of 12 development organizations of Nepal (such as - START Fund, Habitat for Humanity, Build Up Nepal, Nepal Red Cross Society/International Federation of Red Cross and Red Crescent Societies (IFRC), Save the Children, Building Energy Efficiency in Nepal (BEEN), Caritas Nepal, Say Yes Panel (SY Panel), CRS Nepal, World Vision International and IOM Nepal).

Key Takeaways and Recommendations:

The 2nd Nepal Shelter Forum 2024 served as a platform for meaningful discussions, knowledge exchange, and collaboration among stakeholders committed to building a more resilient future. The event's success was attributed to the active participation of diverse stakeholders and the valuable insights shared by experts and practitioners. Key takeaways extracted are-

- ***Integrated approaches:*** The forum contributed to a better understanding of cross-cutting and integrated approaches to multi-hazard disaster resilience and recovery, providing useful suggestions for future recovery works in the shelter recovery and DRRM sector.
- ***Capacity building:*** Discussions and presentations highlighted the importance of capacity building, community participation, and policy frameworks in enhancing disaster preparedness, response, and recovery efforts.
- ***Technology integration:*** The promotion of ICT involvement, advancements through technology utilization, and innovations in disaster risk reduction practices were emphasized as crucial components of building resilient communities.
- ***Foster partnerships:*** The forum contributed space to collaborate among organizations, private sectors and government agencies to leverage resources and expertise along with seeking funding opportunities and consortium networking grants to support greening the projects and ICT measures to address DRRM.
- ***Role of development partners:*** Collaborative efforts in response to disasters include immediate emergency responses and temporary shelter construction.
- ***Multi-level government cooperation:*** Federal, provincial, and local governments must collaborate on shelter reconstruction and rehabilitation for earthquake and multi-hazard affected communities.
- ***Academic sector involvement:*** Needed for disaster preparedness and recovery, integrating science-based learning.
- ***Multi-hazard response:*** Involves collecting disaggregated data, providing targeted services, securing financing, and enhancing risk communication.
- ***Flood-code and risk mapping:*** Opportunities exist in flood-code for resilient shelter and preparedness, with future scalability in risk zone and sediment mapping.
- ***Fire prevention and response:*** Enhancing local awareness and preventive measures against fires, including firefighting capabilities and air pollution research.
- ***Implement nature-based solutions:*** Discussions highlighted the need of implementing the planned initiatives on greening the shelter in more accessible, inclusive, and culturally appropriate ways.

- **Discussion forums:** Should be conducted periodically at provincial, regional, and local levels to boost ownership and enhance a localized and holistic approach in disaster risk reduction and management.

Joint Recovery Action Plan (JRAP) in Nepal to address the West Nepal Earthquake

Following the launch of the Joint Recovery Action Plan (JRAP) for the Western Nepal Earthquake in February 2024 by the NDRRMA and the Humanitarian Country Team, the Foreign, Commonwealth & Development Office (FCDO) at the British Embassy in Kathmandu has provided 13 million GBP to support the recovery of earthquake-affected municipalities in Western Nepal.

National Housing and Settlements Resilience Platform, Nepal

Hanaa Singer Hamdy, the UN Resident and Humanitarian Coordinator in Nepal, stated, **“The Joint Recovery Action Plan was developed to address the needs of disaster-affected communities and build resilience. This was made possible through the Multi-Partner Trust Fund (MPTF), which promotes a coherent and unified approach across the humanitarian-development-peace nexus in Nepal, aiding in the realization of UN Reform at the country level.”**

The support will be delivered through a joint program involving IOM, UNFPA, UNICEF, and WFP, under the leadership of the UN Resident Coordinator's Office (UNRCO), to ensure effective and coordinated implementation of the various components of the project. The funding will address the water sanitation and hygiene (WASH), nutrition, protection, shelter, and food security needs of approximately 50 thousand earthquake-affected people in western Nepal. Integral to the implementation of these initiatives is a strong commitment to accountability to the affected population (AAP), ensuring that resources are utilized judiciously to maximize benefits for the earthquake-affected communities in Jajarkot, Rukum West and Salyan districts. Moreover, the principles of protection against sexual exploitation and abuse (PSEA) will be integrated from the inception to uphold humanitarian standards in all aspects of the work. Approved Temporary shelter Grant Disbursement Guideline and GEDSI Strategic Action Plan by Executive committee.

The 22nd Executive Committee Meeting of the NDRRMA held on 3rd May 2024 (21st Baishakh 2081). The meeting discussed rampantly over the ongoing recovery efforts in earthquake affected areas of Western Nepal (Karnali & Sudurpaschim province) and has approved the following.

- Approved the **“Disaster Affected Temporary Shelter Construction Grant Disbursement Guideline 2081”**.
As per this Procedures, the enrolled beneficiaries would be provided NPR 50,000 in two installments.
- Approved **“Gender Equality, Disability and Social Inclusion Strategic Action Plan 2081”**.
Realizing the utmost importance & cruciality of integrating GEDSI components in disaster risk

reduction and management and to address the needs and sensitivities of vulnerable groups of people .

- Approved the Concept for Detailed Damage Assessment (DDA) of existing public buildings and private residences damaged by earthquakes and sent it to the Ministry of Finance for budget management.

The decision has paved the way forward for a smooth transition of strengthening, reconstruction and rehabilitation of private housing and public building structures damaged due to the earthquake centered on Jajarkot, Bajhang and Doti. [Link: Access the detail agenda & decisions from 22nd Executive Committee Meeting](#)

Approval of National Monsoon Preparedness and Response Action Plan 2081

The Monsoon Preparedness and Response National Action Plan (MPRP) for 2081 has been approved by the 23rd Executive Committee Meeting of NDRRMA held on 4th June 2024 (22nd Jestha 2081) which was chaired by Hon. Deputy Prime Minister/Minister of Home Affairs, Rabi Lamichhane. It is projected that approximately 181,000 individuals could be impacted by this monsoon season. Furthermore, it is estimated that 83,000 households may be directly affected by monsoon-related disasters, with 18,000 households requiring rescue and relief efforts. All relevant agencies have been instructed to prepare as per the National Monsoon Preparedness and Response Plan.

A crucial discussion was held in NDRRMA on 27th May to integrate the inputs on MPRP and to incorporate instrumental inputs from various stakeholders, including security agencies, experts, humanitarian organization representatives, and campaign workers. During the 21st Executive Committee Meeting of NDRRMA held on 15th April 2024 (3rd Baisakh 2081), a working group was established under the coordination of Joint Secretary of NDRRMA to develop the action plan. Minister of Home Affairs, Rabi Lamichhane's commitment, combined with collaborative efforts from all involved parties, underscores a unified approach to disaster preparedness. The MPRP 2081 marks a significant step forward in protecting Nepal's citizens and mitigating the impact of natural disasters.

Additionally on 30th May, AIN Task Group on Disaster Management members attended the meeting called by NDRRMA to discuss the MPRP 2081. The interaction was attended by several development organizations that discussed the preparedness plan, needs & gaps, challenges, BiPAD portal, Godam portal & inventory system. AIN members shared concerns regarding the data and information management system and coordination gap, while recommendations were provided on capacity building in terms of finding alternate ways for establishing dignified systems for responses such as cash transfer mechanisms and accountable systems for tracking records in places where the market is functional during disaster. AIN members shared their experiences and efforts in reaching

out to the most vulnerable at times of disaster. [Monsoon Preparedness and Response Plan Meeting](#)

Third National Dialogue on Anticipatory Action held in Kathmandu

Third National Dialogue on Anticipatory Action led by the NDRRMA supported by multiple partner organizations, was conducted on 9 and 10 May 2024. The objective of the program was to develop a proactive approach towards national-level intervention on Anticipatory Action. With the theme “Towards a National Framework for Anticipatory Action,” the conference aimed to fortify Nepal’s disaster management strategies by gathering insights from a diverse array of stakeholders.

Productive discussions have taken place, centered on finalizing the national concept and action plan for the ongoing multi-hazard early warning system. The event successfully focused on the development of a Multi-hazard Early Warning System (MHEWS) that prioritizes user needs. Aligned with the global Early Warning for All Initiative, Nepal’s framework seeks to enhance forecasting accuracy and streamline risk communication channels. Key stakeholders and experts have emphasized the importance of aligning and adapting initiatives at the grassroots level, establishing effective communication channels for disseminating forecasts, implementing risk transfer mechanisms, and prioritizing local community engagement in decision-making processes. Detail news: [Concept note of 3rd Anticipatory Action News](#)

First International Expert Dialogue on Mountains, People, and Climate held in Kathmandu

The Government of Nepal hosted an International Expert Dialogue on Mountains, People, and Climate on May 22-23, 2024 in Kathmandu, Nepal. The dialogue aimed to strengthen, coordinate, and prioritize mountain-based actions in the context of climate change and encourage mountain countries and agencies to collaborate on UNFCCC mountain work programmes and mandates. At the inaugural event H.E. Pushpa Kamal Dahal, Prime Minister of the Government of Nepal, reaffirmed Nepal’s commitment to the mountain partnership to advance agenda in the UN negotiation process and urged unified international action from mountain countries. The dialogue, featuring 65 experts from 23 countries,

focused on addressing the effects of climate change on mountain communities. It culminated in the Kathmandu Declaration, outlining strategies for sustainable development and climate resilience in mountain regions. The recommendations of this dialogue will feed the Expert Dialogue on mountains and climate change being held on June 5, 2024, in the 60th Subsidiaries Bodies session of UNFCCC in Bonn, Germany. [Climate Change calls for global cooperation](#) [Int'l expert dialogue on mountain, people and climate](#)

PARTNERS' UPDATES

People in substandard conditions are provided with safe and resilient homes

In a heartwarming handover ceremony on May 17th, Habitat for Humanity Nepal, in partnership with Gadi Rural Municipality and Sankalpa Nepal, provided new homes to 20 families who had been living in substandard conditions. The event, attended by the Ministry of Women, Children, and Senior Citizens as the Chief Guest along with other notable guests, marked a significant milestone for these families. The joy and relief evident in their eyes spoke volumes about the transformative impact of having a safe and resilient home. This new beginning brings hope, stability, and a renewed sense of community and belonging.

Informative pop-up poster release by Godawari Municipality

An informative pop-up poster released by Godawari Municipality features emergency numbers, details on the Social Security Allowance, and Monsoon Preparedness tips. This valuable resource was developed under the Urban Resilience project, supported by Alliance 2015 partners such as People in Need, Helvetas Nepal, and WHH Nepal - Welthungerhilfe, in partnership with the Federation of Women Entrepreneurs' Associations of Nepal. The poster aims to equip residents with essential information to enhance their safety and well-being, particularly during the challenging monsoon season. Check out Godawari Municipality's website: <http://www.godawarimun.gov.np/en>

Empowering rural farmers and enhancing their livelihoods to address climate change adaptation

Caritas Nepal's Climate Adaptive Sustainable Livelihood program has significantly impacted 10,836 households by focusing on key areas such as Integrated Pest Management, Homestay Promotion, Cooperative Development and Network Building, Livelihood Strengthening, Enterprise Promotion and Climate Change Adaptation. By implementing Integrated Pest Management, farmers reduced chemical use, enhancing crop resilience and soil health. Homestay Promotion diversified incomes through eco-tourism. Cooperative Development and Network Building fostered community support systems, while Livelihood Strengthening initiatives provided training for sustainable practices. Enterprise Promotion encouraged local businesses, and Climate Change Adaptation measures equipped communities to mitigate and adapt to environmental changes, ensuring long-term sustainability and economic stability. NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM SUDURPASCHIM

Continuous technical support extended to provincial Ministry of Internal Affairs and Law (MoIAL) Sudurpaschim to finalize the details and release of 2nd and 3rd tranche to the beneficiaries of monsoon/fire-induced disaster affected households based on the first inspection completion report & after conducting series of coordination meetings with MoIAL. On this basis, MoIAL Sudurpaschim province finalized, approved, allocated and released the 2nd tranche to Achham district (10 households); second and final tranche to Bajura and Darchula districts (464 households). Coordination to manage the second and final tranche for remaining beneficiaries is ongoing.

UPDATES FROM KARNALI

Technical Training of Trainers on Mason Training for Earthquake Resistant Design of Buildings," held from May 12 to 17, 2024, in Chainpur Municipality (Bajhang). This training brought together 20 engineers, sub-engineers, and assistant sub-engineers altogether from Jayaprithvi Municipality and Chabispathivera Rural Municipality. The primary objective was to equip these technical personnel with the necessary skills and knowledge to conduct mason training in their respective locations,

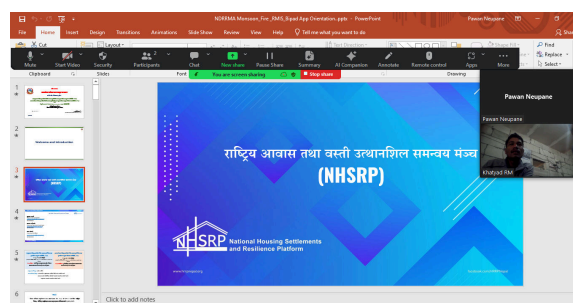

National Housing and Settlements Resilience Platform, Nepal

thereby supporting the resilient reconstruction of households damaged by the Bajhang Earthquake in 2023. The training program included interactive lectures, group exercises and presentations, field exercises, and discussions, ensuring a comprehensive and practical learning experience. The training was organized by Chabispathivera RM, USAID, Save the Children & Multipurpose Development Society (MPDS) and technical support led by CRS Nepal, NSET, People in Need Nepal and NHSRP.

Technical support extended to conduct virtual orientation conducted on NDRRMA's Monsoon/Fire Affected Housing Reconstruction Guidelines, RMIS, and Bipad Apps for the Khatyad Rural Municipality, Mugu on May 17th. The participants included the IT Officer and the DRR Focal Person.

Meeting on preparation of MPRP (Monsoon Preparedness and Response Plan) 2081 and DPRP (Disaster Preparedness and Response Plan) 2081 attended by the NHSRP Karnali team. Organized on 22nd May by MoIAL Karnali Province, NHSRP provided technical support in the meeting which was attended by Cluster Leads and Co-Leads, stakeholders, and representatives of the security forces.

UPDATES FROM LUMBINI

Meeting on Planning and Preparation of MPRP 2081 for Lumbini Province was held by the MoIAL Lumbini on May 22nd in Dang. During this meeting, the NHSRP team provided technical support and presented key highlights of housing reconstruction and recovery efforts. Additionally, the team shared insights on GEDSI initiatives, emphasizing their commitment to inclusive and equitable disaster recovery and resilience planning.

A one-day workshop on GEDSI in DRRM was successfully completed at Surumarani Rural Municipality in Pyuthan District, Lumbini Province. The overall objective of the workshop was to initiate the localization process of the GEDSI Strategic Action Plan (SAP) at the local level. This effort also aimed to support discussions on GEDSI policies and procedures at the local level and synchronize these procedures with national policies and guidelines. Additionally, the workshop sought to help local government officials understand GEDSI in the context of disasters and how to mainstream GEDSI into Disaster Risk Reduction Management and localization process of GEDSI SAP.

UPDATES FROM GANDAKI

Cross sharing of NHSRP's housing reconstruction was done during the Partners Coordination Meeting organized by the Gandaki Province Office of the Chief Minister and Council of Ministers (OCMCM_Gandaki) on May 22nd. This session facilitated an exchange of project activities among partner organizations, with the objective

of enhancing collaboration between development partners and provincial government agencies. It also reinforced the collective commitment to integrating essential themes such as sustainability, disaster resilience, and community engagement into reconstruction initiatives.

Orientation held in Rupa Rural Municipality (Kaski) for Executive Board Members, along with Technical Personnel, and the DRR Focal Person focussed on NDRRMA's Monsoon/Fire affected housing reconstruction procedures. NHSRP Gandaki team lead the orientation that also reviewed the current housing reconstruction progress of 64 houses in Rupa RM areas, along with current state of data entry in RMIS, flagging issues and potential solutions regarding housing reconstruction also touched upon during the orientation. Technical demonstration sessions were also conducted for technical persons to facilitate the 2nd and 3rd installments. NHSRP Provincial Coordinator also made field visits to under-construction houses with technical personnels of Rupa RM.

UPDATES FROM BAGMATI

Technical insights through orientation on Building Code Implementation (BCI) and Technical Inspection of NDRRMA's Monsoon/Fire Induced Reconstruction Guidelines successfully completed at Makawanpurgadhi Rural Municipality (Makawanpur) on 30th April. A total of 15 participants attended the program; most of them were frontliner technical personnels (engineers and sub engineers) from local level. The program marks a significant advancement in the local capacity and hands-on training to implement building codes and adhere to reconstruction guidelines effectively.

UPDATES FROM MADHESH

Virtual orientation on 'NDRRMA Monsoon/Fire-induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Disbursement Procedures', Bipad Mobile Survey Apps and Reconstruction MIS tools" was provided to frontliners personnels of Kanchanrup and Tilathi Koiladi - Saptari district. Account login through survey.bipad.gov.np was also completed and a total of 4 surveyor IDs was created to carry out surveys of monsoon/fire affected households using Bipad Apps. Participants involved were DRR focal person and local level officials/surveyors. The participants were oriented about different sections of survey form: Introduction, house owner description, house description, resettlement related description. The virtual orientation conducted by the NHSRP Madhesh team has enabled the frontliner personnels of both Kanchanrup & Tilathi Koiladi to effectively utilize the Bipad Apps for surveying and managing data of fire-affected households. As a result of the technical inputs through orientation, Kanchanrup Municipality has underscored success of integrating data for 16 fire-affected houses into the RMIS system.

The screenshot shows a virtual orientation session. On the left, a presentation slide titled 'अनुदानका प्रकारहरू' (Types of Grants) is displayed. It lists various grant types and their corresponding amounts. On the right, a video call interface shows three participants: Sandip Yadav, Rajesh Jha, and Abhishek Singh.

क्र.सं.	अनुदानको विवरण	अनुदान रकम	टिप्पणी
1	सर्वात वा बसोबास अनुदान	५० हजार	कराईसम्पन्न गरेको प्राथमिक जाँचपत्र प्रतिवेदनको आधारमा
2	पुनर्निर्माण वा पुनर्स्थापना अनुदान	५ लाख	पुनर्निर्माण/पुनर्स्थापनाका लागि आवश्यकता अनुसार
3	अस्थायी आवास निर्माण अनुदान	५० हजार	पुनर्निर्माण/पुनर्स्थापनाका लागि आवश्यकता अनुसार
4	घरेलु अनुदान	५० हजार	घरेलु पनि पुनर्निर्माणका लागि आवश्यकता अनुसार
5	नयाँ बस्तीको बस्तीमा पुर्णतया बस्ती अनुदान	५० हजार	५० लाख

UPDATES FROM KOSHI

Meeting on preparation of MPRP (Monsoon Preparedness and Response Plan) 2081 was attended by the NHSRP Koshi province team. The Program was organized on 12th May by the Ministry of Internal Affairs and Law (MoIAL) Koshi Province. The NHSRP Koshi team ensured support by providing the contact list of the partners working in Koshi province as well as coordinated to attend the meeting. Participants from various organizations, including DRR working groups, provincial ministry focal points, district representatives, Nepal Red Cross Society, UN agencies, security focal points, and other NGOs/INGOs came together for this initiative. During the workshop, both the NDRRMA and the Department of Hydrology and Meteorology (DHM) shared insights on the utilization of forecast-based information through emergency operation centers and the Bipad portal, along with presenting the 2081 monsoon outlook of Nepal.
