

Activity Report

An orientation Program on Repair & Retrofitting Manual & Hybrid Structure Manual Rasuwa [12-28-2017]

Activity Date:	2017-12-28
Report Prepared By:	<i>Rijan Gajurel</i>

Discussion:

NRA Rasuwa Chief Mr. Krishna Kant Upadhayay inaugurated the program. The Participants were welcomed by Rijan Gajurel.

Mr. Krishna Kant upadhaya, Chief of NRA/DCC Rasuwa

- Mr. Krishna Kant upadhaya incepted orientation program with summary on housing reconstruction flow and progress and presented need and purpose of Repair & Retrofitting and Hybrid structure Manual.
- He request technical person (DLPIU, PO's engineers) to provide support in community by providing supports for those households who are eligible for retrofitting and who wants to construct hybrid structure .
- He also informed that technical support team role is very vital and requested all DDLPIU engineers and POs to take active role in Technical support in house construction in communities.

Er. Saroj Kumar Yadav, Focal person of DUDBC/DLPIU Rasuwa

- Mr. Yadav briefed POs about the Repair & Retrofitting and Hybrid structure Manual. He highlighted that the document helps to increase the reconstruction.
- He also informed that technical support team role is very vital and requested all DDLPIU engineers and POs to take active role in Technical support in house construction in communities.

Orientation program on correction and Exception Manual and New Approved Design – Mr. Deepak Saud(DMT Technical Coordinator-HRRP)

- Mr. Deepak Saud presented the need, objective of manual, scope of manual, applicability, limitation, content (Repair & Retrofitting and Hybrid structur) of the manual.
- Some of issues and problems in fields were raised by NRA chief, DUDBC focal person and some POs were addressed by Deepak Saud during the presentation.

Discussion:

Hybrid Structure Manual

This presentation was focused on introduction of Hybrid Structure, Background, Technical Specification, its construction processes, guidelines, possible causes of failure, Structural Calculation & Design.

Repair & Retrofitting Manual

This presentation was focused on introduction of Retrofitting, Background, Objective of Manual, Scope of Manual, Technical Specification, its construction processes, guidelines, possible causes of failure, General Terminology, Retrofitting Process for Masonry & RCC Structure, Seismic damage & Intervention.

Retrofitting Plan of Build Change

This presentation was focused on Concept of Seismic Retrofit, Retrofit Type design approved by MOUD/CLPIU for SMM, Retrofit Design Principle, Retrofitting Process, and Spring Board Project.

Closing Remarks

NRA chief Mr. krishna kant upadhaya Participants were thanked for their active participation and constructive discussions throughout orientation. Request DLPIU and partners to circulate use and importance of Manuel in community. He thank and requested for more these kind of activities in district .

Observation / Issue / Recommendation / Activity:	Reference Document
Hybrid Structure Manual	
Hybrid Structure Slide	
Repair and Retrofit Slide	
Repair and Retrofit Manual	

Decisions Made: (What, Why, Impacts)

- Some of houses in community were constructed as hybrid structure but those houses do not meet all compliances as per hybrid structure manual .So, provide technical Support to community for those households who are eligible for retrofitting and who want to construct hybrid structure.
- AS build change is doing retrofitting at Gatlang for one house as pilot project. Request Build change to coordinate with DLPIU, NRA and other stockholders.
- Some of houses were constructed dry stone masonry up to plinth level and timber structure above plinth level .Is hybrid manual covers these issues.

Decisions Made: (What, Why, Impacts)

- NRA is providing 1 lakh grant support for retrofit .Is 1 lakh is enough to retrofit house as per Repair and Retrofitting manual.

Next Steps: (Task, Assigned to, Checkpoint Date)

Support to community for those households who are eligible for retrofitting and who want to construct hybrid structure.

Person(s) Responsible

Technical Person (DLPIU /PO's)

Due Date

As soon as possible

Request build change to coordinate with district level stockholders about the techniques and mythology which they retrofit a house at Gatlang .

Build Change

ASAP
