KEY HIGHLIGHTS

- I. **"Disaster Affected Private Housing Retrofitting, Reconstruction and Resettlement Tranche Disbursement Procedure 2081" approved with amendment**
- II. **Fire incidents increases across the nation; wreak havoc in various districts**
- III. **Consultation Workshop on Green Building Guideline of Nepal**
- IV. **Nepal Development Update unveils modest growth for Nepal's economy**
- V. **Hosting of International Expert Dialogue on Mountain Human and Climate Change**

NATIONAL UPDATES

"Disaster Affected Private Housing Retrofitting, Reconstruction and Resettlement Tranche Disbursement Procedure 2081" approved with amendment

Addressing the 21st Executive Committee Meeting of NDRRMA, Deputy Prime Minister and Minister for Home Affairs (MoHA) Rabi Lamichhane has urged the concerned authorities to be serious about making sure that the disaster survivors are not deprived of rights due to procedural dilly dallying. The meeting organized at MoHA, Singhdurbar on 15th April, approved the document pertaining to "Disaster Affected Private Housing Retrofitting, Reconstruction and Resettlement Tranche Disbursement Procedure 2081" with amendments.

Minister Rabi emphasized that the disaster survivors should be resettled in their houses before the onset of the upcoming monsoon and instructed the subordinate authorities to accelerate resettlement works accordingly. Secretary of MoHA, Mr. Ek Narayan Aryal informed the meeting that a new procedure was prepared making the previous one a basis and added that the federal government would bear the cost in case the local government lacked resources. According to Aryal, the regulations for the procedure will be sent to the council of

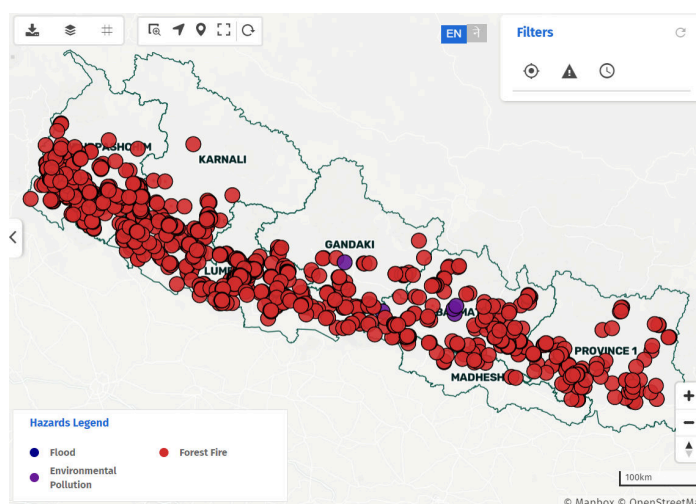

ministers within one or two days. He viewed that all three layers of government would have comfort in managing the budget if the regulation and procedure were approved before the budget session. The meeting has also approved some proposals including guidelines on mobilization of the development partners and others. News source: [Disaster survivors should not be deprived of their rights](#)

After the 21st executive meeting, a subsequent NDRRMA level meeting resolved to revise the DRRM Regulations. This revision aims to enhance collaboration and support across all levels of government for retrofitting, rehabilitating, and reconstructing vulnerable private housing. Additionally, the meeting established the following actions: setting a deadline of April 28th 2024 (16th Baishak 2081) for beneficiary enrollment, identification, and agreement for the construction of temporary shelters for those affected by the Jajarkot earthquake; and NDRRMA to coordinate further to incorporate 57 disaster-vulnerable infrastructure projects including schools, health facilities, local government buildings, and bridges, into the budgets and programs of relevant ministries. [NDRRMA's decision](#)

Fire incidents increases across the nation; wreak havoc in various districts

The increasing heat and dry condition has led to the growing incidences of fire in various places of Terai and Hilly region. News reports of livestock, food grains and properties destroyed by infernos have been received from various places. The fire outbreak in the affected areas was brought under control with the joint efforts of the police, the Armed Police Force, the Nepali Army and the locals.

Some noted reports of fire incidents mainly in districts of Terai include -fire spread to nine villages in Rohini Rural Municipality (Rupandehi) that caused 40 houses to destroy, fire destroys 28 houses and cattle shed in Gulmi district, fire in Matihani Municipality (Mahottari) destroys around 110 houses, fire engulfed more than 100 houses in Mahadeva Rural Municipality (Saptari) and many more such devastating incident reports.

A recent report by the NDRRMA has revealed that over the span of a year, from April 14, 2023, to April 3, 2024, more than 3,795 fire incidents occurred across the country. [Source: bipadportal.gov.np](#). The team of District Disaster Management Committee (DDMC), under the leadership of Chief District Officer are putting focussed efforts on providing immediate relief to the displaced people due to massive fire incidents in fire-affected areas. Meanwhile, the respective Nepal Red Cross Society district chapter has provided tents and other relief materials to the families of the victims of house fires.

With fire incidents outbreaks almost every day, a discussion program was held in the Ministry of Home Affairs (MoHA) on 26th April, regarding 'The Current Status of Forests, Wildfires and Fire Incidents: Risks and Immediate Priorities'. Addressing the program, Deputy Prime Minister and

National Housing and Settlements Resilience Platform, Nepal

Minister for Home Affairs, Mr. Rabi Lamichhane asserted that there is no any let-up in the distribution of relief to the people affected by forest fires and other fire incidents. Minister Lamichhane emphasized necessary disaster preparedness and adopting precaution on the basis of information available. Regarding the massive damages caused by fire incident in Mahottari district, a team was formed at NDRRMA level that will identify the damages as well as make suggestions about the actions to be taken in the future in coordination with the three tiers of government, for the relief and rehabilitation of the fire-victims. In addition, the team will also provide necessary guidance and support to the District Disaster Management Committee to forward emergency responses. Consultation Workshop on Green Building Guideline of Nepal

The Consultation Workshop on Nepal's Green Building Guidelines, a collaborative effort between MoUD/ DUDBC (Ministry of Urban Development /Department of Urban Development and Building Construction) and World Bank Nepal, took place in Kathmandu on 26th April. The Green Building Guidelines of Nepal, jointly developed from DUDBC with technical assistance of World Bank under the Green Building Agenda towards Green Resilient and Inclusive Development (GRID)

pathways, stand as a foundational document, laying the groundwork for the forthcoming National Green Building Code. This event facilitated enriching discussions and garnered insightful feedback on the guideline aiming towards promoting sustainable and eco-friendly construction practices in Nepal. For more information: Dr.Santosh.Shrestha@gmail.com, Lead Consultant and Green Building Expert.

Nepal Development Update unveils modest growth for Nepal's economy

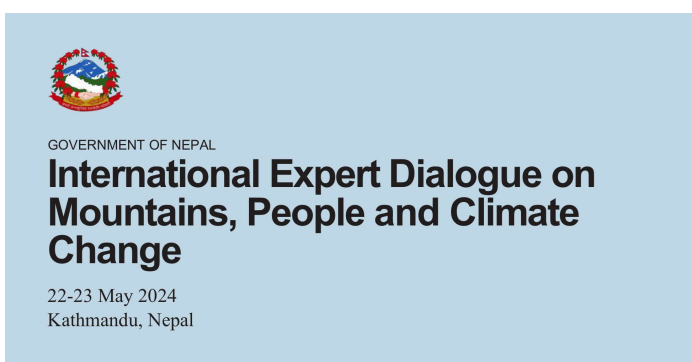

According to the 'Nepal Development Update', a biannual report by the World Bank unveiled on 5th April 2024 in Kathmandu, observed progress remains at significant risk from economic and climate shocks, mainly due to the lack of targeted policy instruments for the poor and a weak domestic labor market. Nepal faces increasing climate risks; while it

ranks 10th in the world as a country most affected by past climate hazards, it is 44th most vulnerable to future climate risks. The report indicates that the absence of well-targeted social protection that can reach both the poor and be scaled up in response to shocks adds to the increasing risk of falling back into poverty, particularly in the face of Nepal's high vulnerability to climate change² and weak insurance markets. Nepal's poverty rate fell due to migration and remittances, alongside consumption increases. The recent nationally household survey data from the Nepal Living Standard Survey 2022/23 shows a large decline in poverty from 25 percent to just 3.6 percent between 2011 and 2023 (using the 2011 National Poverty Line). The prosperity gap and inequality also reduced over the same period. However, challenges persist with a weak labor market and limited social assistance, posing risks amid economic and climate shocks. Hosting of International Expert Dialogue on Mountain Human and Climate Change

Nepal will host the "International Expert Dialogue on Mountain Human and Climate Change" on 22-23 May 2024 in Kathmandu. In this critical moment of urgent climate action, the dialogue offers an opportunity to explore climate change solutions for mountains and globally, and is also expected to contribute to the UNFCCC June session's "expert dialogue on mountains and climate change" as mandated by the first Global Stocktake under the Paris Agreement.

PARTNERS' UPDATES

Joint monitoring and project handover program of temporary shelters

The joint monitoring and project handover program of temporary shelters at Bheri Municipality, Jajarkot was facilitated by Habitat for Humanity Nepal (HfH) and its partner organization NEEDS Nepal. On April 17th-18th, the team conducted a joint monitoring visit of Transitional Shelters constructed in Ward no. 1 & 3, Bheri Municipality. The purpose of the visit was to assess the transitional shelters and toilets constructed in Bheri Municipality wards 1 and 3, ensuring compliance with NDRRMA

guidelines. The delegation included officials such as the Chief District Officer (CDO) of Jajarkot district, the Vice Mayor of Bheri Municipality, Acting Ward Chairpersons of Bheri Municipality, Ward no. 1 and 3, the DRR focal person of Bheri Municipality, representatives from Habitat Nepal, NEEDS Nepal, NHSRP Sudurpaschim, the NGO Federation, the Red Cross, the Reporters Association, journalists, and the Nepal National Dalit Social Welfare organization. Additionally, the project was officially handed over to Bheri Municipality during a community program.

Functional simulation mock drill conducted in Uttargaya, Rasuwa

The four-day Forecast Based Action Functional Simulation was successfully conducted under the leadership and dedication of Uttargaya Rural Municipality and the District Administration Office Rasuwa, in collaboration with the EU Civil Protection & Humanitarian Aid -supported "Pratibaddha" project, implemented by People in Need Nepal (PIN). This effort engaged various stakeholders from federal, provincial, and local levels, including communities vulnerable to flash floods and landslides. This exercise played a crucial role in aiding decision-making by simulating diverse scenarios and processes. During these simulation exercises, community based fire search and rescue, early warning risk communication, and first aid teams, municipal Clusters and organizations underwent assessments of their operational capabilities, coordination, communication, and collaboration. This process helped identify strengths, gaps, and areas for improvement, thereby enhancing the disaster management systems (LEOC, PEOC, DDMC, WDMC, CDMC) readiness to respond effectively to emergencies.

Mock drill program on disaster preparedness and disaster response in Lalitpur

The simulation of disaster preparedness and fire safety was conducted in the Bungamati, Ward no.22, of Lalitpur Metropolitan City on 25th April. The drill was carried out with the aim of enhancing the pre-preparedness and response capacity for disaster management caused

by earthquakes and fires, developing pre-disaster preparedness at the local level, implementing coordinated integrated power in disaster response and applying the theoretical knowledge in practice after comprehensive knowledge of disaster management. One-day model drill exercise was designed based on earthquake and fire scenarios that saw an enthusiastic participation of local people and organized to mark the memorial of Nepal earthquake 2015 (12th Baishak). The program was organized by Lalitpur Metropolitan Municipality and conducted with technical assistance from NSET.

Entrepreneurs and masons are building back better through ECO2Bricks

Masons are crucial to successful reconstruction & disaster resilience following the 2023 Jajarkot, Bajura and Bajhang earthquake. Build up Nepal is training the local masons to rebuild using our interlocking ECO2Bricks which are safer, cheaper and greener than other common construction methods. Several entrepreneurs in the earthquake-affected areas of West Nepal are building back better, they have invested in Build up Nepal's machinery and interlocking ECO2Bricks technology to start a micro-enterprise that can meet demand for new homes that are safer, cheaper and greener. [Listen to story of entrepreneur and masons on using ECO2Bricks](#)

NHSRP's PROVINCIAL ENGAGEMENTS

UPDATES FROM SUDURPASCHIM

Orientation on Reconstruction Guidelines, along with Reconstruction MIS system and NDRRMA Bipad Portal conducted at Laljhadi Rural Municipality (Kanchanpur). The NHSRP Sudurpaschim team extended facilitation and technical support to conduct the orientation program supported by Habitat for Humanity Nepal. The program aimed to provide guidance on reconstruction guidelines for monsoon and fire-induced disasters, as well as introduce

the NDRRMA's RMIS tool and Bipad Portal that was attended by a total of 19 participants, including the Chairperson of Laljhadi Rural Municipality, ward chairs, section officers from various departments, and the Bipad focal person.

UPDATES FROM KARNALI

Orientation sessions at Humla included the important topics on NDRRMA Monsoon/Fire-induced disaster-affected private housing reconstruction and resettlement grant distribution guidelines was successfully conducted on 24th April in Simikot Rural Municipality and at Adanchuli Rural Municipality on 27th April. The orientation was organized in close coordination by the District Administration Office with technical support and facilitation from the NHSRP Karnali team, which covered various aspects, including the RMIS tool, Bipad Apps login process, survey, uploading vital documents, and verifying beneficiaries for grant distribution. A total of 47 trainees attended the orientation across both the programs. The attendees included the Chairperson and Vice-Chair of Palikas, Ward Chairperson, DRR, IT and Technical personnels from Adanchuli, Chankheli, Namkha, Kharpunath, Sarkegad, and Simikot Rural Municipalities.

Vital orientation program was facilitated by NHSRP Jajakot Response team at Kushe Rural Municipality (Jajarkot) with prime focus on supporting the temporary shelter beneficiaries' detailed data entry into NDRRMA's Bipad Portal, on 3rd April. To speed up data entry in Kushe, DDMC/NHSRP held an orientation on Temporary Shelter Guidelines, improving clarity through collective discussions which was attended by senior officials and frontliners. As a result, Kushe Rural Municipality pledges to hasten the Bipad Portal entry, targeting completion within 10 to 15 days. Similarly, the team also conducted a meeting to address the 2nd tranche release process and progress of the Bipad Portal entry in Nalgad Municipality.

Joint monitoring visits conducted in Ward 2 and Ward 7 of Nalgad Municipality and Ward 6 and 8 of Bheri Municipality (Jajarkot) aimed at observing and assessing the temporary shelters for their suitability for long-term shelter use. Following the monitoring and evaluation visit, the team recommended the release of the second tranche of funds to support ongoing shelter construction efforts. Additionally, in line with the NDRRMA's Temporary Shelter Construction Guideline, Bheri Municipality decided to proceed with the demolition of old and earthquake-affected houses as part of the second tranche process.

UPDATES FROM LUMBINI

Municipality Housing Assessment conducted from the CRS Nepal/NHSRP Homes and Communities initiatives, has wrapped up its mission from March 26th to April 8th, 2024. The field teams were engaged in Focused Group Discussions (FGDs) and Key Informant Interviews (KIIs) to gather insights from the communities and beneficiaries of Janata Awas and Surakshit Nagarik Awas Housing program. The main aim of the assessment was to gain a comprehensive understanding of current housing conditions, budgets, government housing schemes and identify gaps within the sector. Stay tuned for updates on how we're working to address housing needs in local communities.

UPDATES FROM GANDAKI

Technical insights and support provided to Focal Persons of Besisahar, Rainas and Sundarbazar Municipalities (Lamjung) for verifying the documents of beneficiaries in the NDRRMA's RMIS tool to forward to the district level for release of subsequent tranches. Discussions around issues of Reconstruction MIS, NDRRMA's housing reconstruction and Building Code Implementation (BCI) were held during the coordination meetings conducted at District Administration Office (DAO) Baglung and Myagdi and with municipal focal persons of visited municipalities. The meeting reviewed the progress of housing reconstruction efforts at each district level & current state of data entry in RMIS and flagged several pertinent issues of housing reconstruction.

The Provincial Technical Coordinator of NHSRP Gandaki team also provided practical guidance to local masons on constructing stone masonry in mud mortar houses in Kaskeri village, Mangala Rural Municipality -2 (Myagdi) which was possible during joint field monitoring visit, alongside the district team.

Orientation on Reconstruction Guideline was organized for executive members of Rupa Rural Municipality (Kaski), along with Technical staff and DRR focal person. The orientation mainly covered several aspects of NDRRMA's Monsoon/Fire induced reconstruction guideline and discussed data entry in RMIS tool, housing reconstruction issues along with technical demonstration sessions conducted for technical persons to facilitate the 2nd and 3rd installments. Field visit of ongoing reconstruction houses was also conducted by the NHSRP Gandaki team.

UPDATES FROM BAGMATI

Technical support was provided across various districts via virtual channels, particularly in Dolakha, Ramechhap, Sindhupalchok, Dhading, and Nuwakot. Virtual training sessions were conducted for IT teams, DRR focal points, and technical staff, covering the NDRRMA RMIS tool, along with virtual assistance and guidance for data collection. This assistance primarily focused on tasks such as creating user IDs, enrolling disaster-affected beneficiaries from respective municipalities, and overseeing the inspection process for reconstructed houses and the release of funds. Additionally, socio-technical assistance was provided through site visits to various locations in Makawanpur district to support ongoing housing reconstruction efforts in response to monsoon-induced disasters.

Orientation program on “Disaster Affected Private Housing Retrofitting, Reconstruction and Resettlement Tranche Disbursement Procedure 2081” was initiated at Rasuwa district on 28th April. Under the leadership of NDRRMA, The program saw the active participation of Chairperson of all Rural Municipalities of Rasuwa (Uttargaya, Kalika, Godaikunda, Naukunda, Aanachhodingmo), along with Chief District Officer of DAO Rasuwa, Deputy Chief of District Coordination Committee, representative of district security agency and frontliner such as DRR focal person, IT and Technical Staff.

UPDATES FROM MADHESH

Virtual orientation provided on ‘NDRRMA Monsoon/Fire-induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Disbursement Procedures’, Bipad Apps and Reconstruction MIS tools for IT Officer, DRR focal person and technical personnels of Basbariya Rural Municipality and Ishworpur Municipality (Sarlahi district). Creation of surveyor IDs done to proceed surveys of monsoon/fire affected households. Orientation covered procedural mechanisms of the Reconstruction Guideline and data entry of disaster affected people using RMIS. Orientation is expected to expedite the processes of housing reconstruction and grant distribution for fire affected beneficiaries.

Briefing of Reconstruction Guidelines on Fire-Induced Disaster Affected Private Housing Reconstruction and Rehabilitation Grant Disbursement Procedures were done at the District Disaster Management Committee Meeting (DDMC) of Mahottari district on 25th April. The meeting was conducted after a massive fire incident damaged around 110 homes in Matihani Municipality -6, that happened on 24th April. Several stakeholders of district and municipal level as well as the partner organizations attended the meeting. The NHSRP Madhesh team shared the technical support measures of NHSRP in a survey of fire-affected houses. Chief District Officer shed lights on the NDRRM Ass Guideline in the DDMC meeting briefly.

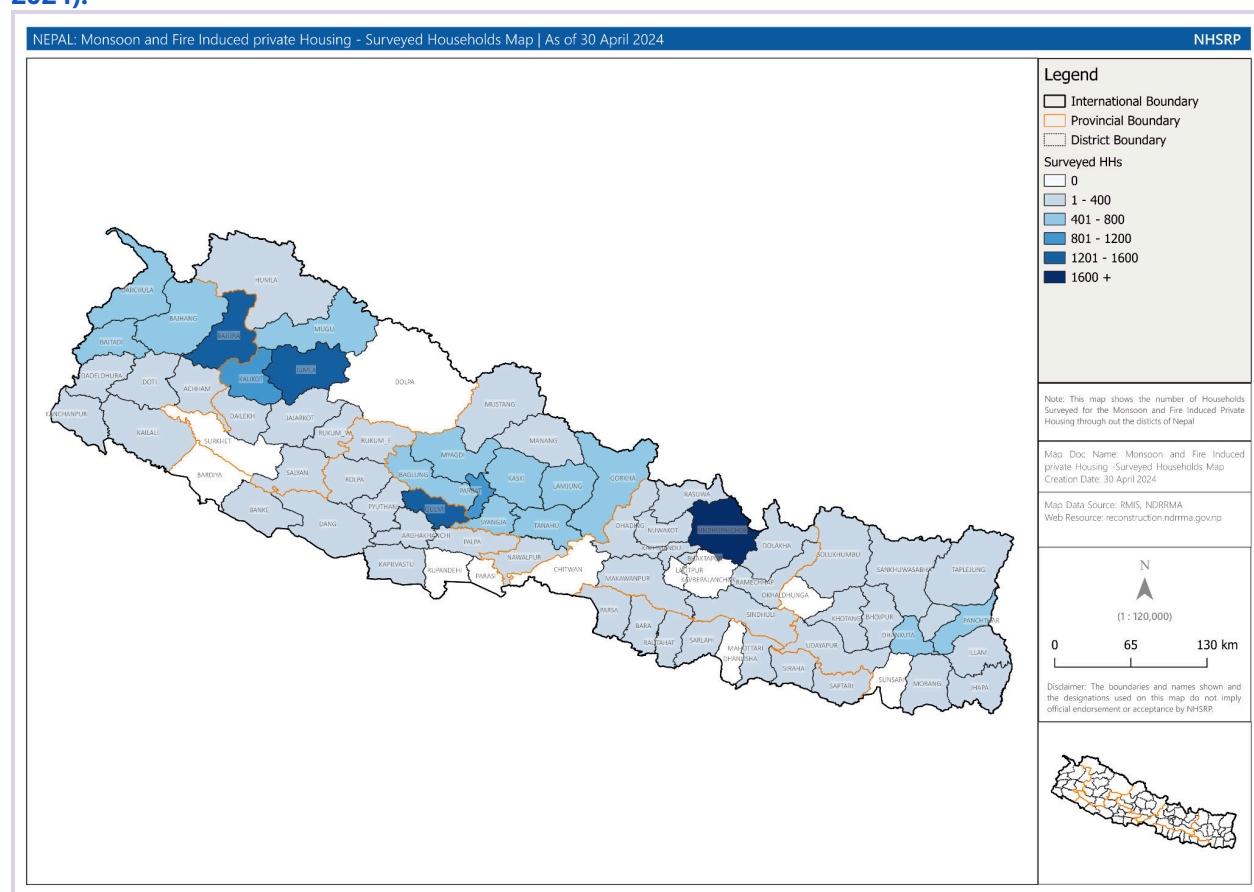

UPDATES FROM KOSHI

Support and facilitation extended to the Ministry of Internal Affairs and Law (MoIAL) Koshi to organize 5-days ToT training on “Asset-based community development” from 4th-8th April in Dhankuta. The participants of the training included 12 district coordinators of the We Volunteer Program and a representative from the Social Development Department of municipalities in the headquarters of each district of the province. In the training, the Provincial Technical Coordinator of NHSRP Koshi team recently led an insightful session covering DRRM terminologies, the DRRM cycle, and disaster scenarios specific to Koshi Province.
