

ABOUT BUILD CHANGE

Introduction to Build Change

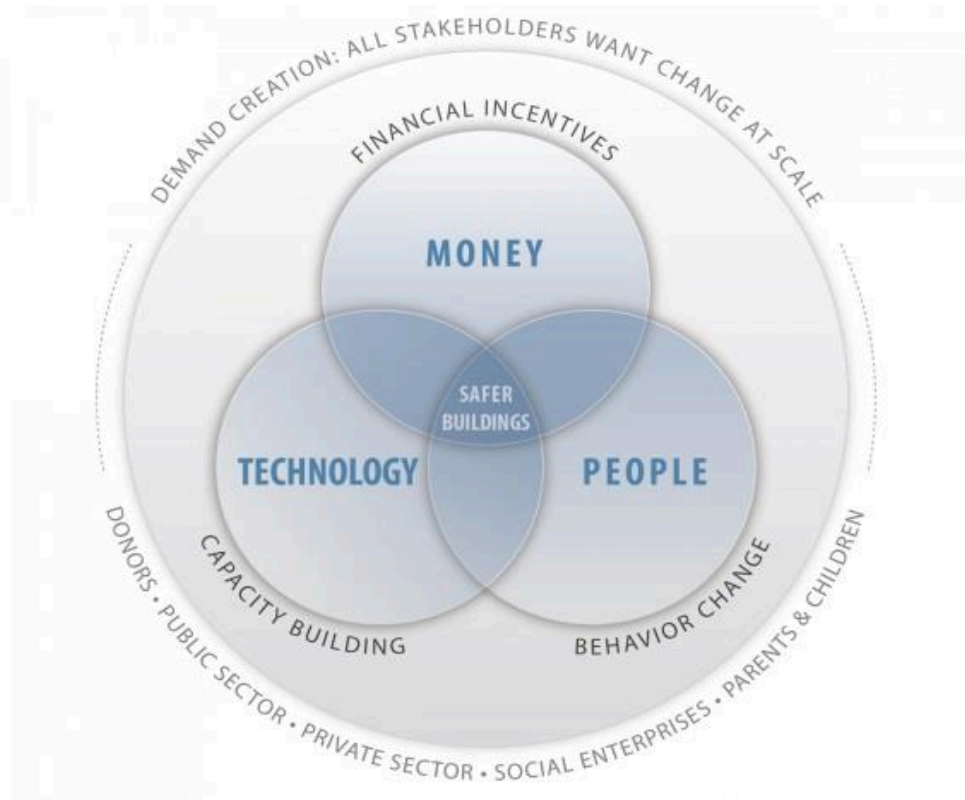

2

- US 501(c)3 international non-profit social enterprise
- Founded in 2004
- Based in Denver, USA
- Current Programs:
 - Colombia, Guatemala, Haiti (6 years), Indonesia (10+ years), Philippines, Nepal
- Mission:
 - Saving lives in earthquakes and windstorms by empowering people in emerging nations to build homes and schools that will protect their families and children.

Our Theory of Change

3

Man Made
Problem...

Man Made
Solution!

Our Objectives

4

- Design disaster resistant houses and schools
- Train builders, homeowners, government officials and engineers to build them
- Change construction practice permanently
- Support awareness, education and enforcement of National Building Code

The Benefits of Homeowner-Driven Programs

- ❑ Owner in the driving seat and decision-maker
- ❑ Reduced logistics required
- ❑ Increased efficiency
- ❑ Job creation
- ❑ Durable and sustainable investment
- ❑ Replicable in the community
