Agendas:

- 1. Introduction**
- 2. Inclusion in Access to Housing Services**
- 3. Public Awareness Campaign and Housing Reconstruction Survey**
- 4. Update from HRRP**
- 5. AOB**

1. Introduction:

HRRP, in cooperation with DUDBC, organized a coordination meeting on 26th January, 2017 at the latter's office in Chautara, Sindhupalchok. All the Partner Organizations working for housing recovery and reconstruction attended the meeting.

This episode of HRRP meeting was dedicated to aware POs on building accessible shelters to address the need of PWDs in the district. Likewise, it is aimed to tell POs about the survey of JICA on public awareness and housing reconstruction. Further, based on the 4W analysis, the workshop presented the VDCs covered by POs, reach of technical assistance, and gaps to be fulfilled.

Mr Tanka Gautam, Deputy Chief of DUDBC, Sindhupalchok chaired the program.

2. Inclusion in Access to Housing Services

Mr Animesh Acharya and Ms Anima Dhakal from Handicap International (HI) made presentation on how to construct houses so as to address the need of people with disabilities (PWD) in the district. Estimated additional cost for accessibility is 1 to 2 % for new construction and the accessible shelter will be suitable for people with various specific needs – children, lactating or pregnant women, old aged people, people with long term disease, injuries or disabilities (temporary or permanent)

In addition, the HI team also disseminated IEC materials focused on tools and techniques of building inclusive shelter. These materials are available at HRRP office.

Please refer to the link for the presentation: <https://goo.gl/KyOQAr>

3. Public Awareness Campaign and Housing Reconstruction Survey

Mr Rajan Thapa from TPIS-ERP, JICA presented findings of the survey conducted in Sindhupalchok district. JICA's survey in 38 VDCs municipalities in the district was aimed at knowing the knowledge of masons on resilient reconstruction, and the compliance of houses being constructed.

As per the survey, compliance level of the houses has significantly increased, but not to the level of satisfaction.

4. Update from HRRP

- Mr Rup Kumar BK, District Coordinator, HRRP, shared the importance of supply chain assessment. In fact, Practical Action has already conducted the assessment in three of the other earthquake affected districts.
- Practical Action is willing to conduct the same in Sindhupalchok as well, and needs the support of POs for collection of data.
- HRRP is organizing a one day technical workshop so as to assess the issues being faced by the POs. The workshop formulates the possible solutions to overcome that challenges.
- As per the new 4W, technical Assistance is defined in 6 activities, namely community reconstruction orientation, demonstration construction, door-to-door technical assistance, household reconstruction orientation, short training, and vocational training. Only Chautara and Melamchi municipalities contains all these activities.

5. Action Points

- Date of one day Technical Workshop is agreed on 7th February 2017. All the POs will send the content of their presentation, at least two days in advance for experience sharing session.
- DUDBC may not cooperate with the POs who are manipulating the data, and are infrequent in presenting updates.

Participants:

S.N.	Name of Participant	Name of Agency	Designation	Contact No.	E-Mail Address
1	Dinesh Subedi	NRCS	Shelter Officer	9845044481	dinesh_sos20@yahoo.com
