Housing Typology Report

Ward 2, Chishankhu Gadhi Rural municipality, Okhaldhunga: Mahendar Bhandar is the house owner. He has only received the first tranche and forwarded the file for the second tranche. This housing typology is the sample he has implemented the correction manual to ensure the earthquake safety features. During the construction of the trench and the DPC level they were unknown about the vertical corner rebar and he did not install it. Problem on verifying the housing typology he could not receive the second tranche. Regular technical guidance from support engineer he finally installed the vertical wooden post to ensure the resistant features and finally his house is approved for the second tranche.

Ward 2, Chishankhu Gadhi Rural municipality, Okhaldhunga: Sitaram Bhandari is the house owner. He has received third tranche. This house is the first case in this ward who has received the third tranche by implementing the correction manual. Sitaram Bhandari told us I have had forget to install the vertical rebar and I have faced problem to receive the further tranche. Regular technical support from the engineer he retrofit his house and finally the house approved for the third tranche.

Ward 2, Chishankhu Gadhi Rural municipality, Okhaldhunga: Home owner is Shambhu Kumar Thapa who has received second tranche. The house is being constructed with mud mortar with three room, size nearly 12'X12'. As conversation with Thapa he told that the main reconstruction challenge is the availability of the hardware materials in nearby village and the transportation of the material from market.

Ward 1, Chishankhu Gadhi Rural municipality, Okhaldhunga: Home owner is Nir Kumari Adhikari who only received the first tranche and approved the file for second tranche. Being old age and no any active member used to stay in the house there is problem on managing the material said Nir kumari Adhikari. She also told that the scarcity of the labor and mason hold this house to construct.

Ward 3, Chishankhu Gadhi Rural municipality, Okhaldhunga: Home owner is Arka Lal Khatiwoda who has received second tranche. The house is being constructed with mud mortar. At the time of visit as we saw the problem in rebar placing in the band but the technical person Gopal subedi the engineer of this ward helps all the mason and taught them how to place the bar on the horizontal ban. Conversation between technical person he told us refresher course is needy for the trained masons.

Ward 3, Chishankhu Gadhi Rural municipality, Okhaldhunga: Home owner is Gyan Kumari Dhungana. She received the second tranche provided by NRA. The stone masonry structure in mud mortar is up to lintel level at the time of visit. She told us that the scarcity of the labor lead to sloe progress of the house.
